Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 1016-39-SM

Subject: Amendment to resolution as to additional trade name.

National Gypsum Co., Buffalo, New York requested by letter dated June 25, 1958 that the resolution adopted January 23, 1940 and amended at various times through June 24, 1958 under Calendar Number 1016-39-SM be amended so as to permit the material known as Gold Bond Shingle Backer to be marketed under an additional trade name.

Description

The material Gold Bond Shingle Backer was approved by the Board July 2, 1957 under Calendar Number 1016-39-SM—Vol. II.

Recommendation

The Committee on Test recommends that the resolution adopted January 23, 1943 and amended at various times through June 24, 1958 under Calendar Number 1016-39-SM be reopened and amended so as to permit the material known as Gold Bond Shingle Backer to be marketed by the North Shore Shingle Co., Ltd. under the trade name of Norshor Shingle Backer on condition that the requirements of the resolution adopted January 23, 1943 and as amended through June 24, 1958 under Calendar Number 1016-39-SM are complied with. The Committee further recommends that the Bills of Lading, Shipping Tickets and/or Invoices may be stamped or labeled in lieu of the individual cartons, as the material may be shipped unwrapped.

(Sgd.) SAMUEL L. BECKER,
Director,

JOHN A. DARTS,
Asst. Engr.,

GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of January 23, 1940 through June 24, 1958 in accordance with the above report.

448-40-SM

APPLICANT—H. H. Robertson Company, owner.

SUBJECT—Application for reopening and amendment of resolution as to method of attaching side joints of adjacent units—re Robertson Keystone Beam Steel Floor and Robertson Cellular Steel Floor; previously approved.

APPEARANCES—

For Applicant: John D. Hegeman.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 448-40-SM

Subject: Amendment to resolution as to method of attaching side joints of adjacent units.

H. H. Robertson Company, Pittsburgh, Pa., requested by letter dated July 1, 1958, that the resolution adopted July 9, 1940 and amended at various times through April 15, 1958 under Calendar Number 448-40-SM be amended so as to permit a crimping or button punching of side joints in lieu of welding.

Description

There has been no change in the construction, the request is for erection only. In the approval granted by the Board, the side joints of adjacent units were welded together by means of 1/2 inch welds spaced 3'-0" on centers. The requested method of erection is to button punch the adjacent units in lieu of the welding methods.

Inspection and Tests

Various gauges of the deck ranging from 12 to 18 gauge, were tested in shear to show the value of the button punch method of joining adjacent sheets. The shear values ranged from 1300 lbs. on the 18 gauge to 4270 lbs. on the 12 gauge. The complete report is on file with the application.

Recommendation

The Committee on Test recommends that the resolution adopted July 9, 1940 and as amended at various times through April 15, 1958 under Calendar Number 448-40-SM be reopened and amended so as to permit the attaching of side joints of adjacent units by means of button punching in lieu of spot welding as previously approved on condition that all other requirements of the resolution adopted July 9, 1940 and as amended through April 15, 1958 under Calendar Number 448-40-SM are complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.
GEORGE F. SKLENARIK,
Asst. Engr.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of July 9, 1940 through April 15, 1958 in accordance with the above report.

128-41-SA

APPLICANT—American Furnace Company, owner.

SUBJECT—Application for reopening and amendment of resolution as to additional models of suspended oil-fired furnaces, namely 28-OC and 33-OC—re Afco Ceiling Mounted, oil-fired Air Conditioning Unit, Models 12-OC and 23-OC; previously approved.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 128-41-SA

Subject: Amendment to resolution as to additional models of suspended oil fired furnaces.

American Furnace Company, St. Louis, Missouri, requested by letter dated July 25, 1958 that the resolution adopted May 31, 1950 under Calendar Number 128-41-SA be amended so as to include additional models of suspended oil fired furnaces.

Purpose

The appliances are oil fired ceiling furnaces for use in domestic and commercial installation and also for use in garages and places of explosive atmospheres.

Description

The requested models 28-OC and 33-OC are similar to the models 12-OC and 13-OC except as to gallonage and BTU input; the 28-OC having a fuel input of 2.50 G.P.H. and output rating of 28,000 BTU/hr and the 33-OC having a fuel rating of 3.00 G.P.H. and an output rating of 336,000 BTU/hr.

Recommendation

The Committee on Test recommends that the resolution adopted May 31, 1950 under Calendar Number 128-41-SA be reopened and amended so as to include the models 28-OC and 33-OC suspended oil fired furnaces on condition that the requirements of the resolution adopted May 31, 1950 under Calendar Number 128-41-SA are complied with.

(Sgd.) SAMUEL L. BECKER,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 341-44-SM

Subject: Amendment to resolution as to extension of use.

Research Products Corporation, Madison, Wisconsin, requested by letter dated January 7, 1957 that the resolution adopted November 14, 1944 under Calendar Number 341-

44-SM be amended so as to include the Research Products Grease Filters under the provisions of C26-712.0.e and C19-165.3 Administrative Code.

Purpose

A filter for the prevention of excessive grease accumulation in kitchen range exhaust systems.

Description

The filter is an incombustible filter designed for installation in the hoods of kitchen range exhaust systems. The filter media is composed of laminations of corrosion resistant aluminum sheets, slit and expanded to an efficient baffle pattern. The filter frame is constructed of aluminum alloy with interlocking corners.

The filters are available in sizes up to 20 inches by 25 inches and are 2 inches in thickness.

The filters are to be cleaned by soaking in a solution of hot water suitable detergent. They should be thoroughly dried before replacing.

Inspection and Test

All details of construction were examined by Assistant Engineer J. A. Darts, Committee on Test.

Handbooks give the melting point of type 3S aluminum as over 1000°F.

Recommendation

On the basis of the data supplied by the applicant, the Committee on Test recommends that the resolution adopted November 4, 1944 under Calendar Number 341-44-SM be reopened and amended so as to include the Research Products Grease Filters for use under the requirements of C26-712.0.e and C19-165.3.a.b Administrative Code and provide that each filter bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 341-44-SM."

(Sgd.) SAMUEL L. BECKER,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 160-47-SA

Subject: Amendment to resolution as to additional models of gasoline dispensers.

MINUTES

Gilbert and Barker, Manufacturing Co., West Springfield, Mass., requested by letter dated May 23, 1958 that the resolution adopted May 13, 1947 and amended through July 9, 1957 under Calendar Number 160-47-SA be amended so as to include additional models of gasoline dispensers.

Description

The requested models 96BHG and 98BHG are similar to the models 96HG and 98HG approved by the Board June 26, 1956 and the models 96BHGR and 98BHGR are similar to the models 96HGRC and 98HGRC approved by the Board July 9, 1957 except that the requested models are furnished without a visigage sight glass on the hose side of the pump. This was done to conform to a resolution adopted by the National Bureau of Standards on Weights and Measures, Washington, D.C. under specification S.10.2.

Recommendation

The Committee on Test recommends that the resolution adopted May 13, 1947 and amended through July 9, 1957 under Calendar Number 160-47-SA be reopened and amended so as to include the additional models 96-BHG, 98BHG, 96BHGC and 98BHGC gasoline dispensing pump on condition that the requirements of the resolution adopted May 13, 1947 under Calendar Number 160-47-SA be complied with.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 809-47-SA

Subject: Amendment to resolution as to additional model of gas conversion burner.

Fullerton Equipment Corp., for Roberts-Gordon Corp., requested by letter dated June 8, 1958 that the resolution adopted June 8, 1948 under Calendar Number 809-47-SA be amended so as to include an additional model of gas conversion burner.

Description

The requested Model 400-Z is similar to the Model 400-Z-S except as to BTU input; the 400-Z-S being rated at

900,000 BTU/hr and the 400-Z being rated at 500,000 BTU/hr.

Recommendation

The Committee on Test recommends that the resolution adopted June 8, 1948 under Calendar Number 809-47-SA be reopened and amended so as to include the model 400-Z gas conversion burner on condition that the requirements of the resolution adopted June 8, 1948 under Calendar Number 809-47-SA be complied with.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 865-48-SM, Vol. II

Subject: Amendment to resolution as to additional sections of roof deck.

H. H. Robertson Co., New York, requested by filing an application dated December 3, 1956 that the resolution adopted February 8, 1949 under Calendar Number 865-48-SM, Vol. I, be amended so as to include additional sections. The application was reopened by a vote of the Board, January 8, 1957 under Calendar Number 865-48-SM, Vol. II.

Purpose

The material is to be used as a roof deck.

Description

The requested section is known as the 5 section and is available in three types; the 5-75, 5-45 and 5-30. All three types are 1'0" in cross section and the difference in the types is in the depth; the 5-75 being 0'-7½", the 5-45 being 0'-4½" and the 5-30 being 0'3".

The 5-75 has the following properties:

Gauge of Metal	Moment of Inertia	Section Modulus
18	10.4	2.42
16	13.5	3.08
14	17.3	3.91
12	24.9	5.58

The properties of the 5-45 are as follows:

18	3.25	1.18
16	4.31	1.50

The properties of the 5-30 are as follows:

18	1.29	0.674
16	1.70	0.851

Inspection and Test

Tests were conducted on samples of the material in accordance with C26-262.0 Administrative Building Code in order to check if the sections could be computed in accordance with accepted engineering formulae; this was done by checking the actual deflection caused by load against the computed deflection as arrived at by engineering formulae. The tests proved that the design of the sections followed accepted formulae.

Recommendation

The Committee on Test recommends that the resolution adopted February 8, 1949 under Calendar Number 865-48-SM, Vol. I, be amended so as to include the Sections 5-75, 5-45 and 5-30 of gauges as herein described for loads and spans as described in H. H. Robertson Co., catalogue dated 1957, except that in all conditions the minimum superimposed live load shall be 40 lbs. per sq. ft.

The Committee further recommends that the method of attaching the side joints of adjacent units may be done by button-punching in lieu of welding.

The Committee further recommends that in all other respects the requirements of the resolution adopted February 8, 1949 under Calendar Number 865-48-SM, Vol. I, be complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 8, 1949 in accordance with the above report.

Re: Calendar Number 211-53-SA.

Subject: Amendment to resolution as to additional models of washing machines.

Speed Queen, Division of McGraw-Edison Co., requested by letter dated June 25, 1958 that the resolution adopted November 4, 1953 and as amended May 20, 1958 under Calendar 211-53-SA be amended so as to include additional models of washing machines.

Purpose

The appliance is a clothes washing machine. (9 lbs.)

Description

The requested models are identical to the models previously approved except as to cabinet styling.

Inspection and Test

Details of construction were examined by the Assistant Engineer J. A. Darts, Committee on Test and it was noted that the air gap was at least 1 $\frac{1}{8}$ inches.

Recommendation

The Committee on Test recommends that the resolution adopted November 4, 1953 and amended May 20, 1958 under Calendar Number 211-53-SA be reopened and amended so as to include the models A20A, A20C, A20CF, A24, A24W, A25, A25F, A201 and A201F Speed Queen Automatic Washing Machines on condition that the requirements of the resolution adopted November 4, 1953 under Calendar Number 211-53-SA be complied with.

THE RESOLUTION—

WHEREAS, the report of a Committee on Tests reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 989-55-SA

Subject: Amendment to resolution as to additional models of gasoline dispensers.

Gilbert and Barker, Manufacturing Co., West Springfield, Mass., requested by letter dated May 23, 1958 that the resolution adopted July 10, 1956 and amended through December 17, 1957 under Calendar Number 989-55-SA be amended so as to include additional models of gasoline dispensers.

Description

The requested models 104BD and 104BDRC are similar to the models 104D and 104DRC approved by the Board July 10, 1956 and the Models 109BDHG and 104 BDHGRC are similar to the Models 104DHG and 104DHGRC approved by the Board July 9, 1957 except that the requested models are furnished without a visigage sight glass of the hose side of the pump. This was done to conform to a resolution adopted by the National Bureau of Standards on Weights and Measures, Washington, D. C. under Specification S.10.2.

Recommendation

The Committee on Test recommends that the resolution adopted July 10, 1956 and as amended through December 17, 1957 under Calendar Number 989-55-SA be reopened and amended so as to include the additional models, 104BD, 104BDRC, 104BDHG and 104BDHGRC gasoline dispensing pumps on condition that the requirements of the resolution adopted July 10, 1956 under Calendar Number 989-55-SA are complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions of July 10, 1956 through December 17, 1957 in accordance with the above report.

108-57-SM

APPLICANT—J. H. Helff, for Perfect Seal Manufacturing Co., owner.

SUBJECT—Application February 4, 1957—Perfect Seal Acoustical Tile; approval of.

APPEARANCES—

For Applicant: Joseph Aiello, Joseph McCrea, John Reetz and John J. Helff.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Foley and Commissioner Sleeper 3
Negative: 0
Absent: Vice Chairman Keating and Commissioner Kleinert 2

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 108-57-SM

Subject Perfect Seal Acoustical Tile.

J. J. Helff for Perfect Seal Manufacturing Company, Walworth, Wisconsin filed February 4, 1957 an application with the Board of Standards and Appeals for approval of the material known as Perfect Seal Acoustical Tile and under the provisions of C26-88.0 and C26-191.0 Administrative Building Code and permission to market under an additional trade name.

Purpose

The material is an incombustible acoustical tile.

Description

The tile is a fissured mineral fibre acoustical tile measuring 12 inch by 12 inch by $\frac{3}{4}$ inch thick and weighs 1.5 lbs. per sq. ft. The tile was tested for incombustibility, at the Armour Research Foundation of the Illinois Institute of Technology, under the requirements of Federal Specification SS-A-1186 and was found to be incombustible. The complete report is on file with and is part of the record.

Recommendation

On the basis of the test and data filed by the applicant, the Committee on Test recommends the approval of the material known as Perfect Seal Acoustical Tile as an incombustible acoustical tile, as having met the requirements of C26-88.0, for voluntary use in New York City, on condition that the tile shall be installed in an approved suspension system. The Committee further recommends that these tiles may be marketed by the Mastic Tile Corporation of America under the trade name of Matico Acoustical Tile, on condi-

MINUTES

tion that each carton in which the material is marketed shall be marked, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 108-57-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,

Negative: 0

Absent: Vice Chairman Keating and Commissioner Kleinert 2

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 402-57-SA

Subject: Heil Gas Fired Conversion Burners, Models GCB-1A, GCB-1, GCB-2, GCB-3 also to be marketed by Sears, Roebuck and Co. as Homart Gas Fired Conversion Burner, Models 867.6104, 867.6107, 867.6108, 867.6111 and 867.6112.

The Heil Company of Milwaukee, Wisconsin now operating its heat appliance division as the Heil-Quaker Corp., Lewisburg, Tennessee, owner-manufacturer, filed May 6, 1957 an application with the Board of Standards and Appeals for approval of Heil Gas Fired Conversion Burners Models GCB-1A, GCB-1, GCB-2, GCB-3, under the provisions of Article 12, Administrative Building Code, such burners also to be marketed by Sears, Roebuck and Company as the Homart Gas Fired Conversion Burners Models 867.6104, 867.6107, 867.6108, 867.6111 and 867.6112.

Purpose

Conversion burners for domestic heating.

Description

The Heil Gas Fired Conversion Burners are upshot burners equipped with a flame spreader. Primary air is supplied through an adjustable opening in the venturi mixing tube. A secondary air damper is installed in the burner frame assembly.

The burners are equipped with a manual shut off valve, a pilot cock, gas pressure regulator and automatic gas valve. Ignition is by safety pilot which would shut off the flow of gas in case of flame failure.

The minimum and maximum input ratings for the various models on natural or mixed gas are as follows:

Model	Minimum	Maximum
GCB-1A	75,000	150,000
GCB-1	75,000	150,000
GCB-2	85,000	275,000
GCB-3	85,000	370,000
867.6104	75,000	150,000
867.6111	75,000	150,000—100% shut off
867.6107	85,000	275,000
867.6112	85,000	275,000—100% shut off
867.6108	85,000	185,000

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

All models listed above were tested and approved by the American Gas Association.

Recommendation

On the basis of the examination and data submitted by the applicant, the Committee on Test recommends the approval of the Heil Gas Fired Conversion Burners Models GCB-1A, GCB-1, GCB-2, GCB-3 for use in New York City under the provisions of Article 12 Administrative Building Code provided each burner shall bear a label permanently attached, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 402-57-SA", and further that such burners may also be marketed by Sears, Roebuck and Company as the Homart Models 867.6104, 867.6107, 867.6108, 867.6111 and 867.6112.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 505-57-SA

Subject: Spi-Rol-Fin Gold Crown Gas-Fired Hot Water Boiler, Models 600G and 750G, approval of.

Edwards Engineering Corporation, Pompton Plains, New Jersey, filed June 12, 1957, an application with the Board of Standards and Appeals for approval of the Spi-Rol-Fin Gold Crown Gas Fired Hot Water Boiler, Models 600G and 750G for use in New York City under the provisions of C26-191.0 and Article 12, Administrative Building Code.

Purpose

The Spi-Rol-Fin Gold Crown Gas Fired Hot Water Boilers are designed for residential heating and for supplying domestic hot water.

Description

The assembled unit consists of a low pressure house heating boiler with an instant domestic hot water coil made of finned copper tubing. The boiler is designed in accordance with the Asme code. A pump is provided for hot water circulation in the heating system.

Heat is supplied by means of a mutli part cast iron burner which in turn is supplied with a primary air-gas mixture through a venturi. Ignition is by safety pilot which will shut off gas flow in case of flame failure. Other controls include a gas pressure regulator, automatic gas valve, manual gas shut off valve, manual pilot valve, thermostat, and operating and limit control. The boiler is equipped with a relief valve, aquastat and flow regulator.

The boiler is insulated with glass wool and aluminum foil and the entire assembly is housed in a sheet metal jacket.

Combustion gases are taken off at the top and the flue is provided with a draft diverter.

The input ratings of the two models are as follows:

Model 600 G	120,000 Btu per hour
Model 750 G	165,000 Btu per hour

Inspection and Test

All details of construction were examined by Assistant Engineer, G. F. Sklenarik, Committee on Test. These hot water boilers have been tested and approved by the American Gas Association.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the Spi-Rol-Fin Gold Crown Gas Fired Hot Water Boiler, Models 600G and 750G for use in New York City in accordance with this report and the provisions of Article 12, Administrative Building Code including the clearance requirements set forth therein provided that each boiler shall bear a label permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 505-57-SA."

Way-Wolff Associates requested by letter dated June 10, 1958 that the resolution adopted October 1, 1957 under Calendar Number 554-57-SA be amended so as to include additional models of electric preheater and permission to market under additional trade names.

Description

The requested Models FMT and FMTT are similar to the model HMT, approved by the Board under Calendar 554-57-SA except that the capacity is smaller and are constructed with a smaller flange mounting.

Recommendation

The Committee on Test recommends that the resolution adopted October 1, 1957 under Calendar 554-57-SA be reopened and amended so as to include the additional Models; FMT and FMTT, electric fuel oil preheater and further that the fuel oil preheater recommended for approval under this resolution may be marketed by the Way-Wolff Associates, Inc., and Ray Burner Sales Inc. under the Model designation M-220, M-221 and M-222 for the Models HMT, FMT and FMTT respectively on condition that the requirements of the resolution adopted October 1, 1957 under Calendar Number 554-57-SA are complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of October 1, 1957 in accordance with the above report.

653-57-SM

APPLICANT—Owens-Illinois Plywood Co., owner.

SUBJECT—Application August 8, 1957—Owens-Illinois Fire Door, approval of.

APPEARANCES—

For Applicant: Carl F. Vall, Jr.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating..... 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 653-57-SM.

Subject: Owens-Illinois Fire Door.

Owens-Illinois Plywood Company, North Troy, Vermont, filed August 8, 1957, an application with the Board of Standards and Appeals for approval of the material known as the Owens-Illinois Fire Door under the Provision of C26-610.0 Administrative Building Code.

Purpose

The door is to be used as a one hour fire resistive opening protective assembly.

Description

The door is constructed of a non-combustible core (Kaylo) with chemically impregnated lumber for the edges, with laminated wood on the faces. The door, of a size 4'-0" x 7'-0" x 0'-13⁷/₈", is hung by means of three 4¹/₂" full mortise steel hinges. The hinges are secured to the door by means of No. 12-1¹/₄" sheet metal screws and to the frame with machine screws. The lock is a cylindrical type lock with 1¹/₂" latch bolt. The latch is secured to the door with No. 8-3⁴/₄" wood screws and the strike plate is secured to the frame by means of machine screws.

Inspection and Test

The door was tested at the Underwriters Laboratory in accordance with the requirements of C26-610.0 Administrative Building Code. The door successfully met the requirements of the fire and hose stream tests. The temperature rise at the end of 30 minutes was 224° which is well below the allowable of 650°.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as the Owens-Illinois Fire Door for use in New York City as a one hour fire resistive Opening Protective Assembly under the provisions of C26-610.0 on condition that the requirements of the Rules of the Board, for the Inspection of Opening Protective Assemblies are complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

744-57-SM

APPLICANT—Farr Company, owner.

SUBJECT—Application September 26, 1957—Far-Air Grease Eliminators, (for ventilation hoods in commercial kitchens), approval of.

APPEARANCES—

For Applicant: Lawrence D. Greco.

ACTION OF BOARD—Material approved in accordance with report of Committee on Test.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 744-57-SM.

Subject: Far-Air Grease Eliminators—for ventilation hoods in commercial kitchens.

The Farr Company, New York, N. Y. filed September 25, 1957 an application with the Board of Standards and

MINUTES

Appeals for approval of the Far-Air Grease Eliminators for use in New York City under the provisions of Sections C26-712.0e and C19-165.3 Administrative Code.

Purpose

Filters for prevention of excessive grease accumulation in kitchen range exhaust systems.

Description

The Far-Air Grease Eliminator is an assembly of the Farr type 44 G grease filters placed in a single or double sided steel supporting frame which in turn is secured to the range exhaust system. The bottom of the frame is provided with a drip tray.

The type 44 G filters are incombustible with filtering media made of zinc electroplated 14 mesh steel screening arranged in alternate layers of flat and herringbone crimped screens, 4 layers of each per inch, rod reinforced. The ends are enclosed in a frame of 16 gage steel with flush mitered corners.

The filters are available in standard sizes up to 19½" x 24½" with thicknesses of 2 inches or 4 inches. They are made with or without handles.

The filters may be removed and cleaned by soaking in a hot solution of detergent in water and then thoroughly dried before replacing.

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

Recommendations

On the basis of the data supplied by the applicant, the Committee on Test recommends the approval of the Far-Air Grease Eliminators—Type 44G filters—for use in New York City when installed in accordance with the requirements of sections C26-712.0e and C19-165.3a.b., Administrative Code and provided that each filter shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 744-57-SM".

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

841-57-SA

APPLICANT—John Gabel, for Wilnot Castle Company, owner.

SUBJECT—Application November 4, 1957—Imperial Bed Pan Washer, Models 1, 2 and 3, approval of.

APPEARANCES—

For Applicant: H. P. Bonesteel and W. W. Russell.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating..... 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 841-57-SA

Subject: Imperial Bed Pan Washer, Models 1, 2, and 3.

John Gabel for Wilnot Castle Co., Rochester, New York, filed November 4, 1957 an application with the Board of Standards for approval of the appliance known as the Imperial Bed Pan Washer, Models 1, 2, and 3 and by letter of July 17, 1958 requested that the appliance now be known as Sani-Jet Bed Pan Washer Models 1, 2 and 3.

Purpose

The appliance is a bed pan washer.

Description

The model designation, 1, 2 or 3 differentiates the model being either pedestal, recessed or wall hung type, and each model is designed to wash the bed pan and optionally, process with live steam.

Washing is accomplished by water passing through three spray flanges, contacting all surfaces of the bed pan.

Where steam is specified, it is introduced through a separate steam line, there being no interconnection between steam and water lines.

When hot water is specified, it is introduced into the cold water line between the flush valve and vacuum breaker.

The body is of cast iron, porcelainized on all surfaces, inside and out, and is equipped with a cast iron waste trap, terminating in flange for connection to flanged floor base.

The door is of non-corrosive metal and has an opening for intake of air and back up of waste over flow. The door is fitted with a rack of non-corrosive metal having arms to hold the bedpan and the arms automatically release upon opening of the door.

The wall hung and the pedestal type are vented by means of a 2" chrome-plated copper tubing with two chrome-plated slip joint nuts; one for connection to vent fitting on fixture, the other for connection to building vent line.

Inspection and Test

Details of construction were examined by Ass't Engineer J. A. Darts, Committee on Test and the details conformed to drawings submitted.

Recommendation

The Committee on Test recommends the approval of the appliance known as the Imperial Bed Pan Washer Models 1, 2 and 3 also known as the Sani-Jet Bed Pan Washer Models 1, 2 and 3 for use in New York City when constructed as herein described, and when installed, the approved vacuum breaker and check valve shall be installed in accordance with the requirements of the Submerged Inlet Rules of the Board and further, each appliance shall bear a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar 841-57-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

1001-57-SA

APPLICANT—Tokheim Corporation, owner.

SUBJECT—Application for a reopening and amendment of resolution as to additional models of gasoline dispensers namely 49RC and 49-TP-RC—re Tokheim Remote Control Gasoline Pumping Units, Models 45-RCP and 46-RCP and Tokheim Island Dispensing Pedestals, Models 45-H-RC and 45-TP-RC; previously approved.

Absent: Vice Chairman Keating 1

THE VOTE TO AMEND—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper 4

MINUTES

Negative: 0
Absent: Vice Chairman Keating 1
THE RESOLUTION—

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 1001-57-SA

Subject: Amendment to resolution as to additional models of gasoline dispensers.

Tokheim Corporation requested by letter dated July 18, 1958 that the resolution adopted April 15, 1958 under Calendar Number 1001-57-SA be reopened and amended to include additional models of gasoline dispensers, 49 RC and 49-TP-RC.

Purpose

Gasoline dispensers for airport and marine locations.

Description

The Model 49 RC and 49-TP-RC are similar to the Models 45 H-RC and 45-TP-RC respectively previously approved by the Board under Calendar Number 1001-57-SA. They differ in that the maximum delivery rate is 35 gallons per minute and they are designed for a one inch hose; the previously approved models had a delivery rate of 15 gallons per minute and were designed for a $\frac{3}{4}$ inch hose.

Because the new models are primarily intended for airport and marine use, no hose is supplied with the dispensers. The user of the equipment is to supply Underwriters' type gasoline hose of a length permitted by the Fire Department for each installation under their jurisdiction.

The Models 49 RC and 49-RP-RC have been tested and approved by the Underwriters Laboratories file MH 1895. The 49-TP-RC differs from the 49 RC in that it has a ticket printing device.

Recommendation

The Committee on Test recommends that the resolution adopted April 15, 1958 under Calendar Number 1001-57-SA be reopened and amended so as to include the Tokheim Model 49-RC and 49-TP-RC gasoline dispensers on condition that the requirements of the resolution adopted April 15, 1958 under Calendar Number 1001-57-SA be complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 15, 1958 in accordance with the above reports.

1038-57-SA

APPLICANT—Liberty Combustion Corp., owner.

SUBJECT—Application November 29, 1957—Liberty Inshot Conversion Gas Burner, Models LIB200SC, LIB150LC, LIB225LC, LIB150SB, LIB200SB, LIB150LB, LIB225LB and LIB150SC, (for conversion of oil-fired boilers or furnaces to gas), approval of.

APPEARANCES—

For Applicant: William F. Barry and Jack B. Lake.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 1038-57-SA

Subject: Liberty Inshot Conversion Gas Burner, Models LIB 150 SB, LIB 150 LC, LIB 150 SC, LIB 150 LB, LIB 200 SC, LIB 200 SB, LIB 225 LC, and LIB 200 LB.

Liberty Combustion Corporation, Syracuse, New York, filed November 29, 1957 an application with the Board of Standards and Appeals for approval of the Liberty Inshot Conversion Gas Burner, Models LIB 150 SB, LIB 150 LC, LIB 150 SC, LIB 150 LB, LIB 200 SC, LIB 200 SB, LIB 225 LC, and LIB 200 LB for use in New York City under the provisions of Article 12, Administrative Building Code.

Purpose

Conversion type gas burners.

Description

The Liberty Inshot Conversion Gas Burners were designed to be used either as original equipment on furnaces and boilers requiring a flange mounted burner or as conversion burners for flange mounted oil burning furnaces and boilers.

The burners are made in two different lengths; if the distance from the mounting flange to the entrance of the combustion chamber is $4\frac{1}{2}$ inches or more, the long model is used and if the distance is under $4\frac{1}{2}$ inches, the short model is used.

The burner and flange are of cast iron, dip painted. The flame deflector and deflector arm are of stainless steel.

The main housing and cover are of 20 gauge cold rolled steel and spray painted with a hammercraft finish.

The input ratings of the models are:

LIB 150 150,000 Btu per hour
LIB 200 200,000 Btu per hour
LIB 225 225,000 Btu per hour

The Suffix S or L in the model designation indicates the short or long model. The suffix B indicates a self generating type of control system using a pilot generator and diaphragm valve.

The suffix C indicates a 24 volt electrical control system using a pilot, thermocouple and automatic valve. These controls will shut down the gas supply in case of pilot flame failure.

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

The Liberty Inshot Conversion Gas Burners LIB 150, LIB 200, and LIB 225 were tested and approved by the American Gas Association Certificates 20-590.001 and 20-590.101.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the Liberty Inshot Conversion Gas Burner, Models LIB 150 SB, LIB 150 SC, LIB 150 LC, LIB 150 LB, LIB 200 SC, LIB 200 SB, LIB 200 LB and LIB 225 LC for use in New York City when installed in accordance with this report and the provisions of Article 12, Administrative Building Code and provided that each burner shall bear a label reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 1038-57-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

91-58-SM

APPLICANT—Wilcox-Woolford Corporation, owner.

MINUTES

SUBJECT—Application February 5, 1958—Furnaflex; wood veneer for Interior walls, approval of.

APPEARANCES—

For Applicant: John H. Wilcox.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test, reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 91-58-SM—

Subject: Furnaflex: Wood Veneer for Interior Walls.

Wilcox-Woolford Corporation, Spring City, Penn., filed February 5, 1958 an application with the Board of Standards and Appeals for approval of the material known as Furnaflex, under the provisions of section C26-667.0.7.b Administrative Building Code.

Purpose

The material is to be used as a veneering material when placed upon an incombustible backing.

Description

Furnaflex is a wood veneer protected by a vinyl surface and backed by aluminum foil. The thickness is approximately .025 inch or .010 inch as ordered.

Inspection and Test

The material was tested at the office of the Board by Assistant Engineer G. F. Sklenarik, Committee on Test. The material will burn in itself when not applied to an incombustible backing.

Recommendation

On the basis of the Inspection and Test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Furnaflex as described in this report for use as a veneering material under the provisions of C26-667.0.7.b Administrative Building Code on condition that each container or wrapper in which the material is marketed shall be stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 91-58-SM."

The Committee further recommends that this material shall not be used in public halls of multiple dwellings as prohibited under sections 101, 142, 146, 148 and 149 of the Multiple Dwelling Law.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

339-58-SA

APPLICANT—American Radiator & Standard Sanitary Corporation, owner.

SUBJECT—Application May 23, 1958—American Radiator & Standard Sanitary Corporation Inshot Gas Conversion Burner, Models IN-150, IN-245, IN-275, approval of.

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 339-58-SA.

Subject: American Radiator and Standard Sanitary Corporation Inshot Gas Conversion Burner Models IN-150, IN-245, IN-275.

American Radiator and Standard Sanitary Corp., New York, N. Y. filed May 23, 1958 an application with the Board of Standards and Appeals for approval of their Inshot Gas Conversion Burner Models IN-150, IN-245, and IN-275 for use in New York City under the provisions of Article 12, Administrative Building Code.

Purpose

Gas conversion burners for installation in hot water or steam boilers or warm air furnaces.

Description

The American Radiator and Standard Sanitary Corporation Inshot Gas Conversion Burner is an atmospheric type having a single port inshot burner head with flame spreader attached.

Provisions are made for supplying primary and secondary combustion air through adjustable openings.

The controls used are a gas pressure regulator and automatic gas valve with safety pilot. The gas valve may be of the self energizing type or electrically operated on low or line voltage.

The maximum ratings of the three burners are:

Model	Btu per hour input
IN-150	150,000
IN-245	245,000
IN-275	275,000

Inspection and Test

All details of construction were examined by Ass't Engr. G. F. Sklenarik, Committee on Test.

These burners were tested and approved by the American Gas Association, Certificates 20-603.101 and 20-603.001.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the American Radiator and Standard Sanitary Corporation Inshot Gas Conversion Burner Models IN-150, IN-245, and IN-275 for use in New York City in accordance with this report and the provisions of Article 12, Administrative Building Code provided that each burner shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 339-58-SA."

For Applicant: Edward T. Heeg and Roland W. Anstine.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating..... 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 411-58-SM

Subject: Speed-Kleen Fills, Models 2200, 2200M45, 2200F45
and 3200, approval of.

Time Saving Fills Inc., York, Pa., filed June 30, 1958 an
application with the Board of Standards and Appeals for
approval of the Speed-Kleen Fills, Models 2200, 2200M45,
2200F45 and 3200 for use in New York City under the pro-
visions of the Oil Burner Rules of the Board.

Purpose

Fill pipe terminals for fuel oil storage systems.

Description

The Speed-Kleen Fills are malleable steel fittings designed
to be screwed on to or into the tank fill line.

The Model 2200 terminal is a straight fitting with female
thread for attaching to the fill pipe. The opposite end of
the fitting has a smooth bore to receive the seal cap or truck
hose nozzle tube known as the Speed Kleen Nozzle Tube.
The smooth bore is traversed by a steel pin to form one ele-
ment of a bayonet joint. The other element of the joint is
the seal cap or nozzle tube when in use each being pro-
vided with inverted "L" shaped slots, the seal cap slots being
inclined so as to draw the cap tightly against the machined
tapered face of the terminal fitting. The seal cap is pro-
vided with an oil proof gasket and it is slotted to take a
special wrench. The cap is secured to the fitting by means
of a short chain.

The model 2200 F 45 is similar to the 2200 but is made
in 45° form. The model 2200 M 45 is similar to the model
2200 F 45 but has an external thread on the fitting.

The model 3200 is an insert having a tapered thread. It
is designed to take the same seal cap as the other models.

All Speed-Kleen Fills are made in 2 inch size.

Inspection and Test

The details of construction were examined by Ass't Engi-
neer G. F. Sklenarik, Committee on Test.

Recommendation

On the basis of the examination and the data filed by the
applicant, the Committee on Test recommends the approval
of the Speed-Kleen Fills, Models 2200, 2200 M 45, 2200 F
45, and 3200 for use in New York City under the Provisions
of the Oil Burner Rules of the Board and when installed in
accordance with this report and provided that the seal caps
are lettered with the words "Fuel Oil" and the Calendar
Number "411-58-SM".

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 490-58-SA.

SUBJECT—Janitrol Oil Fired Conditioners, Series OFLS,
OFVS, OFDS, OFHS.

Janitrol Division, Surface Combustion Corp., New York,
N.Y., filed August 18, 1958 an application with the Board
of Standards and Appeals, for approval of the Janitrol
Oil Fired Conditioners, Series OFLS, OFVS, OFDS,
OFHS under the provisions of Article 12, Administrative
Building Code and the Oil Burner Rules of the Board.

Purpose

Oil fired warm air furnaces for residential, commercial
and industrial use.

Description

The OFLS, OFVS, OFDS and OFHS Series consist of
a heavy gauge steel heat exchanger and radiator assembly,
a light weight refractory or stainless steel combustion cham-
ber and a flange mounted high pressure atomizing type oil
burner designed to burn No. 2 fuel oil, Standard controls
consist of a barometric draft control, a primary control
such as a stack switch to shut down the burner in case of
ignition or flame failure, a fan limit control to shut down
the unit in the event of excessive warm air temperature
and a low voltage thermostat.

The OFLS Series is a "low boy" unit produced in four
sizes, 85,000 102,000, 135,000, and 180,000 Btu. per hour out-
put at the bonnet with firing rates of .75, 1.00, 1.25 and
1.65 gallon per hour respectively. This series is equipped
with a light weight refractory combustion chamber liner
except the 180,000 Btu. unit which has a stainless steel
combustion chamber.

The OFVS Series is a vertical upflow assembly used
where sufficient headroom is available and is produced in
three sizes, 85,000 102,000 and 135,000 Btu per hour out-
put as the bonnet with firing rates of .75, 1.00 and 1.25 gal-
lons per hour respectively. This series is equipped with a
light weight refractory combustion chamber liner.

The OFDS Series is a counter flow assembly intended for
use in Buildings where the warm air distribution system is
located below the unit. This series is produced in three
sizes, 85,000, 102,000 and 135,000 Btu per hour output at the
bonnet with firing rates of .75 1.00 and 1.25 gallons per
hour respectively. This series is equipped with a light weight
refractory combustion chamber liner.

The OFHS Series are suspended type heaters produced in
five sizes, 84,000 110,000 140,000 180,000 and 250,000 Btu
per hour output at the bonnet with firing rates of .75, 1.00,
1.25, 1.65 and 2.25 gallons per hour respectively. This series
is equipped with a stainless steel combustion chamber.

Inspection and Test

All details of construction were examined by Assistant
Engineer G. F. Sklenarik, Committee on Test.

The OFLS, OFVS, OFDS and OFHS Series have been
tested and approved by the Underwriters' Laboratories, filed
MP 247 and MP 2479B.

Recommendation

On the basis of the examination and the data submitted
by the applicant, the Committee on Test recommends the
approval of the Janitrol Oil Fired Conditioner Series OFLS,
OFVS, OFDS and OFHS for use in New York City, in
accordance with this report and the provisions of the Oil
Burner Rules of the Board and of Article 12, Adminis-
trative Building Code including the clearance requirements
set forth therein and provided that such oil fired condi-

MINUTES

tioners are not installed in garages or other places where there may be explosive atmospheres and further that each oil fired conditioner shall bear a label, permanently affixed, reading "Approval by the Board of Standards and Appeals for use in New York City under Calendar Number 490-58-SA".

318-58-A

APPLICANT—Leonard F. Rothkrug, for B. Balzino Dress Co., Inc., owner.

SUBJECT—Application May 13, 1958—Appeal from an order and a decision of the Fire Commissioner, re bars on windows.

PREMISES AFFECTED—49-63 Quentin Road, northwest corner of West 11th Street, Block 6620, Lot 46, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating..... 1

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner dated May 8, 1958, reads:

"Arrange bars on windows on 1st story so as to readily movable or removable from both sides in such a manner as to afford free and unobstructed use of such windows for the purpose of egress as per Sec. 272 of the L.L."

and

WHEREAS, the applicant states that the premises consist of a lot 147 feet 5½ inches by 61 feet 4½ inches irregular, located in business use, D area, class 1 height district, upon which there exists a one story, 12 feet high, class 3 constructed building, erected in 1921 and used and occupied as follows: Cellar—storage and boiler room, no persons; 1st floor—manufacturing of dresses and luncheonette, 23 persons; that for which Certificate of Occupancy #138493 was issued against Alt. Applic. 4390/53 for store and light manufacturing, 23 persons; and

WHEREAS, the applicant contends that the building faces on four (4) streets, that the factory portion occupies most of the building and faces three (3) streets; that the exit requirements of the Labor Law are more than fully satisfied by the existing exits; that two remotely located exits lead to Kings Highway and three exits lead to Quentin Road and an exit through office leads to West 12th Street; and

WHEREAS, the applicant further states that the building is one story in height and the security sash is necessary for the protection of the premises when vacant; that the factory area is small and with a low number of occupants; that compliance with the Fire Department order would be a hardship on the part of the owner and would prevent proper protection of the building; that Section 272 of the Labor Law does not clearly show applicability for one story building of this nature and court decisions have held that exit doors that were not required under the Labor Law could be kept locked and by implication windows which are not required for egress may also be kept locked; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Fire Commissioner dated May 8, 1958 to modify the requirements as to bars on windows be and it hereby is *modified* and that the appeal be and it hereby is *granted* on condition that the building shall not be increased in height or area; that the means of exit as shown on plans filed with this Appeal marked, "Received May 13, 1958," 2 sheets, and "May 28, 1958," 1 sheet, shall be maintained; and that the doors not now swinging in the direction of the exit shall be changed so as to have vestibules within the building and the doors changed to swing outwardly, but not beyond the permitted distance over the building line.

337-58-A

APPLICANT—Lama, Proskauer and Prober, for Sun Parking Garage, owner.

SUBJECT—Applicaion May 23, 1958—Appeal from an

order from the Fire Commissioner, re storage garage.
PREMISES—148 West 48th Street, south side, 225 feet, east of 7th Avenue, Block 1000, Lot 53, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

ACTION OF BOARD—Appeal granted on condition .

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating..... 1

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner, dated May 1, 1958, reads:

"1. Discontinue operation of storage garage within 20 feet of nearest wall building occupied as a theatre in accordance with C19-65.05."

and

WHEREAS, the applicant states that the premises consist of a lot 75 feet by 100 feet 5 inches, located in retail 1 use, B area, class 2 height district, upon which there exists a 6 story, 60 feet high, class 1 construction, 75 feet by 100 feet 5 inches at cellar and 1st floor, 75 feet by 90 feet 5 inches on 2nd to 6th floors, erected 1955, and used and occupied as follows: Cellar—garage for more than 5 motor vehicles, same for 2nd, 3rd, 4th, 5th, 6th and roof, 2 persons each floor; 1st floor—storage garage for more than 5 motor vehicles, 30 persons, for which Certificate of Occupancy #43963 was issued against N.B. Applic. 141/52; and

WHEREAS, the applicant contends that the theatre building in question is located 9 feet 6 inches maximum and 4 feet minimum distant from the east wall of the garage; that the east wall of the garage is constructed of masonry and is unpierced for its entire length and height; that the theatre wall is masonry and is unpierced except for the fireproof doors that lead to the stair in the court; that the garage door is located 20 feet from the theatre wall; that the two 550 gallon gasoline tanks are buried below the cellar floor and are installed in accordance with the rules and regulations applicable thereto; that therefore in view of the facts as stated above and inasmuch as only a small portion of this garage is within 20 feet of the theatre, it is respectfully requested that this application be granted; and

WHEREAS, the premises was inspected by a committee of the Board; and

WHEREAS, it appears from a study of the zoning application before the Board, namely 541-56-BZ, that the theatre on the adjoining premises was in existence at the time this action to permit a gasoline selling station was acted on by the Board.

Resolved, that the decision of the Fire Commissioner dated May 1, 1958, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that there shall be no extension of the gas line system or any relocation of such tanks or pumps within 40 feet of the wall of the theatre; that the tanks in question located below grade in the cellar of the building shall not be increased and shall comply with the requirements of the resolution adopted by the Board on April 24, 1957, under Cal. No. 541-56-BZ, reading as follows:

"That the application be and it hereby is granted under Section 7c, to permit the construction and maintenance of a gasoline selling station consisting of two approved 550 gallon tanks in the cellar and two pumps on the first floor, located as shown, all as indicated on plans filed with this application marked, "Received July 18, 1956", 6 sheets, showing existing conditions and 5 sheets showing proposed conditions, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required including a new Certificate of Occupancy as a storage garage shall be obtained and all work completed within six months from the date of this resolution."

APPLICANT—Harold Herman, for Mayfair-York Corporation, owner.

SUBJECT—Application July 16, 1958—Appeal from a decision of the Borough Superintendent, re temporary Certificate of Occupancy.

PREMISES AFFECTED—36 Gramercy Park East, east side, 39 feet, 5 $\frac{1}{4}$ inches south of Gramercy Park North, Block 876, Lot 21, Borough of Manhattan.

APPEARANCES—

For Applicant: Harold Herman.

ACTION OF BOARD—Appeal granted on condition.

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated July 7, 1958 subject to this appeal reads:

“Re: Certificate of Occupancy Appl. #239/58
Premises: 36 Gramercy Park East, Manhattan

With reference to your letter of July 2, 1958, in connection with temporary certificate of occupancy for premises 36 Gramercy Park, East, we wish to advise you as follows:

A memorandum issued by the Borough Superintendent dated January 29, 1958, denies the issuance of a temporary occupancy where the alteration application under which the work was done is more than two years old at the time of the receipt of the application for a temporary certificate of occupancy.”

and

WHEREAS, the applicant has filed a copy of a decision of the Borough Superintendent, dated February 7, 1958, reading as follows:

“In reply to your letter of January 24, 1958, in reference to above premises, please be advised that our inspector reports as follows:

Building Department memo of February 4, 1958 states that permission to use an apartment or floor can only be granted by the issuance of temporary certificate of occupancy.”

and

WHEREAS, the applicant states that the building is 12 stories, 140 feet 8 inches in height, 83 feet 4 $\frac{3}{8}$ inches front by 63 feet 10 inches in depth of fireproof construction, erected 1909, located in residence use, B area, class 1 $\frac{1}{2}$ height district, and used and occupied since 1909: Basement—apartment, storage and boiler room; 1st floor—4 apartments; 2nd floor—3 apartments, 3rd, 4th and 5th floors—2 apartments each floor; 6th floor—5 apartments; 7th floor—4 apartments; 8th floor—4 apartments; 9th floor—2 apartments; 10th and 11th floors—5 apartments each floor—12th floor—3 apartments; penthouse—5 apartments; that it is now proposed to be used and occupied as follows: basement—1 apartment, storage and boiler rooms; 1st floor—4 apartments; 2nd floor—4 apartments; 3rd, 4th and 5th floors—4 apartments each floor; 6th floor—5 apartments; 7th floor—4 apartments; 8th floor—5 apartments; 9th floor—4 apartments; 10th and 11th floors—5 apartments each floor; 12th floor—4 apartments; penthouse—5 apartments; and

WHEREAS, Violation #8407 was issued December 3, 1957, for occupying the premises without completing Alt. Applic. 182/53 and obtaining a certificate of occupancy as required by law; and

WHEREAS, the applicant states that the present owner acquired the building on February 1, 1953, and thereafter plans were filed and approved under Alt. Applic. 182/53; that when the owner acquired the property it substantially consisted of two apartments each of the 12 floors; that plus a serving room and storage room on the roof; that under Alt. Applic. 182/53 as approved and later amended, each old apartment consisted of about 8 rooms, were to be altered into two new room apartments, except on the 6th, 8th, 10th and 11th floors, five (5) apartments were to be

created and a new apartment was to be created in the basement for the superintendent and five new apartments on the penthouse floor; that of the original twenty-four 8 room apartments, thirteen have already been altered into thirty new apartments; that while alterations in some of the new apartments were still in progress; and

WHEREAS, the applicant contends that it was the custom in the past for the Department to issue a letter stating that the Department has no objection to the occupancy of such new apartments, pending the completion of the alteration of the entire building, and the issuance of certificate of occupancy for same; that the owner has such letters covering the occupancy of each of the twenty-four (24) new apartments, resulting in the alteration of the eleven (11) old 8 room apartments; that with respect to the 12th and 13th old apartments altered on the north half of the 10th floor and south half of the 12th floor, the Borough Superintendent advised the contractor that such letters were no longer to be issued and instead it was necessary to apply for a temporary certificate of occupancy in the future, as each apartment was altered; that the owner filed an application for a temporary certificate of occupancy, March 18, 1958, for apartments 10N, 10E, 12W and 12S under Certificate of Occupancy #239/58; that the Borough Superintendent ruled that any temporary certificate of occupancy will not be issued where the alteration application is more than 2 years old, pursuant to a new rule of the Borough Superintendent, dated January 29, 1958; that the Borough Superintendent approved amendment to Alt. Applic. 182/53 as late as May 21, 1958; that it can not now be understood how the Department can place January 8, 1958 violation on and keep giving approvals to amendments through May 21, 1958; that the Board has passed on a similar matter, in the matter of Hanover Construction Corporation as published in the Bulletin of the Board, dated March 5, 1957, Pages 438 and 439; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, dated July 7, 1958, acting on Alt. Applic. 182/53 and Certificate of Occupancy Application #239/58 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that upon completion of the work now in progress under such application above cited, temporary Certificates of Occupancy covering the particular apartments as completed shall be issued under the Building Code, stamped as required by the general resolution of the Board in this connection with Certificates of Occupancy to indicate that this is also a Certificate of Compliance or Occupancy under Section 310 of the Multiple Dwelling Law; and that there shall be issued, when all apartments proposed to be altered are completed, a new permanent Certificate of Occupancy for the entire building.

520-58-A

APPLICANT—Howard M. Dowling, for Board of Education, City of New York, owner.

SUBJECT—Application August 26, 1958—Appeal from a decision of the Borough Superintendent, re standpipe system.

PREMISES AFFECTED—21 West 138th Street, north side, 111 feet, 9 $\frac{3}{4}$ inches west of 5th Avenue and 16-18 West 139th Street, Block 1736, Lot 27, Public School 100, Borough of Manhattan.

APPEARANCES—

For Applicant: Bela C. Alexy.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 8, 1957, redated August 20, 1958, on Violation #843/56, reads:

MINUTES

"In your letter of October 1, 1957 you requested that Violation #843-56, filed against Public School No. 100 (N. Y. Voc. H. S.) located at 21 West 138th Street, be dismissed.

It is regretted that we cannot comply with your request. A standpipe is required for existing buildings exceeding specified heights or areas by the provisions of Section C26-1381.0.

This department does not have the power to set aside the provisions of the Administrative Code. It is suggested that an appeal be made to the Board of Standards and Appeals."

and

WHEREAS, Violation #843/56 issued by the Borough Superintendent, February 2, 1956 was occupying a 6 story school building without a standpipe system as required by law; and

WHEREAS, Violation #843/56 superseded by Violation #4219/49; and

WHEREAS, the applicant states that the building is 6 stories, 103 feet 10 inches and 86 feet in height, 170 feet front by 199 feet 10 inches in depth, of fireproof construction, erected 1907, located in a business and unrestricted use, B area, class 1½ height district, and used and occupied since erection as a public school, equipped with an approved fire alarm system and regular monthly fire drills are maintained; that there are 4 double stairs, 44 inches wide, steel construction, enclosed in partitions of 4 inch terra cotta plastered both sides of metal and glass partitions, equipped with kalameined and glass self-closing door; and

WHEREAS, the applicant states that the building was erected in 1907 as a public school and it has been occupied since in compliance with the Building Code; that the building is equipped with a fire alarm telegraph box, located adjacent to the principal's office as well as an interior fire alarm system; that rapid dismissal drills are conducted under the competent supervision of the teaching personnel; that in those rooms in the building, which even remotely resemble hazardous use, automatic sprinklers are provided such as in the auditorium stage, dressing rooms, store rooms, paper chutes, etc.; that the building is equipped with hand fire extinguishers, conveniently located throughout the building for ready use by the teaching personnel in the event of necessity; and

WHEREAS, the applicant contends since the Fire Department responds within matter of minutes after receipt of the alarm, and since the personnel in the building is not trained to handle fire hose, and since the Fire Department uses their own hose, coupled to hydrants and pumpers, the installation of a standpipe system in this building is unnecessary and would require an unwarranted expenditure of funds; that the Board of Education receives a limited amount of money for maintaining school buildings and any diversion of these funds would seriously create hardship, resulting in a possible breakdown in the maintenance of school property; that in view of precautionary means already installed to protect the occupants of the building, it is requested that the decision and order of the Borough Superintendent be modified so as to omit the requirements for the installation of a standpipe system in this building; and

WHEREAS, the premises was inspected by a committee of the Board and the matter concerns a request for elimination of the required standpipe system required because of the height of the building exceeding the height of 75 feet, the building being 103 feet, and is less than the Board has previously permitted on another City school of similar condition.

Resolved, that the decision of the Borough Superintendent, dated October 8, 1957, redated October 20, 1958, acting on Violation #843/56 be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the omission of the standpipe as proposed inasmuch as the building was erected prior to the adoption of the present requirements in the Building Code, and inasmuch as the occupancy of the school has no excessive amount of combustible or inflammable material; and that the proposed fire protection equip-

ment consisting of sprinklers, fire alarm system and monthly fire drills, shall be maintained as shown on plans filed with this appeal marked, "Received August 26, 1958," 12 sheets.

Minutes of Regular Meeting, Tuesday Afternoon, October 28, 1958, Affecting Calendar Numbers 899-47-SA, 360-50-SA, 499-50-SA, 350-51-SA, 489-54-SA, 667-54-SA, 720-56-SA, 176-58-SM, 773-57-A, 58-58-A, 370-58-A,

COURT DECISION

Matter of John Minett, et al. vs. Murdock—On January 14, 1958 the Board granted a variance to permit a gasoline service station at 77-01 to 77-21 North Conduit Avenue, northeast corner of Sutter Avenue, Block 11340, Lot 1, Ozone Park, Borough of Queens; Cal. No. 12-57-BZ. Upon court review Mr. Justice James J. Conroy confirmed the determination of the Board and dismissed the petition and vacated the order, stating among other things the following:

"the court is of the opinion that the petitioners have not demonstrated that there are any triable issues of fact".....

"the record shows that the Board has acted upon a reasonable basis and on sufficient evidence to permit the exercise of discretionary powers under subdivisions (e) and (i) of Section 7 of the Zoning Resolution. Since the Board acted within its jurisdiction and upon substantial evidence, the court cannot set such determination aside and substitute its judgment for that of the administrative body in whom alone such discretion is vested." (N. Y. Law Journal, August 12, 1958, page 4).

Further court proceeding in the Appellate Division Second Department is pending.

A motion for a stay was made to the Appellate Division Second Department as reported in the New York Law Journal, October 10, 1958. The order of the court is as follows:

"Motion for a stay granted on condition that appellants be ready to argue or submit the appeal at the December term, beginning Monday, November 24 (for which term the appeal is ordered to be placed on the calendar), and on the further condition that appellants, within five days after the entry of the order hereon, file an undertaking for \$7,500, with corporate surety, as security for any damages that the intervenor-respondent may sustain if the order appealed from be affirmed or the appeal therefrom is dismissed."

NOTE:—An article in the New York Times October 21, 1958 indicated that a proposal for the homeowners to purchase the property and deed it to the City for a park. The matter was apparently discussed with the Local Board October 22, 1958.

PUBLIC HEARINGS

Tuesdays at 10 a.m. and 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held at 80 Lafayette Street, Borough of Manhattan.

For Opposition: None.

ACTION OF BOARD—Laid over to November 18, 1958, at 10 A.M. for inspection and decision; applicant to file revised plans showing front yards of several houses on either side of 101st Avenue on 222nd Street; hearing closed.

282-58-BZ

APPLICANT—Mario A. Tucciarone, for Charles Chiofalo and James Viscardi, owners.

SUBJECT—Application May 7, 1958—decision of the Borough Superintendent, under section 7e of the Zoning Resolution, to permit in a residence use district, the present building to be used for manufacturing as permitted in a business use district.

PREMISES AFFECTED—93-08 95th Avenue, south side, 50 feet east of 93rd Street, Block 9036, Lot 3, Woodhaven, Borough of Queens.

APPEARANCES—

For Applicant: Mario A. Tucciarone.

For Opposition: Elizabeth Nolan and Dorothy Coney.

ACTION OF BOARD—Laid over to November 18, 1958, at 10 A.M. for inspection and decision; hearing closed.

417-58-BZ

APPLICANT—Fred C. Dahlem, for Sidjack Realty Corp., owner.

SUBJECT—Application July 9, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, the maintenance of a parking lot for more than five (5) cars.

PREMISES AFFECTED—2333-2339 Cambreleng Avenue, west side, 109.14 feet south of Crescent Avenue, Block 3088, Lot 27, Borough of The Bronx.

APPEARANCES—

For Applicant: Fred C. Dahlem, Harry Kobrin and Harry Appleman.

For Opposition: Edward De Martin.

ACTION OF BOARD—Laid over to November 18, 1958, at 10 A.M. for inspection and decision; hearing closed.

69-58-BZ

APPLICANT—Leonard F. Rothkrug, for Shenbro Realty Corp., owner; Sol Dwork, lessee.

SUBJECT—Application February 11, 1958—decision of the Borough Superintendent, under section 7e of the Zoning Resolution, to permit in a residence use district, the maintenance of one apartment on the ground floor of a multiple dwelling as a clinical laboratory for a term of ten (10) years.

PREMISES AFFECTED—1686 Grand Boulevard and Concourse, northeast corner of East 173rd Street, Block 2823, Lot 36, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application withdrawn to comply at request of applicant.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Foley and Commissioner Sleeper 3
Negative: 0
Absent: Vice Chairman Keating and Commissioner Kleinert 2

426-31-BZ—Vol. II

APPLICANT—Leonard F. Rothkrug, for Louis Richman, owner; Ceramic Auto Body Co., lessee.

SUBJECT—Application reopened January 28, 1958 as Vol. II—decision of the Borough Superintendent, under section

MINUTES

7i of the Zoning Resolution, to permit in a business use district, the change in occupancy from storage garage for more than five (5) cars, automobile repairs in connection with the public garage and gasoline service station, all previously granted by the Board, to motor vehicle repair shop, collision repairs, auto painting and spraying and parking of cars awaiting servicing for a temporary term of ten (10) years.

PREMISES AFFECTED—2312-2316 Atlantic Avenue, south side, 79 feet 11 inches west of Eastern Parkway, Block 1435, Lot 36, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WEREAS, this application was reopened as Vol. II on January 28, 1958 subject to regular procedure; and

WEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; and

WEREAS, the district maps accompanying the Zoning Resolution show that the site, Atlantic Avenue, Pacific Street, Eastern Parkway and Rockaway Avenue are in a business use, C area, class 1 height district; and

WEREAS, the decision of the Borough Superintendent, dated December 30, 1957 acting on Alt. Applic. No. 4062-57, reads:

"1. Proposed change of occupancy, in a Business Zone, to motor vehicle repair shop, collision repairs, welding, painting and spraying, parking of cars awaiting service on unbuilt portion of the premises, is contrary to Art. II PP. 4a, subsection 4(29) of the Zoning Resolution.

Note: Premises were subject of the B.S.A. variance under Cal. #841-19-BZ."

and

WEREAS, the applicant states that the premises consist of a plot, 70 feet 1 inch frontage by 100 feet in depth, erected as a public garage and altered for use as a public garage for more than five motor vehicles, motor vehicle repair shop in connection with public garage, and gasoline service station; that it is proposed to occupy the premises as a motor vehicle repair shop, with collision repairs, auto painting and spraying and parking of cars awaiting servicing; and

WEREAS, the applicant states that these premises were first considered by the Board as a vacant lot under Cal. No. 841-19-BZ, under which application the Board permitted the erection of a public garage for more than five cars, covering the entire plot; that the garage was erected in accordance with the Resolution of the Board; that subsequently, the Board considered the premises under Cal. No. 488-29-BZ which the records indicate was filed to legalize the then existing use of the garage building as two separate motor vehicle repair shops; that the application was withdrawn on December 10, 1929 and Certificate of Occupancy No. 59625 was issued by the Department of Buildings on February 21, 1930 for occupancy of the premises as a public garage for more than five cars, and automobile repairs in connection with public garage—subject to B.Z. Res. 841-19; manual labor employed in auto repairs only; no power driven machinery other than one 2½ H.P. electric drill; no open flames, forge or anvil; and

WEREAS, the applicant further states that the Board next considered these premises under Cal. No. 426-31-BZ which was an application under Section 21, to permit in a business use district the alteration of a garage for the storage of more than five motor vehicles and also the installation of a gasoline service station; that this last application was granted by the Board on May 17, 1932 and the garage build-

ing was altered by removing the front wall back 17 feet 6 inches from the building line, and establishing a gasoline service station; and

WEREAS, the applicant contends that the present tenant has occupied the premises substantially as proposed herein since October, 1956; that the outside gasoline pumps have been removed and the gasoline storage tanks have been closed and sealed; that the unbuilt upon portion at the front, 17 feet 6 inches by 70 feet 1 inch, formerly used for the gasoline service station area, is now used for the parking of cars awaiting servicing; that the tenant intends at some future date to make application to restore this portion of the building, demolished for gasoline service station use; that a grant of the variance will not adversely affect the surrounding area; that the Board, under Cal. No. 426-31-BZ, granted a gas station use on the front 17 feet 6 inches; that it is doubtful that with the increased traffic problems presently existing on Atlantic Avenue, that a present-day Board of Standards and Appeals would grant such a use on an interior plot of 70 feet frontage; that the records of the Board reveal that in 1931 many of the surrounding owners consented to the gasoline service station, including the owners directly adjoining to the east and west in block 1435, lots 35 and 40; that these adjoining properties would be benefited by removal of the gasoline service station use; and

WEREAS, the applicant further contends that the premises cannot be economically used for the garage use originally granted by the Board; that the economic status of the community has changed since the building was erected and no longer can support a private garage; that the records of the Department of Buildings and the Board show that these premises have been used for auto repair shop uses since the 1920's; that the proposed auto repair shop use with special emphasis on auto painting is merely a modern day extension of the older repair shop uses; that there are no openings along the rear or side lot line walls, so that there is no adverse effect on these adjoining properties; that it is not proposed to increase or change the curb cuts; that the proposed use is more desirable on these premises than a conforming factory use, which would bring necessary loading and unloading to an extraordinarily heavy traffic avenue; that the proposed use is of the same nature as a conforming use, such as manufacturing of metal products with painting and spraying; and

WEREAS, the applicant states that the present owner has held title to the property since October 31, 1957; that the assessed valuation of land is \$10,500 and of the building \$15,500 making a total of \$26,000; that the building was erected in 1920; and

WEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7i for a term of ten years, to permit the lawfully existing storage garage to be occupied also for motor vehicle repairs, including collision repairs, auto painting and spraying, as proposed and indicated on plans filed with this application, marked "Received December 30, 1957", 4 sheets, *on condition* that the building shall not be increased in height or area; that the building shall comply with all other requirements applicable thereto; that the exhaust stack above the roof for exhausting fumes from the spraying and paint use shall be extended at least ten feet in height so as to be well above the parapet of the adjoining building on Lot 35; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the outside gasoline pumps which have been removed and their tanks sealed shall not be reinstated; and that all permits required and a new Certificate of Occupancy shall be obtained and all work completed within six months from the date of this resolution.

MINUTES

91-41-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober for Getty Realty Corporation, owner; Broadcast Associates, lessee of roof space.

SUBJECT—Application reopened June 17, 1958 as Vol. II—decision of the Borough Superintendent under section 7e of the Zoning Resolution, to permit in a residence use district, the increase in the number of broadcasting stations from one to two stations and extend the term of the variance, previously granted, for a term of five (5) years.

PREMISES AFFECTED—2-6 East 61st Street and 795-798 Fifth Avenue, southeast corner, Block 1375, Lot 67, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

ACTION OF BOARD—Resolution amended and term extended.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 17, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, B area, class 1½ height district; Fifth Avenue and East 61st Street are in residence and restricted retail use, B area, class 1½ height districts; Madison Avenue and East 60th Street are in a restricted retail use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 2, 1958 acting on amendment to Alt. Applic. No. 1137-41, reads:

"1. Use of top story and roof for a radio television broadcast transmitting station and antenna in a residential use district beyond March 4, 1952 limit granted by Bd. of Standards and Appeals under Cal. No. 91-41-BZ contrary to Sec. 3 Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet 5 inches frontage by 270 feet in depth, presently developed with a 41 story fireproof hotel, radio and television broadcasting transmitting station and a roof antenna; that it is proposed to extend the use to include two broadcasting stations and extend the variance granted under Vol. I, for a temporary period of five years; that the two broadcasting stations in question are known as WBAI-FM and WNCN-FM; and

WHEREAS, the applicant states that the present building was erected under N.B. Applic. No. 71 of 1929; that the building was last altered in 1947 under Alt. Applic. No. 2181-47 and Certificate of Occupancy No. 37580 was issued for use as a hotel; that the present broadcasting antenna and one of the two broadcasting stations were installed under Alt. Applic. No. 1137-41 and Cal. No. 91-41-BZ; that the last two years term of variance granted by the Board for the use of the antenna and one broadcasting station expired April 2, 1948, and the stations and antenna are now being used without a permit, and are illegal; and

WHEREAS, the applicant contends that the maintenance of the present roof antenna and the two broadcasting stations on the same floor with house tank and elevator machine room will not have an adverse effect upon any of the adjoining property owners, inasmuch as there will be no entertainers, actors, speakers, etc. entering the Hotel Pierre premises, and there will be no signs or advertising of any nature to indicate the use of the tower for the purpose herein requested; and

WHEREAS, the applicant states that the present owner has held title to the property since October 21, 1938; that the assessed valuation of land is \$1,550,000 and of the building \$3,600,000 making a total of \$5,150,000; that the building was erected in 1929.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 24, 1941, and as thereafter amended through March 23, 1948, by adding thereto:

"that the premises may be occupied by Broadcast Associates for existing station and additional station both using the same mast, and to permit the use of two stations for an additional term of 5 years from the date of this amended resolution on condition that the general requirements of the resolution stated above shall be complied with, and as shown on plans filed with this application marked, 'Received May 23, 1958,' 8 sheets, and 'September 22, 1958,' 4 sheets; that all permits shall be obtained and all work completed and new certificate of occupancy obtained within six months."

256-45-BZ—Vol. II

APPLICANT—Leonard F. Rothkrug, for Angelo, Sebastiano and Giuseppe Rodolico and Vincenzo Bongiorno, owners; Aluminum Fabricators, Inc., lessee.

SUBJECT—Application reopened September 30, 1958 for consideration as to extension of time to complete—expired May 13, 1958—decision of the Borough Superintendent, previously granted on condition, under section 7e of the Zoning Resolution, permitting in a local retail and residence use district, the change in use from garage for more than five (5) motor vehicles, to manufacturing and storage of aluminum building products for a term of ten (10) years.

PREMISES AFFECTED—1736 Pacific Street, south side, 75 feet west of Utica Avenue, Block 1342, Lot 40, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, on November 13, 1957, this application, Vol. II, was granted by the Board on certain conditions, under Section 7e of the Zoning Resolution, to permit in a local retail and residence use district, the change in use from garage for more than five (5) motor automobiles, to manufacturing and storage of aluminum building products, for a term of ten years—office, garage, auto painting and body and fender repairs, previously granted, having expired—affecting premises 1736 Pacific Street, south side, 75 feet west of Utica Avenue, Block 1342, Lot 40, Borough of Brooklyn; and

WHEREAS, the applicant requested reopening of this application and extension of time to obtain permits and complete the work, which had expired by time limitation; and

WHEREAS, this application was reopened on September 30, 1958 and set for hearing on October 28, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin as notice; and

WHEREAS, the decision of the Borough Superintendent, dated July 30, 1958 acting on Alt. Applic. No. 546-57, reads:

"1. The time limit specified in the resolution of the Board of Standards and Appeals, #256-45-BZ has expired. Therefore—

"The proposed change in use from public garage to

MINUTES

factory for the manufacturing and storage of aluminum products partly in a local retail and partly in a residence use district is contrary to the Zoning Res. Art. II Sect. 4-c and Sect. 3."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 13, 1945, and as thereafter amended on November 13, 1957, shall be amended only so far as it has reference to obtaining permits, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

1070-47-BZ

APPLICANT—Skyline Collision Inc., lessee, for Josephine Stock, owner.

SUBJECT—Application reopened September 30, 1958 for consideration as to extension of time to complete—expired March 19, 1951 and to obtain Certificate of Occupancy—decision of the Borough Superintendent, previously granted on condition, under section 7i of the Zoning Resolution, permitting in a business use district, the change in occupancy from auto body painting, to auto body painting, body and fender repair work and welding and spraying.

PREMISES AFFECTED—389-391 4th Avenue and 266-274 6th Street, southeast corner, Block 993, Lot 7, Borough of Brooklyn.

APPEARANCES—

For Applicant: James Malezynoki.

For Opposition: None.

ACTION OF BOARD—Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, on June 8, 1948 this application was granted by the Board on certain conditions, under Section 7c of the Zoning Resolution, to permit in a business use district the change in occupancy from auto body painting, to auto body painting, body and fender repair work, welding and spraying, affecting premises 389-391 Fourth Avenue and 266-274 Sixth Street, southeast corner, Block 993, Lot 7, Borough Brooklyn; and

WHEREAS, the applicant requested reopening of this application and extension of time to obtain permits and complete the work, which had expired by time limitation on March 19, 1951; and

WHEREAS, this application was reopened on September 30, 1958 and set for hearing on October 28, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin as notice; and

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated August 4, 1958 acting on amendment to Alt. Applic. No. 4268-47, reads:

"1. As the time for completion of the work has expired as per Bd. of Standards and Appeals Resolution under Cal. #1070-47-BZ, proposed extension of time is referred to the Bd. of Standards and Appeals for consideration."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 18, 1948, only so far as it has reference to obtaining permits and completion of the work, so that as amended this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution."

286-52-BZ—Vol. II

APPLICANT—Larry Meltzer, for Castdell Realty Corp., and Adelaide Langenakens, owners; Henry and Edward Rosenfeld, lessee.

SUBJECT—Application reopened March 4, 1958 as Vol. II—decision of the Borough Superintendent, under section 7c of the Zoning Resolution, to permit in a local retail use district, the combining of two (2) adjoining gasoline service stations and the reconstruction of the accessory building along the rear lot line and to retain the conjunctive uses of lubritorium, office, sale of auto parts and to extend the uses to include minor auto repairs with hand tools only and the parking of cars awaiting service.

PREMISES AFFECTED—7202-7206 7th Avenue and 682-690 72nd Street, southwest corner, Block 5911, Lots 43 and 44, Borough of Brooklyn.

APPEARANCES—

For Applicant: Larry Meltzer.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on March 4, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a local retail use, C area, class 1 height district; 72nd Street and Seventh Avenue are in local retail and residence use, C area, class 1 height districts; 73rd Street and Sixth Avenue are in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated January 15, 1958 acting on Alt. Applic. No. 3888-57, reads:

"1. Proposed reconstruction of the accessory building of the existing gasoline station and the consolidation of the two stations into a single gasoline service station, lubritorium, office, sales of auto parts and to change the occupancy to include minor repairs with hand tools only and parking of cars awaiting service, in a Local Retail Zone, is contrary to Art. II pp. 4-c & 6 of the Zoning Resolution.

Note—Premises were subject of the Bd. of Standards & Appeals Variance under Cal. #286-52-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 64 feet 3¾ inches frontage by 89 feet 8 inches in depth; that this plot lies in block 5911, lot 43, which is the corner lot, and lot 44, which is the interior lot; that on lot 43, a gas station was established under N.B. Applic. No. 6830-23; that Fire Department plans No. 705-23 and No. 744-23 were approved for underground gasoline tanks and Fire Department operating permits were issued August 3, 1923; that on lot 44, a gas station was established under Fire Department Plan No. 1088-24, approved June 20, 1924, which authorized the installation of underground gasoline storage tanks; that in 1932, plans were filed and approved in the Building Department under Permit No. 9115-32, combining the two gas stations and authorizing the construction and use of an accessory building, for which Certificate of Occupancy No. 70741 was issued; that the Board, on July 25, 1952 under Cal. No. 286-52-BZ, granted a variance permitting the separation of the two stations and the reconstruction of the gas station and accessory building on the corner lot—Lot 43—under N.B. Applic. No. 362/52, for which Certificate of Occupancy No. 134834 was issued; that under Alt. Applic. No. 682-57, Certificate of Occupancy No. 157665 was issued for the gas station on lot 44; and

WHEREAS, the applicant states that it is proposed to re-

MINUTES

construct the accessory buildings along the rear of the plot by constructing a modern extension with face brick, to correspond with the face brick of the newly erected corner building; that it is also proposed to relocate the gasoline pumps and to re-pave the combined station; that this will improve the appearance as well as the function as a modern gasoline service station; that it is also proposed to restore and reconstruct the curb along Seventh Avenue as shown on plans; and

WHEREAS, the applicant further states that Mr. Edward Rosenfeld, who is a long term lessee of lot No. 43, the corner lot, and is a conditional contract purchaser of lot No. 44, the interior lot, proposes to combine the two plots and reconstruct the accessory building as shown on plans marked "Proposed Conditions"; that Mr. Rosenfeld, who has been operating these gas stations since 1946, both combined and separately, now proposes to again operate it as a combined station; and

WHEREAS, the applicant contends that the proposed changes will enhance the appearance of the corner and will not adversely affect the adjoining owners, as the site abuts a factory and sawmill on 72nd Street, and the abutting building on Seventh Avenue has an unpierced wall; that the present owner of lot 44 has found it impossible to successfully operate this interior gas station since the separation into two gas stations, and the erection of the masonry fence wall; that the combining of these two stations would be advantageous to the character of the neighborhood and would improve traffic conditions around the station; and

WHEREAS, the applicant states that the present owners have held title to the property since September 25, 1951 and August 17, 1945; that the assessed valuation of land is \$14,500 and of the buildings \$8,000 making a total of \$22,500; that the buildings were erected in 1932 and 1953; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted to permit the two stations formerly granted by the Board to be consolidated into one station, as proposed.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 25, 1952, by adding thereto:

"that in the event it is desired to incorporate this station with the adjoining gasoline station on Lot 44, substantially as proposed and indicated on plans filed with this application, marked 'Received February 5, 1958', 5 sheets, such consolidation may be permitted as indicated on such plans, *on condition* that the accessory building shall be of the design and location shown and in all other respects shall comply with the requirements of the Building Code and shall have no cellar; that there shall be no openings in the rear or side walls of such building at the south, opening upon adjoining properties; that pumps shall be of the low approved type, erected not nearer than 15 feet to the street building line of Seventh Avenue; that the number of gasoline storage tanks shall not exceed the existing six tanks and two additional tanks, all of approved type; that the balance of the premises shall be paved with concrete or asphalt; that sidewalks and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that curb cuts shall consist of those now existing on Seventh Avenue, one 25 feet in width and one 19 feet in width and two on 72nd Street, one 13 feet wide and one 14 feet wide, except that no curb cut shall be nearer than five feet to a building line as prolonged; that at the intersection there shall be maintained a block of concrete not less than 12 inches in height, extending for not less than 5 feet along each street from the intersection; that signs shall be restricted to permanent signs attached to the facade facing Seventh Avenue and to the illuminated globes of the pumps, excluding all roof signs, temporary signs and advertising devices, but permitting the erection at the intersection of a post standard for supporting a sign,

which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign to extend not more than 4 feet beyond the building line; that where the existing accessory building is removed from the wall of the adjoining building on Lot 46, such wall shall be parged with cement stucco on the exposed wall; and across the rear yard of such lot there shall be erected a masonry wall not less than 6 feet in height extending to the wall of the proposed accessory building; that under Section 7i there may be minor repairing with hand tools only for adjustments, maintained solely in the accessory building; that under Section 7c there may be parking of cars awaiting service; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

625-53-BZ—Vol. II

APPLICANT—James E. Vassalotti, for Vellodrome Gas Station, Inc., owner.

SUBJECT—Application reopened January 29, 1957 as Vol. II—decision of the Borough Superintendent, under Sections 7f, 7e and 7i of the Zoning Resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, minor auto repairs, office, parking and storage of motor vehicles for a stated term of fifteen (15) years.

PREMISES AFFECTED—1043-1059 McDonald Avenue and 101-111 Foster Avenue, northwest corner, Block 5426, Lots 1 and 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred Lama and R. S. Hardy.

For Opposition: Sam Rubin.

ACTION OF BOARD—Application granted on condition.

THE VOTE OF OCTOBER 15, 1958—

Affirmative: Commissioner Kleinert and Commissioner

Foley 2

Negative: Chairman Murdock and Commissioner Sleeper 2

Absent: Vice-Chairman Keating 1

THE VOTE OF OCTOBER 28, 1958—

Affirmative: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 29, 1957 subject to regular procedure, to consider a new proposal and larger area; and

WHEREAS, a public hearing was held on this application on June 25, 1957 after due notice by publication in the Bulletin; laid over, date to be determined; hearing closed; to await trial of two nearby applications subject to writs of certiorari; now set for June 24, 1958; then laid over to July 1, 1958; then to September 17, 1958, for new hearing; applicant to send notices by regular mail; then to September 30, 1958, for inspection and decision; hearing closed; then to October 15, 1958, for further consideration and decision; laid over for vote of the full Board; date to be set; hearing previously closed; then to October 28, 1958; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, McDonald Avenue and Foster Avenue are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated December 4, 1956 acting on N.B. Applic. 2086-56, reads:

"1. Proposed gasoline service station, lubritorium, minor auto repairs, car washing, storage, office, parking and storage of motor vehicles in a Business Use District is contrary to Art. II, PP. 4(a) Subsections 29 & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 137 foot 4¼ inch frontage by 104 feet 7¼ inches, irregular in depth, presently developed with a two story frame dwelling having a frontage of 19 feet 11 inches

MINUTES

and a depth of 43 feet 6 inches; that building department records indicate Alt. Applic. 2969 of 1948 calling for a one family dwelling; that the premises are also occupied by a one story frame office having a frontage of 15 feet 2 inches, a depth of 38 feet 4½ inches, and records indicate Alt. Applic. 5909 of 1926 calling for a "club" use; that the present one car garage erected of concrete blocks, having a frontage of 11 feet ½ inches, a depth of 20 feet 10 inches, was erected under N.B. 136 of 1947; that no certificates of occupancy have been issued for any of the three buildings; that it is proposed to demolish all of the present buildings now on the site and to erect and maintain, for a period of fifteen years, a modern gasoline service station consisting of ten 550 gallon gasoline storage tanks and nine dispensing pumps; that the proposed accessory building of modern design with brick facades will be one story in height of class 3 construction, with a frontage of 70 feet ½ inches, a depth of 30 feet, and will contain the conjunctive uses of car wash, lubritorium, minor auto repairs, office and storage space; that adequate space will be reserved for the parking of cars awaiting service and the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the highly modern design of the building will help improve the appearance of the community and point the way for future rehabilitation required in this generally run down area; that although McDonald Avenue is zoned for business use, it has not developed along these lines as there are many non-conforming uses in the affected area; that in addition to the non-conforming uses, the railroad in the open cut in block 5457, lot 67 and block 6499, lot 22 and the overhead railroad on McDonald Avenue and the fire house in block 6499, lot 11, certainly are not conducive to business development in the area and on the site in particular; that in addition, McDonald Avenue and Foster Avenue are main auto lanes leading across Brooklyn; that this part of McDonald Avenue will never develop as a shopping center due to the above facts and therefore to develop the site as proposed would be the only feasible development; and

WHEREAS, the applicant states that the present owner has held title to lot 1 since May 13, 1956 and to lot 5 since August 16, 1956; that the assessed valuation of land is \$12,100 and of the building \$3,300 making a total of \$15,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, this matter was laid over for full vote of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be occupied by a gasoline service station and uses legally accessory thereto substantially as proposed and as indicated on plans filed with this application marked "Received January 2, 1957," 4 sheets, *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be constructed and arranged as indicated upon such plans; that the accessory building shall be of the design and arrangement and location as indicated thereon, faced with face brick on the front and on the side to the east; that from the accessory building to the Foster Avenue building line there shall be erected and maintained a woven wire fence of the chain link type on a masonry base to a total height of not less than five feet six inches with suitable masonry terminating post at the building line of Foster Avenue; that a similar fence shall be erected to the west, north and east of the section of the premises at the rear which may be used for the parking of cars awaiting service enterable only through the accessory building; that pumps shall be of a low approved type erected and maintained not less than fifteen feet from the

street building line; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that curb cuts shall be restricted to three curb cuts each thirty feet in width to McDonald Avenue and two each twenty feet in width to Foster Avenue; that sidewalks and curbing abutting the premises on McDonald Avenue and Foster Avenue shall be reconstructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i, for a similar term, there may be minor repairs with hand tools only for the adjustments maintained solely within the accessory building; that under Section 7e, for a similar term, there may be parking and storage of motor vehicles providing such parking and storage is maintained where there will be no interference with the servicing of the station; that during the term of this variance the premises shall be occupied for no other use than as herein permitted; that signs shall be restricted to permanent signs attached to the facade of the accessory building facing McDonald Avenue and to the illuminated globes of the pumps excluding all roof signs and temporary signs and advertising devices but permitting the erection within the intersection of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line, at right angles to McDonald Avenue, for a distance of not more than four feet; that under Section 7i for a similar term there may be minor repairing for adjustments with hand tools only, maintained solely in the accessory building; that under 7h for a similar term there may be parking and storage of motor vehicles carried on where such will not interfere with the servicing of the station; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

906-55-BZ

APPLICANT—Simeon Heller, for Louis and Rhoda Appel, owners.

SUBJECT—Application November 14, 1955—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in a G-1 area district, the erection of a second floor addition on an existing one story masonry extension to a two-story frame dwelling with less than the required distance from the rear lot line.

PREMISES AFFECTED—33-03 Parsons Boulevard, southeast corner of 33rd Avenue, Block 4982, Lot 16, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: George J. Meltzer.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 21, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for hearing, applicant to comply with requirements as to notice to owners in area of notification; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and 33rd Avenue are in a residence use, G-1 area, class ½ height district; Parsons Boulevard and 145th Street are in a residence use, G-1 and D area, class ½ and class ¾ height district; 34th Avenue is in a residence use, D area, class ¾ height district; that the use and height district designations have remained unchanged since July 25, 1916, but the area district designation was changed from D to G-1 area district on July 20, 1950; and

WHEREAS, the decision of the Borough Superintendent,

MINUTES

dated October 25, 1955, acting on Alt. Applic. No. 1199-55, reads:

"1. In a G-1 area district no portion of any building may be erected closer than 20 ft. from the rear lot line. Sec. 16C Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 feet frontage by 100.04 feet in depth, improved with a two story and attic frame, one family dwelling, erected under the N.B. Applic. No. 1570-16, approximately 44 feet 4 inches wide and 30 feet deep, and a one story masonry extension approximately 22 feet 4 inches by 23 feet 6 inches, for use as a doctor's offices and waiting room, erected under Alt. Applic. No. 331-46; that this last alteration was originally designed to be a two story extension, but due to a lack of funds and shortage of building materials at that time, the second story portion was temporarily omitted; that subsequently the zone was changed from D to G-1, prohibiting any such future work; and

WHEREAS, the applicant states that the premises are owned by a physician and his wife; that they have resided, and the physician has had his offices there, since early 1941; that during these years the doctor's family has increased in size, therefore necessitating the enlarging of the residence portion of this building; and

WHEREAS, the applicant contends that the property is a corner plot; that lot 14 of block 4982, immediately to the south, is deeper than the premises for which this appeal has been made; that lot 18 of block 4982, immediately to the east, faces 33rd Avenue and its rear yard is beyond this property; that it is therefore felt that any problems of light and air caused by this extension would be eliminated by the unusual shape of the adjacent property; that as the new extension is only on the second floor, above a portion of the existing one story extension, and will only project beyond the existing building by four feet, very little of the light and air of the adjoining properties would be cut off; and

WHEREAS, the applicant further contends that the chief problem arises from the fact that the house, instead of being set at 20 feet from the street as required by the most restrictive zoning, is actually set back 50 feet from Parsons Boulevard; with the house toward the rear of the lot and this has created the problem on which this appeal is based; that there is no increase in area of the structure at ground level; that under the zoning law up to 1950, this second story extension was permitted; and

WHEREAS, the applicant states that the present owners have held title to the property since April, 1941; that the assessed valuation of land is \$5,400 and of the building \$11,100 making a total of \$16,500; that the building was erected in 1916; and

WHEREAS, the applicant states that the proposed extension to the second story is to provide an additional bedroom and not a recreation room as stated; that the existing rear garden at grade will not be reduced, and remain as approved under Alt. Application 331-46; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of a Zoning Resolution and that the application be and it hereby is *granted* under Section 21 to permit the extension of the portion of the second floor as proposed and as shown on plans filed with this application marked, "Received November 14, 1955", 1 sheet, "May 16, 1958," 6 sheets, and "September 29, 1958," 1 sheet, *on condition* that the building shall not be further increased in height or area; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue only as long as this building is occupied as proposed; and that all permits shall be obtained and all work com-

pleted within the requirements of Section 22A of the Zoning Resolution, and a new Certificate of Occupancy obtained.

374-57-BZ

APPLICANT—Roe and Kramer, for Olga B. Nielsen, owner; Research Animals Inc., under contract to purchase.

SUBJECT—Application May 6, 1957—decision of the Borough Superintendent—under section 7c and 7e of the Zoning Resolution to permit in a residence use district, the change in use of an existing building from office, storage of canned goods and three (3) car garage, to office, breeding of animals for research purposes and three (3) car garage.

PREMISES AFFECTED—44-01 52nd Avenue, northeast corner of 44th Street, Block 2533, Lots 40 and 44, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: P. Milchman.

For Opposition: A. Narton.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 6, 1958 after due notice by publication in the Bulletin; laid over to May 13, 1958, for applicant to inform the Board of name of tenant and manufacturing use proposed; then to June 10, 1958, at the request of the applicant; then to September 17, 1958, for further hearing; applicant to advise type of occupancy proposed and name of tenant; then to September 30, 1958, for inspection and decision; hearing closed; then to October 15, 1958, to permit inspection of site of present operations in Manhattan at No. 252 West 69th Street, for inspection and decision; then to October 28, 1958, for applicant to submit revised plans; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, C area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated September 5, 1958 acting on amendment to Alt. Applic. No. 2738-56, reads:

"1. The proposed change in use from office, storage of canned goods and 3-car garage to office, breeding of animals for research purposes and 3-car garage of a building located in a residence use district is contrary to Art. 2, Sec. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 88.03 feet frontage by 83 feet in depth, with a series of buildings thereon as follows: the corner building—a one story brick factory type structure; the building contiguous to it to the east—a one story metal covered factory building; the building contiguous to the last mentioned building—a one story attic frame dwelling; that immediately to the north of the one story, metal covered factory building, is another one story frame factory building; that it is proposed to utilize this site for the breeding of animals for research purposes, which will not be noxious nor destructive of the general tenor of this area; and

WHEREAS, the applicant states that these properties have been in the same ownership for many years past and had been utilized as a manufacturing plant for canned dog foods; that the corner brick building was the main site of the operation and the use thereof was discontinued several years ago due to the physical incapacity of the owner; that the owner is under contract to sell the premises to Research Animals, Inc.; that the purchaser has contracts with the City of New York and with hospitals and other research organizations to supply animals for experimental purposes; that their contract with the City of New York is to supply animals to the City's hospitals for the year 1958-1959; that in addition, practically every private hospital in the Borough

MINUTES

of Manhattan utilizes the services of the purchaser, together with Fordham, Cornell and Columbia Universities and Veterans Administration hospitals in New York, Maryland and Puerto Rico; and

WHEREAS, the applicant contends that the purchaser is presently occupying premises in the area of Lincoln Square Slum Clearance project and will have to vacate because of same; that it is manifest that there are few places available that are as ideally suited to the purchaser's business as the subject premises; that the use proposed by the purchaser will in no way be noxious nor destructive of the general tenor of this area, and it will certainly be less noxious than the kennels and cannery business that was maintained by the owner for many years; that it would seem in all fairness and equity that the owner should not be required to continue the payment of taxes and carrying charges on a parcel of real estate which is presently deprived of its utility by a zoning regulation which does not take into consideration the highest and best use of the parcel; and

WHEREAS, the applicant states that the present owner has held title to the property since January, 1941; that the assessed valuation of land is \$2,350 and of the buildings \$10,150 making a total of \$12,500; that the buildings were erected in 1942; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, and the applicant also filed revised plans showing what was suggested by the Board, but after full discussion the Committee concluded that the application should not be granted; and the Committee also inspected the present location on West 69th Street; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions c and e of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Applic. 2738-56, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

799-57-BZ

APPLICANT—Leonard F. Rothkrug, for Pauline Farber, owner.

SUBJECT—Application November 6, 1957—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in an E-1 area district, the change in occupancy from dwelling for two families and doctor's office to a dwelling for three families.

PREMISES AFFECTED—1588 Carroll Street, south side, 225 feet west of Schenectady Avenue, Block 1413, Lot 28, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Schenectady Avenue are in a residence use, E-1 area, class 1 height district; Carroll Street and Crown Street are in retail and residence use; E-1 and C area, class 1 height districts; Troy Avenue is in a retail use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated October 29, 1957 acting on Alt. Applic. No. 1181-57, reads:

"1. Proposed change in occupancy from two to three families in building located in an E-1 District is con-

trary to Article IV Section 15A(a) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage by 127 feet 9 inches in depth, on which is located a two story and basement building, 20 feet 3 inches front by 117 feet 8 inches in depth, irregular in area, erected in 1922 and occupied in 1935 as dwellings for two families and doctor's office; that it is proposed to maintain the change in occupancy to dwellings for three families without further alteration or extension of the building; and

WHEREAS, the applicant states that the subject building was erected under Permit No. 3990-22 as one of a group of ten buildings—Lots 24 through 33—all two family houses, with one family on each floor; that Certificate of Occupancy No. 16052 was issued November 10, 1922 after completion of work; that the subject building was altered under Alt. Applic. No. 6100-35 for occupancy as follows: cellar—ordinary use; first floor—one family and doctor's office; second floor—one family; that the building was occupied by a doctor and two families until about 1941; that the present owner purchased the building on July 26, 1943, at which time it was occupied by three families, substantially as proposed; that the three family occupancy has been registered with the New York City Rent Commission since that period and has been occupied by three families continuously from 1941 to the present date; that the proposed three family occupancy is permitted in a C area district; that this lot was in a C area district in 1943 when the premises was purchased by this owner; that the alteration and change in occupancy from two families and doctor's office to three families was completed prior to the time this owner purchased the premises; and

WHEREAS, the applicant states that the present owner purchased the building without knowledge of the fact that a new Certificate of Occupancy was required; that it appears from the arrangement of the two apartments on the first floor that when the doctor vacated the premises, his offices were converted to an apartment; that if the present owner had been aware that the three family occupancy was not the same as the two family and doctor's office occupancy as permitted under the Certificate of Occupancy, then the three family occupancy could have been legalized without this application to the Board at any time until December 29, 1955; that the area district was changed from C to E-1 on December 29, 1955 and at any time prior to that date the owner could have obtained a new Certificate of Occupancy by merely applying to the Department of Buildings; that however, no violation was ever issued against the building, and the owner had no notice that the occupancy was not as permitted under the Certificate of Occupancy in force; and

WHEREAS, the applicant contends that the records of the Department of Buildings show that the adjoining building, known as 1590 Carroll Street in Block 1413, Lot 28, which was erected at the same time as the subject building, was altered for three family occupancy and Certificate of Occupancy No. 113634 was issued January 25, 1946; that this adjoining building is presently occupied for three families in accordance with the Certificate of Occupancy; and

WHEREAS, the applicant further contends that a grant of the variance will not adversely affect any of the surrounding property owners; that most of these surrounding properties were purchased prior to December 29, 1955 when the area zoning permitted the three family occupancy, and when the subject building and the adjoining building were actually occupied by three families; that the subject premises is unique in that the depth of the lot is greater than the ordinary tax block; that this results from the easement driveway through the center of the tax block and the garages at the rear of the subject lot and the lot abutting to the south; that there will be no external alteration of the building, and no extension of the building, or diminution of existing yards and open spaces; that the building was purchased as a three family dwelling, and it would be an unnecessary hardship to require the alteration of the building

MINUTES

back to two family and doctor's office occupancy; and

WHEREAS, the applicant states that the present owner has held title to the property since July 26, 1943; that the assessed valuation of land is \$5,500 and of the building \$9,000 making a total of \$14,500; that the building was erected in 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted to permit the occupancy of the building by three families; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, to permit the increase in occupancy of the existing building from two to three families, as proposed and indicated on plans filed with this application, marked "Received November 6, 1957", 3 sheets, and "June 20, 1958", 1 sheet, *on condition* that in all other respects the building and occupancy shall comply with the requirements of the Building Code and the Multiple Dwelling Law and shall not be increased in height or area; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

973-57-BZ

APPLICANT—Bernard Segal for E. A. Stern, et al., Executors under will of Esther A. Hurwitz, deceased.

SUBJECT—Application December 2, 1957—decision of the Borough Superintendent, under Sections 7e, 7f, 7i and 7A of the Zoning Resolution, to permit in a retail and residence use district, the erection and maintenance of a gasoline service station, lubricatorium, motor vehicle repairs of minor adjustment with hand tools only, automatic auto laundry, simonizing room and parking of vehicles awaiting service.

PREMISES AFFECTED—60-04 Metropolitan Avenue and 62-30 to 62-40 60th Street, southwest corner, Block 3492 Lots 45, 46 and 47, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Bernard Segal and Herman Rogge.

For Opposition: Charles A. Heeg, Frank Poth and Richard George.

For Administration: John J. Saunders, Bd. of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Vice Chairman Keating, Commissioner Klei-
ert and Commissioner Foley 3

Negative: Chairman Murdock and Commissioner Sleeper 2

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on July 1, 1958 after due notice by publication in the Bulletin; and laid over to July 15, 1958, for inspection and decision; hearing closed; then to September 17, 1958, to await action of Local Board on widening of Metropolitan Avenue and extension of Greene Avenue and for decision; then to October 28, 1958, at request of objector, awaiting action of the Local Board; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Greene Avenue are in retail and residence use, C area, class 1 height districts; Metropolitan Avenue and 60th Street are in a retail use, C area, class 1 height district; that as of July 25, 1916 the portion of the property within 100 feet of Metropolitan Avenue was zoned as a business district and the remainder was zoned as a residential district; that the present use district boundaries became effective January 25, 1954; that the property is presently located within the district boundaries of a class 1 height district and a C area district; that the height and area district boundaries have not been changed since July 25, 1916

and no zoning amendment relating to this property is present; and

WHEREAS, the decision of the Borough Superintendent, dated November 7, 1957 acting on N.B. Applic. No. 3329-55, reads:

"2. The erection of a gasoline selling station, lubricatorium, motor vehicle repairs of minor adjustments with hand tools only, automatic auto laundry, simonizing room and parking of vehicles awaiting service on a lot in both a Retail Use District and a Residence Use District is contrary to Art. II Sec. 3 and Art. II Sec. 4-A of Zoning Resolution.

3. The location of a curb cut within 75' of a Residence is contrary to Art. II Sec. 7A of Zoning Resolution.

4. The erection of a ground sign in Residence and Retail zones is contrary to Art. II Sec. 3 and Art. II-4A of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 144.54 feet frontage by 90.83 feet and 144.98 feet in depth; that it is proposed to erect and maintain a new one story, class 3 structure as a gasoline selling and service station, together with an automatic laundry; and

WHEREAS, the applicant states that this parcel originally consisted of tax lots 30, 46 and 47 on the old tax map; that for the purpose of this petition it is necessary to discuss the acquisition of this parcel of land by the late Esther A. Hurwitz, who died in 1954, the present owners acquiring title under her Last Will and Testament which was probated in the County of Queens in said year; that the original parcel consisted of old tax lots 30, 46 and 47 which encompassed all of the present site, in addition to the new tax lot 30 and tax lot 33; that the late Esther A. Hurwitz acquired an undivided one half interest in old tax lot 30 and old tax lot 46 on August 1, 1927 and the other one half interest in said premises on May 1, 1928; that her late husband acquired old lot 47 on August 21, 1932; that he died on August 10, 1945, a resident of Queens County, and on said day title to lot 47 was vested in his widow, the late Esther A. Hurwitz; that thereafter on August 10, 1945 Esther A. Hurwitz became sole owner of old tax lots 30, 46 and 47; that these premises consisted of old law residences which were condemned by the City of New York in 1930 as unsafe and were demolished in that year by Court order; that since 1930, for 27 years, this property has remained vacant and unimproved and unproductive as to income except for a nominal \$60 per year derived from a sign thereon; that the present owners are the Executors and Trustees under the Last Will and Testament of the late Esther A. Hurwitz and they have conveyed a portion of lot 30 to a trucking corporation in May 1956 for truck parking; that as a result of this conveyance, this parcel was assigned new tax lot numbers, leaving the present owners with the ownership of lots 45, 46 and 47, the parcel involved in this application; that the original assessment on the whole parcel was in the sum of \$28,450 and the deceased and her executors have been required to, and have paid taxes for a continual period of 27 years, increasing the cost of this parcel to the owners each year; and

WHEREAS, the applicant further states that the Board of Estimate adopted for inclusion in the City Map on September 1943 under Cal. 19-A the extension of Greene Avenue as laid out on the proposed map #CP2282; that Greene Avenue intersects Forest Avenue at a distance approximately 289 feet from the southeasterly corner of Metropolitan and Forest Avenues; that this proposed extension, which runs to the south side of Metropolitan Avenue and on the westerly side of 60th Street, causes the site of the present owners to be located directly in the bed of the mapped street; that on two occasions, since the Board of Estimate adopted the extension of Greene Avenue in 1943, the Board of Estimate has considered proposals by the Queens Borough President to rescind the mapped change in Greene Avenue, by eliminating the lines of its extension of the City Map; that the first proposal was made by the Queens Borough

MINUTES

President in 1948 and again for the final time on May 24, 1951; that both of these proposals were disapproved by the Board; that upon the last occasion the City Planning Commission recommended that the Borough President of Queens be requested to initiate a proceeding for acquiring title to the private property required for the extension; that no such condemnation proceedings have ever been initiated and the owners are in possession of a letter from the Borough President of Queens that none is contemplated, nor will any be instituted by the City; that this obviously leaves the owners on the horns of a dilemma, as owners of approximately 16,276 square feet of space fronting on Metropolitan Avenue for which they are required to, and have for the past 27 years paid real estate taxes, with no end in sight to abate the unproductive condition; that to overcome this appalling and burdensome situation, the owners have entered into a conditional contract for the sale of this property, providing a permit can be obtained from this Board for the erection of a gasoline selling station, lubritorium, motor vehicle repairs with hand tools only, an automatic auto laundry, simonizing room and parking for vehicles awaiting service; that this is the first opportunity that the owners have had to negotiate a sale of this property, even on a conditional basis, since 1951; that in that year, a formal option to sell all of the property for a price in excess of the assessed value was entered into and a deposit paid thereunder with the understanding that the option would be taken up if the mapped street were changed; that the option was permitted to lapse when the 1951 proceeding for a change ended in failure; that thereafter, the owners entered into a lease arrangement with Milk-Maid Realty Corporation for a term of years and for which an application was made to this Board for a variance to permit the building of a retail ice cream store in the bed of the mapped street; that this variance was granted under Cal. No. 950-55-A; that unfortunately the lessee breached the lease in that they were unable to carry out the terms thereof, because of internal reasons in their own organization, leaving the original owners right back where they started; that by reason of all the foregoing, the parcel has failed to yield any return to the owners since 1927, with the exception of the \$60 annually for the sign hereinabove mentioned; that this property, although it has been on the market for sale for a great many years, has failed to produce any buyer other than the conditional buyer with whom the owners have made a conditional contract of sale hereinabove mentioned; that the granting of this variance will resolve a most unusual, oppressive and burdensome issue, with benefits to the original owner, the conditional purchaser and The City of New York; and

WHEREAS, the applicant contends that existing conditions fully warrant a granting of a variance; that the site is located along Metropolitan Avenue, which is a heavily travelled thoroughfare; that the owners are unable to find a prospective user of this site for any of the suitable and ordinary uses permitted in a retail district; that the site is located to the north of and contiguous to a truck parking lot running from 60th Street through Forest Avenue consisting of all of lot 30 on the tax map, making the site entirely unattractive for a use other than for which this instant application is being made; that the construction of the proposed gas station will not detract in any way from the aspects of the immediate neighborhood; that this neighborhood appears to have been developed generally with wood frame buildings which were built approximately 60 years ago; that the proposed gas station would be a service to the neighborhood and an additional service for automobile and vehicular traffic along Metropolitan Avenue which is an important artery servicing the Borough of Queens; and

WHEREAS, the applicant states that the present owners have held title to the property since August 1, 1927 and that the assessed valuation of land is \$14,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, consideration has been given to the proposed widening of Metropolitan Avenue and the extension of Greene Avenue across the premises and it was learned that

these proposals are not imminent and are dealt with under Calendar Number 950-55-A—Vol. II; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7f, for a term of fifteen years, to permit the premises to be occupied as proposed as gasoline service station and lawful uses accessory thereto, substantially as proposed and indicated on plans filed with this application marked, "Received December 2, 1957," 4 sheets, *on condition* that all buildings and uses now on the site shall be removed and the plot shall be leveled substantially to the grade of Metropolitan Avenue and 60th Street, and shall be constructed and arranged as indicated on plans above cited; that the accessory building shall be of the design and arrangement as indicated on such plans; that there shall be erected on the interior lot line to the south where the walls of the proposed automatic laundry do not exist, a masonry wall to a total height of 5 feet, 6 inches, continuously from 60th Street, including such wall of laundry, to the interior lot line; that from the intersection of the rear lot line, with the side lot line to the west, there shall be maintained a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 feet, 6 inches, with a suitable masonry terminating post at the present building line of Metropolitan Avenue; that otherwise the accessory building and laundry shall comply with the requirements of the Building Code; that there shall be no cellar under such building; that the building shall be faced on all sides with face brick; that pumps shall be of the low approved type, erected not nearer than 15 feet to the street building line of Metropolitan Avenue, where shown; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved gasoline storage tanks; that the balance of the plot, where not occupied by the accessory building and pumps shall be paved with concrete or asphaltic pavement; that the sidewalks and curbs abutting the premises shall be constructed, or repaired to the satisfaction of the Borough President; that entrances and exits shall be by means of curb cuts consisting of two, where shown, each 30 feet in width to Metropolitan Avenue and one of similar width to 60th Street and one opposite the automatic laundry entrance of 15 feet; that signs shall be restricted to the front facade of the building facing Metropolitan Avenue excluding all roof signs, temporary signs and advertising devices, but permitting the erection within the building line at the intersection of Metropolitan Avenue and Sixtieth Street of one post standard for supporting a sign which may advertise only the brand of gasoline on sale and may extend over the building line for a distance of not more than 4 feet; that under Section 7i, for a similar term there may be motor vehicle repairing maintained within the accessory building with hand tools only, for adjustment; that under Section 7e for a similar term there may be parking of motor vehicles on such location on the site as will not interfere with the servicing of the station; that under Section 7A, any signs or curb cuts deemed contrary thereto may be permitted as herein provided; that the space as mapped for proposed widening of Metropolitan Avenue may be used in connection with this building as herein shown, but in the event such portion of the premises is acquired by the City for the widening of Metropolitan Avenue, the compensation shall be as determined by the Court; that at the intersection of 60th Street and also the westerly lot line, there shall be maintained a block of concrete extending for a distance of not less than 5 feet along the building and side lot line, and not less than 12 inches in height; that on such concrete there may also be erected light standards for general illumination; that during the hours when the children are going to and from school, namely, 8:30 a.m. to 9 a.m., 12 noon to 1:00 p.m. and 3:00 p.m. to 3:30 p.m. there shall be an attendant at 60th Street side to warn such children against cars entering or leaving the gasoline service station; that such portable fire-fighting

MINUTES

appliances shall be maintained as the Fire Commissioner shall require; that during the term of this variance the premises shall be used for no other use than as herein permitted; that in all other respects all laws, rules and regulations applicable thereto shall be complied with other than as modified this day under Cal. No. 950-55-A; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

950-55-A—Vol. II

APPLICANT—Bernard Segal for E. A. Stern, et al., Executors under will of Esther A. Hurwitz, deceased, owner.

SUBJECT—Application reopened January 14, 1958 as Vol. II—filed pursuant to Section 35, of the General City Law re premises in bed of mapped street—proposed widening of Metropolitan Avenue and in the bed of Greene Avenue as proposed.

PREMISES AFFECTED—60-04 Metropolitan Avenue and 62-3J to 62-40 60th Street, southwest corner, Block 3492, Lots 45, 46 and 47, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Bernard Segal and Hermann Rogge.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 7, 1957 on amendment to N.B. Applic. 3329/55 reads:

"1. Secure approval of Board of Standards and Appeals for the erection of a structure in the bed of a mapped street.—Art. 3, Sec. 35, General City Law.

Note: Amendment is also contrary to Board of Standards and Appeals Resolution 950-55-A and is referred back to the Board for reconsideration."

and

WHEREAS, the applicant states that the plot is 144.54 feet front on Greene Avenue, 90.83 feet front on 60th Street, located in a retail and residence use, C area, class 1 height district, upon which is proposed to erect a one story building, 14 feet in height, 85 feet by 60 feet in area, and to be used and occupy the premises as a gasoline service station, lubritorium, motor vehicle repair shop, automatic automobile laundry, simonizing and the parking of motor vehicles awaiting service; and

WHEREAS, the applicant contends that the premises have been unimproved and unproductive of any return whatever for more than 17 years, except for a nominal return from a sign lease; that a substantial part of the premises lies within the bed of a mapped street, consisting of an extension of Greene Avenue and also within the map widening of Metropolitan Avenue; that the extension of Greene Avenue was laid out by a map adopted by the Board of Estimate September 9, 1943 and since then the Board of Estimate has considered proposals by the Borough President to rescind this map change and such proposals were disapproved by the Board; that no condemnation proceedings have been initiated and the owners have been advised by the Borough President that none is contemplated nor will any be instituted by the City; and

WHEREAS, the applicant states that under Calendar Number 950-55-A, Volume I, application was brought to the Board for permission to build in the bed of a mapped street and such application was granted June 19, 1956; that the lessee failed to enter into possession and erect the building permitted by the Board; that subsequently the owners entered into a conditional contract and the premises were sold on condition upon an application to the Board for a zoning variance, to permit the erection of gasoline service station, and other accessory uses herein described; and

WHEREAS, the applicant contends that the premises have been in the same interest since 1927 and have been unpro-

ductive since 1930 when the buildings were demolished as unsafe by Court Order; that not only are the premises unproductive but they constitute a continuing tax burden; that the owner has been unable to find a purchaser or lessee who would consummate a transaction while a mapped street remained a bar to the development of the premises; that efforts to have the street opened or abandoned were equally fruitless, since the City Planning Commission had taken the position that this street extension is a needed improvement; and

WHEREAS, the applicant further contends that the proposed use is a reasonable one and will render the property productive and is of such a nature that it will constitute a justifiable additional cost to the City upon condemnation; and

WHEREAS, the premises were inspected by a committee of the Board with Calendar Number 973-57-BZ, which recommended that the appeal be granted under certain conditions; and

WHEREAS, the premises and area were inspected by a committee of the Board; that it was found that the proposals to widen Metropolitan Avenue and extend Greene Avenue are not imminent.

Resolved, that the decision of the Borough Superintendent, acting on N.B. Applic. 3329/55, Objection No. 1 be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit the use of such portion of the premises as mapped for proposed widening of Metropolitan Avenue, *on condition*, that the requirements in reference thereto in the resolution under Calendar No. 973-57-BZ shall be complied with; that in the event that the premises or any part thereof are acquired by City of New York for widening of Metropolitan Avenue or for the extension of Greene Avenue; that remuneration for such portions of the plot as are so acquired shall be as determined by the Court.

122-58-BZ

APPLICANT—Herman Horowitz, for Berne Realty Corp., owner.

SUBJECT—Application March 11, 1958—decision of the Borough Superintendent, under Section 7h of the Zoning Resolution, to permit in a residence use district, on a plot presently occupied with masonry dwellings, the demolition of the buildings and the use of the vacant land for a parking lot for the parking and storage of more than five (5) motor vehicles.

PREMISES AFFECTED—434-444 West 25th Street, south side, 230 feet east of 10th Avenue, Block 722, Lots 58-64, inclusive, Borough of Manhattan.

APPEARANCES—

For Applicant: Herman Horowitz.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, B area, class 1½ height district; West 24th Street and West 25th Street are in residence, business and retail use, B area, class 1½ height districts; Tenth Avenue is in a business use, B area, class 1½ height district; Ninth Avenue is in a retail use, B area, class 1½ height district; that on July 25, 1916 the premises was in an unrestricted use district and was changed to a residence use district on November 13, 1936; and

WHEREAS, the decision of the Borough Superintendent,

MINUTES

dated February 11, 1958 acting on Alt. Applic. No. 105-58, reads:

"1. Proposed parking lot for more than 5 motor vehicles is not permitted in a residence use district. Art. II, PP. 3 Zoning Resolution."

and
WHEREAS, the applicant states that the premises consist of a plot, 122 feet 2 inches frontage by 98 feet by 9 inches in depth, improved with one 4-story and five 3-story masonry residence buildings, now completely vacant; that all structures are shortly to be demolished; that it is proposed to use the vacant land as a parking lot; and

WHEREAS, the applicant states that it has not yet been determined what type of improvement will be built on the premises and it will be some time before numerous problems confronting the owner, are resolved; that the tenants have been vacated from the premises at considerable cost and now, because of circumstances beyond the owner's control, the building of a suitable improvement has been delayed; and

WHEREAS, the applicant contends that there is an urgent need in this area for facilities for the parking and storage of private automobiles, as the area was developed many years ago before the advent of the automobile; that many of the garages in the area are used exclusively or mainly by commercial vehicles; and

WHEREAS, the applicant states that the present owner has held title to the property since November 5, 1956; that the assessed valuation of land is \$54,500 and of the buildings \$40,500 making a total of \$95,000; that the buildings are being demolished; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7 h for a term of five years, to permit the use of the plot when buildings have been demolished for parking and storage, substantially as proposed and shown on plans filed with this application, marked "Received March 11, 1958", 3 sheets, and "May 12, 1958", 1 sheet, *on condition* that all buildings and uses now on the premises shall be removed and the premises leveled substantially to the grade of West 25 Street, surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that on all lot lines there shall be erected a woven wire fence of the chain link type, not less than 5 feet, 6 inches in height on a masonry base with no openings therein except to West 25 Street where the three openings proposed shall be fitted with gates which shall be kept closed when the parking lot is not in operation; that such fences may be omitted where masonry walls of adjoining buildings occur on the lot line; that suitable bumpers shall be maintained at all times for protection of fences and walls; that such parking shall be limited to pleasure cars only; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to one sign attached to the fence adjacent to an entrance, advertising the parking use for pleasure cars only and the rates charged and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed five square feet and shall not be illuminated or extend beyond the building line and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

170-58-BZ

APPLICANT—Lama, Proskauer and Prober, for Sadie Wugman, owner.

SUBJECT—Application March 27, 1958—decision of the Borough Superintendent, under Sections 7f and 7i of the

Zoning Resolution, to permit in a business use district, on a plot consisting of six lots containing two buildings and a parking lot, after removing the existing uses, the erection and maintenance of a gasoline service station, lubricatorium, minor auto repairs, car washing, storage, office and sales with parking and storage of more than five motor vehicles for a temporary term of fifteen (15) years.

PREMISES AFFECTED—583-593 6th Avenue, east side, 93 feet, 8 inches south of 16th Street, Block 1054, Lots 10-15 inclusive, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and Sadie Wugman.

For Opposition: Frank Compasto and Michael De Vito.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 30, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 6th Avenue and Prospect Avenue are in a business use, C area, class 1 height district; 16th Street and Webster Place are in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the Borough Superintendent, dated March 26, 1958 acting on N.B. Applic. No. 105-58, reads:

"1. Proposed building and premises, in a business use district, to be used for a gasoline service station, lubricatorium, minor auto repairs, car washing, storage office and sales, parking and storage of motor vehicles, is contrary to Art. II P.P. 4a, subsections 29 & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 108 feet 8 inches frontage by 98 feet 11¾ inches in depth, presently developed as follows: lot No. 10—three story building of class 4 construction, 18 feet 4 inches by 35 feet, and now occupied as store and two family; lots 11, 12 and 13—parking and storage of motor vehicles; lot 14—vacant; lot 15—two story and basement of class 4 construction, 18 feet by 36 feet and now occupied as (store—vacant), a two family dwelling; that Department of Buildings records indicate the following: lot No. 10—no record of new building, first alteration number Alt. 7336-1911—use given as storage and two family dwelling; lots 11, 12 and 13—Alt. Applic. No. 5121-54 for use as parking and storage of motor vehicles, for which Certificate of Occupancy No. 144397 was issued; that lot No. 14 is vacant; lot No. 15—no record of new building, first alteration No. 8704 of 1931—use given as store and two family dwelling; that it is proposed to remove all the present uses and buildings on the site and erect a modern gasoline service station, consisting of ten 550 gallon gasoline tanks and four dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction, with a frontage of 60 feet, a depth of 30 feet and will contain the conjunctive uses of lubricatorium, minor auto repairs, car wash, storage, office and sales; that a portion of the open site, not being used by the gasoline service station, will be reserved for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the site is located in a low rental area; that it is in need of complete rehabilitation and the erection of this modern gasoline station would lead the way to any future new development in this area; that the erection of additional stores in compliance with the zoning law would not be economically sound and would only tend to work a hardship upon present store owners who would be faced with additional competition without the benefit of additional customers, since the entire area is com-

MINUTES

pletely built up; and

WHEREAS, the applicant states that the present owner has held title to the property since November 15, 1955 and December 17, 1957; that the assessed valuation of land is \$12,400 and of the buildings \$8,000 making a total of \$21,000; that the buildings were erected prior to 1911 and 1955; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on N.B. Applic. 105-58, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

422-58-BZ

APPLICANT—Leonard F. Rothkrug, for Joseph Katz and Martin Barell, owners; Packers Supermarket, Lessee.

SUBJECT—Application July 15, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a business and residence use district, the extension of the existing patrons' and employees' parking lot from the business use portion to the residence portion of the plot for a stated term of fifteen (15) years as accessory to a retail supermarket in the business use portion of the plot.

PREMISES AFFECTED—2532-2554 86th Street, south side, from Bay 40th to Bay 41st Streets, 1-11 Bay 40th Street and 2-12 Bay 41st Street, Block 6868, Lots 37, 49, 50 and 51, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Bay 40th Street and Bay 41st Street are in business and residence use, D area, class 1 height districts; 86th Street is in a business use, D area, class 1 height district; Benson Avenue is in a residence use, D area, class 1 height district; that there have been no changes in the height, use or area district designations, and none are pending before the City Planning Commission; and

WHEREAS, the decision of the Borough Superintendent, dated July 1, 1958 acting on Alt. Applic. No. 2237-58, reads:

"1. Proposed extension into a residence district of patron and employee parking lot accessory to supermarket (no fees to be charged) is contrary to Art. 2 Sect. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 193 feet 4 inches frontage by 200 feet in depth, irregular, on which is located a one story building, 112 feet 6 inches by 68 feet one inch, irregular in area, 21 feet in height, erected in 1958, of class 3 construction, as a retail supermarket under N.B. Applic. No. 1756-57 and occupied by Packers Supermarket with free parking for more than five motor vehicles for patrons and employees on the unbuilt upon area of the premises in the business zone in accordance with Certificate of Occupancy No. 161090; that it is proposed to extend the patrons' and employees' parking lot—no fee to be charged—accessory to the supermarket, into the residence use district portion of the plot, now vacant; and

WHEREAS, the applicant states that the existing building

is entirely within the business zone and the plans as approved show that all the loading and unloading is in the business zone; that there are two existing curb cuts for the accessory parking area, one out to 86th Street and the other out to Bay 41st Street; that it is proposed to maintain these curb cuts without adding any within the residence use zone; and

WHEREAS, the applicant contends that the supermarket is located under the elevated structure of the BMT division of the rapid transit system, and the supporting members of this elevated line makes off-site parking difficult; that the supermarket is in a sparsely developed neighborhood and depends on patrons from the Marlboro Houses, and from more distant points; that off-street parking facilities is a necessary and important feature of the supermarket; that there is no other business zoned property within the tax block which can be used for accessory parking; and

WHEREAS, the applicant further contends that a grant of the variance will not adversely affect any surrounding property owners; that there will be no overnight parking and no parking on Sundays or holidays, or at any time after business hours; that existing parking facilities in the business zone satisfies the bulk of off-street parking requirements, but the additional facilities are necessary for infrequent special occasions; and

WHEREAS, the applicant states that the present owners have held title to lot 37 since September 23, 1957 and to lots 49, 50 and 51 since June 11, 1958; that the assessed valuation of land is \$39,800 and of the building \$49,800 making a total of \$89,600; that the building was erected in 1958; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of 15 years to permit the extension of parking lot for patrons and employees only as indicated on plans filed with this application marked, "Received July 15, 1958," 5 sheets, *on condition* that the plot shall be leveled substantially to the grade of Bay 41st Street and shall be surfaced with clean gravel or steam cinders and properly rolled; that there shall be erected on the lot lines, a woven wire fence of the chain link type not less than 5 feet, 6 inches in height. With gates at the entrances where shown on East 106th Street, such entrances shall not exceed 10 feet and curb cuts not exceeding 12 feet; that signs advertising the parking and storage use for patrons and employees may be by means of one sign not over 5 square feet, attached to the fence at each entrance provided they are not illuminated or extend beyond the building line; that during the term of this variance, the premises shall be occupied for no other use except the parking as herein permitted as an extension of the parking in the business district as permitted by the Department of Buildings; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE VOTE TO AMEND—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Sleeper 3

Negative: 0

Absent: Vice Chairman Keating and Commissioner Foley 2

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 899-47-SA.

Subject: Amendment to resolution as to additional models of Gas Fired Forced Air Furnaces.

Bryant Division of Carrier Corporation, Mineola, New York requested by letter dated April 21, 1958 that the resolution adopted March 13, 1951 and amended through November 3, 1954 under Calendar Number 899-47-SA be amended so as to include the Model 385.

Description

The Model 385 is similar to the Model 304 approved by the Board under Calendar Number 899-47-SA as to control, burners and wiring and differs only in so far as styling.

The sizes and input ratings of the 385 are as follows:

75-385	75,000 Btu/hr.
100-385	100,000 Btu/hr.
125-385	125,000 Btu/hr.
150-385	150,000 Btu/hr.

Recommendation

The Committee on Test recommends that the resolution adopted March 13, 1951 and amended through November 3, 1954 be reopened and amended so as to include the Model 385 in sizes as described above on condition that the requirements of the resolution adopted March 13, 1951 and as amended through November 3, 1954 under Calendar Number 899-47-SA are complied with.

Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 360-50-SA.

Subject: Amendment to resolution as to additional trade names.

Automatic Burner Corp., Chicago, Illinois, requested by letter dated July 23, 1958 that the resolution adopted October 17, 1950 under Calendar Number 360-50-SA be amended so as to permit the approval oil burner to be marketed under an additional trade name.

Recommendation

The Committee on Test recommends that the resolution adopted October 17, 1950 and as amended through July 8, 1958 under Calendar Number 360-50-SA be reopened and amended so as to permit the approved ABC Oil Burner Model 45 to be marketed by the John Woods Company, under the trade name of Fluid Heat Oil Burner Model 45, on condition that the requirements of the resolution adopted October 17, 1950 under Calendar Number 360-50-SA be complied with.

The Committee further recommends that, as York-Shipley Inc., York, Pa. has requested by filing an affidavit, dated June 12, 1956, stating that they have purchased the furnace business and furnace design from Jackson and Church Co., Saginaw, Michigan, the approval granted to Jackson and Church Co. on June 12, 1956 under calendar Number 360-50-SA be transferred to York-Shipley and that the burner may be marketed by York-Shipley as York Oil Burner.

Re: Calendar Number 499-50-SA.

Subject: To reopen and amend the resolution as to new model designations.

Bryant Manufacturing Company, Mineola, New York requested by letter dated August 18, 1958 that the resolution adopted April 24, 1951 and amended December 8, 1953 be amended to include new model designations of Bryant Gas Fired Winter Air Conditioners.

Purpose

Gas fired warm air heaters for domestic and commercial installations but not to be installed in garages or places of explosive atmospheres.

Description

The new model 387 gas fired forced air furnaces are similar to the model 317 furnaces previously approved by the Board under Calendar Number 499-50-SA, April 24, 1951 and amended December 8, 1953, with the exception of a newly designed casing.

The model 387 series are available in the following sizes:

Size and Model	Btu per hour Input
75-387	75,000
100-387	100,000
125-387	125,000
150-387	150,000
175-387	175,000
200-387	200,000
250-387	250,000
300-387	300,000
350-387	350,000
400-387	400,000

Recommendation

The Committee on Test recommends that the resolution adopted April 24, 1951 and amended December 8, 1953 under Calendar Number 499-50-SA be reopened and amended so as to include new models of Bryant Gas Fired Winter Air Conditioners so that the model recommended for approval including those models previously approved shall be as follows: 60-BA-87, 85-BA-87, 100-BA-87, 125-BA-87, 170-BA-87, 200-BA-87, 250-BA-87, 75-317, 100-317, 125-317, 150-317, 200-317, 250-317, 300-317, 75-387, 100-387, 125-387, 150-387, 175-387, 200-387, 250-387, 300-387, 350-387, 400-387, on condition that these units shall be installed in accordance with the requirements of Article 12, Administrative Building Code, but not to be installed in garages or places where there may be explosive atmospheres; and that each unit bears a label reading, "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 499-50-SA."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of April 24, 1951 through December 8, 1953 in accordance with the above report.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 667-54-SA

Subject: Amendment to resolution as to change of ownership.

Burnham Corp., Irvington, New York, requested by filing an affidavit dated July 15, 1958 that the resolution adopted July 10, 1956 and amended May 28, 1957 under Calendar Number 667-54-SA be amended so as to show a change of ownership.

Recommendation

On the basis of the affidavit filed by the Burnham Corp. which states that the Burnham Corp. has taken over all assets of the Berger Furnace Corp. The Committee on Test recommends that the resolution adopted July 10, 1956 and as amended May 28, 1957, under Calendar Number 667-54-SA be reopened and amended so as to show a change of ownership, now known as Berger Furnace Division of Burnham Corp. and further that the approved gas fired warm air furnaces may be marketed under the additional trade name of Burnham, on condition that the requirements of the

resolution adopted July 10, 1956 under Calendar Number 667-54-SA be complied with.

(Sgd.) SAMUEL L. BECKER,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 720-56-SA

Subject: Amendment to resolution as to additional model of gas boiler.

Burnham Corporation, Irvington, New York, requested by filing an application dated June 30, 1958 that the resolution adopted April 2, 1957 under Calendar Number 720-56-SA be amended so as to include an additional model of gas fired boiler.

Description

The requested Model Holiday No. 70 is similar to the Model Holiday No. 60 approved April 2, 1957 except as to size and BTU input, in all other respects the units are similar.

Recommendation

The Committee on Test recommends that the resolution adopted April 2, 1957 under Calendar Number 720-56-SA be reopened and amended so as to include the additional Model Holiday 70 gas fired boiler on condition that the requirements of the resolution adopted April 2, 1957 under Calendar Number 720-56-SA are complied with.

(Sgd.) SAMUEL L. BECKER,

176-58-SM

APPLICANT—Temp-Resisto Drapery Corporation, owner.

SUBJECT—Application November 7, 1957—Temp-Resisto Drapery Lining, approval of.

MINUTES

APPEARANCES—

For Applicant: Murray S. Kaplan.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 176-58-SM

Subject: Temp-Resisto Drapery Lining.

Temp-Resisto Drapery Corp., 209 West 38th Street, New York, filed November 7, 1957 an application with the Board of Standards and Appeals for approval of the material known as Temp-Resisto Drapery Lining under the provisions of the Flame Proofing Rules of the Board.

Purpose

The material is to be used as a drapery lining for flame-proofed or incombustible draperies in places of public assembly.

Description

The material is cotton sateen 64 x 104, dyed and coated with aluminum in lacquer. The coating compound is treated with Tricresyl phosphate and Antimony Oxide and is made in three colors, black, silver and gold.

Inspection and Test

Samples of the fabric were flame tested at the Better Fabrics Testing Bureau in the presence of Assistant Engineer J. A. Darts, Committee on Test.

The test was in accordance with the Flame-proofing Rules of the Board.

There was no flashing, flaming or glow outside the charred area in the samples tested.

Recommendation

On the basis of the inspection and test of the data filed by the applicant, the Committee on Test recommends the approval of Temp-Resisto Drapery Lining as meeting the requirements of the Flame-proofing Rules of the Board.

Tests for each specific installation or any retests thereof shall be made by the Fire Commissioner in a laboratory approved by him in accordance with the requirements of the Rules for Test of Fire Resistive, Flameproof Materials.

The Committee further recommends that each bolt of this material or container in which it is to be marketed shall be marked or labeled "Approved by the Board of Standards and Appeals for use in New York City, under Calendar Number 176-58-SM."

(Sgd.) SAMUEL L. BECKER,
Director
JOHN A. DARTS,
Asst. Engr.
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

773-57-A

APPLICANT—H. E. Horwood for Dwight C. Harris, Rex Perpall and Lita Harris, owners.

SUBJECT—Application October 30, 1957—Appeal from a decision of the Borough Superintendent, re Class 3 construction, factory, egress, etc.

PREMISES AFFECTED—196-198 Chambers Street, south side, 96 feet, 6 inches east of West Street, Block 138, Lot 34, Borough of Manhattan.

APPEARANCES—

For Applicant: H. E. Horwood.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Foley and Commissioner Sleeper... 4
Negative: 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 15, 1957 on Alt. Applic. 1204/57 reads:

"1. Proposed factory in a 5 story & balcony class III bldg. not permitted—Sec. 270 LL.

"2. Proposed factory with one interior enclosed stair and one F. E. in a 5 story & balcony building not permitted. Sec. 270 LL."

and

WHEREAS, the applicant states that the building is 5 stories, 63 feet in height, 48 feet 10 inches front by 84 feet 2 inches in depth at 1st floor, 48 feet 10 inches front by 78 feet 2 inches in depth at typical floor, of class 3 construction, erected prior to 1914, located in an unrestricted use A area, class 2 height district and used and occupied since October 19, 1953 as follows: Cellar—vacant; 1st floor—vacant; 2nd floor—printing, 3 persons; 3rd floor—manufacturing printer's dies, 2 persons; 4th floor—paper ruling, 2 persons; 5th floor and balcony—vacant; that it is proposed to be used without change, except on the first floor where the prospective tenant will engage in die cutting, mainly on leather belts and on the 5th floor and balcony, which will be used for factory use, using no combustible or inflammable material and the occupancy increased on the 1st floor will be 5 persons and the 2nd to the 5th floors inclusive will be 20 persons per floor; that the building is provided with one interior 44 inch wide stairs of steel with cement threads, brick enclosed, equipped with fireproof self-closing doors and extending from roof bulkhead direct to street and one fire escape on the front extending to roof by ladder and to street by ladder, window and doors on the course of the fire escape are fireproof self-closing; and

WHEREAS, Violation #3995/57 was issued for changing the occupancy to factory without obtaining a certificate of occupancy; and

WHEREAS, the records of the Department of Buildings indicate that the building was altered in 1914, but does not disclose the date of erection; and

WHEREAS, the applicant states that the means of egress consist of a brick enclosed 44 inch stairway from cellar to roof bulkhead; that there is a 60 degree fire escape at the front with fireproof self-closing windows and casement door on each floor and a sliding drop-ladder leading to opening in metal canopy for egress to street; that it is proposed to replace the sliding drop-ladder with a regulation counter-balanced stairway to the street through an enlarged opening in the sidewalk shed; and

WHEREAS, the applicant contends as to Objection 1 issued by the Borough Superintendent, that it is impossible to comply with this requirement; and contends as to Objection 2 that the erection of an additional fireproof enclosed stairway is impossible due to the small area of the building which is only about 2500 square feet; and

WHEREAS, the applicant contends that changing conditions in this area make it exceedingly difficult to rent above the 1st floor for other than factory use; that since the building is only 1 story over the permitted height for non-fireproof construction, it is requested that the objection of the Borough Superintendent be waived as to construction; that the present fire escape be accepted as a second means of egress on condition the counter-balance stairway be provided from the lowest balcony to the street; that the occupancy of the building shall not exceed 20 persons on any floor above the 1st floor; that the existing fireproof window on the 2nd floor fire escape balcony be changed to a 2 by 6 fireproof self-closing casement door; and

WHEREAS, the applicant states that the 2nd, 3rd, and 4th floors are heated by gas fired unit heaters; and

WHEREAS, this appeal was withdrawn on May 6, 1958,

MINUTES

with permission of the Board to permit the applicant to correct unfavorable conditions; and

WHEREAS, this appeal was restored to the calendar September 23, 1958, upon the applicant's statement that the conditions found by the Board on inspection of the premises have been corrected by the removal of rubbish and also the removal of the tenant storing wood crates in the store; that it is therefore requested that the Board act favorably on this appeal with the understanding that the 1st story store space will be rented only for a non-hazardous use as proposed; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions, as the housekeeping conditions were found to be improved.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. Applic. 1204/57, Objections No. 1 and 2 and that the appeal be and it hereby is *granted*, to permit the use of the premises as proposed and shown on plans filed with this appeal marked "Received March 19, 1958", 4 sheets, on condition that the primary and secondary means of exit shall be maintained as proposed and shown thereon; that the means of escape from the front fire escape shall be by means of a counterbalanced stairway to the street through sufficient opening in the canopy to permit free use and proper headroom; that the building shall not be increased in height or area; that the occupancy of the entire building shall not be greater than as proposed; and that in all other respects, all laws, rules and regulations applicable thereto shall be complied with.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated January 28, 1958 on Alt. Applic. 1607/57, reads:

"1. Proposed commercial use of a 5 story class 3 building exceeds tabular limits of Sec. C26-254.0.

"2. Provide two hour stair enclosure in accordance with Sec. C26-292.0.

"3. Elevator, toilet and closet openings upon stair enclosure are contrary to C26-292.0."

and

WHEREAS, the applicant states the premises consist of a lot 20 feet by 100 feet, located in residence use, B area, class 1½ height district, upon which there exists a 5 story, 55 feet high, class 3 building, 20 feet by 97 feet 5 inches, erected in 1878, as a one family dwelling, converted to class "B" Multiple Dwelling under Alt. Applic. 52/45 for which Certificate of Occupancy #31040 was issued; that the building is now occupied as an office building by American Friends of the Middle East for which Occupancy Violation #18411/57 was issued under Section 300 of the Multiple Dwelling Law; that the present owner Isadore Robbins was found guilty and fined \$25 on January 8, 1958, in Magistrate Court; and

WHEREAS, the proposed use is by the "American Friends of the Middle East", an educational and cultural, non-profit organization for their offices with Occupancy of 10 persons per floor; and

WHEREAS, the applicant states that the exits consist of a 3 foot 6 inch wide wood stairs from 1st to 4th floors and 3 foot wide wood stairs from 4th floor to roof; that the stair enclosure is of wood studs, rocklath and plaster; that the enclosure has fire stops and all stair overlaps are protected with 1-hour construction; that the entire stair enclosure is protected by a sprinkler system in accordance with Section 187 of the Multiple Dwelling Law; that all doors to stair enclosure will be fireproof self-closing; that the elevator shaft is of masonry construction with metal covered hardwood self-closing doors; that all other openings on the stair enclosure will be provided with fireproof self-closing doors; and

WHEREAS, the applicant states that the occupancy is non-hazardous; that there will be no inflammable materials stored on the premises; that the steam is purchased from New York Steam Corporation; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, dated January 28, 1958, acting on Alt. Applic. 1607/57, Objections 1, 2 and 3 be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the occupancy of the building as proposed for American Friends of the Middle East as indicated on plans filed with this Appeal marked, "Received February 17, 1958," 10 sheets, on condition that the building shall be maintained as proposed and indicated on plans; that the sprinkler system in the main stairway installed under the requirements of 187 of the Multiple Dwelling, when the building was used as Multiple Dwelling, shall be maintained; and that the building shall not be increased in height or area and shall in all other respects comply with all laws, rules, and regulations applicable thereto.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 10, 1958 on Alt. Applic. 172/58, reads:

"1. Provide two 3'8" stairways, remote from each other, enclosed in 3 hour fireproof partitions leading in continuous enclosure from top story directly to street. 6.1.2.2.3, 6.4.16, 6.4.18.1, 6.4.1.11.

"2. The exit doors from the first floor should swing in the direction of egress and be at least 3'0" wide.

"All doors leading into stair enclosure should swing in the direction of egress. 6.2.1, 6.2.2.

"3. Toilets on second floor opening into stair enclosure are contrary to 6.4.1.8.2.

"4. In a class 3 structure, 2 stories and attic in height, the change in use to public building and the use of the attic (frame) for caretakers apartment is contrary to 4.2.1. of A.C.

"5. Floors used for school purposes (with fixed seats) should be good for a live load of 60# per square foot.

MINUTES

Corridors should be good for a live load of 100# per square foot. 7.3.2.2.3.

"6. The ceilings of the first and second floors should be fire retarded with material of 1 hour fire resistive rating as required by 10.11(c)." and

WHEREAS, the applicant states that the premises consist of a lot 50 feet by 100 feet, located in residence use, G-1 area, class 1¼ height district, upon which there exists a 2 story and attic, 29 feet 2 inches high, class 3 constructed building (except for framed attic), 27 feet 6 inches by 81 feet 4 inches on the 1st floor and 27 feet 6 inches by 45 feet on the 2nd floor, erected 1922, was used and occupied as a one family dwelling for which a Certificate of Occupancy #22236 was issued against N.B. Applic. 9161/22; and

WHEREAS, the applicant states that the building is now used and occupied; Cellar—ordinary, no persons; 1st floor—class rooms, lecture room, daily prayer room, office, kitchen and two car garage, 45 persons; 2nd floor—class rooms and laboratory, 45 persons; attic—caretaker's apartment; that the applicant proposes to legalize the existing use; and

WHEREAS, the applicant states that the building is now provided with one 3 foot wide wood stair from attic to 1st floor hall; that this stair is enclosed in wood stud, wood lath and plaster partitions; that the ceiling of the 1st and 2nd floors are of wood lath and plaster; and

WHEREAS, the applicant proposes to provide new flush hardwood doors in stair and public halls enclosure; that sprinkler system connected to domestic water supply system, will be provided in this stairhall on attic, 2nd and 1st floors; that the cellar ceiling will be protected with rock lath and plaster; that cellar partitions will be of 4 inch cinder blocks; that a new exterior fire stair will be provided at the north end of the building; and

WHEREAS, the applicant further states that the two classrooms on the 1st floor will have one 3 foot door each, leading directly to the street; that the kitchen door swings in the direction of egress; that the cellar and office doors do not swing in direction of egress; that the 2nd floor toilet doors opening into stair enclosure will be provided with a hardwood door; that the main doors will be rehung to swing out; that a floor load of 40 lbs. will be posted; and

WHEREAS, the applicant contends that the occupancy is not hazardous; that the exits are adequate; that the loading will never exceed 40 lbs. per square foot; that in view of the foregoing facts the Board is requested to grant the proposed use.

Resolved, that the decision of the Borough Superintendent, dated June 10, 1958, acting on Alt. App. 172-58 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that an additional exterior stair shall be constructed connecting with the dormer window in the attic and with the second floor on the opposite end of the building from the end where the new stairway is proposed; that such additional stairway may exit on the sun parlor roof with a steel stairway to grade; that all exit doors in the first floor shall swing in the direction of exit as shown on proposed plans; that all doors leading into the stair enclosure shall swing in the direction of exit; that the toilets on the second floor opening to the stair enclosure may be continued; that the third story attic room may be occupied for caretaker's chamber, as shown, provided the attic is used for no other purpose and is provided with a second means of exit as hereinbefore required; that the entrance to the main stair shall have a vestibule and door; that the floor used for school purposes shall have fixed seats and shall be good for a loading of not less than forty pounds per superficial foot and such loading shall be posted; that the ceilings of the first and second floors shall be fire retarded with one-hour fire retarded construction; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and shall not be increased in height or area; that the main stairhall throughout shall be sprinklered as required for multiple

dwellings; as proposed and as indicated on plans marked "Received June 11, 1958", 11 sheets.

149-57-BZ—Vol. II

APPLICANT—Jerome W. Perlstein for Butcher Knitting Mills Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II, subject to regular procedure—re Application, decision of the Borough Superintendent; previously withdrawn, under sections 7c and 21 of the Zoning Resolution, to permit in a residence and business use D area district, the maintenance of a parking lot for customers and employees and the erection of a Class III factory building extending from the business use into the residence use district and exceeding the permissible area coverage.

PREMISES AFFECTED—71-45 Metropolitan Avenue, north side, 69.74 feet west of Pleasantview Street, Block 3055, Lot 16, Borough of Queens (Middle Village).

APPEARANCES—

For Applicant: Jerome W. Perlstein.

ACTION OF BOARD—Application reopened as Vol II, subject to regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4
Negative: 0
Absent: Commissioner Foley 1

150-57-A—Vol. II

APPLICANT—Jerome W. Perlstein, for Butcher Knitting Mills Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II subject to regular procedure—re Section 35, General City Law—re use of portion of premises in bed of mapped street, proposed widening of Metropolitan Avenue; previously withdrawn.

PREMISES AFFECTED—71-45 Metropolitan Avenue, north side, 69.74 feet west of Pleasantview Street, Block 3055, Lot 16, Middle Village, Borough of Queens.

APPEARANCES—

For Applicant: Jerome W. Perlstein.

ACTION OF BOARD—Appeal reopened as Vol. II subject to regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4
Negative: 0
Absent: Commissioner Sleeper 1

616-57-BZ

APPLICANT—Gustav Goldman, for Barney Scurti, owner.

SUBJECT—Application for consideration—reopening for amendment of resolution—re Application, decision of the Borough Superintendent; previously granted on condition, under sections 7e and 7h of the Zoning Resolution, to permit in a residence use district, the erection of a one-story and cellar building to be used as a restaurant and apartment and the unbuilt upon portion to be used for the parking of patrons cars.

PREMISES AFFECTED—2878-2888 Linden Boulevard, south side, 40 feet west of Sapphire Street, and 314 Sapphire Street, Block 4497, Lots 4, 5, 8 and 11, Borough of Brooklyn.

APPEARANCES—

For Applicant: Gustav Goldman.

ACTION OF BOARD—Application for amendment withdrawn; applicant to file new application subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4
Negative: 0
Absent: Commissioner Foley 1

Adjourned: 4:05 P.M.

JOSEPH J. DOYLE, *Chief Clerk.*

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on May 6, 1958, as they appeared in Bulletin No. 19, Vol. 43, hereby corrected to read as follows:

154-58-A

APPLICANT—Burke, Green and Groh, for Fitchett Crescent Corp. and Catherine Du Melle, owners.

SUBJECT—Application March 21, 1958—filed pursuant to section 35, General City Law re premises partially in bed of proposed widening of Kissena Boulevard.

PREMISES AFFECTED—46-45 Kissena Boulevard, northeast corner of Laburnam Avenue, Block 5208, Lots 32 and 42 (32), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated March 5, 1958, on new building application 2614/57 reads:

"1. As premises are located partially in bed of a mapped street secure approval of Board of Standards and Appeals as per section 35 of General City Law for use of that portion of plot within bed of mapped street." and

WHEREAS, the applicant states that premises consist of a plot 145.16 feet front, by 272.52 feet irregular in area, on

MINUTES

which it is proposed to erect a building for use as a storage garage motor vehicle repair shop and for the parking of employees cars; and

WHEREAS, the applicant states that while the proposed plans shows the building entirely within the lines of the new proposed building line there is a widening proposed of 17.62 feet along Kissena Boulevard and passage would be made to and from the proposed building over that portion of the land within the bed of the map street widening; and

WHEREAS, the applicant advised in his letter of April 22, 1958, that there is a recorded agreement allowing the owner of the premises Lots 32 and 42 to cross the strip formerly part of Shiller Street to the new line of Laburnam Avenue; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on N.B. Applic. 2614/57, Objection No. 1, be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit the use of the portion of Kissena Boulevard as mapped for street widening, *on condition* that the requirements of the resolution adopted this day under Cal. No. 788-57-BZ shall be complied with; that such widening spaces shall be paved but no building erected thereon and may be used for exit and entrance from Kissena Boulevard, provided the wall of the building is set back to the line of the proposed widening line, as shown on plans filed under Cal. No. 788-57-BZ; that in the event that the City acquires a portion of the premises for street purposes, payment therefor shall be as determined by the Court.

* Correction—In the applicant's statement in regard to the proposed widening along Kissena Boulevard, the measurement of "five feet" corrected to "17.62 feet" as indicated in italics.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 7, 1958, as they appeared in Bulletin No. 41, Vol. 43, hereby corrected to read as follows:

815-57-A

APPLICANT—Sidney H. Kitzler, for Meyer Tucker, owner.

SUBJECT—Application November 21, 1957—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 172, subdivision 6 of the Multiple Dwelling Law re increase in Bulk and Volume subsequent to 1940.

PREMISES AFFECTED—91-97 West End Avenue and 101-103 Hampton Avenue, northeast corner, Block 7516, Lot 549, Borough of Brooklyn.

APPEARANCES—

For Applicant: Sidney H. Kitzler.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Foley and Commissioner Sleeper. . . 4

Negative: 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 31, 1957, on Alt. Applic. 2005/57 reads:

"1. Bulk and Volume has been increased subsequent to 1940 which is contrary to Sec. 172 subd. 6 of the M.D.L." and

WHEREAS the applicant states that the building is 1 and 3 stories, 15 and 34 feet in height, 53 feet front by 37 and 35 feet in depth at street level, 20 feet front by 37 feet depth at typical floor level, of class 3 construction, erected 1920, located on a lot 53 feet front by 48 feet in depth, in a business

use C area, class 1 height district, and used and occupied since 1920 and 1952 as follows: Cellar—boiler room; 1st floor—3 stores and dwelling, 1 family; 2nd floor—dwelling, 1 family; 3rd floor—dwelling, 1 family; that it is proposed to be altered and used and occupied as follows: cellar—boiler room; 1st floor—2 stores and dwelling, 2 families; 2nd floor—1 family; 3rd floor—dwelling, 1 family; that the building is provided with one 2 foot 8 inch wide interior wood stairs, enclosed in wood, equipped with wood doors which are not self-closing; that stairhall leads direct to street and is provided with a ladder and scuttle to roof; that in addition there is one fire escape at the rear, extending to roof by ladder and to yard by ladder with egress through yard to street; and

WHEREAS, Certificate of Occupancy #134293 issued January 5, 1953 against Alt. Applic. 586/52, permits the following use and occupancy; cellar—boiler room; 1st floor—3 stores; 2nd floor—dwelling, 1 family; 3rd floor—dwelling 1 family; that this certificate of occupancy refers to No. 97 West End Avenue, north east corner of Hampton Avenue; and

WHEREAS, Certificate of Occupancy #28619 issued August 27, 1924, against N.B. Permit No. 558/23, for 93 to 97 West End Avenue, north east corner of Hampton Avenue, describes the building as 1—store and 2 family dwelling; and

WHEREAS, the applicant states that the site was improved with a 3 story brick building, 20 feet wide by 37 feet deep, erected prior to 1929 for use as a store on the 1st floor and 1 family each on the 2nd and 3rd floors; that this building was erected on the extreme northerly portion of the plot; that in 1952 a one story brick building was erected on the balance of the plot, extending from the 3 story building to the Hampton Avenue building line; that this building was occupied as 2 stores, each with a store room at the rear; that plans were filed and approved and the building was erected with an extension to the 3 story building, even though the plans indicated there was to be no access or other openings between the two buildings; and

WHEREAS, the applicant states that Alt. Applic. 2005/57 converts the building from stores and 2 families to stores and 4 families was denied on the grounds that the bulk and area of the 2 family dwelling was increased subsequent to 1940; and

WHEREAS, the applicant contends that since there are no openings between the 2 buildings, the bulk and area of the original 2-family dwelling has not been increased; that the Department would accept the condition conforming to law if the plot were reapportioned so that each building would be on its own lot; that if the actual physical condition would be legal, if the plot were reapportioned; that this condition should be accepted as now existing; that reapportionment cannot be accomplished because the yard and other open spaces required make it mandatory that the plot remain as a corner lot; and

WHEREAS, the applicant stated that he considers this appeal covers two buildings and requests that the Board act on the existing three-story building only; and

WHEREAS, the Board considers that there are two buildings and there is therefore no extension in bulk of the three story building; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Applic. 2005-57, Objection No. 1, be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, to permit the Borough Superintendent to act on the two buildings separately and pass on the proposed altered use of the three-story building as a three-family dwelling, one family on each floor, plans being shown on drawings marked "Received November 21, 1957", 6 sheets, and "March 14, 1958", 1 sheet.

* Reference in the resolution to the appeal being granted under the Labor Law deleted and the Board's action based on Section 310 of the Multiple Dwelling Law.

RULES

Fire Drill Rules, Adopted by the Board of Standards and Appeals, October 5, 1923

(593-23-SR)

DEFINITION OF "FIRE DRILL"

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 thereof and in any other building in which such drills are required by the Fire Commissioner pursuant to the power conferred in section 491 of the New York City Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenants shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captain's) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE AND FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET-ALARM-BOX-RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the Fire Department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways, and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the

persons on the premises engaged at work for a factory, and drills shall be conducted at least twice, each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNERS, LESSEE OR TENANT, who supervises the FIRE DRILL at the building shall submit to an examination by the Division of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs, requiring winding are rewound after each alarm and kept in normal condition for operation.

Rule 11. Duties of Engineer.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc. are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills, showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

NOTICE

Applicants, under the zoning resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such

copies at the office of the Board of Standards and Appeals, at 80 Lafayette Street, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

RULE

RULE TO SUPPLEMENT SECTION 19-A OF THE ZONING RESOLUTION OF THE CITY OF NEW YORK AS ADOPTED BY THE BOARD, JULY 11, 1958, EFFECTIVE AUGUST 11, 1958

(385-58-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subsection 2, of the New York City Charter and of Section 21 of the Zoning Resolution.

Purpose:

The purpose of this rule is to supplement the words in the above section which read as follows: "... aggregate gross floor area so used," as a basis for determining the number of off-street loading berths required under this section.

Rule 1.

"19-A. REQUIRED OFF-STREET LOADING BERTHS FOR NEW CONSTRUCTION, ENLARGEMENTS AND CONVERSIONS. Every building or part thereof hereafter constructed which is used, or arranged, intended or designed to be used, for any of the uses specified in the schedule below, and in which the aggregate gross floor area so used, arranged, intended or designed is greater than the minimum number of square feet of gross floor area specified for those uses in said schedule shall be provided with off-street loading berths in accordance with said schedule, under rules and regulations promulgated by the Commissioner of Housing and Buildings. For the purpose of this section, a group of buildings hereafter constructed under common ownership and located within a single block shall be considered a single building."

The words "aggregate gross floor area so used" contained in the first paragraph of this section shall be interpreted to mean the area of a building computed by measuring from the inside surface of the outer building walls. Building stairs, fire towers, elevator shafts, elevators and other public corridors, flue vents, stacks, pipe shafts, vertical ducts, toilets, air conditioning rooms, fan rooms, air ducts, janitors' closets, slop sinks, electrical closets, telephone closets with their enclosing walls shall be excluded. In computing such area or areas for the purpose of determining the number of off-street loading berths required under this section, walls, partitions, areas devoted to mechanical equipment, exits and similar areas, the use of which does not contribute to the regular shipments to or from the building, shall not be included.

COURT DECISIONS

Matter of Max Kirsch, Inc. vs. Board:—On November 19, 1957, the Board denied an application under Section 7, subdivisions e and f of the Zoning Resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, storage, offices and sales, car washing and parking and storage of motor vehicles: Cal. No. 125-57-BZ, Premises 9501-9515 Sea View Avenue and 1645-1655 East 95th Street, northeast corner, Borough of Brooklyn.

At Special Term, Supreme Court, Kings County, Mr. Justice Brown remitted the case to the Board, saying in part: (N. Y. Law Journal, October 30, 1958, page 14):

"for reconsideration and the making of a new determination in proper form, with leave to all parties to submit such other and further proof before the board as they may be advised." The court expresses the opinion that the Board has not stated sufficient reasons for denying this application in view of two other gas stations granted within 400 ft."

* * * * *

Matter of Anthony Cavally, et al. vs. Harris H. Murdock, et al.:—On March 25, 1958 the Board granted a variance under section 7e of the Zoning Resolution, to permit in a residence use district, the extension of the present bakery use to an adjoining building as a retail and wholesale bakery; Cal. No. 145-47-BZ,* Premises 17-19 Cornelia Street, north side, 191 feet, 1 inch west of West 4th Street, Borough of Manhattan.

At Special Term, Supreme Court, Mr. Justice Gavagan vacated the order of certiorari and confirmed the decision by the Board without prejudice to the intervenor, requesting a modification as to the term of the variance. (N. Y. Law Journal, October 17, 1958, page 12).

* Vol. III.

* * * * *

Matter of Evangelical Lutheran Church of the Holy Comforter, Bronx, N. Y. vs. Murdock:—On September 24, 1957 the Board granted a variance under section 7h of the Zoning Resolution, to permit in a residence use district, the maintenance of a parking lot for the parking and storage of more than 5 motor vehicles: Cal. No. 157-57-BZ, Premises 1191-1195 Woodycrest Avenue, west side, 140 ft. north of West 167th Street, Block 2515, Lot 53, Borough of The Bronx.

At Special Term, Supreme Court, Mr. Justice Tilzer refers to a later action by the Board as to another application which the Board denied as to lot 37 in the same block, under Cal. No. 314-57-BZ. The application that the Board granted on lot 53 is to the southwest of the church and the lot which the Board denied is at the rear of the church as well as to the rear of some adjoining owners who were in opposition. Cal. No. 157-57BZ, which was before the court, was filed on March 1, 1957 and granted on September 24, 1957. The other case referred to by the court, namely 314-57-BZ was filed on April 17, 1957 and denied on December 3, 1957. Accordingly, they were not considered together as the court has stated. The Board deemed that the grant on lot 53 was justified but that the use on lot 37 was not justified as the bulk of the lot was a long, narrow piece of property at rear of the church and other property owners with one lot on Woodycrest Avenue.

The court said in part:

"the analogy between the two applications was so complete; each of the proceedings was before the board at the same time; each was for a parking lot in the same block, the variance being sought as to two plots which came abreast of each other; . . ."

The court remitted the matter to the Board for "consideration de novo". (N.Y. Law Journal, October 21, 1958, page 13).

128-57-BZ, 400-57-BZ, 629-57-BZ, 24-34-BZ—Vol. II, 1478-39-BZ—Vol. II, 950-40-BZ—Vol. III, 491-50-BZ—Vol. II, 649-56-BZ, 746-38-SA—Vol. II, 1013-47-SM, 650-52-SA, 731-52-SM, 862-54-SA, 248-56-SA and 996-57-SM.

For Opposition: None.
ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 21, 1958 after due notice by publication in the Bulletin; laid over to November 5, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and 81st Street are in a residence use, D area, class 1 height district; 101st Avenue and 102nd Avenue are in residence and retail use, D area, class 1 height districts; 84th Street is in a retail use, D area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated December 20, 1957 acting on Alt. Applic. No. 2461-57, reads:

"1. The extension of an existing use to include the erection of a gas station, auto repair shop (hand tools only), car washing (non automatic), lubritorium and sales on 1st floor and office on mezzanine floor in a Residence Use District is contrary to Art. II Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50.06 feet frontage by 100 feet in depth; that it is proposed to extend the accessory building and to add the uses of minor motor vehicle repairs and non-automatic car washing; and

WHEREAS, the applicant states that the gasoline service station use was established when the premises was in a business use district in 1924, when a gas station was a conforming use in a business zone; that it is not proposed to add any curb cuts; that no auto collision work is performed on the premises; that the minor auto repairs proposed herein and the non-automatic car washing is solely accessory to the gasoline service station use; that repairs and washing are a necessary adjunct to the service station use; and

WHEREAS, the applicant contends that the proposed extension will permit an improvement of the existing legal non-conforming conditions and will benefit the adjoining property owners; and

MINUTES

WHEREAS, the applicant states that the present owner has held title to the property since April 1, 1952; that the assessed valuation of land is \$5,000 and of the building \$5,500 making a total of \$10,500; that the building was erected in 1924; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7c, to permit the alteration of the lawfully existing gasoline station, constructed under N.B. App. 1735-24, substantially as proposed and indicated on plans filed with this application, marked "Received December 27, 1957," 1 sheet, and "July 9, 1958," 4 sheets, *on condition* that the existing office building shall be removed and the new accessory building erected of the design, arrangement and location shown on plans above cited, complying in all respects with the requirements of the Building Code, except that there shall be no cellar therein; that the use shall be as proposed in the new accessory building and the two rear buildings formerly granted as five-car garages; that the paving shall be repaired as may be necessary; that pumps shall be as proposed and those now 5 feet 5 inches from the building line may be continued, but if changed in design or arrangement shall be re-erected not nearer than 15 feet to the street building line; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that under the existing recorded easement, giving adjoining owners access over the property to reach their rear yards and garages, fences on the side lot lines maybe omitted, but if cancelled as to either side lot line fences of the chain link woven wire type not less than 5 feet, 6 inches in height shall be maintained along both building lines from the accessory building to within five feet of the street building line; that under Section 7i there may be minor repairing with hand tools only, maintained solely within the accessory building at the rear; and that all permits and a new certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

223-58-BZ

APPLICANT—Fred C. Dahlem and Victor E. Block, for Yetta Git, owner.

SUBJECT—Application April 11, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, on a plot presently occupied with a two story dwelling and three car garage, the use of the unbuilt upon portion of the premises for a parking lot for the parking of more than five (5) motor vehicles.

PREMISES AFFECTED—1785 Walton Avenue, west side, 109.17 feet south of East 176th Street, Block 2850, Lot 56, Borough of The Bronx.

APPEARANCES—

For Applicant: Fred C. Dahlem.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 21, 1958 after due notice by publication in the Bulletin; and

Laid over to November 5, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Walton Avenue and Townsend Avenue are in residence and local retail use, B area, class 1¼ height districts; East 175th Street and East 176th Street are in a retail use, B area, class 1¼ height district; and

WHEREAS, the decision of the Borough Superintendent, dated April 9, 1958 acting on Alt. Applic. No. 259-58, reads:

"1. The proposed use of parking and storage for more than five motor vehicles is contrary to Article II Sec. 3 of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 47.87 feet frontage by 100 feet in depth, on which there is a two family dwelling 20 feet by 35 feet in size, two stories in height, and also a one story garage at the rear for three motor vehicles; that it is proposed to surface the portions needed, although most of the area is cemented, and any other conditions which the Board deems necessary will be complied with; that there is a substantial iron picket fence in front on the building line and a wood fence on the lot line, which will be augmented with a wire woven fence if the Board so desires; and

WHEREAS, the applicant states that the two story dwelling was erected in 1897; that later Alt. Applic. No. 34 of 1925 was approved for not more than five motor vehicles on the same plot, accessory to the dwelling; and

WHEREAS, the applicant contends that the owner resides in the building on the premises and has had many requests from neighboring tenants to obtain a parking space for their cars; that this section of the Bronx is exceptionally congested with large apartment houses and narrow streets and parked cars; that it is true that the plot is small and although five motor vehicles are permitted, the owner can put a few more cars on the plot; and

WHEREAS, the applicant states that the present owner has held title to the property since March 27, 1950; that the assessed valuation of land is \$11,500 and of the building \$2,000 making a total of \$13,500; that the building was erected in 1897; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the parking of cars within the unbuilt upon portion of the plot and to permit the storage of three cars in the 3-car accessory garage, substantially as proposed and indicated on plans filed with this application, marked "Received April 11, 1958," 3 sheets, *on condition* that the premises shall be leveled where parking is proposed substantially to the grade of Walton Avenue and there shall be erected along the building line to the west a curbing for protection to the court-yard of the adjoining multiple dwelling and on such curbing there shall be erected a woven wire fence of the chain link type, not less than 5 feet, 6 inches in height with suitable terminating post at the building line; that a similar fence shall be erected to the rear of the house along the building line and on the rear lot line where the three-car garage does not occur; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

297-58-BZ

APPLICANT—Lama, Proskauer and Prober, for A Joseph Fuchs, owner.

SUBJECT—Application May 13, 1958—decision of the Borough Superintendent, under section 21 of the Zoning

MINUTES

Resolution, to permit in a retail and residence use, D, F and G-1 area district, the erection of a six (6) story and cellar multiple dwelling to exceed the permitted area coverage, exceed the allowable area at terrace and typical floor level and has a pedestrian exit and fire escape in the G-1 portion of the premises.

PREMISES AFFECTED—190-05 Hillside Avenue, north side, 95 feet west of 191st Street (mapped) and 100 feet west of 191st Street, Block 10499, Lot 75, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and
and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 21, 1958 after due notice by publication in the Bulletin; laid over to November 5, 1958, for inspection and decision; applicant to submit measured drawings and a copy of the map of the Planning Commission showing the zoning as last adopted; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 188th Street and 191st Street are in residence and retail use, D, F, and G-1 area, class ½ height districts; Hillside Avenue is in a retail use, D area, class ½ height district; Palo Alto Avenue is in a residence use, G-1 area, class ½ height district; that as of July 25, 1916 the entire site was in a class 1 height district, and that part of the site within 100 feet of Hillside Avenue was in a business use district and a class C area district, and the balance of the site was in a residence use district and a class E area district; that on January 21, 1947 the present use designation for that part of the site within 100 feet of Hillside Avenue became effective; that on April 18, 1949 the present area designation of the parts of the site more than 100 feet distant to Hillside Avenue became effective; that on June 30, 1952 the present height designation and the D area designation of that part of the site within 100 feet of Hillside Avenue became effective; and;

WHEREAS, the records of the office of the President of the Borough of Queens, show that prior to November 17, 1949, 87th Drive appeared on the City Maps as a mapped street, between Hillside Avenue and Palo Alto Avenue, extending from 188th Street to 191st Street; that by action of the Board of Estimate (Calendar Number 112-B) dated November 17, 1946, 87th Drive, as mapped was removed from the City Map and laid out as a 50 foot street for a distance of 227.70 feet and 231.54 feet easterly of 188th Street then widened to a width of 90 feet to a total length of 365 feet; and

WHEREAS, the decision of the Borough Superintendent, dated April 24, 1958 acting on N.B. Applic. 897-58, reads:

"1M. The part of the proposed building in 'F' district exceeds allowable area at terrace level and at typical floor, same is contrary to Art. IV sub. 16(d) Zoning Res.

"2M. Floor area of proposed building exceeds the area permitted in that portion of the lot within the 'F' Zone. Art. IV Sub. Sec. 16(e) of the Zoning Res.

"3M. Pedestrian exit from garage ventilation of rear of building and fire escape projection in a G-1 district is contrary to Art. IV Sub. 16-C(a) of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 150 feet frontage by 271.98 feet in depth, irregular, presently vacant; that it is proposed to erect a modern six story and cellar multiple dwelling, having a frontage of

105 feet 6 inches on Hillside Avenue and an overall depth of 194 feet; that the building will contain approximately 111 apartments and garage space for the tenants in the cellar, and will be of class 3 construction, provided with a fireproof first tier; that the building will set back 11 feet from the Hillside Avenue building line and will have a 21 foot wide side yard on the westerly side and 21 foot wide and 23 feet 6 inches wide side yards on the easterly side, all extending from the street to the rear yard, which will have an average depth of 67 feet; that the building will have a height of 60 feet measured from the top of a terrace, 3 feet above curb level; and

WHEREAS, the applicant states as to Objection 1M issued by the Borough Superintendent, that the Building Department interprets Section 16(d) of the Zoning Ordinance as follows:

Plot Area—D	District.....	14,902 sq.ft.
F	District.....	15,438 sq.ft.
G-1	District.....	10,072 sq.ft.

Total40,412 sq.ft.

Permissible Building Coverage

D	District 55% of 14,902 sq.ft.....	8,196 sq.ft.
F	District 30% of 15,438 sq.ft.....	4,604 sq.ft.
G-1	District—None allowed for a Multiple Dwelling	

Total12,800 sq.ft.

Proposed Coverage at Terrace Level

D	District Building.....	8,048 sq.ft.
F	District Building.....	8,638 sq.ft.
	Easterly side yard above terrace level.....	1,617 sq.ft.
G-1	District—None allowed for a Multiple Dwelling	

Total18,303 sq.ft.

Coverage in Excess at Terrace Level..... 5,503 sq. ft.

Proposed Coverage Typical Floor

D	District.....	8,048 sq. ft.
F	District.....	8,638 sq.ft.
G-1	District—None allowed for a Multiple Dwelling	

Total.....16,686 sq. ft.

Coverage in Excess at Typical Floor..... 3,886 sq.ft.

that while it is true that the D zone part of the site does not have excessive coverage, and the F zone part of the site is excessive in coverage as above shown, if the entire plot be taken into consideration as a unit, there will be no excessive coverage at the typical floor; that in fact, the building will occupy 142 square feet less than would be permitted, by combining all the allowable coverages as is shown in the following schedule:

Plot Area—D	District.....	14,902 sq.ft.
F	District.....	15,438 sq.ft.
G-1	District.....	10,072 sq.ft.

Total40,412 sq.ft.

Building Coverage as allowed with a Permissible Use

D	District 55% of 14,902.....	8,196 sq.ft.
F	District 30% of 15,438.....	4,604 sq.ft.
G-1	District 40% of 10,072.....	4,028 sq.ft.

Total16,828 sq.ft.

Proposed Coverage Terrace Level

D	District Building.....	8,048 sq.ft.
F	District Building.....	8,638 sq.ft.
	Easterly Side Yard being above terrace level...	1,617 sq.ft.
G-1	District (No Building)—required rear yard above terrace level	4,380 sq.ft.

Total22,683 sq.ft.

MINUTES

Coverage in Excess at Terrace Level 5,855 sq.ft.

Proposed Coverage at Typical Floor

D District Building 8,048 sq.ft.

F District Building 8,638 sq.ft.

G-1 District—No Building

Total 16,686 sq.ft.

Coverage in Excess at Typical Floor NONE

that if the entire lot be considered as one unit, there is none in excess, and actually occupies 142 square feet less than allowable; that the excess coverage of 5,855 square feet, shown occurring at terrace level, is brought about by the rear yard and part of the easterly side yard being maintained above terrace level, but as close as possible to adjoining levels; that as these areas are to be landscaped, the adjoining properties would be better served by the proposed conditions than if these yards were brought to terrace level, thereby creating unsightly holes and retaining walls; that bringing these two yards down to terrace level, with the adjoining existing topography being higher, would create an unsightly condition and is not required under the Multiple Dwelling Law for the proposed multiple dwelling; and

WHEREAS, the applicant states as to Objection 2M issued by the Borough Superintendent, that as shown by the following table, the entire floor area is only 11,762 square feet in excess of the allowable, if the entire F and G-1 zones be used for floor area purposes; that it is to be noted that the Zoning Ordinance applies to the permissible floor area ratio to the area of the entire plot;

Permissible Floor Area Ratio of the Plot

D District—No floor area ratio restrictions

F District 15,438 sq.ft. in F Zone

G-1 District 10,072 sq.ft. in G-1 Zone

Allowable Total ... 25,510 sq.ft. x 1.6 = 40,816 sq.ft.

Proposed Floor Areas

D District—No Floor area ratio restriction

F District—1st to 6th Floors 51,828 sq.ft.

Cellar Apartment 750 sq.ft.

G-1 District—No Building

52,578 sq.ft.

Floor Area in Excess 11,762 sq.ft.

that the front 100 feet adjoining Hillside Avenue, being in a D zone, has no restrictive floor area ratio, and it is only requested that the balance of the site be accorded the same treatment, so that the entire plot can be treated in a logical manner; that in any event, the site has been in the same ownership since January 15, 1946, at which time the zoning was C zoning for the 100 feet adjoining Hillside Avenue and E zone for the balance of the site; that at said time there were no floor ratio limitations for a C zone, and the E zone allowed a floor ratio of 1.9 times the E zone area, which would be 25,510 square feet by 1.9, equals the allowable floor area ratio of 48,469 square feet; that the E zone part of the building would have a floor area of 30% of 25,510 square feet, or 7,653 square feet, and six floors would equal 45,918 square feet plus 750 square feet for the cellar apartments, which would be a combined total of 46,668 square feet, this being well below the allowable of 48,469 square feet; that therefore, the illogical rezoning in 1949 to an F and G-1 has produced a hardship; and

WHEREAS, the applicant contends that as above shown, the site in question is now divided into three separate area classifications, namely, D, F and G-1, which has produced a hardship; that if the history of zoning in this area be traced since its inception in 1916, it will be seen that the unusual shape of the block, making the site in question approximately 271.98 feet deep, could not lend itself to proper, feasible zoning for the site, and also give the adjoining areas the protection they were entitled to; that in 1916 the original zoning was set at C area for the part of the site within 100 feet of Hillside Avenue, as said 100 feet all along Hillside Avenue was in a business zone; that the remainder of the site and

the community 100 feet north of Hillside Avenue was placed in an E zone to give all of said adjoining community the added protection dwellings normally required; that therefore, the site being 271.98 feet in depth, it was bisected by this action because of its extreme depth and not to give the rear part of the site itself any added protection beyond C area requirements; that the zoning line, to be practical, had to be drawn in a straight line, and as most city lots are 100 feet deep, zoning lines generally are set 100 feet back of street frontages so as not to place one lot in several zones, as has happened to the site; that on April 18, 1949 the E zone part of the site was rezoned to F and G-1 to give additional added protection to all of the residential community 100 feet north of Hillside Avenue; that these zoning lines, again to be practical, had to be drawn in a straight line and not around the site in question which still had frontage on Hillside Avenue and said frontage was still in a C area business zone; that in other words, in order to protect the property on 87th Drive, south side, as an F zone and the property on 87th Drive, north side, and the homes on 191st Street, Palo Alto Avenue and Haywood Road with proper zoning and protection, as a G-1 zone, the zoning lines had to bisect the site due to its extreme depth created by the unusual shape of the block; that it is to be noted that the site has had its extreme depth of 271.88 feet since long before the Zoning Ordinance was enacted in 1916; and

WHEREAS, the applicant further contends that the erection of a multiple dwelling on the plot in full conformity with the Zoning Ordinance would limit its size to such an extent as to not reflect and utilize the high value of the land, and the building would therefore not be economically feasible; that the erection of one family dwellings on the site would not be feasible as Hillside Avenue is a business street, developed with a gasoline station and stores in block 10454 and stores in block 10455, which uses are opposite the site; that in addition, not more than three 1-family dwellings would be feasible, making the cost of the land prohibitive for one family dwellings of the low cost type that would have to be erected on this business street; that the erection of stores in the retail D zone part would leave approximately 171 feet in the residence zone vacant and therefore with no value, but the cost of the entire site would have to be absorbed by the stores, making the cost of said stores also prohibitive; that adjoining lot 72, which has a depth of 100 feet, has been assessed by the City at \$100 per front foot, and lot 92 on Hillside Avenue, in the same block and also 100 feet deep, has been assessed at \$160 per front foot and is a corner, which makes it more valuable; that the site in question has been assessed at \$265 per front foot, which would immediately indicate that it is worth more because it has greater depth; that therefore as shown, although the site has a greater value, the factor of its extreme depth giving it this greater value, cannot be used; that it is to be noted in all cases that the assessed value of the land is much below its selling price or true value; and

WHEREAS, the applicant contends as to Objection 3M issued by the Borough Superintendent, that the pedestrian exit from the rear of the cellar garage will be through the G-1 zone, but is only a secondary means of egress; that the ventilation of the rear of the building is through the windows at said rear; that the fire escapes are open, project 3 feet 4 inches into the G-1 zone at the rear and are required for secondary means of egress from the apartments of the upper floors; that the mere fact that a pedestrian might walk across the G-1 zone in an emergency, or having an apartment with a window adjoining said zone, can hardly be entertained as violating the Zoning Ordinance because said person might come from a multiple dwelling; that although the fire escapes do project 3 feet 4 inches into the G-1 zone, they will be approximately 64 feet from the rear lot line of the site, and the windows in question are approximately 67 feet 6 inches from said rear lot line; that it is impossible to see how said conditions could possibly affect the block, when said distance is greater in width than most city streets; that it is again to be stressed that no part of the proposed building proper will project into the G-1 zone; and

MINUTES

WHEREAS, the applicant further contends that none of the adjoining properties in the block can be affected by the excessive coverage in the F zone, or the excessive floor ratio area, or the mere fact that a pedestrian might walk across the G-1 zone or open a window on said area, when the 67 foot rear yard and the two side yards, one 21 feet wide and the other 21 feet by 23 feet 6 inches wide, completely isolate the building and create a better condition than if a permissible building were erected in a permissible closer manner to these adjoining properties in the G-1 zone; that in any event the entire plot should be treated as a unit and the same treatment accorded the entire plot as would be allowed for the first 100 feet depth; that in view of these facts and as the Board, under Section 21 of the Zoning Resolution, has been given specific powers to vary the zoning ordinance where indiscriminate zoning has created a hardship, as has happened in this case, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since January 15, 1946 and that the assessed valuation of land is \$40,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, and the Committee has found that the plan adopted by the Planning Commission in 1950 discontinued the right of way across the property known as Foot Hill Terrace and the property is no longer affected by such former road; and the Committee found that in view of the provisions of the Zoning Resolution, which does not permit residential construction of any building in a G-1 zone except a single family house, that it would be reasonable to include such area of the proposed apartment house restricting the actual construction to the D and F areas; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the ground of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21 as to extension in area, to permit the construction of the apartment house, substantially as proposed and indicated on plans filed with this application, marked "Received March 13, 1958", 6 sheets, *on condition* that the building shall be entirely within the d and f zones, except that entrance to cellar garage and fire escapes may extend over the line as shown on such plans; that steel picket fences on a masonry base shall be maintained along the lot lines where there are courts or open spaces including the entire area in the G-1 district which shall be landscaped and maintained for the benefit of the tenants with suitable planting and with play spaces for children; that the set back proposed along Hillside avenue shall be retained; that in all other respects the buildings and occupancy shall comply with all laws; rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 3:15 P.M.

Joseph J. Doyle, *Chief Clerk*.

REGULAR MEETING

WEDNESDAY AFTERNOON, NOVEMBER 5, 1958,
2 P.M.

Present: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper.

925-54-A

APPLICANT—Clearview Gardens 1st through 6th Corporation, owners.

SUBJECT—Application reopened September 30, 1958 and restored to docket—Appeal from orders of the Fire Commissioner—re certificated men in boiler rooms.

PREMISES AFFECTED—160-22, 160-31 16th Avenue; 157-57, 157-58, 160-12, 160-35 and 163-66 17th Avenue; 166-30 17th Road; 168-18 18th Avenue; 199-48 19th Avenue; 199-17 and 199-50 21st Avenue; 199-19 22nd Avenue; 15-31 159th Street; 15-43, 16-16, 16-25, 17-08 and 18-11 160th Street; 16-22, 17-34 and 17-63 166th Street; 16-24 200th Street; 16-14 163rd Street; 16-22, 17-34 and 17-63 166th Street; 16-24 200 Street; 17-28 201st Street; 19-32 and 21-36 202nd Street; 17-29 Utopia Parkway; 163-06, 163-45 and 164-28 Willets Point Boulevard and 158-14 and 160-32 Cross Island Boulevard; Block 4742, Lot 22, Block 4743, Lot 1, Block 4744, Lot 28, Block 4746, Lot 35, Block 4747, Lot 38, Block 4754, Lot 1, Block 4756, Lot 1, Block 4758, Lot 10, Block 4767, Lot 1, Block 5730, Lot 1, Block 5740, Lot 139, Block 5750, Lot 6, Blocks 5778, 5781, 5784 and 5787, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Louis E. Yavner.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5
Negative: 0

THE RESOLUTION—

WHEREAS, Order #15863 issued by the Fire Commissioner; November 12, 1954, referring to premises 160-19 16th Avenue, 16-24 200th Street, 199-19 22nd Avenue, 21-17 Utopia Parkway and 21-36 202nd Street, reads:

"C-12—Have persons supervising fuel oil burning apparatus obtain certificates of fitness."

and

WHEREAS, Order Numbers 7439 to 7450 inclusive, issued by the Fire Commissioner, February 26, 1954, reads:

"An inspection of your premises this date show that the following violations of the Administrative Code of the City of New York have been found to exist:

7. Procure 3 Certificates of Fitness, totaling 3—Fuel Oil."

and

WHEREAS, the applicant states that the premises consist of acreage located in a residence use, D and F area, upon which there exist a series of masonette type 2 story, class 4 constructed, masonry veneered dwellings, erected pursuant to variances granted by the Board under Calendar Number 941-50-BZ and 942-50-A, for which buildings Certificates of Occupancies have been issued; and

WHEREAS, the applicant states that there are 33 boiler rooms, equipped with a total of 41 boilers, burning #6 oil, each equipped with a York Burner as approved by the Board under Calendar Number 56-36-SA, a Tuthill Pump approved by the Board under Calendar Number 60-28-SA, a Davis Engineering Company Pre-Heater as approved by the Board under Calendar Number 1097-48-SA; and

WHEREAS, the applicant again states that the boiler rooms will be inspected not less than once in each two hour period and the inspection schedule will be so arranged that no inspector will work more than one 8 hour shift per day, no more than 6 days, excepting holidays, per week; that the inspectors will alternate according to a schedule which will be posted in the office and kept available for inspection by the representatives of the Fire Department as indicated on the following schedule:

and
WHEREAS, the applicant has filed with this appeal an affidavit by licensed professional engineer stating that he is familiar with the requirements of the Administrative Code, the Oil Burner Rules of the Board and the resolutions of General Approval adopted by the Board, relating to equipment installed in the boiler rooms in question; that he has examined the plans filed with the Department of Buildings and has examined the installation in the various boiler rooms in question; that in his opinion the installations comply with all the requirements therefore; and

WHEREAS, the applicant states that the buildings consists of 82 garden type apartment buildings, containing 1788 dwelling units; that they are comprised of attached two-family class 4 dwellings, spread over 83 acres of land, with an average of less than one building or eleven attached two-family homes per acre; that the buildings are serviced by 35 central heating plants; that all heating plants except 2 use #6 preheated oil; and

WHEREAS, the applicant contends that the compliance with the requirements of Rule 15.2 of the Fuel Oil Rules of the Board, would require employment of 99 additional employees, holding Certificates of Fitness and would involve the large operating expense, not contemplated in the original estimate of carrying charges for these dwelling units as determined by the Federal Housing Administration and would seriously affect the financial condition of the cooperative owners; and

WHEREAS, the applicant states that all of the heating units have been equipped with standard safety devices as required by the Oil Burner Rules of the Board and by the Administrative Building Code; that in addition the following safety devices have been installed to comply with the intent of Rule 15.2; that each burner is equipped with an automatic modulating motor control, oil valve and connected to secondary air intake to obtain modulated fire control throughout the burner range; that all boiler rooms have been connected to a signal board in a central office by low voltage circuits leased from the New York Telephone Company; that these circuits are wired in each boiler room to an Ess-Smoke control indicator, which in turn, is connected to a designated alarm and signal light on the signal board located in the central office; that the safety switches for all burner shutdowns have been installed and hooked to these circuits in parallel; that the moment the boiler starts to smoke an alarm is sent to the central office, or if the boiler shuts down on safety, this alarm rings and flashes a signal in the central office indicating the specific boiler room in which a shutdown or smoking has occurred; that the response is immediate and a serviceman is dispatched to the boiler room where the trouble is indicated; that the central office is staffed at all times for these purposes; that in no event can a boiler room be smoking or shutdown on safety control without immediate knowledge and response by one or more competent servicemen holding a certificate of fitness; that the central office has 35 branch telephone circuits, one for each boiler room, so that if a mechanic is out on a service call and an alarm is signalled in another boiler room, he or others can be immediately dispatched to the scene of alarm for immediate service; that the owner now employs 3 superintendents, 1 boiler supervisor and 1 boiler mechanic, all residents of the project, holding certificates of fitness and are on 24 hour call; that the owner also employs 6 oil burner maintenance and service assistants; that the control or signal board as is manned 24 hours a day by a competent employee, who can contact any of the resident employees as may be required; and

WHEREAS, the applicant therefore requests by reason of the hardship imposed on them by the requirements for strict compliance with the Rule and in view of the safety devices installed, that the Board modify the Fire Commissioner's Orders, so as to accept the method of operation proposed, in lieu of strict compliance with the requirements of the Oil Burner Rules; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Fire Commissioner acting on Order #15863 dated Nov. 12, 1954, Item C-12 and Orders 7439 to 7450 Item #7, dated February 26, 1954 be and it hereby is *modified* and that the appeal be and it hereby is *granted* so as to permit, during the hours of operation of the boilers, inspection of each boiler room, not less than once each two hour period; that no inspector shall work more than one eight-hour shift per day nor more than six days a week, excepting holidays, in accordance with the above schedule *on condition* that such schedule shall be posted in the office and kept available for inspection by representatives of the Fire Department; that all of the safeguards described herein shall be maintained to the satisfaction of the Fire Commissioner; that the buildings shall otherwise comply with the requirements of all laws, rules and regulations applicable thereto except as modified by the Board under Calendar Nos. 941-50-BZ, 942-50-A, 480-51-BZ and 505-51-A; and *granted* only so long as the buildings remain in the present corporate ownership groups and are under single operation and control.

927-54-A—Vol. II

APPLICANT—Samuel Rosenblum for Alfred Brainard, owner.

SUBJECT—Application reopened June 24, 1958 as Vol. II —Appeal from a decision of the Borough Superintendent re: provision of exits and framing for live load of 120 pounds for 2nd story factory.

PREMISES AFFECTED—2042-2050 Amsterdam Avenue west side, from St. Nicholas Avenue to West 162nd Street, 1033-1039 St. Nicholas Avenue and 500-504 West 162nd Street, Block 2120, Lot 23, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and Louis Karnaw.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated May 21, 1958, on Alt. Applic. 316/58, reads:

"1. Provide exits in compliance with Sec. 270 of the Labor Law from 2nd floor.

"2. Provide framing for a live load of 120 pounds per square foot for 2nd floor factory C26-345.0."

and

WHEREAS, the applicant states that the building is 2 stories, 29 feet in height, 167 feet 11 $\frac{3}{8}$ inches by 100 feet in area at 1st floor, 167 feet 11 $\frac{3}{8}$ inches by 53 feet in area at 2nd floor, of class 3 construction, erected 1906, located on a lot in a business and residence use, B area, class 1 $\frac{1}{2}$ height district, and used and occupied since 1954 as follows: Cellar—boiler room and storage of store merchandise, 2 persons; 1st floor—stores, 52 persons; 2nd floor—offices, show rooms and manufacturing of eye glass cases, leather belts, lamp shades and ladies hats, 40 persons; that no change in use and occupancy is now proposed; that the building is provided with one interior 6 foot 4 inch wide wood stairs with cement treads, enclosed in fire retarded partitions, equipped with fireproof self-closing doors and leading from 2nd floor direct to street and 2 fire escapes, one in the east and one in the west courts, extending to roof by ladder in the west court and to street by stair from the west court; that the other fire escape extends to yard by stair with egress direct to street; that window and door openings on the course of the fire escapes are fireproof self-closing; and

WHEREAS, Violation #1593 was issued March 9, 1954 for changing the use of the 2nd floor to manufacturing contrary to certificate of occupancy; and

WHEREAS, Certificate of Occupancy #5662 issued December 22, 1922 against Alt. Applic. 1006/22 permits the following use and occupancy: Cellar—storage, 10 persons; 1st

MINUTES

floor—stores, 52 persons, 120 lbs. live load; 2nd floor—offices, 33 persons, 60 lbs. live load; and

WHEREAS, the applicant states that the cellar is equipped with non-automatic dry sprinkler system installed in accordance with the requirements of the Resolution adopted by the Board under Calendar Number 1689-18-A; and

WHEREAS, under Calendar Number 738-22-BZ, the Board of Standards and Appeals permitted the extension of the 1st story into the residence use district at the rear approximately 38 feet; and

WHEREAS, the portion of the building now in question consisting of the 2nd floor only lies wholly within the business use district portion of the plot; and

WHEREAS, under Calendar Number 927-54-A, Volume I, a similar appeal was filed with the Board, from a decision of the Borough Superintendent, on Alt. Aplic. 586/54 relating to exits and live load and such appeal was dismissed for lack of prosecution December 18, 1956; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions, among which will be the requirement that there should be a counterbalanced stair at the street line toward the south, and in the yard space toward the west in place of the existing stair or ladder.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 316-58, Objection No. One and two and that the appeal be and it hereby is *granted, on condition* that there shall be constructed and maintained a counterbalanced stair at the street line on Amsterdam Avenue and at the end of the corridor at the yard in place of the existing sixty degree stair; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the floor loading shall be not less than sixty pounds per superficial foot, and so posted; and that there shall be no use of the premises exceeding such loading.

729-57-A

APPLICANT—The Brooklyn Union Gas Company, owner.
SUBJECT—Application October 8, 1957—Appeal from an order and a decision of the Fire Commissioner re testing of liquefied Petroleum Gas tanks.

PREMISES AFFECTED—287-473 Maspeth Avenue and 438 Varick Avenue, northeast corner, Block 2838, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: L. A. Hunziker and W. E. Tate.

For Administration: Lt. John P. Manfredi, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating and Commissioner Foley 3

Negative: 0

Not Voting: Commissioner Kleinert 1

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, Order #3765-7 issued by the Fire Commissioner, May 29, 1957 reads:

“Inspectors of this Department report that hazardous conditions were found to exist at the above premises. Kindly comply, immediately, with the following order and promptly notify this Department when such order has been complied with.

1. Submit evidence to this office that the low pressure receiver has been given a 5 year pressure test, at not less than twice the charging pressure of 70° Fahrenheit, unless such test pressure should exceed 300 pounds, in which case the test pressure shall be not less than $1\frac{2}{3}$ times the charging pressure at 70° Fahrenheit for 15 minutes, as per Section C19-91.0-c, Administrative Code.

and

WHEREAS, the decision of the Fire Commissioner, dated September 11, 1957, reads:

“In reply to your letter of June 25, 1957 requesting permission to test liquefied petroleum gas tanks on the above premises once every 15 years instead of every 5 years and to rescind order #3765-7 dated May 29, 1957, please be advised that your request is denied for the reason that original approval of the installation required that tanks be tested every 5 years. It is also expected that the rate of corrosion and probability of failure will increase with the age of the tanks.”

and

WHEREAS, the premises consists of a plot 2011.63 feet front by 1997.69 feet irregular in depth, in an unrestricted use, A area, class $1\frac{1}{2}$ height district, used and occupied for the manufacturing and storage of illuminating gas, including the twenty eight 30,000 gallon butane, propane and iso-butane storage tanks now in question which were installed by permission of the Department of Marine and Aviation; and

WHEREAS, in addition to the tanks in question, there are various tanks for the storage of volatile and inflammable oils and liquids, including motor fuel and gas oils and additional tanks for the storage of liquefied petroleum gas as permitted by the Board to be installed, pursuant to Calendar Numbers 762-56-A, 147-56-A, 58-46-A and 1301-39-A; and

WHEREAS, the applicant states that this is a request for modification of the Fire Commissioner Order, so as to permit the testing of tanks once every 15 years in lieu of the testing once every 5 years, as required by the Order and the Provisions of the Administrative Code; and

WHEREAS, the applicant contends that none of the Codes used as a basis for designing and operating liquid propane gas systems require any pressure testing after the initial testing at the time of installation; that the 28 tanks in question were given a pressure test and an internal inspection in 1952 after 5 years of service and were in excellent condition; that after 10 years of service in April 1957, 6 of the tanks were retested and were given an internal inspection, which revealed the tanks in very excellent condition; that no pitting whatsoever was observed in any of the tanks and the interior surfaces were only partly covered by light powdery dust, mostly due to the deterioration of the mill scale which brushed off readily by hand leaving a smooth surface on the metal underneath; that where no pitting was found in 1952 faint traces were found in 4 of the tanks in 1957, because the degree was too small for measurements; that the corrosion was estimated to have a maximum depth of .002 inches; that this is so insignificant that it can be discounted; that 14 of the tanks were constructed of grade “B” fire box quality steel; that the side plates are .938 inches thick and the heads are .750 steel; that the other 14 tanks were constructed under the same Code of similar material, except that the side plates are .96 inches thick and the heads .764 inches thick steel; that theoretically for the maximum working pressure with a 4 to 1 safety factor, the shells and heads could pit or rot to $\frac{1}{4}$ of their present thickness before rupturing; that for the minimum thickness of plate required, rusting and pitting could take place to the extent of 281 times the maximum depth experienced in the first 10 years of operation before rupture; that the gases stored have no corrosion effect on metals; that the greatest factor for the promotion of corrosion are water and oxygen that enter the tank during the periods of tests and inspections; that the condition of the tanks after 10 years service is similar to what others in the industry report on their tanks after 15 years of internal inspection; that the consensus of opinion in the industry is that inspection is of more value than pressure testing; that such inspection should be done no more frequently than 15 years intervals; and

WHEREAS, the applicant states that it is proposed to pressure test 6 tanks every 5 years with no one tank being tested less frequently than once every 5 years; that should the testing show corrosion infringing too far on the factor of safety, the Company will gladly revert to testing once every 5 years; and

WHEREAS, the premises was inspected by a committee of the Board and the committee recommended that the appeal

MINUTES

should be granted on condition to reduce the required time for tests.

Resolved, that the decision of the Fire Commissioner dated May 29, 1957, acting on Order #3765-7 be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to time of test to provide that after all of the tanks have been tested within the period of fifteen years from the time that they were installed, that future tests shall be within ten years from such inspection and thereafter at five year intervals; that in all other respects the tanks shall be maintained in accordance with the requirements of the Fire Commissioner.

213-58-A

APPLICANT—Lama, Proskauer and Prober, for Barney Tall, owner.

SUBJECT—Application April 8, 1958—Appeal from a decision of the Borough Superintendent, re frame building—public occupancy, egress, live load.

PREMISES AFFECTED—595 Saratoga Avenue, east side, 56 feet, 5½ inches north of Sutter Avenue, Block 3515, Lot 74, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Foley and Commissioner Sleeper.. 4
Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated March 26, 1958, on Alt. Applic. 3841/57, reads:

"2—Proposed public occupancy within a frame building is contrary to Sect. 4.2.1 of the Bldg. Code.

3—Means of egress to comply with Section C-26-273 to C-26-292 of the Bldg. Code.

4—A live load of 100 lbs. per square foot is required for 2nd floor as per 7-3-2-2-3 of the Bldg. Code."

and

WHEREAS, the applicant states that the premises consist of a lot 18 feet 2¾ inches by 50 feet, located in retail use, C area, class 1 height district, upon which there exists a 2 story, 24 feet high, class 4 construction, 18 feet 2¾ inches by 42 feet in area, erected before 1915, used since 1938; Cellar—ordinary; 1st floor—store; 2nd floor—one family, for which Certificate of Occupancy #91242 was issued against Alt. Applic. 5376/38; and

WHEREAS, the applicant states that the present and proposed use and occupancy is: Cellar—ordinary; 1st and 2nd floors—social club, 40 persons each floor; that the building now has a legal business use of "Store" on the 1st floor and inasmuch as the present use is of a non-hazardous nature, it is respectfully requested that the frame building be accepted for occupancy as a Social Club; and

WHEREAS, the applicant states that the 2nd floor is now provided with one 3 foot wide wood stair leading to the 1st floor and thence to the street by two 3 foot wide exit doors; that as a second means of egress a 3 foot wide balcony with an iron ladder will be installed on the front of the building; that a new scuttle and iron ladder will also be installed leading to the roof; that this floor will only be occupied by 40 men, so that exits are deemed acceptable; that the 1st floor is now provided with two 3 foot wide exits leading directly to the street; that the 2nd floor will have a posted floor load of 40 lbs. per square foot and will have a maximum occupancy of 40 men; that in view of the facts it is requested that this application be granted; and

WHEREAS, the premises was inspected by a committee of the Board; and

WHEREAS, this was laid over as to the matter of floor load.

Resolved, that the decision of the Borough Superintendent, dated March 26, 1958, acting on Alt. App. 3841-57, Objections 2, 3 and 4 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the oc-

cupancy as proposed within the frame building shall not exceed the area indicated on plans filed with this appeal marked "Received April 8, 1958", 3 sheets; that the building shall not be increased in height or area; that the means of exit shall be maintained as proposed on such plans; that specifically as to Objection 4 the floor loading condition shall be improved by the introduction of columns in the cellar and first floor as shown on revised plans marked "Received October 30, 1958", one sheet, thereby reducing the span by means of the introduction of girder front to back resting on such columns; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

590-58-A

APPLICANT—Leonard F. Rothkrug, for 512 Fulton Street, Corp., owner; J. W. Mays, Inc., lessee.

SUBJECT—Application October 9, 1958—Appeal from a decision of the Borough Superintendent, re proposed escalators, cellar to 3rd floors.

PREMISES AFFECTED—263-273 Livingston Street and 22-30 Hanover Place, northwest corner, Block 160, Lot 29, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Foley and Commissioner Sleeper.. 4
Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 5, 1958, on Alt. Applic. 2648/58, reads:

"1) Proposed open escalators from cellar to 3rd floors, is contrary to sect. 10.5.1 of the Adm. Code."

and

WHEREAS, the applicant states that the building is 3 stories, 43 feet 6 inches in height, 120 feet front by 100 feet in area, class 3 construction, erected 1928, located in a business and restricted retail use, B area, class 2 height district, and used and occupied since 1928 as follows: Cellar—ordinary use; 1st, 2nd and 3rd floors—furniture store; that it is proposed to be increased to 4 stories without any change in height, of class 3 construction and to be used and occupied as follows: Cellar—retail sales and stockroom, 250 persons; 1st floor—retail sales, 400 persons; 2nd floor—retail sales, 200 persons; 3rd floor—retail sales, 200 persons; 4th floor—retail sales and storage, 200 persons, and equipment room; that the building is provided with two-source sprinkler system and an approved fire alarm system and regular monthly fire drills are maintained; that there is one 3 foot 8 inch wide interior steel and concrete stairs, enclosed in cinder block partitions, equipped with fireproof self-closing doors and leading from roof bulkhead direct to street; and

WHEREAS, Certificate of Occuancy #51260 was issued June 25, 1926 against Alt. Permit #873/28, permitting the existing use and occupancy; and

WHEREAS, the occupant states that the building was erected under N.B. Applic. 7175/26 for use as a furniture store and now being altered for use as a retail department store, under approved Alt. Applic. 2648/58; that it is proposed to further alter the building, so that escalators can be installed; that the escalator from cellar to 1st floor is now being installed under the approved alteration application; that the balance of the escalators proposed will be installed in the future; and

WHEREAS, the applicant states that additional exits will be provided for horizontal openings in the firewalls protected with fireproof sliding self-closing doors; that in addition a 3 foot 8 inch fireproof stair from roof bulkhead to Hanover Place will be installed; that the building will be altered to 4 stories, 49 feet 9 inches in height, so that the floor levels will be the same as adjoining buildings; and

WHEREAS, the applicant states that under Calendar Number 366-29-A, the Board permitted the omission of a stand-pipe system in the building; and

MINUTES

WHEREAS, the applicant states that it is proposed to install a two source approved type sprinkler system in view of the standpipe system; and

WHEREAS, the applicant contends that the proposed escalators will be constructed of fireproof materials throughout; that the sides of the well openings and soffits will be of plaster on metal lath and metal furring; that there will be a fireproof balustrade finished with plaster on both sides and the well opening to be provided with a rolling shutter in a horizontal position at the top of the balustrading, manually operated; that the well openings below will be protected by plaster baffle 24 inches below the general ceiling level and protected by automatic sprinkler heads, approximately 4 feet on centers around the perimeter of the well opening; that an automatic electrical device will be installed to stop the operation of the escalator upon closing of the shutter; that where sprinkler heads are closer than 4 feet, a metal reflector will be installed at each head to prevent water cooling; that the rolling shutters at the top of each opening will be of approved type, readily operated by hand by means of a chain with crank mechanism, permanently secured by a heavy ring to the bottom rail of the shutter and supported on brackets, so as to be at all times readily available; that the chain will weigh not less than $\frac{1}{4}$ lb. per running foot; that on all shutters directly above the bottom rail there shall be painted in red letters not less than 3 inches in height, the words "CLOSE SHUTTER TO FLOOR" with an arrow pointing downwardly; that a gong will be installed at each escalator run, operated by means of push button, centrally located, two to a floor, so that the pushing of any such button will ring gongs on both floors as a signal to close the escalator curtains; that instructions will be given to all superintendents and section managers to include in addition general instruction as to the use of fire extinguishing equipment and exits, instruction and monthly drills as to closing escalator curtain, so that the responsibility will at all times be fixed on the attendants on the floors, to the end that curtains are immediately closed upon the sounding of the gong signal and the closing of curtains will automatically stop all escalators; and

WHEREAS, the applicant further contends that the proposed escalators are typical for department stores of this nature and are required for the convenience of patrons; that the safeguards proposed are the same as those accepted by the Board under similar appeals; that in addition, the owner is proposing to install an interior fire alarm system.

Resolved, that the decision of the Borough Superintendent, dated October 5, 1958, acting on Alt. App. 2648/58, Objection No. 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* to permit the construction and use of open escalators from cellar to third floor, protected as proposed and as indicated on plans filed with this appeal marked "Received October 9, 1958," 11 sheets; that in the event the owner desires to construct these escalators at different times, such construction may be permitted provided the requirements of this resolution are complied with; that additional exits shall be maintained and fire alarm as proposed and that in all other respects the building and occupancy shall comply with all requirements therefor, and the two source sprinkler system shall be maintained in accordance with the requirements and to the satisfaction of the Fire Commissioner.

789-55-A—Vol. II

APPLICANT—Columbia Pictures Realty Corp., for Prentice Development Corp., owner.

SUBJECT—Application for consideration—reopening as Vol. II subject to regular procedure—re Appeal from a decision of the Borough Superintendent;—re removal of sprinkler heads and pipes, previously granted on condition.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 15, 1957, as they appeared in Bulletin No. 43, Vol. 42, hereby corrected to read as follows:

825-28-BZ—Vol. II

APPLICANT—Charles M. Spindler, for K.B.S. Realty Corp., owner.

SUBJECT—Application for consideration—reopening for amendment of resolution—re Application—decision of the Borough Superintendent; previously granted on condition, under section 7f of the Zoning Resolution, permitting in a business use district, the proposed erection and maintenance of a gasoline service station, auto washing, lubricatorium, sales of auto accessories, minor repairs with hand tools only, parking and storage of cars.

PREMISES AFFECTED—1982 Bronxdale Avenue and 1951-1961 Barnes Avenue, northwest corner and 780-792 Neill Avenue, Block 4261, Lot 60, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles M. Spindler.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on February 13, 1957, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 13, 1957, by adding thereto:

"that the entire parcel may be regraded so that it will pitch towards Bronxdale Avenue with a drainage trench provided along Bronxdale Avenue to receive the drainage from the station; and to omit one curb cut on Bronxdale Avenue and relocate one curb cut within 25 feet of the westerly lot line, as shown on revised plans marked 'Received October 1, 1957,' 2 sheets; and that in all respects where not inconsistent with this resolution, the resolution above cited shall be complied with." (N.B. 822/56)

* Correction—Address of premises affected corrected to read "1982 Bronxdale Avenue," etc.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 15, 1958, as they appeared in Bulletin No. 42, Vol. 43, hereby corrected to read as follows:

111-56-A—Vol. II

APPLICANT—Godfrey L. Hansen, for Neptune Meter Company, owner.

SUBJECT—Application reopened June 24, 1958 as Vol. II—Appeal from a decision of the Fire Commissioner re: smoking permits for certain office areas in factory building.

PREMISES AFFECTED—47-25 34th Street, northeast corner of 48th Avenue, Block 250, Lot 1, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Godfrey Hansen.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner, dated May 1, 1958 (Folder #50115.01) reads:

"In reference to your letter of April 15, 1958 requesting permission for certain office areas in this factory building to be designated as 'permissible smoking areas' please be advised that smoking in these areas is contrary to Section 283 of the Labor Law, and your request is therefore denied."

and

WHEREAS, the applicant states that the building is 3 stories, 60 feet in height, 425 feet by 200 feet in area, class 1 construction, erected 1924, located on a lot 600 feet front by 200 feet in depth, in an unrestricted use, B area, class 1½ height district, and used and occupied since July 1957 as follows: 1st floor—factory and office, 250 persons; 2nd floor—factory and office, 1205 persons; 3rd floor—factory and office, 270 persons; that the entire building used and occupied for the manufacturing of liquid meters and accessory equipment by a single tenant; that no change in use or occupancy is proposed; that the building is equipped with an approved standpipe system, and an approved two source sprinkler system throughout, and an approved interior fire alarm system; that there are four interior 44 inch wide masonry stairs, masonry enclosed, equipped with kalamein self-closing doors and extending direct to street; and

WHEREAS, Certificate of Occupancy #Q106945 issued December 28, 1955 against Alt. Applic. 1309/52 permits the present use and occupancy; and

WHEREAS, the applicant states that permission is sought to smoke in the following areas: *basement and 1st floor—offices; 2nd floor—offices and cafeteria; 3rd floor—office; and*

WHEREAS, the applicant states that it is felt that all the requirements for a smoking permit is outlined in Section 283, Rule 2, Paragraph 3 of the Labor Law have been complied with; that the building is fireproof; that all partitions, shelving, etc., are of non-combustible material; that the building will be used to machine and assemble test meters and associated equipment, which places it in the machine shop classifications; that the material used will be mainly brass castings and some iron, steel and aluminum materials all of the non-combustible nature; and

WHEREAS, the applicant contends that complete prohibition of smoking creates a hardship on many employees and it is believed that by setting up permissible smoking areas, promiscuous smoking in other areas can be eliminated; that it is therefore requested that the Board grant permission to smoke in certain designated areas, as indicated on plans filed with this appeal; that such smoking to be permitted during the hours of 7 A.M. to 7 P.M. in the designated areas within the manufacturing area and at any time in the cafeteria or office areas; that all partitions around the smoking areas will be of steel and glass, 7 feet high, except in the office area where masonry partitions already exist; and

WHEREAS, the premises was inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Fire Commissioner acting on decision dated May 1, 1958, in connection with Folder #50115.01 and that the appeal be and it hereby is *granted*, modifying the decision of the Fire Commissioner to permit smoking in the areas as proposed and shown on plans filed with this Appeal marked "Received May 29, 1958," 6 sheets, *on condition* that such signs shall be displayed in such areas as may be determined by the Fire Commissioner stating that smoking is therein permitted; that such receptacles for smoker's refuse shall be maintained as he may require; and that the maintenance of the premises and the fire-fighting equipment shall be maintained as herein proposed.

* Correction—In the applicant's statement, wherein permission is sought for smoking by the employees, an area of the basement is included, as indicated in *italics*.

PETITION AND ORDER OF CERTIORARI SERVED ON THE BOARD OF STANDARDS AND APPEALS

On November 6, 1958, Copy of Petition and Order of Certiorari was served on the Board by Max M. Lome, attorney for The Allied Civic Assn. of Beechhurst Inc., et al., objecting property owners, seeking a reversal of the Board's determination on November 6, 1958, granting a variance under sections 7e, 7h and 7a of the Zoning Resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, car washing, storage room, office and sales and parking of cars waiting to be serviced, with a lot cut within 75 feet of a residence use district, for a stated term of fifteen (15) years; Cal. No. 167-55-BZ—Vol. II; Premises 20-57 to 20-67 (20-65 official) Clintonville Street, 157-25 Willets Point Boulevard, Whitestone, Borough of Queens.

COURT DECISIONS

In the Matter of Lewis Feldman, et al. against Nassau Shores Estates, Inc., et al., relating to a variance granted by the Zoning Board of Appeals of the Town of Oyster Bay to permit the erection of a residence on a plot 40 by 100 where the minimum size lot required by the law was 10,000 square feet.

Mr. Justice Mario Pittoni, stating in part, as follows:

"Application was made to the Board of Appeals for permission to build on this undersized plot and the application was granted. Upon court review, the decision of the Board was held to be not arbitrary or unreasonable, stating: 'An ordinance which permanently so restricts the use of property goes, it is plain, beyond regulation, and must be recognized as a taking of the property.' Sympathetic though the court may be to the objections of owners of larger plots, the owner respondent is still entitled to erect a residence on his property. Where an owner is seeking a variance of an area requirement, it is not necessary to establish special hardship (Matter of Vil. of Bronxville v. Francis). Here the owner has proven that practical difficulties exist.

"Although the court is denying the application under article 78 on the merits, it may be observed that the corporate petitioner, as a nonproperty owner, has no right to institute such proceeding for it is not an 'aggrieved' party. However, the individual petitioner as an owner of property in close proximity to the subject property is an 'aggrieved' party." (Law Reports, New York, October 22, 1958.)

Matter of Feneck vs. Murdock:—On December 17, 1957, the Board granted a variance under Section 7e of the Zoning Resolution to permit in a local retail and residence use district, the erection and maintenance of a gasoline service station; Premises 2139-2147 86th Street and 2173-2177 West 10th Street, northeast corner and 95-105 Avenue V, Block 7117, Lots 45, 46, 47, 48, 50, 51 and 52, Borough of Brooklyn.

At Special Term, Part I, Supreme Court, Mr. Justice Martuscello sustained the Board's decision, stating in part:

"This section authorizes the Board to permit certain non-conforming uses on grounds other than practical difficulties or unnecessary hardships." "Where the Board grants a variance the question of power only is to be considered (Matter of Reed vs. Board). The court will not substitute its judgment for that of the Board or otherwise interfere with the exercise of the judgment of the Board where the record discloses a reasonable basis for its action." "Petitioner's contention that the determination was not based upon the Board's own findings is without merit." "While it is necessary . . . that the basis of the Board's determination be set forth, it is sufficient if such findings are set forth in the return (Fordham Manor Church vs. Walsh)." "Accordingly, the action of the respondent was not arbitrary, capricious or unreasonable and the petition is dismissed" (N.Y. Law Journal, November 10, 1958, page 14.)

BZ—II, 651-56-BZ, 222-57-BZ—Vol. II, 718-57-BZ, 1001-55-BZ, 840-28-BZ—Vol. II, 783-57-BZ, 381-57-BZ, 283-50-SA—Vol. II, 718-55-SA and 249-56-SA—Vol. II.

919-46-BZ

APPLICANT—Lama, Proskauer and Prober, for 729 East
98th Street, Inc., owner.

SUBJECT—Application reopened May 6, 1958 as Vol. III
—decision of the Borough Superintendent, under section
7c of the Zoning Resolution, to permit on a plot, partly
in an unrestricted use district and partly in a business use
district, the extension of the present use of wooding shops,
office and storage of lumber in building by increasing the
size of the plot and use the increased area in conjunction
with the existing uses for the storage of lumber and load-
ing and unloading in the open area.

PREMISES AFFECTED—699-731 East 98th Street and
9801-9807 Ditmas Avenue, northeast corner and 736-750
Bristol Street, Block 3641, Lots 1, 6-53 and Lot 60,
Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keat-
ing, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION

WHEREAS, this application was reopened as Vol. III on
May 6, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application
on October 15, 1958 after due notice by publication in the
Bulletin; laid over to October 28, 1958, for inspection and
decision; hearing closed; then to November 12, 1958, for
applicant to file revised plans showing an unused portion
of plot forty feet from the northerly lot line and running
at right angles thereto as a fire break; and

WHEREAS, the district maps accompanying the Zoning
Resolution show that the site and East 98th Street are in
unrestricted and business use, D area, class 1 height dis-
tricts; Ditmas Avenue is in an unrestricted use, D area,
class 1 height district; Bristol Street is in residence,
business and unrestricted use, D area, class 1 height dis-
trict; Hopkinson Avenue is in a residence use, D area,
class 1 height district; that as of July 25, 1916 that part
of the premises within 100 feet of Bristol Street was in an
unrestricted use district and the balance of the plot was in
a business use district; that on May 10, 1928, the zoning
lines were changed so that part of the premises within 100
feet of Ditmas Avenue was put in an unrestricted use dis-
trict and the balance of the plot was put in a business use
district; that as of July 25, 1916 that part of the premises
within 100 feet of Bristol Street was in a 1½ height dis-
trict, and on July 22, 1954 the entire premises was put in a
class 1 height district; and

WHEREAS, the decision of the Borough Superintendent,
dated March 31, 1958 acting on Alt. Applic. No. 170-58,
reads:

"1. On a lot located partly in an unrestricted use
district, and partly in a business use district, the exten-

MINUTES

sion of the existing woodworking shop, offices, and lumber storage in building by increasing the size of the lot and using the increased area in conjunction with the existing uses for the storage of lumber and loading and unloading, in the open area is contrary to Art. II Sect. 4(a) subdiv. 31 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 287 feet 1-5/8 inches frontage by 68 feet 3-1/2 inches in depth, irregular, presently developed with a one story building of class 3 construction, having a frontage of 160 feet, a depth of 68 feet 3-1/2 inches, now occupied as a woodworking shop, offices and lumber storage in building; that the open yard is now being used for lumber storage, loading and unloading of lumber; that it is proposed to maintain the present legal use of woodworking shop, offices, lumber storage in building, and legalize the present uses of storage of lumber in the open yard, together with loading and unloading of lumber; that the open yard will be enclosed with an 8 foot high woven wire fence on the East 98th Street building line, and a 6 foot high woven wire fence on the interior lot lines where adjoining buildings do not occur; that the open area will be unpaved; and

WHEREAS, the applicant states that Department of Buildings records indicate that the present building on the site was erected under Alt. Applic. No. 3091-46 and under Cal. Nos. 919-46-BZ, Vol. I, 926-46-A and 919-46-BZ, Vol. II; that the open yard now being used for lumber storage, loading and unloading of lumber does not have a permit; the Certificate of Occupancy No. 132933 was issued on July 16, 1952 for use as woodworking shop, offices, lumber, storage in building; and

WHEREAS, the applicant contends that the site is situated in an area that is more than 50% unrestricted, so that the use of said open yard for storage of lumber, loading and unloading of lumber will be in complete harmony with the general surrounding properties in this area; and

WHEREAS, the applicant states that the present owner has held title to the property since November 29, 1943, July 9, 1952 and January 21, 1954; that the assessed valuation of land is \$17,200 and of the building \$56,500 making a total of \$73,700; that the building was erected in 1952; and

WHEREAS, this was laid over for inspection by a committee of the Board and for the applicant to file revised plans; the inspection was made and revised plans have been filed which are designed to leave the fenced area against the adjoining house for protection thereto and as a fire-break; and the committee recommended that the application be granted on condition.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 9, 1947, under Vol. I, as thereafter amended by resolutions adopted through July 24, 1951, by adding thereto:

"that in the event the owner desires to extend the use by the addition of vacant land to the north, such use may be permitted for the storage of lumber provided a woven wire fence of the chain link type not less than six feet in height shall be erected across the lot, at a distance of twenty feet southerly and parallel to the lot line of the adjoining Lot No. 8, and a woven wire fence 8 feet high on the street line and the interior lot lines where walls of adjoining buildings do not occur on the lot line, as proposed and as indicated on plans filed with this application marked "Received April 9, 1958", 4 sheets, and as revised by revised plans marked "Received November 5, 1958", one sheet, *on condition* that in all other respects the requirements of the resolution above cited shall be complied with where not inconsistent with this amended resolution; and that all permits shall be obtained and all work completed within six months from the date of this amended resolution."

967-57-BZ

APPLICANT—Samuel Carr, for Nathaniel Ratner, owner.
SUBJECT—Application December 24, 1957—decision of the

Borough Superintendent, under sections 7e and 21 of the Zoning Resolution, to permit in a business and residence use, "D" area district, the erection of a one story masonry building to be used for manufacturing and storage as permitted in the business district and occupying more than the permitted area.

PREMISES AFFECTED—108-24 Astoria Boulevard, southwest corner of 110th Street, Block 1703, Lot 94, East Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: Samuel Carr.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 17, 1958 after due notice by publication in the Bulletin; postponed to October 15, 1958, for hearing at request of objector; then to October 28, 1958, for inspection and decision; hearing closed; then to November 12, 1958, for applicant to file revised plans, showing no portion of the building in the residence district, that such portion shall be fenced and the building limited to one story, located entirely in the portion of site zoned for business use; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 108th Street and 110th Street are in business and residence use, D area, class 1 height districts; Astoria Boulevard is in a business use, D area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 13, 1958 acting on N.B. Applic. No. 3845-58, reads:

"1. The proposed use of this building located within a business district and extending into a residence district is contrary to Art. II, Sec. 3 of the Zone Law.

"2. The area of proposed building occupying 100% of the area of the lot in a D district is contrary to Art. IV Sec. 14 of the Zone Law."

and

WHEREAS, the applicant states that the premises consist of a plot, 45 feet frontage by 90.6 feet in depth; that it is proposed to improve the property with a one story building, no cellar, with face brick masonry wall facing street and boulevard, and masonry blocks for remainder walls, roof beams of steel and concrete arches; and

WHEREAS, the applicant states that the total plot is 5160 square feet; actual coverage proposed is 5160 square feet; that the area in the business use is 4345 square feet; that that part lying in the residence use area at the southwest corner of the parcel is 815 square feet and has no access thereto and obviously cannot be used, except as part of the improvement of the rest of the plot; that in a D area, this corner plot for business may cover 3500 square feet plus 88 square feet for permissible coverage of an interior plot, plus 480 square feet for the loading dock, making a total of 4068 square feet; that this will leave approximately 20% of excess coverage in this case, should the entire lot be covered; that a variance for use is requested; that part of the floor area so indicated for use for light manufacturing as is permitted in a business use district; that part in the residence use will be restricted to storage; that deducting for toilets, loading dock, office space and warehousing, the area left for light manufacturing becomes about 2300 square feet, or less than 1/2 of the plot area; that permissible use into a more restricted area is requested; that the exterior walls facing the dwellings to the south will be practically below the line of vision; that the terrain slopes sharply north to the water's edge and hence the top of the roof of the proposed structure will be on a level well below the ground level of the dwellings to the rear of this plot on the same block 1703, lots 82, 81, etc.; and

MINUTES

WHEREAS, the applicant contends that the adjacent building on lot 93 is used for trucking and storage and that lot 87 is also used for trucking, motor vehicle and gas station; that thus, only a commercial building for such use as is proposed, including light manufacturing, is indicated as the best and most desirable improvement of this land; that to penalize the owner for a loss of 15% of the land which lies in the residence use and 20% because of permissible area only, would leave the owner with a 80% potential land covering, which is a hardship and a deprivation of the full benefit of his financial investment; and

WHEREAS, the applicant states that the present owner has held title to the property since April 5, 1956 and that the assessed valuation of lands is \$4,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on certain conditions, not permitting any building or use within the residence district; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, as to area, to permit construction of the building as proposed and as indicated on plans filed with this application marked "Received December 24, 1957", one sheet, "May 16, 1958", 4 sheets, and "July 2, 1958", one sheet, and revised plans marked "Received November 6, 1958", 4 sheets, *on condition* that the building shall not exceed one story in height and shall not exceed in coverage the area in the business district; that the portion in the residence district shall not be built upon and shall be fenced with a woven wire of the chain link type not less than five feet six inches in height and the portion in the residence use district shall be maintained with sod and kept in a neat condition at all times and not used for storage; that the building herein permitted shall be for a use conforming in the business district and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

386-58-BZ

APPLICANT—Unger and Unger, for Alex Lifschutz, owner.

SUBJECT—Application June 19, 1958—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in a G area district, the construction of a one story extension with less than the required setback.

PREMISES AFFECTED—616 East 19th Street, southwest corner of Foster Avenue, Block 5239, Lot 44, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Feldman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 12, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Foster Avenue, East 18th Street, East 19th Street and Glenwood Road are in a residence use, G area, class ½ height district; that as of July 25, 1916 the property was zoned as residence 1¼ height area

district and the present zoning became effective on July 28, 1939; that there are no zoning amendments pending at the present time relating to this property; and

WHEREAS, the decision of the Borough Superintendent, dated May 20, 1958 acting on Alt. Applic. No. 1406-58, reads:

"1. Proposed extension encroaches upon required setback in a G area district and violates Art. 4 Sect. 16B(b) of Zone Resolutions."

and

WHEREAS, the applicant states that the premises consist of a plot, 66 feet 3-¾ inches frontage by 100 feet in depth, on which is located a one family dwelling, two story and attic frame structure, occupied as a private residence and dentist's office, for which Certificate of Occupancy No. 74570 was issued in 1934; and

WHEREAS, the applicant states that the site is situated on the southwest corner of East 19th Street and Foster Avenue and is an irregular plot measuring 66 feet 3-¾ inches on East 19th Street by 109 feet 6 inches on Foster Avenue; that the front portion of the building, facing East 19th Street, is used as a residence by the owner and the rear portion, facing Foster Avenue, is used by the owner as his dental office; that the present dental office, with one treatment room, is too small for the owner to properly carry on his dental practice and it is imperative that he have an additional treatment room; that this needed additional area can feasibly be achieved only by extending the present treatment room; that the present building extends to within five feet of the property line and the garage extends to within one foot of the property; that however, the proposed extension of approximately 4 feet 6 inches by 8 feet will be confined to within the existing five foot setback and will in no way affect any adjoining premises; that the community property owners association was informed of the proposed extension and has given its approval of same, which is evidenced by a letter of consent filed with this appeal; and

WHEREAS, the applicant contends that on the basis of the dire need for additional space, the lack of which creates a tremendous hardship on the owner, and also due to the practical difficulty in locating this sorely needed extension in any other location, it is requested that the Board make a variation in the application of the area district regulations of the Zoning Resolution, and permit this small extension to project into the required setback to a point not exceeding the existing projection of the present building; and

WHEREAS, the applicant states that the present owner has held title to the property since April, 1941; that the assessed valuation of land is \$6,500 and of the building \$6,500 making a total of \$13,000; that the building was erected in 1909; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, to permit an extension of the first story for use as an enlargement of an existing dentist's office, substantially as proposed and indicated on plans filed with this application, marked "Received June 19, 1958", 6 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and only so long as the dentist using the office is also the occupant of the residence building.

Adjourned: 2:40 P.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

WEDNESDAY AFTERNOON, NOVEMBER 12, 1958,
2 P.M.

Present: Chairman Murdock, Vice Chairman Keating,
Commissioner Kleinert and Commissioner Sleeper.

216-54-A—Vol. II

APPLICANT—Aaron Halpern, for Elias G. Kontanis,
owner.

SUBJECT—Application reopened January 28, 1958 as Vol.
II Appeal from a decision of the Borough Superintendent
re extension of business use in a frame structure.

PREMISES AFFECTED—40-27 29th Street and 29-08
40th Road, southeast corner, Block 403, Lot 43, Long
Island City, Borough of Queens.

APPEARANCES—

For Applicant: Aaron Halpern.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keat-
ing, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent,
dated December 10, 1957 on amendment dated September 20,
1957, to Alt. Applic. 2699/56 reads:

"1. The extension of use of existing premises to in-
clude business use in a frame structure is contrary to
4.2.1. A.C."

and

WHEREAS, the applicant states that the building is 2 stories
and basement, 29 feet in height, 25 feet front by 93 feet 2
inches in depth at 1st floor, 40 feet in depth at typical floor,
class 4 and 5 construction, located in a business use, B area,
class 1½ height district, erected in 1908 and 1924, and used
and occupied since 1930 and 1952 without a certificate of
occupancy as follows: Cellar—boiler room, no persons;
basement—office and storage of electrical parts, 3 persons;
1st floor—office, mailing literature, 1 person; 2nd floor—
now vacant; and proposed to be used and occupied as fol-
lows: basement—office and storage of electrical parts, 6 per-
sons; 1st floor—offices and mail room, mailing literature,
6 persons; 2nd floor—offices, 4 persons; that the building is
provided with one interior 3 foot wide wood stairs en-
closed in partitions of lath and plaster, equipped with wood
doors, which will be made self-closing; that stairhall leads
direct to street and is provided with a ladder and scuttle to
roof; and

WHEREAS, the applicant states that the premises are
developed with a 2 story, basement and cellar frame build-
ing; that the basement story is of masonry construction, the
1st story is brick filled between studs; that the building at
its basement level is joined to a one story metal building at
the rear, erected under Alt. Applic. 12367/24 to be used as
an iron shop; that the buildings were combined under Alt.
Applic. 2626/52; and

WHEREAS, the applicant states that it is proposed to protect
the basement and cellar ceilings with one hour construction;
that it is proposed to make stairhall enclosing walls one hour
construction and install self-closing devices on all doors
opening to the stairhall and provide additional egress from
boiler room; and

WHEREAS, the applicant contends that in view of the fact
that the occupancy of the basement and 1st floor will be
limited to 6 persons each and 2nd floor to only 4 persons;
that although the 1st floor is of frame construction the walls
are brick filled; that the electrical shop is located in the
basement portion; that the grade condition is such that 40th
Road pitches down to permit direct exit from the basement
floor level to 40th Road; that additional outside stairs to
street will be installed as egress from boiler room; that it is
therefore requested that this application be granted; and

WHEREAS, under Calendar Number 216-54-A, Volume 1,

an appeal was filed from a decision of the Borough Super-
intendent, dated March 15, 1954, on Alt. Applic. 261/54,
disapproving of the alteration application on grounds that;

"Use of frame building as storage and office is con-
trary to C26-254.0.";

that in connection with this alteration application it was
proposed to demolish the 2nd floor of the building and to use
the basement for storage, 1st floor for office with an occu-
pancy of 2 persons; that this appeal was dismissed for the
lack of prosecution, April 3, 1956 and on April 24, 1956 the
Board voted to permit withdrawal of the appeal, after it had
been dismissed; and

WHEREAS, the records of the Department of Buildings
indicate that the frame building on a corner lot was re-
corded in the Department 1926 as used for business and 2
families; that the 1st story building located on the rear was
used as a shop and erected in 1924 of class 5 construction as
a 5 car garage and later changed to store use; that at that
time it was disclosed to the Board, that the 1st floor use
which was indicated to be for office use, consisted of using
a rip saw to manufacture tables and lamps in this building,
located in a business use district; and

WHEREAS, the premises was inspected by a committee of
the Board and the applicant's attention was drawn to the
fact that the uses were not the same as shown in the revised
statement; and the committee recommended that the appeal
should be granted on condition.

Resolved, that the decision of the Borough Superintendent,
dated November 12, 1958, acting on Alt. App. 2699/56, Ob-
jection No. 1 be and it hereby is *modified* and that the appeal
be and it hereby is *granted* to permit the occupancy of the
building as now proposed, namely, basement: storage of
electrical contractor's supplies; first floor: office and mail
room, six persons; second floor: office, four persons; *on*
condition that the building shall not be increased in height
or area and in all other respects shall comply with all laws,
rules and regulations applicable thereto; as shown on plans
filed with this appeal marked "Received November 7, 1958",
five sheets.

478-55-A

APPLICANT—Otto J. and Warren A. Sambach, for Ben
Beverly, owner; Ben Beverly Equipment Co., Inc., lessee.

SUBJECT—Application June 8, 1955—Appeal from a deci-
sion of the Borough Superintendent—re frame building—
factory use.

PREMISES AFFECTED—38-02 28th Street, southwest
corner of 38th Avenue, Block 386, Lot 16, Long Island
City, Borough of Queens.

APPEARANCES—

For Applicant: Warren A. Sambach.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keat-
ing, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent,
dated June 6, 1955 on Alt. Applic. 749/55, reads:

"(1) Proposed change of frame building to factory
on 1st floor is contrary to S270.2 of Labor Law. Note
bldgs. adjoining this building and within 25 ft. of same
are of frame construction."

and

WHEREAS, the applicant states that the building is 2
stories, 20 feet in height, 25 feet front by 38 feet 4 inches
in depth, of class 4 construction, erected 1900, located on
a lot 25 feet 4 inches by 82.45 feet in area, in a business
use, B area, class 1½ height district, and used and occupied:
Cellar—boiler room and storage; 1st floor—store used as
an office and a store used as a repair shop, 4 persons, 2nd
floor—2 apartments; that it is proposed to be used and
occupied: Cellar—storage of parts; 1st floor—1 store used
as an office, 4 persons and another store used as a repair

MINUTES

shop, 2 persons; 2nd floor—2 apartments; that in addition there is a 1 car non-storage garage on the rear of the lot; that the building is provided with one 3 foot wide, interior wood stairs from 2nd floor to street, enclosed in fire retarded partitions equipped with wood doors which are not self-closing; that in addition there are scuttle and ladder to roof; that egress from the rear of the building is through yard, direct to street; and

WHEREAS, Violation #3791/54 was issued March 16, 1955 for changing occupancy of premises from store and dwelling to office and shop, without approval of the Department of Buildings; and

WHEREAS, the occupant was fined and convicted in Municipal Term Magistrate Court, June 9, 1955 on charge of violation of Section C26-185.0 of the Administrative Code; and

WHEREAS, the applicant states that the lessee sells and repairs fuel oil meters, counters, pumps, flow control valves, and other related parts to the fuel oil industry; that on March 30, 1948 the occupant purchased the premises and uses one store as an office and the other store for storage of new and used oil meters, counters, etc., and repair of such equipment by no more than three (3) mechanics at any one time; that application and plans were filed and after much discussion between the inspection and engineering divisions of the Department of Buildings, the objection herein appeal was issued; and

WHEREAS, the applicant contends that he has occupied the dwelling for 7 years and it would be a hardship to move his repair shop to another area or building of proper construction to allow a small repair shop to function together with the sales office; that prior to his purchase of the property it was owned by a refrigerator sales and repair company, who also used the premises for a repair shop and refrigerator equipment; and

WHEREAS, this appeal was dismissed September 17, 1957, and restored to the calendar June 3, 1958; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 749-55, Objection No. One dated June 6, 1955, and that the appeal be and it hereby is *granted*, to permit the use of the premises as now proposed and as indicated on plans filed with this appeal marked "Received May 1, 1958", four sheets, and "October 24, 1958", one sheet, to permit the occupancy as proposed, namely, cellar: storage of parts; first floor: store used as office and one of the stores as repair shop; and two apartments in the upper story, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

564-56-A

APPLICANT—John J. Tricarico, for Carlton Associates, Inc., owner.

SUBJECT—Application August 14, 1956—Appeal from a decision re an order of the Fire Commissioner, re automatic hose valves—removal of.

PREMISES AFFECTED—1921-1937 7th Avenue, northeast corner of West 116th Street, Block 1901, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: John J. Tricarico and Eugene R. Canudo,

For Administration: Lieut. John Manfredi, Fire Dept.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Vice Chairman Keating,

Commissioner Kleinert and Commissioner Sleeper.... 4

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, Order No. 5600-5 issued by the Fire Commissioner, July 6, 1955, reads:

"1. Lower hose valve wheels within six and one-half feet of the floors or stair landings or of steps within two feet on a horizontal plane. C-26-1436.0 Subdiv. b-4 Adm. Code.

"2. Replace automatic hose valves throughout the premises with approved shut-off valves and hose racks. C26-1436.0 Subdiv.-d. Adm. Code."

and

WHEREAS, the decision of the Fire Commissioner, dated April 13, 1956, reads:

"In reply to your inquiry of April 10, 1956 requesting the approval of this department for the standpipe and fire hose installations in the above captioned building, you are hereby informed that your request must be denied because of the pendency of items 1 and 2 of our order 5600-5, which reads as follows—

"Item 1. Lower hose valve wheels within six and one-half feet of the floors or stair landings or of steps within two feet in a horizontal plane. Sec. C26-1436.0, Sub-div.4 and Sec. C19-161.0 Adm. Code.

"Item 2. Replace automatic hose valves throughout the premises with approved shut-off valves and hose racks. Sec. C26-1436.0, Sub-div. 6d and Sec. C19-161.0 Adm. Code."

and

WHEREAS, the decision of the Fire Commissioner, dated July 20, 1956, reads:

"With reference to your request concerning the acceptance of the so-called automatic hose valves installed in the above premises, the removal of which is required by item 2 of the above captioned order, you are hereby informed that the use of such valves is distinctly prohibited by sub-division d of Section C26-1436.0 of the Administrative Code.

"You are also informed that compliance with item 1 of that order is also required by sub-division b-4 of the same section.

"In view of the foregoing, this Department has no authority to accept the same and your request is therefore hereby denied.

"You are also informed that unless an appeal to the Board is made within thirty days from date, no further requests relative to the pending orders will be entertained by this Department."

and

WHEREAS, the applicant states that the building is 8 stories, 94 feet in height, 201 feet 10 inches front by 171 feet in depth, erected 1899, located on a lot in a retail, residence and business use, B area, class 1½ height district, and used and occupied as follows: Cellar—ordinary; 1st floor—9 families; 2nd, 3rd, 4th and 5th floors with 13 families each; 6th, 7th and 8th floors with 12 families each; that the building is provided with four 3 feet wide steel stairs, masonry enclosed, equipped with fireproof self-closing doors, leading from roof bulkhead direct to street; that there is an approved standpipe system in the building; and

WHEREAS, the applicant contends that the standpipe system was installed at a time when system and installation was approved and accepted by the Fire Department, and has been continuously in use since the date of installation; that compliance with the Order now issued by the Fire Commissioner would impose unjustifiable financial hardship on the owners; and

WHEREAS, the applicant contends that the lower height prescribed by the Code does not mean that the condition is dangerous at the building in question; that the height of the wheels are only slightly above the 6½ foot standard; that at the time they were installed they were in compliance with the requirements; that today they are well in the reach of firemen; that since the purpose of the valves is to supply water for firemen in the event of fire, they serve that purpose effectively; that nothing would be gained by compelling the owner to relocate them; that if these valves were lowered to be in the reach of youngsters they might well constitute

MINUTES

an attractive nuisance; that there are two standard and 34 semi-automatic hose valves in the building; that in the semi-automatic installations there are hand-valves for manual control and the water goes through the hose only when the reels are pulled out; that it is an easy matter for firemen to shut off the water at these locations to connect their own hose; that the condition has existed for over 30 years; that the regulation, insofar as it affects this building, is arbitrary and capricious and serves no useful purpose; and

WHEREAS, the premises and surrounding area were inspected by a representative of the Fire Department who reported and recommended that the appeal should be denied; a committee of the Board inspected the premises and recommended denial of the unlawful condition.

Resolved, that the decision of the Fire Commissioner acting on Order No. 5600-5, dated July 6, 1955 be and it hereby is *affirmed* and that the application be and it hereby is denied.

8-58-A—Vol. II

APPLICANT—Larry Meltzer for Ariston Quality Exporters, owner.

SUBJECT—Application reopened July 1, 1958 as Vol. II—Appeal from a decision of the Borough Superintendent re: provision of second means of egress; front fire escape is not acceptable, building being 7 stories in height.

PREMISES AFFECTED—20 Bond Street, north side, 6 feet 7½ inches east of Lafayette Street, Block 530, Lot 58, Borough of Manhattan.

APPEARANCES—

For Applicant: Larry Meltzer and Michael Green.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated April 29, 1958, on Alt. Applic. 1765/57, reads:

"1. Provide second means of egress in accordance with Section 271 of the Labor Law. Present front fire escape is not acceptable, building being 7 stories in height."

and

WHEREAS, the applicant states that the building is 7 stories, 91 feet 7 inches in height, 25 feet 8 inches front by 93 feet in depth at 1st floor, 88 feet in depth at typical floor, of class 3 construction, erected 1894, located on a lot 25 feet 8 inches front by 100 feet and 100 feet 1¾ inches in depth, in an unrestricted use, B area, class 2 height district, and used and occupied since 1894 as follows: Cellar—ordinary, boiler room and storage; 1st floor—retail store, 4 persons; 2nd floor—office, sorting and baling of used clothing, 6 persons; 3rd floor—manufacturing of hat blocks, 2 persons; 4th floor—manufacturing caps, 5 persons; 5th floor—manufacturing of clothing, 15 persons; 6th floor—manufacturing of clothing, 12 persons; 7th floor—manufacturing of shoe ornaments, 6 persons; that no change in use or occupancy is now proposed; that the building is provided with an approved interior fire alarm system; that there is one 3 foot 1 inch wide wood interior stairs, enclosed in partitions of wire lath and plaster, equipped with steel self-closing doors and leading from roof bulkhead direct to street; that one fire escape on the front of the building, extending to street by counterbalance stairs; that window and door openings on the course of the fire escape are not fireproof self-closing; and

WHEREAS, Violation #4117 was issued June 18, 1957 by the Department of Buildings for failure to provide a second means of egress and to conform with Section 271 of the Labor Law; that Alt. Applic. 1765/57 was filed to remove such violation and the decision of the Borough Superintendent dated January 7, 1958 on such alteration was subject of an appeal to the Board under Calendar

Number 8-58-A, which appeal was denied by the Board April 8, 1958; and

WHEREAS, Violation #4117/57 was reissued by the Department of Buildings May 8, 1958 and Alt. Applic. 1765/57 was the subject of the decision dated May 29, 1958 which was the basis upon which the Board reopened this appeal under Calendar Number 8-58-A, Volume II, on July 1, 1958 to consider the appeal subject to regular procedure in view of the applicant's proposal to install a sprinkler system throughout the building; and

WHEREAS, the applicant states that the building is provided with one interior stair, completely enclosed with fire retarded partitions, with all doors thereto fireproof self-closing; that this stair leads to a bulkhead on the roof and directly to the street; that the existing secondary egress is the Labor Law fire escape with counterbalance stairs at the front of the building; that the windows on the course of the fire escape are double hung wood sash glazed with wire glass, equipped with fusible links; that the entire premises is equipped with an approved interior fire alarm system with A.D.T. service; and

WHEREAS, the applicant contends that area of a typical floor is less than 2000 square feet, and after deducting the stairs, elevators and toilets, is approximately only 1700 square feet; that the number of occupants is small; that none of the occupancies is of a highly hazardous nature; that each floor is occupied by a single tenant who has access to both means of egress; that it is proposed to install an approved automatic sprinkler system throughout the building; that it would be highly impracticable to provide a secondary means of egress in the form of a stairway; that the present exits which are safe and adequate which were legal until the retroactive provisions of the Labor Law were enacted should be accepted; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1765-57, Objection No. One and that the appeal be and it hereby is *granted*, to permit the continuation of the existing exit conditions *on condition* that the sprinkler system of at least one source as proposed shall be installed and maintained; that the exits as proposed including the primary stair, as proposed, and the front fire escape complying with the requirements therefor shall be permitted provided a fire alarm system is maintained in accordance with the requirements therefor.

356-58-A

APPLICANT—Morris Hannes and Sidney Goldhammer, for Yeshiva University, owner.

SUBJECT—Application June 4, 1958—Appeal from a decision of the Borough Superintendent, re Class 4 construction, commercial use.

PREMISES AFFECTED—506 West 185th Street, south side, 100 feet west of Amsterdam Avenue, Block 2156, Lot 15, Borough of Manhattan.

APPEARANCES—

For Applicant: Sydney Goldhammer and Morris Hannes.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated April 25, 1958, on Alt. Applic. 193/57, reads:

"3—Proposed change in use of class 4 bldg. from residence to commercial is contrary to 4.2.1.B-C."

and

WHEREAS, the applicant states that the building is 2 stories and basement, 26 feet in height, 18 feet front by 54 feet

MINUTES

6 inches in depth, erected 1890, located on a lot 25 feet front by 79 feet 11 inches in depth, in residence use, B area, class 1 $\frac{1}{4}$ height district, and used and occupied since 1955 as follows: Cellar—boiler room and storage, no persons; 1st floor—dwelling, 1 family; 2nd floor—dwelling, 1 family; that it is proposed to be used and occupied cellar—boiler room and storage, no persons; 1st floor—offices, 7 persons; 2nd floor—toilet and vacant rooms, no persons; that the building will be provided with a Multiple Dwelling type sprinkler system in the hall; that there is one interior 30 inch wide wood stairs, unenclosed, equipped with sprinklers in compliance with the Multiple Dwelling Law; and

WHEREAS, Violation #8098 was issued December 29, 1955 for occupying the premises contrary to the use described in the N.B. Applic. 1432/1890 which calls for use as a residence; and

WHEREAS, the applicant contends that the building has a floor area of less than 1100 square feet including the porch on the 1st floor and under 100 square feet on the upper floor; that it is located on a lot 25 feet front by 79 feet 11 inches in depth; that it is proposed to use the 1st floor for offices with not over 8 persons and to maintain the boiler room in the cellar and the toilets will be used on the 2nd floor; that the balance of the 2nd floor will remain vacant and be provided with an access panel door for emergency use only; that it is proposed to provide sprinkler heads in all rooms used for offices and on the enclosed porch on the 1st floor, connected to the sprinkler line, which will be made to comply with the requirements of the Multiple Dwelling Law and the Rules of the Department for class B converted dwellings; that the toilet room on the 2nd floor will also be provided with a sprinkler head connected to such system; that the cellar stairs will be enclosed with 4 inch cinder concrete block equipped with one hour self-closing door at the foot of the stairs; and

WHEREAS, the applicant contends that in view of the small occupancy and the use for offices in connection with the Yeshiva University, it is requested that this appeal be granted; and

WHEREAS, the premises was inspected by a committee of the Board and the committee recommended that the appeal should be granted.

Resolved, that the decision of the Borough Superintendent, dated April 25, 1958, acting on Alt. App. 193-57, Objection No. 3 be and it hereby is *modified* and that the appeal be and it hereby is *granted* for a term of five years to permit the occupancy of the building as proposed and as indicated on plans filed with this appeal marked "Received October 17, 1958", 3 sheets, *on condition* that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, including the one source sprinkler system as proposed of the type permitted in converted multiple dwellings; that the occupancy shall not exceed the number of persons stated and confined as to offices on the first floor in connection with the Yeshiva University; and that the cellar stairs shall be enclosed as proposed.

"2. Proposed change in use of class 4 building from residence to commercial is contrary to 4.2.1 B.C."

and

WHEREAS, the applicant states that the building is 2 $\frac{1}{2}$ stories, 34 feet in height, 20 feet 3 inches front by 41 feet in depth, of class 4 construction, erected prior to 1938, located on a lot 25 feet front by 79 feet 11 inches in depth, in a residence use, B area, class 1 $\frac{1}{4}$ height district, and used and occupied since 1955 as follows: Cellar—heating plant and storage, no persons; 1st floor—1 apartment; 2nd floor and attic combined—1 apartment; that it is proposed to be used and occupied; cellar—heating plant and storage, 10 persons; 1st floor—offices, 8 persons; 2nd floor and attic—2nd floor toilet, no persons and the balance of the 2nd floor and attic to remain vacant; that the building is provided with one 30 inch wide interior wood stairs, wood enclosed, equipped with wood self-closing doors; that stairhall leads to street and will be equipped with sprinklers in the stairhall in compliance with the Multiple Dwelling Law; and

WHEREAS, Violation #8097 issued December 29, 1955 for occupying the premises is contrary to Certificate of Occupancy #32372 which provides for residence use; and

WHEREAS, Certificate of Occupancy #32372 issued December 13, 1946 against Alt. Applic. 1720/46 permits the following occupancy: Cellar—heating plant and storage; 1st floor—1 apartment; 2nd floor—1 apartment; attic—1 bedroom in conjunction with apartment on 2nd story and 1 storage room; and

WHEREAS, the applicant contends that the building floor area including the porch is 1200 square feet in area and less than 1000 square feet on the upper floors; that it is proposed to use only the 1st floor and cellar with the toilets on the 2nd floor; that there will not be over 8 occupants on the 1st floor for office use; that there will not be any permanent occupants above the 1st floor except for the occasional use of the toilets; that the balance of the building will remain permanently vacant; that it is proposed to provide sprinkler heads on all rooms used for offices or supply rooms including the enclosed porch on the 1st floor, connected to the Multiple Dwelling type sprinkler system in the hallway; that the toilet room on the 2nd floor will also be provided with the sprinkler heads similarly fed; that the cellar stairs will be enclosed with 4 inch cinder blocks equipped with one hour self-closing door at the bottom; and

WHEREAS, the applicant requests that in view of the fact that the office will be used by the Yeshiva University for not more than 8 occupants, it is requested that this appeal be granted; and

WHEREAS, the premises was inspected by a committee of the Board and the committee recommended that the appeal should be granted.

Resolved, that the decision of the Borough Superintendent, dated April 25, 1958, acting on Alt. App. 195-57, Objection No. 2 be and it hereby is *modified* and that the appeal be and it hereby is *granted* for a term of five years to permit the occupancy of the building as proposed and as indicated on plans filed with this appeal marked "Received October 17, 1958", 3 sheets, *on condition* that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, including the one source sprinkler system as proposed of the type permitted in converted multiple dwellings; that the occupancy shall not exceed the number of persons stated and confined as to offices on the first floor in connection with the Yeshiva University; and that the cellar stairs shall be enclosed as proposed.

358-58-A

APPLICANT—Morris Hannes and Sidney Goldhammer, for Yeshiva University, owner.

SUBJECT—Application June 4, 1958—Appeal from a decision of the Borough Superintendent, re Class 4 construction, commercial use.

PREMISES AFFECTED—516 West 185th Street, south side, 120 feet east of Audubon Avenue, Block 2156, Lot 10, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Goldhammer and Morris Hannes.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 4

Negative: 0

Absent: Commissioner Foley 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated April 25, 1958 on Alt. Applic. 194/57, reads:

"2—Proposed change in use of class 4 building from residence to commercial is contrary to 4.2.1 B.C."

and

WHEREAS, the applicant states that the building is 3 stories, 30 feet in height, 25 feet front by 35 feet 6 inches in depth, of class 4 construction, erected 1895, located on a lot 25 feet front by 79 feet 11 inches in depth, in residence use, B area, class 1¼ height district, and used and occupied since 1955: Cellar—boiler room; 1st and 2nd floors combined—1 family; 3rd floor—1 family; that it is proposed to be used and occupied: Cellar—boiler room; 1st floor—offices, 10 persons; 2nd and 3rd floors to remain vacant, except for toilet use; that the building will be provided with a Multiple Dwelling Law type sprinkler system in the stairhall; that there is one 30 inch wide interior wood stairs, unenclosed, leading direct to street and sprinklered; and

WHEREAS, Violation #8099 was issued December 29, 1955 for occupying the premises contrary to N.B. Applic. 1542/1895, which calls for use as a residence; and

WHEREAS, Certificate of Occupancy #34289 was issued July 21, 1948 against Alt. Applic. 214/47 permitting the following use and occupancy: Cellar—boiler room; 1st and 2nd story combined—1 family dwelling and accessory 3 car garage; 3rd story—1 family; and

WHEREAS, the applicant states that the building has less than 900 square feet area and it is located on a lot 25 feet front by 79 feet 11 inches in depth, of frame construction; that it is proposed to use the 1st floor for offices for not more than 10 persons and to maintain the boiler room in the cellar with only the toilets to be used on the 2nd floor and the balance of the building to remain vacant with an access panel provided for the vacant spaces on the 2nd and 3rd floors for emergency use; that it is proposed to provide sprinkler heads in all rooms used for offices on the 1st floor, connected to the one-source Multiple Dwelling sprinkler system; that it is proposed to provide a sprinkler head in the toilet room on the 2nd floor; that the cellar stairs will be enclosed with 4 inch cinder concrete blocks in one hour fireproof self-closing door at the bottom; and

WHEREAS, the applicant contends that in view of the fact that the office will be used by Yeshiva University for not more than 10 occupants, it is requested that this appeal be granted; and

WHEREAS, the premises was inspected by a committee of the Board and the committee recommended that the appeal should be granted.

Resolved, that the decision of the Borough Superintendent dated April 25, 1958, acting on Alt. App. 194-57, Objection No. 2 be and it hereby is *modified* and that the appeal be and it hereby is *granted* for a term of five years to permit the occupancy of the building as proposed and as indicated on plans filed with this appeal marked "Received October 17, 1958", 3 sheets, on condition that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with all laws, rules

and regulations applicable thereto, including the one source sprinkler system as proposed of the type permitted in converted multiple dwellings; that the occupancy shall not exceed the number of persons stated and confined as to offices on the first floor in connection with the Yeshiva University; and that the cellar stairs shall be inclosed as proposed.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on April 22, 1958 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on September 23, 1958 after due notice by publication in the Bulletin; laid over to October 7, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Woodbine Street and Madison Street are in retail and residence use, C area, class 1 height districts; Fresh Pond Road is in a retail use, C area, class 1 height district; 60th Place is in a residence use, C area, class 1 height district; that the portion of the premises within 100 feet of Fresh Pond Road is located within a retail use district and the remainder is in a residence use district; that the portion of the premises in the retail use district was formerly in a business use district; that the present zoning designation became effective on November 18, 1954; and

WHEREAS, the decision of the Borough Superintendent, dated March 12, 1958 acting on Alt. Applic. No. 358-58, reads:

"1. The extension of the use of the premises as a retail food market occupies more than permitted area in a C area district and is contrary to Art. IV Sec. 13(b) of Zoning Resolution and is contrary to Board of Standards and Appeals Res. 702-52-BZ and is referred back to the Board for reconsideration.

"2. Proposed extension of use of the residence part of the plot for a business curb cut and truck driveway is contrary to Art. 2 Sec. 3 of Zoning Resolution and contrary to Bd. of S. & A. Res. 702-52-BZ and is referred back to the Board for reconsideration.

"3. Show window located less than 75' from residence use district is contrary to Art. II Sect. 7A of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 105 feet 3¾ inches frontage by 102 feet 10 inches in depth; that it is proposed to raze the building on the northerly portion of the premises—lot 66—and erect a one story extension of the store on the southerly portion—lot 73—thereon; that the extension will be one story in height to conform to the existing building in the southerly portion of the premises, and will occupy the entire frontage of the property along Fresh Pond Road; that it will have a maximum depth of 90 feet 3 inches, the rear wall being a continuation of the rear wall of the existing building on the southerly portion of the plot; that as a result a driveway, 18 feet in width will be maintained across the rear of the property extending from Madison Street to Woodbine Street; that this driveway will afford facilities for off the street loading and unloading; that the southerly portion of the proposed extension, having a frontage of 56 feet on Fresh Pond Road, will be used as part of the present Bohack store; that the remainder of the extension, located at the corner of Fresh Pond Road and Woodbine Street, will be divided into three units; that the larger of these units, located at the corner, will have a frontage of 30 feet 4¾ inches and a depth of 60 feet; that although final commitments have not been made, this is intended to be used as a sub-station of the United States Post Office Department; that the rear portion of the property; fronting on Woodbine Street, is to be divided into two small units, each 12 feet in frontage by 30 feet in depth, to be occupied

MINUTES

by neighborhood service establishments; and

WHEREAS, the applicant states that the portion of the premises known as lot 73 was acquired by H. C. Bohack Co. Inc. by deed dated October 1, 1948; that this property; however, was owned prior to that time by an affiliated corporation, Bohack Realty Corporation, which had acquired it by virtue of two deeds dated May 16, 1946 and September 5, 1947, respectively; that the remainder of the premises was acquired by H. C. Bohack Co. Inc. on December 19, 1957; and

WHEREAS, the applicant further states that the southerly portion of the premises—block 3529, lot 73—was the subject of a prior application to the Board under Cal. No. 702-52-BZ which was granted on July 17, 1953; that in accordance with the Board's Resolution, the owner has erected a one story retail store on this portion of the property, which store has a frontage of 63 feet, 10 $\frac{7}{8}$ inches and a maximum depth of 94 feet, 3 $\frac{1}{8}$ inches; that a space, having a uniform width of 18 feet, along the westerly lot line is used as a driveway and for loading and unloading of merchandise; that the property is occupied pursuant to Certificate of Occupancy No. Q-97152, issued on July 19, 1954; that the balance of the subject premises is now occupied by a one story building which has been divided into five retail stores; that this building, which was erected more than 30 years ago, is in a dilapidated and run down condition; that two of the stores are now vacant and the remaining three are occupied as a beauty parlor, fruit store and radio repair shop; that Certificate of Occupancy No. 700 issued December 14, 1928 permits this portion of the premises to be used as an automobile showroom; that as far as can be determined, no later Certificate has been issued; and

WHEREAS, the applicant states that the first objection relates to the fact that the proposed building will occupy a greater percentage of the premises than is permitted by the Zoning Resolution; that the present Bohack store has proved to be completely inadequate to serve the needs of the community, and in order better to accommodate its customers, the Company acquired the balance of the block front to the north of its store and now seeks to extend its building over that parcel; that the plans of the proposed building—Plan No. 1—show that the rear wall of the proposed extension will be a prolongation of the rear wall of the existing store; that while it is true that this extension will occupy more than the allowable area under the Zoning Resolution, it is also true that the present buildings occupy a greater percentage of the plot than the area district restrictions allow; that plan of existing conditions show that the present building is so designed that much of the vacant area of the plot is in the center portion where it is of no benefit to the adjoining or abutting property; that for instance, the westerly wall of the existing building is erected along the rear property line for a distance of about 21 feet from Woodbine Street; that it is then set back about 7 feet for a distance of approximately 38 feet, and as a result this wall is located on or very near the lot line for 60 feet of its total length of 86 feet 7 $\frac{1}{2}$ inches; that the rear wall of the proposed building, however, will be 18 feet from the property line, thereby providing an open space between the proposed building and the building on the adjoining property—lot 63—of slightly more than 27 feet in width; that in Volume I of this application, facts and circumstances were pointed out which rendered it necessary for the owner to utilize more of its property than would be permitted by the Zoning Resolution; that the conditions which prevailed at that time still exist and still require the use by the owner of a greater percentage of the property than the Zoning Resolution contemplates; that to require the owner to comply with the area district regulations would serve no useful purpose and would benefit no one; that the building now on this portion of the property exceeds the allowable coverage and because of its design, it leaves little or no space between the westerly wall of the building and the adjacent property; that the present proposal will leave a rear yard of 18 feet thereby creating an open space of not less than 27 feet between the two

buildings; that no other property would be affected by this application; that the business of H. C. Bohack Co. has increased to such a degree that it can no longer serve its customers in the present store and it finds it absolutely necessary to seek additional property; that to require it to conform to area district restrictions would be to compel it to erect an irregularly shaped building which of course would be very undesirable; and

WHEREAS, the applicant further states that the area of the portion of the subject premises affected by this application is 9139 square feet; that the area of such portion in the retail use district is 8644 square feet; that the allowable building area under Section 13 of the Zoning Resolution is 5936 square feet; that the area of the proposed extension is 7580 square feet and the excess coverage therefore is 1644 square feet; that the area of the present buildings on this portion of the premises is 6493 square feet; and

WHEREAS, the applicant states that the second objection raised by the Borough Superintendent has to do with the fact that a portion of the driveway in the rear of the property and the curb cut leading thereto is in the residence use district; that it is to be noted that all of the proposed extension is located within a retail use district, but a small portion of the driveway leading to the loading area, however, is in the residence use district; that this portion is slightly less than 3 feet on Woodbine Street and extends to approximately 8 feet opposite the southerly end of the extension; that no part of the curb cut is within the residence use district, all of it being in the retail district; that in its action on July 17, 1953 the Board permitted the use of the rear portion of the original property for driveway, loading and unloading purposes, and the present application would continue that use throughout the remainder of the property, with the result that trucks will be able to enter the property from Madison Street and exit through Woodbine Street; that this would eliminate the necessity of any truck backing across the sidewalk and will result in fewer crossings of the sidewalk on Madison Street; that the design of the proposed improvement will afford loading facilities thereby eliminating any on-street loading and unloading; and

WHEREAS, the applicant states as to the third objection of the Borough Superintendent, that the owner anticipates using the premises located at the corner of Woodbine Street and Fresh Pond Road as a substation of the Post Office Department; that the Department, however, is able to use only a limited amount of property, not exceeding 1800 square feet; that some of the tradesmen in the area have evidenced a desire to rent the space thus left at the rear of the property for use as small service establishments, such as radio or shoe repair shop, etc.; that in fact, some of the present occupants of the property have indicated a desire to remain if the area will accommodate their business; that the owner has therefore provided for two small store units in the rear of the proposed Post Office, each having a frontage of 12 feet and a depth of 30 feet; that they will be used solely for neighborhood type service establishments and will serve as a convenience to the people living in the area; that attention is directed to the fact that the existing building had garage facilities located at the rear, entrance to which was had from Woodbine Street; that the proposed occupancy would be considerably more desirable; and

WHEREAS, the applicant states that the fourth issue has had to do with the restriction imposed by the Board, in its Resolution of July 17, 1953 requiring that the building thus permitted "shall not be further increased in height or area;" that the proposal, of course, involves an increase in the area of the building; that even if the proposed extension did not contravene the area restriction imposed by the Zoning Resolution, an amendment of this Resolution of the Board will be required in order to permit the owner to proceed with its plans; and

WHEREAS, the applicant states that the present owner had held title to the property since October 1, 1948 and December 19, 1957; that the assessed valuation of the land is \$41,000 and of the building \$79,000 making a total of \$120,000; that the building was erected in 1954; and

MINUTES

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, this was laid over for consideration of the objections raised at the hearing and that has been done and the Committee of the Board is of the opinion that if the cars enter solely from Woodbine Street, which is one way west, they will not have to go in front of any house on Woodbine Street and if they come out on Madison Street they will not have to pass any house on that street to get to Fresh Pond Road, and the Committee recommended that the application should be granted on that basis; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the Zoning Resolution and that the application be and it hereby is granted under Section 7e and 21 for a term of 25 years to permit the construction of an addition to the existing store building as previously permitted by the Board with driveway as shown, *on con-*

dition that there shall be erected on the rear lot line for a distance of one hundred feet from the Woodbine Street building line a masonry wall of face brick not less than 5 feet 6 inches in height; that there may be a curb cut at Woodbine Street not over 15 feet in width which shall be fitted with gates at the building line driveway; that all trucking shall be northerly from Fresh Pond Road west on Woodbine Street turning into the driveway and out of the driveway to Madison Street and south to Fresh Pond Road; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the requirements of the resolution previously granted by the Board under Vol. I shall be complied with as to the driveway across part of the premises subject to renewal of the easement which the Board is advised has been extended to terminate December 31, 1973; that such driveway from Woodbine Street and Madison Street shall be properly paved; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

* Correction—In the applicant's statement, in the fifth whereas preamble, reference to a driveway "18 inches" in width, corrected to read "18 feet" in width, as indicated in italics.

RULES

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority

Chapter 508 of 1948

§ 310. **Board of appeals.** 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved, and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

RULE

RULE TO SUPPLEMENT SECTION 19-A OF THE ZONING RESOLUTION OF THE CITY OF NEW YORK AS ADOPTED BY THE BOARD, JULY 11, 1958, EFFECTIVE AUGUST 11, 1958

(385-58-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subsection 2, of the New York City Charter and of Section 21 of the Zoning Resolution.

Purpose:

The purpose of this rule is to supplement the words in the above section which read as follows: "... aggregate gross floor area so used," as a basis for determining the number of off-street loading berths required under this section.

Rule 1.

"19-A. REQUIRED OFF-STREET LOADING BERTHS FOR NEW CONSTRUCTION, ENLARGEMENTS AND CONVERSIONS. Every building or part thereof hereafter constructed which is used, or arranged, intended or designed to be used, for any of the uses specified in the schedule below, and in which the aggregate gross floor area so used, arranged, intended or designed is greater than the minimum number of square feet of gross floor area specified for those uses in said schedule shall be provided with off-street loading berths in accordance with said schedule, under rules and regulations promulgated by the Commissioner of Housing and Buildings. For the purpose of this section, a group of buildings hereafter constructed under common ownership and located within a single block shall be considered a single building."

The words "aggregate gross floor area so used" contained in the first paragraph of this section shall be interpreted to mean the area of a building computed by measuring from the inside surface of the outer building walls. Building stairs, fire towers, elevator shafts, elevators and other public corridors, flue vents, stacks, pipe shafts, vertical ducts, toilets, air conditioning rooms, fan rooms, air ducts, janitors' closets, slop sinks, electrical closets, telephone closets with their enclosing walls shall be excluded. In computing such area or areas for the purpose of determining the number of off-street loading berths required under this section, walls, partitions, areas devoted to mechanical equipment, exits and similar areas, the use of which does not contribute to the regular shipments to or from the building, shall not be included.

COURT DECISION

Matter of Warshauer Haym Salomon Home for the Aged vs. Murdock:—On December 3, 1957 the Board granted a variance under Section 7, subdivision e, to permit in a residence use district the erection and maintenance of a gasoline service station, auto washing non-automatic, lubrication, office, sale of auto accessories and parking of cars awaiting service, for a stated term of fifteen (15) years: Cal. No. 239-57-BZ, Premises 2342-2356 Cropsey Avenue, south side, 77 feet 11¼ inches west of 24th Avenue, Block 6925, Lot 61 and (temporarily) part of Lot 86, Borough of Brooklyn.

At Special Term, Supreme Court, Mr. Justice Baker sustained the decision of the Board and dismissed the certiorari. The court answered six points raised, as follows, citing cases as grounds to substantiate the opinions:

1. that the Board had power to grant the variance in a residence district under Section 7, subdivision e.

2. that Section 7, subdivision e, is constitutional.

3. that the Board was correct in finding that the use of the home is not a hospital maintained as a charitable institution under Section 21A.

4. that the Board is not required to answer every contention of the applicant; that findings of fact and the basis for its determination are clearly set forth in the return where, by statute, they are required to be stated; these findings based not alone on the evidence in the record but also on facts known to the Board members by reason of their experience and by reason of an inspection by a committee of the Board of the subject premises and the surrounding area furnish ample basis for the Board's decision.

5. that it cannot be said for reasons stated above that the Board acted arbitrarily or capriciously; that this being so, the court is without jurisdiction to set aside the determination.

6. that there is no merit in the contention that the procedure of the Board tended to deprive petitioner and other objectors of a full and fair hearing. (N.Y. Law Journal, November 19, 1958, pages 13 and 14).

For Applicant: Arnold H. Fassler.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 17, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on July 22, 1958 after due notice by publication in the Bulletin; laid over to July 29, 1958, for inspection; hearing closed; then to October 7, 1958, for further consideration after the carbarn site in the area has been sold by the City, as proposed use of the subject site may interfere with the sale of such property; then to November 18, 1958, for further consideration as may be necessary pending sale or action by Bureau of Real Estate; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 19th Street and 20th Street are in business and residential use, C and D area, class 1 height districts; 10th Avenue is in a business use, C and D area, class 1 height district; Terrace Place is in a residence use, C and D area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated November 9, 1955 acting on Alt. Applic. No. 2011-55, reads:

"1. In a building located partly in a business use district and partly in a residence use district the proposed change in occupancy from public garage to factory is contrary to Art. II Sec. 3 of the Zoning Resolution.

2. The motor vehicle entrance located within 25 feet of an intersecting street which may be used for loading and unloading is contrary to Art. IV Sec. 19A Subdiv. i of the Z.R.

MINUTES

3. The motor vehicle entrance more than 3' 6" wide located within 75' of the transition from business to residence use is contrary to Art II Sec. 7A of the Z.R." and

WHEREAS, the applicant states that the premises consist of a plot, 150 feet 1 inch frontage by 100 feet in depth, occupied by a one story structure presently used as a public garage and parcel delivery station; that the present Certificate of Occupancy permits its use as a public garage and parcel delivery station, which use was authorized by the Board under Cal. No. 823-19-BZ under date of October 17, 1933; that it is proposed to convert the present building for the use of light manufacturing; and

WHEREAS, the applicant states that the premises has been leased for a five year period to the Hercules Dist. Corp., for the business of packaging and distributing magazines; and

WHEREAS, the applicant further states that directly in back of his premises, along 19th Street, is a one story dwelling owned by him; that there is a two family house, and thereafter a garage type building operated by a contracting company which owns the vacant lot to the east of its building; and

WHEREAS, there will be no work done at night in the premises, eliminating the noise present in a public garage operated around the clock, and furthermore, it will present less of a traffic congestion problem than a garage where vehicles go for servicing and storage; that it is also felt that the operation itself will be safer to the community than the operation of a garage; that among changes contemplated are the following: a new sprinkler system more comprehensive than the modified one approved for the garage use previously by the Board, in accordance with the directions of the Board; a new fire resistant storage vault, if required, and a new loading berth on the 10th Avenue side; a new toilet and window on the 19th Street side, a new door on 19th Street and on 10th Avenue as additional exits, and new appurtenances in connection with the above; and

WHEREAS, the applicant further contends as to items 2 and 3 on objections issued by the Borough Superintendent, that the doors will be corrected in such manner as the Board deems advisable; that if the Board feels that they are not needed as additional exits and entrances, he is willing to board up the same, brick it up, or make other corrective measures; and

WHEREAS, the applicant states that the present owner has held title to the property since November 5, 1954; that the assessed valuation of land is \$17,500 and of the building \$43,500 making a total of \$61,000; that the building was erected in January, 1920; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant reports that the owner has been informed by the Bureau of Real Estate that the car barn opposite has been removed from sale and probably will be used for some City purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 17, 1933, under Vol. 1 by adding thereto:

"that in the event the owner desires to change the use of the building to factory, such change in use may be made provided the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto and shall be maintained in accordance with the requirements therefor; that a sprinkler system throughout, a fire resistant storage vault and loading berth shall be maintained as proposed; that any objections as to the use of the building under Section 7A may be permitted provided the requirements of this resolution are complied with; that under section 7e the use of the building shall be as proposed, for a term of five years for use by the Hercules Distributing Corp.; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution and a new certificate of occupancy obtained."

788-23-BZ—Vol. II

APPLICANT—James E. Vassalotti, for Gale Garage Corp., owner.

SUBJECT—Application reopened May 27, 1958 as Vol. II—decision of the Borough Superintendent, under Section 7e of the Zoning Resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, car washing, minor auto repairs, office and sales in addition to the present two story garage for more than five (5) motor vehicles.

PREMISES AFFECTED—653-661 St. Nicholas Avenue, west side, 372.5 feet north of West 141st Street, Block 2050, Lot 149, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper

Negative: 5

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 27, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Hamilton Terrace and West 141st Street are in a residence use, B area, class 1½ height district; St. Nicholas Avenue is in retail and residence use, B area, class 1½ height districts, West 145th Street is in a retail use B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 5, 1958 acting on Alt. Applic. No. 304-58, reads:

"1. Proposed addition of gasoline service station, lubritorium, car wash, office and sales, and minor auto repairs to an existing garage for more than five motor vehicles located in a residence use district is contrary to Sec. 3 of Z. R. and B.S.A. Cal. #788-23-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 189 feet 10½ inches frontage by 119 feet 6½ inches in depth, irregular, presently developed with a two story building of class 3 construction, covering the entire plot and now being used as a storage garage for more than five cars, and motor vehicle repair shop; that the motor vehicle repair shop is an illegal use covered by Violation No. 139-52; that it is proposed to demolish a portion of the front of the building and install a gasoline service station consisting of seven new 550 gallon buried gasoline tanks and six dispensing pumps; that the three present 550 gallon gasoline tanks will also be used, making a total of ten 550 gallon gasoline tanks; that it is also proposed to maintain the present legal use on the first and second floors of garage for more than five motor vehicles, and add the new uses on the first floor of lubritorium, car wash, office and sales, minor auto repairs and gasoline service station; and

WHEREAS, the applicant states that records indicate that the present building on the premises was erected under N.B. Applic. No. 325-23 and Cal. No. 788-23-BZ for use as a garage for more than five autos, for which use Certificate of Occupancy No. 8983 was issued on December 13, 1924; and

WHEREAS, the applicant contends that although the premises are located in a residence use district, the west side of St. Nicholas Avenue is fully developed with non-conforming uses of garages, gasoline station and store, except for the corner of West 141st Street and West 145th Street; that the non-conforming uses are as follows: block 2050, lot 136—gas station; lot 140—garage; lot 157—stores; lots 160 and 126—garages; that the property is high in assessed

MINUTES

value and is located in a low rental area, which makes it difficult for the owner to meet his obligations and pay City taxes, and therefore it is mandatory for him to re-develop this site as proposed in order to receive additional income, which will give him an equitable return on his large investment; and

WHEREAS, the applicant states that the present owner has held title to the property since March 1, 1948; that the assessed valuation of land is \$83,000 and of the building \$57,000 making a total of \$140,000; that the building was erected in 1924; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should be granted to permit the reduction in area of the existing garage building so as to provide a gasoline selling alcove.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 24, 1923, by adding thereto:

"that in the event the owner desires to alter the building by constructing a gasoline selling alcove, substantially as proposed and shown on plans filed with this application marked 'Received May 7, 1958', 8 sheets, such alteration may be permitted, provided the building shall be cut back on both first and second stories and roof, as shown; that the construction as proposed shall be in accordance with the requirements of the Building Code and all other laws, rules and regulations applicable thereto; that all existing tanks shall be sealed unless found to be in good structural condition by test made by the Fire Department; that there may be seven new 550 gallon approved gasoline tanks; that gasoline pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line; that existing curb cuts may be reconstructed so as to provide three, 30 feet in width each, located where shown, in addition to the present curb cut leading to the ramp to the second story; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the facade of existing building as altered, were shown, and permitting one post standard or bracket sign for supporting a brand sign, which shall advertise only the brand of gasoline on sale, and may extend beyond the building line not more than 4 feet; that under Section 7e for a similar term there may be minor repairs with hand tools only, maintained solely within the garage portion of the building; and that in all other respects the requirements of the resolution adopted by the Board on July 24, 1923, under Vol. I shall be complied with where not inconsistent with the terms of this amended resolution; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

330-33-BZ—Vol. V

APPLICANT—Lama, Proskauer and Prober for George De Combo, owner.

SUBJECT—Application reopened February 25, 1958 as Vol. V—decision of the Borough Superintendent, under Sections 7e and 7h of the Zoning Resolution, to permit in a local retail and residence use district, the erection of a one story extension and extend the present use of auto showroom and store to include office, storage of auto parts, motor vehicle repairs, gasoline pump for owner's use only, body and fender work, incidental painting and spraying, wheel alignment, brake testing, welding, parking and storage of cars awaiting service, for a stated term of fifteen (15) years.

PREMISES AFFECTED—227-17 Northern Boulevard, northwest corner of 228th Street, Block 6333, Lot 7, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Samuel Bodian, Park Dept.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. V on February 25, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on September 30, 1958 after due notice by publication in the Bulletin; laid over to October 21, 1958, for inspection and decision; hearing closed; then to November 5, 1958, for statement from Park Department as to actual time of development of subject site for park purposes and for applicant to submit sworn to statement that owner will waive any claim for damages if and when property is so taken for the proposed extension to building; then to November 18, 1958, for definite statement from the Park Department as to when property is to be acquired; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 227th Street and 228th Street are in local retail and residence use, D and G area, class ½ height districts; Northern Boulevard is in a local retail use, D area, class ½ height district; 43rd Avenue is in a residence use, G area, class ½ height district; that part of the premises within 100 feet of Northern Boulevard is in a local retail use district and a class D area district and the balance of the premises is in a residence use district and a class G area district; that as of July 25, 1916 part of the premises within 100 feet of Northern Boulevard was in a business use district and the balance of the premises was in an unrestricted use district; that as of July 25, 1916 the entire plot was in a class D area district and a class 1 height district; that the present use, height and area designation for that part of the site within the residence use district became effective August 2, 1945; and

WHEREAS, the decision of the Borough Superintendent, dated January 9, 1958 acting on Alt. Applic. No. 2517-57, reads:

"1. Proposed extension of structure, and the extension of use of an existing "Showroom and Store", to "Auto Showroom, office, Storage of auto parts, motor vehicle repairs, gasoline pumps for owners use only, Body and Fender work, incidental painting and spraying, wheel alignment and brake testing, welding and parking and storage of cars awaiting service in the open area", in a lot located partly within a Local Retail use district and partly within a Residence Use District is contrary to Art. II Section 4c and Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 150 feet frontage by 377.19 feet in depth, presently developed with a one story building of class 3 construction, having a frontage of 54 feet, a depth of 87 feet 6 inches, and now being used for auto showroom store, and illegally, for motor vehicle repairing; that it is proposed to obtain a variance for a temporary period of fifteen years in order to extend the present building by erecting a one story extension of class 3 construction, having a width of 54 feet and a depth of 52 feet 8 inches, making the total building 54 feet in width by 140 feet 2 inches in depth; that it is further proposed to use the entire building for auto showroom and store, storage of auto parts, motor vehicle repair shop, gas pump for owner's use only, body and fender work, incidental painting and spraying, wheel alignment and brake testing and welding; that the open area is proposed for parking and storage of cars awaiting service; and

WHEREAS, the applicant states that Department of Buildings records show that a part of the existing building, 20

MINUTES

feet by 54 feet, was erected as a refreshment stand under N.B. Applic. No. 6759-49 and Certificate of Occupancy No. 76743 was issued for this use; that under Alt. Applic. No. 339-52, parking of patrons' cars was added; that Certificate of Occupancy No. 81200 was issued for refreshment stand and lot for parking of patrons cars on a plot 69 feet by 102 feet by 90 feet by 100 feet; that the building was further altered to its present size under Alt. Applic. No. 1713-55; that Certificate of Occupancy No. 107903 was issued for showroom and store; and

WHEREAS, the applicant contends that Northern Boulevard is a heavily trafficked auto lane and as such the proposal is entirely within keeping at this point; that the site is adjoined on the east by a gasoline station and an auto wrecking yard, which are both non-conforming uses and owned by that same owner; and

WHEREAS, the applicant states that the present owner has held title to the property since July 6, 1951; that the assessed valuation of land is \$11,000 and of the building \$14,000 making a total of \$25,000; that the building was erected in 1951; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the Committee recommends that for a term of five years extension to the building and the use of the rear portion of the premises as proposed for parking shall be permitted.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 14, 1944, and as thereafter amended by resolutions adopted through July 23, 1957, by adding thereto:

"that in the event the owner desires to maintain the requirements of the resolution above cited and also to extend the building as heretofore permitted and to use the rear unbuilt upon portion of the plot for the parking and storage of motor vehicles, such use and extension of use may be permitted for a term of five years from the date of this resolution including the existing building as formerly permitted and as indicated on plans filed with this application marked "Received July 18, 1958," 7 sheets; that the requirements of the resolution above cited, where not inconsistent with this resolution, shall be complied with; that the building shall not be increased in height or area; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

513-46-BZ—Vol. II

APPLICANT—Nathan R. Ginsburg for Clymer Realty Company, owner, F.K.S. Upholstery Manufacturing Company, Inc., lessee.

SUBJECT—Application reopened July 15, 1958 as Vol. II—decision of the Borough Superintendent under section 7e of the Zoning Resolution to permit in a residence use district, the change in use of the present building from repairing and storage of vending machines to the manufacture and storage of upholstered chair seats and backs and the storage of lumber and upholstering materials used for such manufacture.

PREMISES AFFECTED—166 Clymer Street, south side, 200 feet east of Bedford Avenue, Block 2173, Lot 17, Borough of Brooklyn.

APPEARANCES—

For Applicant: Nathan R. Ginsburg.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on July 15, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application

on October 28, 1958 after due notice by publication in the Bulletin; and laid over to November 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, B area, class 1½ height district; Clymer Street and Bedford Avenue are in residence and business use, B area, class 1½ height districts; Taylor Street is in a business use, B area, class 1½ height district; Lee Avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 24, 1958 as amended November 7, 1958, acting on Alt. Applic. No. 591-58, reads:

"1. The proposed change in occupancy from repairing and storage of vending machines to the light manufacturing of chair seats and backs, cutting, assembling, upholstering and storage, including the use of power tools on wood, in a residence use district, is contrary to Art. II Sec. 3 of the Zoning Resolution.

Note: The premises were the subject of a conditional variance by the Board of Standards & Appeals under Cal. 513-46-BZ which expired Oct. 22, 1956 and a conditional variance on exits and floor loads under Cal. 514-46-A."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage by 100 feet in depth, on which is located a building 25 feet front by 82 feet in depth, 3 stories, 43 feet in height, of class one construction; that it is proposed to use the premises for the storage of lumber and upholstering materials and the manufacturing of upholstered chair seats and backs; that the building was constructed in 1888 by The City of New York and used as a City Fire House for many years prior to the sale of the property by the City in 1946; and

WHEREAS, the applicant states that the owner of the premises is engaged in the manufacture of upholstered chair seats and backs and in such manufacturing uses only light woodworking machinery to fabricate the chair seats and backs, and hand electric cutters to cut the upholstery materials; that such manufacturing would cause no obnoxious odors, noise, vibration, disturbance or dust; that as has been noted, the building, originally built for a fire house, is of heavy construction and is readily useable for such manufacturing purposes; that in fact, the only feasible and economic use to which the property can be put is manufacturing; and

WHEREAS, the applicant contends that although the site has been in a residence use district and the surrounding area in residence and business use since 1916, the development and uses of the area are not residential in character, and have not been for many years; that it is, and has for many years past, been primarily a factory, garage in a business area; that thus on the north side of Clymer Street there are a number of garages, a plumbing and heating shop, a loft building, a laundry and a woodworking factory; that on the south side of Clymer Street, where the subject premises are located, there are several garages and a police station; that the immediately adjacent premises, 164 Clymer Street, has been and continues to be used for commercial purposes; that a study of the area indicates that the only possible use of the premises and of the area is a factory use; that thus, along Bedford Avenue surrounding the block in which the premises are located, are a number of buildings used for non-conforming uses; and

WHEREAS, the applicant states that the present owner has held title to the property since September, 1953; that the assessed valuation of land is \$3,000 and of the building \$26,000 making a total of \$29,000; that the building was erected in 1888; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the applicant has filed an additional decision as to the use of the premises with woodworking machinery; and

WHEREAS, the Board found that this was an appropriate

MINUTES

case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7e for a term of five years, to permit the occupancy of the building, substantially as proposed and indicated on plans filed with this application, marked "Received June 19, 1958", 5 sheets, and "November 10, 1958", 1 sheet, on condition that in all other respects the requirements of the Zoning Resolution as cited by the Borough Superintendent shall be complied with and that the woodworking machinery indicated on revised plan marked "Received November 10, 1958", 1 sheet, as passed on by the Borough Superintendent under Alt. Applic. 591/58, Objection 1, and additional objection as to woodworking machinery dated November 7, 1958 may be maintained for the use of the occupants of the building as proposed in connection with the work proposed; that such fire-fighting equipment shall be maintained as the Fire Commissioner shall direct; and that in all other respects where not inconsistent with this resolution, the requirements of the resolutions adopted by the Board under Cal. No. 513-46-BZ, Vol. I and Cal. No. 514-46-A on October 22, 1946, as amended by resolutions adopted through November 9, 1948, shall be complied with; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

182-52-BZ—Vol. III

APPLICANT—Earl J. Wofsey, for Samo Builders, Inc., owner.

SUBJECT—Application reopened June 3, 1958 as Vol. III—decision of the Borough Superintendent under section 7e of the Zoning Resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, car washing, office and sale, storage and parking and storage of motor vehicles.

PREMISES AFFECTED—18-10 Utopia Parkway, 169-01 to 169-07 19th Avenue, northwest corner, 169-02 to 169-04 18th Avenue and 18-01 to 18-19 169th Street, Block 5743, Lot 75, Whitestone, Borough of Queens.

APPEARANCES—

For Applicant: Earl J. Wofsey.

For Opposition: None.

ACTION OF BOARD—Application denied.

THE VOTE—

Affirmative: Vice Chairman Keating, and Commissioner Foley

Negative: Chairman Murdock, Commissioner Kleintert and Commissioner Sleeper

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on June 3, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; then on November 18 for possible sale of property for conforming use; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 18th Avenue, Utopia Parkway, 19th Avenue and 169th Street are in a local retail use, D area, class ½ height district; that as of July 25, 1916 the site was in a business use district, and on December 31, 1951 it was changed to its present use designation; and

WHEREAS, the decision of the Borough Superintendent, dated July 2, 1958 acting on N.B. Applic. No. 2068-58, reads:

"1. Proposed gasoline service station, lubritorium, minor auto repairs, car washing, office & sales and storage parking on a lot in a local retail use district is contrary to Art. 2 Sec. 4-c of the Z. R.

2. Proposed ground sign is contrary to Art. 2, Sec. 4-c of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 201.41 feet frontage by 80.82 feet in depth, irregular, now vacant; that it is proposed to obtain a variance, for a temporary period of fifteen years, in order to erect a modern gasoline service station to consist of ten buried 550 gallon gasoline storage tanks and six dispensing pumps; that the contemplated accessory building will be of class 3 construction, contemporary design, having face brick on all four sides; that it will be of minimum size, presenting its side wall to Utopia Parkway; that it will thus occupy a width of 28 feet 8 inches on the Utopia Parkway side and 53 feet 4 inches on the 19th Avenue side; that it will have a flat roof and a height of 14 feet 6 inches; that the building will contain the conjunctive uses of office, sales of accessories, lubritorium, minor auto repairs and car washing; that the northerly part of the site will be reserved for parking and storage of motor vehicles; and

WHEREAS, the applicant states that the building will be set in the corner of the parcel, between 18th Avenue and 169th Street; that on the 169th Street side, its wall will be continued in a face brick wall 5 feet 6 inches high, running to the corner of 169th Street and 18th Avenue, and a similar wall will run from the building along the plot line on 19th Avenue to the corner of Utopia Parkway; that the entire 18th Avenue side will be walled off by large evergreen shrubs, and there will also be an evergreen planting inside the wall on the 19th Avenue side from Utopia Parkway to the service building; that by turning the building so that its side faces Utopia Parkway, the interior of the service area is made less visible from the street; that the building is more compact and therefore less conspicuous; that in addition, the high wall completely surrounding the area on all but the Utopia Parkway side, will completely eliminate access to the station from any point other than the front, and maximum safety is thus assured, since pedestrians cannot cross through the area; that the walls also shield the surrounding area from noise and fumes, thus giving maximum protection to public health; and

WHEREAS, the applicant contends that the area in which it is sought to place this gasoline station has grown rapidly in population within the last five years; that traffic in the area is much heavier than when previous applications were made for this variation, and many more automobile owners live in the area, requiring servicing and parking facilities; that Utopia Parkway, which is presently a major highway, will become very heavily travelled as soon as the contemplated Throggs Neck Bridge is constructed; that the entrance to that bridge will be only a few minutes ride from this parcel; that the parcel in question is land which cannot be used for any other purpose and has, in fact, remained vacant for many years despite the earnest efforts of a number of successive owners to find a conforming use; that if the present application is granted, this land, which is now being wasted, will be improved by an expenditure of at least \$15,000 and will be put to a productive use; that the proposed gas station will be integrated harmoniously with the affected area and will provide a service which the area urgently requires; and

WHEREAS, the applicant states that the present owner has held title to the property since December 13, 1957 and that the assessed valuation of land is \$5,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on N.B. App. 2068/58, Objections No. 1 and 2, be and it hereby is affirmed and that the application be and it hereby is denied.

MINUTES

623-55-BZ

APPLICANT—Benjamin Heffner, for Estate of Samuel T. Nierenberg, owner.

SUBJECT—Application reopened October 28, 1958 for consideration as to extension of time to complete—expired October 16, 1957—re Application, decision of the Borough Superintendent, previously granted on condition, under section 7h of the Zoning Resolution, permitting in a residence use district for a term of years, the parking of cars for patrons and employees of adjoining stores.

PREMISES AFFECTED—35-16 to 35-20 Murray Street, west side, 121 feet north of Northern Boulevard, Block 5009, Lot 31, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: David M. Gerstein.

For Opposition: None.

ACTION OF BOARD—Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, on October 16, 1956, this application was granted by the Board on certain conditions under Section 7h of the Zoning Resolution, to permit in a residence use district, the parking of patrons' cars for adjoining stores, affecting premises 35-16 to 35-20 Murray Street, west side, 121 feet north of Northern Boulevard, Block 5009, Lot 31, Flushing, Borough of Queens; and

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation October 16, 1957; and

WHEREAS, this application was reopened on October 28, 1958 and set for hearing on November 18, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on November 18, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated October 3, 1958 acting on amendment to Alt. Applic. No. 1367-55, reads:

"1. Refer back to Board of Appeals for further extension of time. (Cal. 623-55-BZ). Dated October 16, 1956."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on October 16, 1956, only insofar as it has reference to obtaining permits and completion of the work so that as amended this portion of the resolution shall read:

"that all permits including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

691-55-BZ—Vol. II

APPLICANT—Charles A. Buckley, for A. Wolheim and Sons, Inc., owner.

SUBJECT—Application reopened April 22, 1958 as Vol. II—decision of the Borough Superintendent, under sections 7e, 7h and 7A of the Zoning Resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station with accessory uses of store, lubritory, car washing, minor auto repairs with hand tools only, utility room and parking and storage of more than five (5) motor vehicles, with show windows, business entrance and signs within 75 feet of a residence use district.

PREMISES AFFECTED—1774-1780 Nereid Avenue, 4400-4406 Barnes Avenue, southeast corner and 4386-4390 Gunther Avenue, Block 5051, Lots 44 and 45, Borough of The Bronx.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 4

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on April 22, 1958 subject to regular procedure, to consider a new proposal consisting of reduced plottage and other changes; and

WHEREAS, a public hearing was held on this application on September 30, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; then laid over for further inspection and decision, date to be determined; now set for November 18, 1958; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Nereid Avenue are in a local retail use, C area, class 1 height district; Wicknam Avenue and Gunther Avenue are in local retail and residence use, C area, class 1 height districts; Pitman Avenue is in a residence use, C area, class 1 height district; that the plot was in the business zone district until July 25, 1957, when it was changed to local retail district; and

WHEREAS, the decision of the Borough Superintendent, dated February 26, 1958 acting on N.B. Applic. No. 60-58, reads:

"1. Proposed use of gasoline service station, store, lubritory, car washing, minor auto repairs with hand tools only, utility room, and parking and storage for more than five motor vehicles is contrary to Art. II, Sect. 4-c of the Z.R.

2. Entrance, show window or sign within 75 feet of a residence use district is contrary to Art. II, Sect. 7-A of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 91.4 feet by 41.54 feet frontage by 61.7 feet in depth; that the premises are presently, and have been since 1927, developed with twelve one-car garages, one story in height, of class 3 construction, having a frontage of 97 feet and a depth of 18.10 feet, which have not been used for a long time; that the rest of the plot is overgrown with weeds, and in general the appearance is detrimental to the neighborhood; that it is proposed to demolish the present structures and erect a modern brick gasoline service station consisting of twelve 550 gallon gasoline tanks and four dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction, having a frontage of 44 feet and a depth of 27 feet 8 inches, and contain the conjunctive uses of lubritorium, non-automatic car wash, minor auto repairs, store and utility room, and parking and storing of more than five motor vehicles; and

WHEREAS, the applicant states that both Nereid and Barnes Avenues are heavily trafficked arteries in Bronx County; that there are no gas stations within the affected area and the large home development in this area creates a vital need for such a gas station, which will not only service the local needs but also the needs of the transient traffic trade without substantially injuring the primary residential section of the neighborhood; that it appears obvious from the nature and development of this area and its location on a trafficked artery, plus the retail vacancies in the neighborhood, in addition to the elevated subway being but three blocks distant, that this site would never be profitably developed for commercial purposes; that although the present corporate owner has had title since December, 1951 the property has been owned by the Wolheim family for over twenty years and they were unable to sell the property, build or erect anything within the conforming use for the development of the area; and

WHEREAS, the applicant states that the present owner has

MINUTES

held title to the property since December 20, 1951; that the assessed valuation of land is \$17,500 and of the building \$3,000 making a total of \$20,500; and

WHEREAS, under Volume I a gasoline station on a larger plot was denied, and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years *on condition* that all buildings and uses on the premises shall be removed, including the existing garages on the plot, and the plot shall be leveled substantially to the grade of Nereid Avenue and the gasoline station shall be constructed and arranged as indicated on plans filed with application marked "Received March 25, 1958", 5 sheets, and "June 25, 1958", one sheet; that the accessory building shall be of the design and arrangement as shown and proposed and without cellar and shall comply in all respects with all requirements of the Building Code and shall be faced with face brick on all sides; that on the rear lot line to the south there shall be erected a woven wire fence of the chain link type not less than five feet six inches in height including the concrete base, except where walls of the accessory building occur, which shall be without rear windows; that a similar fence shall be erected along the lot line to the east carried to Nereid Avenue and with suitable terminating post; that curb cuts shall be restricted to two curb cuts to Nereid Avenue and one to Barnes Avenue and one to Gunther Avenue, where shown, each 30 feet in width except the one to Barnes Avenue which shall be 20 feet in width; that the sidewalk and curbing abutting the property shall be reconstructed or repaired to the satisfaction of the Borough President; that under Section 7h the parking of motor vehicles may be permitted for a similar term; that if any part of the construction is contrary to Section 7A such may be permitted provided the requirements of this resolution are complied with; that gasoline pumps shall be of an approved type and shall be erected not nearer than fifteen feet to a street line; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require; that during the term of this variance the premises shall be occupied for no other use than as herein permitted; that tanks shall not exceed twelve approved 550 gallon gasoline storage tanks; that under section 7i for a similar term there may be minor repairing with hand tools only for adjustments maintained solely in the accessory building; that signs shall be restricted to permanent signs attached to the facade of the accessory building facing Nereid Avenue and to the illuminated globes of the pumps, excluding all roof signs and temporary signs and advertising devices but permitting the erection within the building line of one post standard at the intersection of Nereid Avenue and Barnes Avenue for supporting a sign which may be illuminated advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

272-56-BZ

APPLICANT—John Sellers Yates, for John Sellers and Marguerite T. Yates, owners.

SUBJECT—Application March 2, 1956—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in a G area district, the construction of an extension for an additional entrance to an existing one family dwelling with less than the required setback.

PREMISES AFFECTED—961 Todt Hill Road, east side, 15.05 feet south of Coventry Road, Block 896, Lot 45, Dongan Hills, Borough of Richmond.

APPEARANCES—

For Applicant: John S. Yates.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 18, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Todt Hill Road, Coventry Road, Copperleaf Terrace and Windy Hollow Way are in a residence use, G area, class 3/4 height district; and

WHEREAS, the decision of the Borough Superintendent, dated January 31, 1956 acting on Alt. Applic. No. 7-56, reads:

"1. The proposed alteration is contrary to Sec. 15 subd. f of the Zoning Resolution. (No portion of the building can be erected nearer than 15 feet from Coventry Rd.)."

and

WHEREAS, the applicant states that the premises consist of a plot, 236.96 feet frontage by 272 feet in depth, presently occupied by a one family dwelling; that it is proposed to build a new entrance on the Coventry Road side, altering the course of an existing stairway and to extend the structure by approximately 3 1/2 feet; and

WHEREAS, the applicant states that the house is situated on a plot which fronts on four streets and is more than one and one half acres in area; that from all but Coventry Road, the setbacks are greater than that required by the Zoning Resolution; that in the case of Coventry Road, the house was an existing structure; that when the street was laid out and adopted, the house was left with a small side yard; that although this street is now the closest street to the house, under existing conditions it must be entered by the furnace room or by walking around to the opposite side; and

WHEREAS, the applicant contends that the house now has a driveway which exactly parallels Coventry Road leading from Todt Hill Road to the garage; that if a variation is granted for an entrance on Coventry Road, this driveway will be replaced with lawn, and the garage as well as the house will be enterable from Coventry Road; that this will give the house an apparent setback greater than it now has; and

WHEREAS, the applicant states that the present owners have held title to the property since August 1953; that the assessed valuation of land is \$6,000 and of the building \$9,000 making a total of \$15,000; that there is no record available as to when the house was erected; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21 to permit the proposed porch to encroach upon the required yard area as proposed and as indicated on plans filed with this application marked "Received April 21, 1958", 7 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Gilbert Lazerus, for Barbara Ann Gropman and Norman Siegel, owners.

SUBJECT—Application reopened September 30, 1958 and restored to docket for rehearing as ordered by the Court—decision of the Borough Superintendent, under sections 7e and 7h of the Zoning Resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, car washing—non automatic, motor vehicle repairs, sale of accessories, office and parking of more than five (5) motor vehicles awaiting service; for a stated term of fifteen (15) years; previously denied.

PREMISES AFFECTED—144-27 to 144-35 Farmers Boulevard, east side, from 144th Road to North Conduit Avenue, 179-12 to 179-20 144th Road and 179-01 to 179-13 North Conduit Avenue, Block 13090, Lots 4 and 94, South Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Gilbert Lazerus.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 2, 1957 after due notice by publication in the Bulletin; laid over to April 30, 1957 at 10 A.M. for inspection and decision; hearing closed; applicant to file a revised area plan, showing entrance to the park area at northeast corner of North Conduit Avenue and Farmers Boulevard, as thereafter laid over to May 14, 1957 at 10 A.M. for further consideration, after further letter is received from the Park Commissioner as to jurisdiction; and laid over to May 28, 1957 at 10 A.M. at the request of the applicant to furnish a report as to jurisdiction; and

WHEREAS, a public hearing was held on this application on May 28, 1957 at 10 A.M. after due notice by publication in the Bulletin; application denied; and

WHEREAS, the application was reopened and restored to the calendar for additional hearing as required in the resettled Order of the Court and set for hearing on October 28, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except notice of hearing to be sent out by regular mail, based on a list of owners corrected to date; and

WHEREAS, a public hearing was held on this application on October 28, 1958 at 10 A.M., after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the Borough Superintendent dated September 18, 1956, acting on N.B. Applic. No. 2869-56, reads:

"1. Proposed use of premises located in a residence use district as a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories, office, toilets, heater room is contrary to Article II Section 3 of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 102 feet ½ inches frontage by 141 feet 3½ inches and 121 feet, 4¾ inches in depth, irregular, partly occupied by a two story frame dwelling; that it is proposed to erect and maintain, for a term of fifteen years, a gasoline service station with incidental car washing—non-automatic—lubritorium, motor vehicle repair service with hand tools only, no welding or spraying; that it is also proposed to erect a one story office and sales building, and incidental parking of more than five motor vehicles awaiting service; and

WHEREAS, the applicant contends that existing conditions indicate that the granting of this application would

not adversely affect the area; that both North Conduit Avenue and Farmers Boulevard are principal traffic arteries, carrying a heavy volume of through traffic, which is constantly increasing; that the plot in question is ideally suited for a gas station, particularly since each of the other three corners of Conduit Avenue and Farmers Boulevard are now occupied, or may be used for gas stations; that the site would not be suitable for the development of one or two family houses or a multiple dwelling because of the heavy traffic along North Conduit Avenue and Farmers Boulevard, and because of the fact that the property across the street on the northwest corner is already devoted to a gas station, nor would the property be suitable for stores as there now are adequate shopping facilities in more appropriate locations in the neighborhood; that therefore the highest economic use of the proposed site is as a gas station; that since the proposed gas station faces on three streets, it will abut residential property on the east side only, and the owner of that property has consented to the proposed gas station; that the other three corners of Conduit Avenue and Farmers Boulevard already are or may be used for similar non-conforming purposes; and

WHEREAS, the applicant further contends that the proposed structure will be erected and maintained under such conditions as will safeguard the character of the residential area; that it is proposed to construct a modern gas station, similar in design to the parkway type now approved by the Park Department for Westchester and Long Island parkways; that the building will be of colonial design with a peaked roof and cupola and will be faced with fieldstone or face brick on all four sides; that the building will face only on Farmers Boulevard and will be set well back from all building lines; that three islands of parkway type pumps will be installed, one containing four pumps on Farmers Boulevard and two containing three pumps each on North Conduit Avenue, and all such islands will be set fifteen feet back from the respective building lines; that a six inch high face brick wall will be provided along the entire northerly and easterly sides of the plot; that this wall will be set back at least fifteen feet, and at some points as much as 44 feet from the building line along 144th Road, and at least fifteen feet and at some points as much as 44 feet from the easterly lot line; that the brick wall will have a cast stone coping at its top; that the substantial areas between the outside of the brick wall and the building line of 144th Road and between the outside of the brick wall and the easterly lot line, will be completely landscaped with trees and other shrubbery and lawn; that in addition, there will be erected along the entire building line of 144th Road and along the entire easterly lot of the plot, a chain link fence with an inner gate, thus enclosing the entire planting area so that it may not be destroyed; that in addition, shrubbery and planting will be provided for a depth of at least five feet along the entire interior of the brick wall; that the entire site, where not occupied by the building or devoted to shrubbery, will be paved with concrete or black top paving; that the entire structure will be erected in conformity with the highest standards of dignity; that the proposed brick wall and the landscaping on both sides of such wall will completely obscure the station from the residential areas to the north and east and will beautify the view of the station from the Southern State Parkway on the south and west, thus providing complete protection for both the surrounding residential area and the Southern State Parkway; that in addition, the proposed use will provide an open and attractive area and will insure to neighboring properties permanent light and air, which such structures might not derive from a large conforming structure; and

WHEREAS, the applicant states that the present owner has held title to the property since May 29, 1953; that the assessed valuation of land is \$5,100 and of the building \$3,400 making a total of \$8,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the matter was subject to court review only as to the jurisdiction of the Park Commissioner—Matter of Gropman vs. Murdock et al.: the court determined that the

MINUTES

Park Department was without jurisdiction and remanded the matter to the Board for decision on the merits; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Sections 7e for a term of 15 years, to permit the premises to be occupied as a gasoline service station and uses lawfully accessory thereto as indicated on plans filed with this application marked, "Received October 17, 1956," 5 sheets, *on condition* that the premises shall be leveled substantially to Farmers Boulevard and North Conduit Avenue, and shall be constructed and arranged as indicated on plans referred to; that the accessory building shall be located as shown and of the design as indicated on such plans; that such building shall be constructed on all sides with face brick; that pumps shall be of the low approved type and not nearer than 15 feet from the street building line of Farmers Boulevard and North Conduit Avenue; that there shall be two curb cuts, each 30 feet in width on North Conduit Avenue and two of similar width to Farmers Boulevard; that the planting and fences shall be constructed and maintained as indicated for the protection of 144th Road and the adjoining premises to the east; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to permanent signs and the illuminated globes of the pumps excluding all roof and temporary signs and advertising devices but permitting the erection within the building line, toward the north of one post standard advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; that a similar sign may be permitted toward the east where shown; that the sidewalks and curb cut abutting the premises on all three streets shall be reconstructed or repaired to the satisfaction of the Borough President; that under section 7h, for a similar term there may be parking of cars on such portions of the premises where such parking will not interfere with the servicing of the station; that the planting shall be of suitable material; that the chain link fence as proposed shall be of the woven wire chain link type on a masonry base; that the planting area shall be protected with concrete 6 inches in width and 8 inches in height; and that all permits shall be obtained and all work completed within the requirements of section 22A of the Zoning Resolution.

123-57-BZ

APPLICANT—Lama, Proskauer and Prober, for Grenlac Holding Corp., owner.

SUBJECT—Application February 14, 1957—decision of the Borough Superintendent, under sections 7e and 7h of the Zoning Resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station, lubritorium, sales rooms, car wash, storage, minor auto repairs, parking and storage of motor vehicles for a stated term of fifteen (15) years.

PREMISES AFFECTED—1101-1111 Grenada Place and 4126-4134 Laconia Avenue, northeast corner, Block 4927, Lot 2, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 3

Negative: Chairman Murdock and Commissioner Sleeper 2

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 22, 1957 after due notice by publication in the Bulletin; laid over to November 19, 1957, for inspection and decision; hearing closed; then to December 3, 1957, for further inspection and decision; then to December 10, 1957,

for inspection and decision; applicant having been notified; then to December 17, 1957; then to January 7, 1958, for further inspection and decision; then laid over from January 7, 1958, for decision; date to be set; then set for March 11, 1958; then laid over from March 11, 1958, to March 18, 1958, for full vote of the Board; then laid over from March 18, 1958, for the members of the Board to view the stores now under construction across the street from this site, and laid over for a continuation of the vote until such time as the stores on 231st Street are constructed; date for decision to be determined; now set for hearing June 24, 1958; then laid over from June 24, 1958, date to be set; for further consideration and decision; now set for November 18, 1958; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Grenada Place, Laconia Avenue and East 231st Street are in a local retail use, D area, class 1 height district; that as of July 25, 1916 that part of the site within 100 feet of Laconia Avenue was in a business use district and the balance of the site was in a residence use district; that the present use designation became effective October 18, 1949; and

WHEREAS, the decision of the Borough Superintendent, dated January 21, 1957, acting on N.B. Applic. 1996-56, reads:

"1. In a local retail district the proposed gasoline service station, lubritorium, sales room, car washing, storage and minor automobile repairs is contrary to Sect. 4c, Art. II Zoning Resolution and is therefore denied."

and

WHEREAS, the applicant states that the premises consist of a plot, 150 feet frontage by 138 feet irregular in depth, presently unimproved; that it is proposed to erect and maintain a modern gasoline service station consisting of twelve 550 gallon gasoline storage tanks and four dispensing pumps; that the proposed accessory building will be one story in height of class 3 construction, having a frontage of 55 feet, a depth of 29 feet and will contain the conjunctive uses of sales room, lubritorium, minor auto repairs and car washing; that part of the open portion of the site will be reserved for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the site is irregular in shape and part of an isolated block which is not adaptable for shopping; that the rest of the block, consisting entirely of lot No. 6, is owned by the same owner and is the property most affected by the proposal; that Laconia Avenue is a main auto lane leading across the Bronx and in addition the large home and apartment house development in the area makes the proposed gas station in keeping and a required service at this point, as there are no other gas stations within the affected area; that the gas station building will be highly modern in design and entirely in accordance with the manner in which the area has developed; that the development of the site will remove a present unkempt lot and an eyesore to the community; and

WHEREAS, the applicant states that the present owner has held title to the property since March 21, 1953 and that the assessed valuation of land is \$6,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years to permit the premises to be occupied as a gasoline service station and uses legally accessory thereto, substantially as proposed and as indicated on plans filed with this application marked "Received February 14, 1957", 3 sheets, "June 10, 1958", one sheet, *on condition* that all uses now on the premises shall be removed and the premises shall be graded substantially to the grade of Gren-

MINUTES

ada Place and shall be designed, arranged and constructed as indicated on such plans; that the accessory building shall be of the design, arrangement and location as shown and shall comply in all respects with the Building Code and shall be faced on all sides with face brick; that there shall be no cellar under the accessory building; that the doors to the toilet rooms shall be arranged so as not to be contiguous; that pumps shall be of a low approved type erected not nearer than fifteen feet to the street building line of Laconia Avenue and Grenada Place, as shown, that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that along the lot line to the north there shall be erected a woven wire fence on a masonry base to a total height of five feet six inches; that such fence may be omitted where the rear wall of the accessory building occurs, and such wall shall have no windows; that a similar fence shall be erected along the easterly line from the rear line to the building line of Grenada Place with suitable terminating post; that curb cuts shall be restricted to two curb cuts each 30 feet in width to Laconia Avenue and two of similar width to Grenada Place; that no portion of any curb cut shall be nearer than five feet to a side lot line as prolonged; that at the intersection of Grenada Place and Laconia Avenue there shall be erected a block of concrete extending for a distance of five feet along either street from the intersection and not less than twelve inches in height; that signs shall be restricted to permanent signs attached to the front facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs, temporary signs and advertising devices but permitting the erection of one post standard within the building line at the intersection at right angles to Grenada Place for supporting a sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that such portable fire-fighting appliances shall be maintained as the Fire Commisisoner shall direct; that under Section 7h, for a similar term, there may be parking and storage of motor vehicles provided such motor vehicles are so parked as not to interfere with the servicing of the station; that during the term of this variance the premises shall be occupied for no other use than as permitted herein; and that the plot therein built upon shall be asphalt paved; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

566-57-BZ

APPLICANT—Charles L. Koester, for Annie Futernick, owner, Sutphin Lumber Co., lessee.

SUBJECT—Application July 26, 1957—decision of the Borough Superintendent, under Section 7c of the Zoning Resolution, to permit in a business and residence use district, the erection of a new office and storage building to replace the one destroyed by fire and extend the lumber yard use into the residence portion of the plot.

PREMISES AFFECTED—109-20 Sutphin Boulevard, northwest corner Glassboro Avenue, Block 11949, Lot 324, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Charles L. Koester.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 30, 1958 after due notice by publication in the Bulletin; laid over, date to be set pending information from the applicant as to title to premises and lease to tenant; and for inspection and decision; hearing closed; now set for November 5, 1958; then to November 18, 1958, at request

of the Board, to inspect plans originally approved by the Department of Buildings; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Ferndale Avenue and Glassboro Avenue are in business and residence use, D and E area, class 1 and class ½ height districts; Sutphin Boulevard is in a business use, D area, class 1 height district; Liverpool Street is in a residence use, E area, class ½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 11, 1958 acting on N.B. Applic. No. 2428-57, reads:

"2. Proposed erection of a structure for a lumber yard, office, show room, store and storage for building materials in a business use district is contrary to Art. II, Sec. 4(a), item #31 of the Z.R.

3. Proposed lumber yard on a lot which is in a business use district and extending into a residence use district is contrary to Art. II, Sec. 4(a), item 31 and Art. II, Sec. 3 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 208.90 feet frontage by 118.45 feet and 78.11 feet in depth, occupied as a lumber yard; that it is proposed to erect a building which will be used for an office, lumber yard, store for display and sale of cabinets, and storage of building materials; that the building will have a frontage of 85 feet on Sutphin Boulevard and will extend back 50 feet along Glassboro Avenue; that it is also proposed to improve the entire premises as shown on drawings filed with this application; and

WHEREAS, the applicant states that this property has been in the possession of the present owner since 1923, at which time her husband, who was president of the East New York Lumber Corp., established a lumber yard on this plot; that he made an application to erect an office building on this lot and obtained a permit for it under Misc. No. 17153-24 and also a fence permit to enclose this entire plot under Misc. No. 16609-24; that he operated it until 1929 when his two nephews took it over and it then became the Sutphin Lumber Company; that they have been operating this business since then; that last year there was a fire which demolished the rear end of the office; and

WHEREAS, the applicant states that the present owner has held title to the property since 1923 and that the assessed valuation of land is \$18,000; that the building was erected in March, 1923; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and applicant furnished the Board with information as to the correct title of the lessee of the property which is now stated to be Sutphin Builders Supply Corp.; and

WHEREAS, the Board found that the size of the plot is as established in 1924; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7c to permit the proposed construction of an office, showroom, store and storage building for finished material as proposed and as indicated on plans filed with this application marked, "Received July 26, 1957," 5 sheets, on condition that the balance of the premises shall be cleared of all buildings and shall be used only for the storage of lumber and shall have erected on all lot lines a woven wire or closed steel fence to a total height of 8 feet on a masonry base, continued on all building lines except where the proposed building and entrances to the lumber yard will occur; that fire-fighting appliances shall be maintained in the yard and building as the Fire Commissioner shall direct; that in all other respects the building and occupancy shall be complied with; and that all permits shall be obtained and work completed within the requirements of section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; applicant to file amended plans, showing pumps 15 feet from building line; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Appleton Avenue and Mayflower Avenue are in local retail and residence use, D and E area, class 1 height districts; Middletown Road is in a local retail use, D area, class 1 height district; Roebling Avenue is in a residence use, E area, class 1 height district; that on July 25, 1916 the entire premises was in a business use, C area, class 1½ height district; that the area and height district designations were changed on November 28, 1938 and the use district was changed on June 10, 1955; and

WHEREAS, the decision of the Borough Superintendent, dated March 13, 1958 acting on N.B. Applic. No. 79-58, reads:

"1. The premises located in a residence district and a local retail district to be used as a gasoline station, lubritorium, minor repairs, car washing, office, sales and parking of motor vehicles is contrary to Sect. 3 & Sect. 4-c of Art. II Zoning Resolution and is therefore denied."

and

WHEREAS, the applicant states that the premises consist of a plot, 201.55 feet frontage by 92.49 feet in depth, irregular, presently vacant; that it is proposed to erect and maintain a gasoline service station with accessory motor vehicle repairs, with hand tools only, non-automatic car wash, lubritorium, office and sales and parking lot; and

WHEREAS, the applicant states that the gas station is proposed to be located entirely within the retail use district portion of the premises, and the proposed parking lot is to be located in the residence portion; that the entire premises, and both Middletown Road and Appleton Avenue were in a business use district until June 10, 1955; that the proposed parking lot could have been established at any time until June 10, 1955 and it would have been a conforming use; that the proposed gas station could have been established at any time until June 12, 1925 and it would have been a conforming use; and

WHEREAS, the applicant contends that the premises cannot be economically developed with conforming uses, as the premises have been adversely affected by the Hutchinson River Parkway Extension; that the Parkway runs parallel to Ericson Place at a considerable depth below the grade of the premises, and although there is no entrance to or exit from the Parkway within 200 feet of the premises, the existence of the Parkway has created unique problems; that the Parkway separates the premises from any retail

exchange or beneficial influence from the entire area to the west; that considerable vehicular traffic passes the premises in view of the fact that traffic on Middletown Road, Westchester Avenue, Ericson Place and Appleton Avenue all converge at the premises; that there has been no increase in the nearby residential community to warrant any new retail stores; that although this area was developed many years ago there is considerable vacant property within the area and there is a very low density of population; that the existing retail stores barely survive and more than adequately accommodate the needs of the community; and

WHEREAS, the applicant further contends that there is a demand for development of the premises as proposed; that the Parkway and the many streets which converge at the premises draw heavy vehicular traffic and there are no gas stations on Middletown Road to provide the necessary service; that the Board granted a gas station variance under Cal. No. 608-56-BZ affecting block 4152, lots 1, 2, 9, 10 and 11, opposite the premises; that the proposed station will service only northeast bound Westchester Avenue traffic and no curb cut is proposed on to Middletown Road frontage; that no similar service will be available for eastbound Westchester Avenue traffic into Middletown Road, or for Ericson Place and Appleton Avenue traffic; that there is no zoning within the entire neighborhood which will permit these vitally required services, which is in the nature of a conforming use in that necessary retail services are provided; that the only means of providing this service is by a grant of a variance under terms and conditions as to its erection and maintenance; that a grant of the variance will not adversely affect any surrounding property owners; that there are no curb cuts to the gas station proposed on Roebling Avenue and only one curb cut proposed on to Middletown Road; that opposite the premises on Ericson Place—Appleton Avenue is the Parkway underpass; and

WHEREAS, the applicant states that the present owner has held title to the property since December 10, 1957 and that the assessed valuation of land is \$35,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Sections 7e and 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline station and uses legally accessory thereto, substantially as proposed and indicated on plans filed with this application, marked "Received March 19, 1958", 4 sheets, and "June 12, 1958", 1 sheet and corrected plan marked "November 7, 1958", 1 sheet, *on condition* that the premises shall be leveled substantially to the grade of Appleton Avenue, and shall be constructed and arranged as indicated on such plans, including corrected plan of November 7, 1958; that the accessory building shall be of the design and arrangement indicated, faced with face brick on all sides and shall have no cellar and in all other respects shall comply with the requirements of the Building Code; that gasoline pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of Appleton Avenue, as shown on such corrected plan marked "Received November 7, 1958"; that sidewalks and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that curb cuts may be as shown, consisting of two, each 30 feet in width and one 20 feet in width to Appleton Avenue and two curb cuts to Roebling Avenue, each 30 feet in width; that there shall be erected on the rear lot line to the east where masonry wall of adjoining buildings do not occur, a woven wire fence of the chain link type, not less than 5 feet 6 inches in height including a masonry base; that such retaining walls shall be constructed where necessary at the cost of this owner; that

MINUTES

there shall be erected at the intersections a block of concrete not less than 12 inches in height, running for five feet in each direction from the intersection; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that under Section 7h for a similar term there may be parking and storage of motor vehicles in such locations as will not interfere with the servicing of the station; that under Section 7i for a similar term there may be minor repairs with hand tools only, maintained only within the accessory building; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that any lighting on standards shall be equipped with metallic reflectors so arranged as to reflect away from adjoining occupancies; that during the term of this variance the premises shall be used for no other uses than as herein permitted; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

171-58-BZ

APPLICANT—A. H. Salkowitz, for Joseph Klar, owner.
SUBJECT—Application March 28, 1958—decision of the Borough Superintendent under sections 7e and 7h of the Zoning Resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station with the accessory uses of lubritorium, car wash, office and store room for sale and storage of auto accessories, minor motor vehicle repairs and the parking of motor vehicles.

PREMISES AFFECTED—2774-2796 Linden Boulevard, southeast corner of Forbell Avenue, Block 4493, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: A. H. Salkowitz and Joseph Klar.
For Opposition: None.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 4
Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; then laid over for further inspection and decision; date to be determined; now set for November 18, 1958; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Linden Boulevard, Forbell Avenue, Drew Street and Loring Avenue are in a residence use, FF area, class $\frac{3}{4}$ height district; and

WHEREAS, the decision of the Borough Superintendent, dated March 7, 1958 acting on N.B. Applic. No. 192-58, reads:

"1. Proposed building and premises, on a lot located in a Residence, to be used for gasoline service station, lubritorium, car wash, office and store room, for sales and storage of auto accessories, minor motor vehicle repairs, and parking for motor vehicles is contrary to Article II, PP. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 feet frontage by 100 feet in depth, presently vacant; that it is proposed to erect a gasoline service station on a corner plot facing Linden Boulevard; that the building proper is to be constructed of poured concrete foundations, solid masonry walls, roof steel girders and wood beams, and ornamental wood railings and tower; that it is also proposed to install light poles and signs, three pump islands and twelve 550 gallon gas tanks; and

WHEREAS, the applicant contends that the property is located along the service road of heavily travelled upon Linden Boulevard, which is a main artery leading from Brooklyn to the Parkways; that it is in the vicinity of a large city-owned garbage disposal plant, that the location

is undesirable for such use as would be permitted in a residence zone; and

WHEREAS, the applicant states that the present owner has held title to the property since March 8, 1958 and that the assessed valuation of land is \$16,300; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years to permit the premises to be occupied for gasoline service station and uses legally accessory thereto *on condition* that the premises shall be levelled substantially to the grade of Linden Boulevard; that all existing buildings, structures and uses on the premises shall be removed and the plot shall be constructed and arranged as indicated on plans filed with this application marked "Received March 28, 1958", one sheet, "July 30, 1958", 2 sheets, and "October 3, 1958", one sheet; that there shall be no cellar under the accessory building; that the accessory building shall be located where proposed and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the accessory building shall be faced with face brick on all sides, as shown, that pumps shall be erected not nearer than 15 feet to the street building line of Linden Boulevard, and shall be of a low approved type; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that along the rear lot line there shall be constructed a woven wire fence of the chain link type not less than five feet six inches in height including a masonry base; that such shall extend along Drew Street and Forbell Avenue for a distance of approximately 50 feet along each and terminating with suitable terminating posts; that curb cuts shall be restricted to four curb cuts to Linden Boulevard each 30 feet in width, as shown; that no portion of any curb cut shall be nearer than five feet to a side lot line as prolonged; that there shall also be to Forbell Avenue one curb cut within the first 25 feet from the intersection and similarly to Drew Street; that at the intersections of Linden Boulevard, Drew Street and Forbell Avenue there shall be erected and maintained blocks of concrete extending for a distance of five feet along each street and not less than twelve inches in height; that under Section 7h there may be parking and storage of motor vehicles for a similar term; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the premises, where not occupied by the accessory building and pumps, shall be paved with concrete or asphaltic pavement; that sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the front facade of the accessory building facing Linden Boulevard and to the illuminated globes of the pumps, precluding all roof signs and temporary signs but permitting the erection of two post standards, one at either intersection, each for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such signs to extend beyond the building line, at right angles to Linden Boulevard, for a distance of not more than four feet; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

186-58-BZ

APPLICANT—Burke, Green and Groh, for Thomas M. Quinn and Sons, Inc., and Albertine Knodel, owners.

SUBJECT—Application April 1, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, after demolition of the existing structure, the use of the vacant

MINUTES

land for the parking and storage of more than five (5) motor vehicles for use in conjunction with the funeral home located on the opposite side of the street.

PREMISES AFFECTED—31-77 37th Street, east side, 125 feet north of Broadway, Block 657, Lots 10 and 11, Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper: 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, B area, class 1¼ height district; 37th Street is in residence and retail use, B area, class 1¼ height districts; Broadway, 38th Street and 31st Avenue are in a retail use, B area, class 1¼ height district; that there have been no changes in zoning since July 25, 1916; and

WHEREAS, the decision of the Borough Superintendent, dated March 11, 1958 acting on Alt. Applic. No. 283-58, reads:

"1. The proposed accessory parking to a business use, not on the same plot with business use, in a residence use district is contrary to the Zoning Resolution, Article II Section 3."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 feet frontage by 100 feet in depth, presently occupied by a two story frame dwelling, which is located along the southerly half of the plot; that this building will be removed; that except where building walls occur on lot lines, there are wood fences; that it is proposed to enclose the plot with a 5 foot 6 inch high woven wire fence; that the entire site will be surfaced with clean steam cinders treated with a binder; that a 12 foot wide curb cut will be installed opposite the front of the site; that the parking proposed will be for cars attending the funeral parlor; and

WHEREAS, the applicant states that the owners have long been established at Broadway and 37th Street in Astoria; that due to the increasing number of motor vehicles in this section and the parking along the side streets, it has become imperative that they obtain additional parking space to accommodate the number of people attending the funeral parlor and thus alleviate the traffic condition on the adjoining streets; and

WHEREAS, the applicant contends that on the corner of 37th Street and Broadway are located stores; that in Block 657, Lot No. 9, which adjoins the site, is located a garage and in Block 657, Lot No. 12, adjoining the premises on the south, is another brick garage set up on a 50 by 100 parcel; that the premises at the present time are unsightly, with an old wooden plank fence shielding the property; that the parking lot will have gates located on the same, which will be kept locked when the funeral parlor is closed; and

WHEREAS, the applicant states that the present owners have held title to the property since April 10, 1929 and October 8, 1956; that the assessed valuation of land is \$7,200 and of the building \$6,400 making a total of \$13,600; that the building was erected in 1912; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which noted that the garage on Lot 12 is already owned and operated by this owner for his undertakers' cars and recommended that the application for similar parking on the adjoining Lots 10 and 11, as proposed be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate

case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the occupancy of the premises for parking and storage of motor vehicles belonging to the owner and patrons of the undertaker at 36-10 Broadway, substantially as proposed and indicated on plans filed with this application, marked "Received April 1, 1958", 3 sheets, *on condition* that the existing frame building now on the site shall be removed and the plot leveled substantially to the grade of 37th street, surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that on all lot lines there shall be erected a woven wire fence of the chain link type erected on a masonry base to a total height of 5 feet, 6 inches with one entrance thereto on 37th Street not over 10 feet in width, where shown, which shall be fitted with gates which shall normally be kept closed, and with curb cut opposite not over 12 feet in width; that sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that suitable bumpers shall be maintained at all points to protect fences; that such fences may be omitted where masonry walls of adjoining buildings occur on the lot lines; that during the term of this variance the premises shall be occupied for no other use than as herein permitted; that signs shall be restricted to one sign attached to the fence at the entrance, advertising the private use of the premises, such sign not to exceed five square feet in area, not illuminated and not extending beyond the building line; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

199-58-BZ

APPLICANT—Lama, Proskauer and Prober, for Rose Orzo, owner.

SUBJECT—Application April 7, 1958—decision of the Borough Superintendent, under sections 7f, 7i and 7A of the Zoning Resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station with a two-story accessory building, the first floor will contain the conjunctive uses of lubritorium, car washing, minor repairs, office, salesroom and the use of the unbuilt upon portion for the parking of more than five (5) motor vehicles with business entrance and show windows within 75 feet of a residence use district and to use the second floor for offices, all for a temporary term of fifteen (15) years.

PREMISES AFFECTED—950-958 Morris Park Avenue and 1740-1748 Bogart Avenue, southeast corner, Block 4096, Lots 1-4 inclusive, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A Lama.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE of November 12, 1958—

Affirmative: Vice Chairman Keating and Commissioner Kleinert 2

Negative: Chairman Murdock and Commissioner Sleeper 2

Absent: Commissioner Foley 1

THE VOTE of November 18, 1958—

Affirmative: Commissioner Foley 1

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on July 22, 1958 after due notice by publication in the Bulletin; laid over to July 29, 1958 for inspection and decision; hearing closed, then to September 30, 1958 at the request of applicant to submit revised plans to the Board and notices to be sent to all the owners in the area, then to October 21, 1958 for applicant to send out notices by regular mail for

MINUTES

further hearing and for inspection, then to November 12, 1958 at 10 A.M. for further inspection and decision; hearing closed; then laid over, date to be determined, for full vote of the board; hearing previously closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Morris Park Avenue are in a retail use, C area, class 1¼ height district; Bogart Avenue and Radcliff Avenue are in retail and residence use, C area, class 1¼ height districts; Van Nest Avenue is in a residence use, C area, class 1¼ height district; that as of July 25, 1916 the premises were in a business use district and received the present use designation on December 14, 1953; and

WHEREAS, the decision of the Borough Superintendent, dated March 14, 1958 acting on N.B. Applic. No. 107-58, reads:

"1. Proposed gasoline & oil selling station, lubritorium, car washing, minor repairs, offices, salesroom, and parking of more than five cars on the first floor and offices on the second floor in a retail use district is contrary to Art. II Sect. 4-A of the Z.R.

2. Entrances and show windows within 75 feet of an abutting residence use district is contrary to Art. II Sect. 7-A of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet frontage by 100 feet in depth, presently vacant; that it is proposed to erect a modern gasoline service station consisting of twelve 550 gallon buried gasoline tanks and six dispensing pumps; that the contemplated accessory building will be two stories in height, of class one construction, with a frontage of 65 feet, a depth of 28 feet and will contain, on the first floor, the conjunctive uses of lubritorium, minor auto repairs, car washing, office and salesroom; that the second floor is contemplated for office use; that a part of the site, not required for the gas station, will be reserved for the parking and storage of motor vehicles; and

WHEREAS, the applicant states that the site in question was acquired by the City of New York July 20, 1954 after an In Rem procedure, and was purchased by the present owner at a tax sale on June 25, 1957; that this proves conclusively that if the site could have been used for a conforming use, he would not now be before the Board seeking relief in order to erect this gas station as the only use that would give him an equitable return on his investment; that the area has sufficient stores for the presently developed residential area; that the factory in block 4126, lot 10 and the lumber yard in block 4101, lot 1, tend to make this area unrestricted in character; that the two story modern gas station and office building, as proposed for this site, will be in keeping with the present retail and business use development of this area and will lead the way to any future development; that the pump islands as proposed, 15 feet and 39 feet in back of the Morris Park Avenue building line, will give free access and promote an orderly flow of traffic in and out of the gas station; and

WHEREAS, the applicant contends that Morris Park Avenue is a heavily trafficked auto lane and as such the proposal is entirely within keeping at this point; that there are no other gas stations within the affected area, so that the erection of the proposed station would provide a necessary facility to the motoring public and the community itself; and

WHEREAS, the applicant further contends that the small show window and signs within 75 feet of the residence zone cannot possibly affect the residential aspect of Bogart Avenue, as the building is set 35 feet in back of the Bogart Avenue building line; that the 30 foot wide curb cut on Bogart Avenue is required for better operation of the gas station; and

WHEREAS, the applicant states that the present owner has held title to the property since June 25, 1957 and that the assessed valuation of land is \$13,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f, i and A of the Zoning Resolution.

Resolved, that the Board of Standard and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be constructed and arranged as indicated on plans filed with this application marked, "Received April 7, 1958," 4 sheets, and revised plans marked, "Received September 24, 1958," 2 sheets, *on condition* that the accessory building may be two stories in height, used as proposed and as indicated on revised plans; that there shall be no windows in the accessory building opening upon adjoining premises; that there shall be no cellar under such building and the building in all other respects shall comply with the requirements of the Building Code; that the building shall be faced on all sides with faced brick; that pumps shall be of the low approved type erected not nearer than 15 feet to the street building line of Morris Park Avenue; that gasoline storage tanks shall not exceed twelve 550 gallon tanks; that on the easterly lot line from the accessory building to Morris Park Avenue, except where masonry walls of adjoining buildings occur on the lot line, there shall be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 feet, 6 inches; that similar fence shall be maintained on the side lot line to the rear of the accessory building and along the rear line of the adjoining premises where masonry walls of adjoining building do not occur, to the street line of Bogart Avenue and along Bogart Avenue to the proposed walk and from the walk for a distance of approximately 50 feet to a suitable terminating post; that the walk for access to the second story shall be constructed and maintained with a gate at the building line; that the premises at the rear of the accessory building for a distance of 10 feet shall be planted with suitable planting material and maintained in good condition at all times; that where not occupied by planting, accessory building and pumps, the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to two curb cuts, each 30 feet in width to Morris Park Avenue and one curb cut of similar width to Bogart Avenue where shown; that the sidewalk and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that if as to sidewalks it is desired to have cement walks and sodded area, such conditions may be maintained; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to permanent signs attached to the facade of the building, excluding all roof signs and advertising devices, and permitting the erection within the intersection of one post standard for supporting a sign which may be illuminated advertising only the brand of gasoline on sale, and permitting such sign to extend not more than 4 feet over the Morris Park Avenue building line and at right angles thereto; that under Section 7i there may be for a similar term, minor repairing with hand tools only for adjustments maintained solely within the accessory building; that under Section 7A, any curb cut or show windows deemed not in accordance with the requirements of such, may be constructed, provided the requirements of this resolution are complied with; that during the term of this variance the premises shall be occupied for no other use than as herein permitted; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

234-58-BZ

APPLICANT—Charles L. Koester, for William Jesberger, owner.

SUBJECT—Application April 16, 1958—decision of the Borough Superintendent under section 21 of the Zoning Resolution, to permit in a G-1 area district, the erection of

MINUTES

a one family home with attached garage that encroaches on the required setback from the City mapped street.

PREMISES AFFECTED—222-04 101st Avenue, southeast corner of 222nd Street, Block 10795, Lot 28, Queens Village, Borough of Queens.

APPEARANCES—

For Applicant: Charles L. Koester.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; applicant to file revised plans showing houses on either side of 101st Avenue; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and 101st Avenue are in a residence use, G-1 area, class ½ height district; 222nd Street and 223rd Street are in local retail and residence use, G-1 and D area, class ½ height districts; Hempstead Avenue is in a local retail use, D area, class ½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated March 18, 1958 acting on N.B. Applic. No. 581-58, reads:

"1. Front setback as shown on plan is not in accordance with Article IV Section 16-C(b) of Zoning Resolution. Setback from City mapped line should be 15 feet."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet frontage by 40 feet in depth; that it is proposed to construct a one family dwelling, 20 feet deep and 46 feet 2 inches long; and

WHEREAS, the applicant contends that it is not practical or sensible to build a 15 foot deep house, as it would be impossible to obtain a mortgage on such a dwelling; that Sheet No. 5 of five of the drawings submitted, shows that the other three corner houses have the same setback on 101st Avenue as this proposed house, and as he can hold the legal setback on 222nd Street, he is doing so, that in consideration of the adjoining houses and the other three corner houses, it would be a mistake to build anything less than 20 feet in depth; and

WHEREAS, the applicant states that the present owner has held title to the property since January, 1958 and that the assessed valuation of land is \$1,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21 as to practical difficulties, to permit the set backs to be as proposed and indicated on plans filed with this application, marked "Received April 16, 1958", 6 sheets, and "November 10, 1958", 1 sheet, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that in the event the City acquires land for street widening, payment to this owner for such portion as may be taken shall be as determined by the Court; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

282-58-BZ

APPLICANT—Mario A. Tucciarone, for Charles Chiofalo and James Viscardi, owners.

SUBJECT—Application May 7, 1958—decision of the Borough Superintendent, under section 7e of the Zoning Resolution, to permit in a residence use district, the present building to be used for manufacturing as permitted in a business use district.

PREMISES AFFECTED—93-08 95th Avenue, south side, 50 feet east of 93rd Street, Block 9036, Lot 3, Woodhaven, Borough of Queens.

APPEARANCES—

For Applicant: Mario A. Tucciarone.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 95th Avenue, 93rd Street, 94th Street and 97th Avenue are in a residence use, D area, class 1 height district; that the premises were zoned for business until April 13, 1925 at which time it was changed to its present use for residence; and

WHEREAS, the decision of the Borough Superintendent, dated September 25, 1958 acting on Alt. Applic. No. 1586-57, reads:

"1. Use of premises for manufacturing in a Residence Use District is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 27.04 feet frontage by 100.10 feet in depth, occupied by a one story building of class 3 construction, having a frontage of 20 feet by 90 feet in depth; that it is proposed to use the present building for manufacturing of a nature permitted in a business use district; and

WHEREAS, the applicant states that N.B. Applic. No. 16170-1922 shows a two story building to be used as a store on the first floor and dwelling on the second floor; that said plans were approved on December 13, 1922 at a time when the zoning was for business use; that construction under this application commenced on November 24, 1922 and was completed on October 16, 1923; that the building which was actually erected is a one story factory type building of class 3 or masonry construction, and does not conform to the plans filed; that a second new application was filed under plan No. 7549 of 1925 showing a one story factory type building as constructed to be used for dressmaking; that this second new building application was disapproved, since the use of the said premises for dressmaking was contrary to the newly established residence zoning; that the said building has been used for factory purposes since its erection, and said use has been undisturbed; that the original owner failed to make an application for a Certificate of Occupancy and none was ever issued; that no violations have been issued with respect to the use of said premises for factory purposes since its erection, although the building has been continuously used for factory purposes; that the present owner purchased the building on March 25, 1957 with the understanding that this was a factory building and occupied same for the manufacturing of cement lamp bases and weights; and

WHEREAS, the applicant further states that the residence use area surrounding the site contains many other buildings with uses not conforming to the residence use zone, as hereinafter specified; that lots 7 and 8 in block 9031 are used as a labor union hall and social club; block 9032, lot

MINUTES

1—store and dwelling; lot 2—barber shop and dwelling; lot 3—store used for manufacturing dancing costumes and dwelling; lot 4—store used as delicatessen and dwelling; lot 5—store used for warehouse of package goods and auto repair shop; lots 7 and 8—store and dwelling; block 9036—lot—building used as warehouse and dwelling, adjoining subject site; lot 4—building used for womens dress manufacturing, adjoining subject site; that lot 27 in block 9027 contains a one story building used as store; and

WHEREAS, the applicant contends that in addition thereto, the area northwest of the site including block 9028, diagonally across the street from the site, is zoned for unrestricted use and developed with a large factory building; that this unrestricted use immediately adjoins a residence zone use, establishes an extreme change of use between adjoining land and is contrary to the general plan of zoning which normally establishes gradual change of zone from one to the next; that this fact greatly affects the beneficial use of the subject site; is used in accord with the prescribed zone and greatly diminishes its value for residential purposes; that furthermore, the present building in its present condition is not suitable for use as a residence without extensive alterations, thereby imposing an additional burden, for which the owner could not possibly obtain a fair return on a residential rental; and

WHEREAS, the applicant states that the present owners have held title to the property since March 25, 1957; that the assessed valuation of land is \$2,500 and of the building \$6,500 making a total of \$9,000; that the building was erected November 24, 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit the occupancy of the building for business purposes, *on condition* that before any such occupancy is permitted same shall be submitted to this Board for further consideration; and that the building shall not be increased in height or area; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Fred C. Dahlem, for Sidjack Realty Corp., owner.

SUBJECT—Application July 9, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, the maintenance of a parking lot for more than five (5) cars. PREMISES AFFECTED—2333-2339 Cambreleng Avenue, west side, 109.14 feet south of Crescent Avenue, Block 3088, Lot 27, Borough of the Bronx.

APPEARANCES—

For Applicant: Fred C. Dahlem, Harry Kobrin and Harry Appleman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Belmont Avenue and Cambreleng Avenue are in business and residence use, B area, class 1½ height districts; Crescent Avenue is in a business use, B area, class 1½ height district; East 183rd Street is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 17, 1958 acting on Alt. Applic. No. 486-58, reads:

“1. Proposed use of parking & storage of more than five motor vehicles partly in a residence use district is contrary to Art. II Sect. 3 of the Z. R.”

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet frontage by 100 feet in depth; that it is proposed to create a fenced in parking lot with each tenant having his own car space and a key to the gate, which will be opened only to exit or entrance when using the lot; and

WHEREAS, the applicant states that this lot will relieve street parking to the extent of approximately 35 cars; that to build a new apartment house in this low rent area is financially impossible; that however, a parking lot for car owners will be a benefit for them as well as getting cars off the street; and

WHEREAS, the applicant contends that the area is congested and faces on a 50 foot street; that this avenue is a one way north bound street, and with cars parked on both sides of the street the roadway is inadequate; that there is alternate parking at present; that the lot, as photographs reveal, show the property level at grade; that at present, persons throw their rubbish in this lot; that the section is mixed with five and six story apartment houses, plus a large number of two family houses with no garage for tenants; that access to car space is impossible due to lack of driveways; and

WHEREAS, the applicant states that the present owner has held title to the property since April 16, 1958 and that the assessed valuation of land is \$12,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the parking and storage of motor vehicles limited to passenger car type only, substantially as proposed and indicated on plans filed with this application, marked “Received July 9, 1958”, 2 sheets, and “October 1, 1958”, 1 sheet, *on condition* that all uses on the premises shall be removed and the site leveled substantially to the grade of Cambreleng Avenue; that on all interior lot lines there shall be constructed a woven wire fence of the chain link type on a masonry base to a total height of 5 feet, 6 inches with no openings therein except two to Cambreleng Avenue, where shown, each fitted with gates and with curb cuts opposite each not over 14 feet wide including splay; that during the term of this variance the premises shall be occupied for no other use; that signs shall be restricted to a permanent sign attached to each gate, advertising the parking and storage use, rates charged and such other information as the Commissioner of Licenses may require; that each sign shall not exceed five square feet, not be illuminated or extend beyond the building line; that such portable fire fighting appliances shall be installed as the Fire Commissioner shall direct; that suitable bumpers shall be maintained at all points for protection of the fences at a proper distance therefrom; that each tenant of a parking space shall be given a key to the gate for entrance thereto and shall lock same upon leaving the premises; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Fred C. Dahlem, for Sidjack Realty Corp., owner.

SUBJECT—Application July 28, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, the use of a vacant plot for the parking and storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2330-2334 Cambreleng Avenue, east side, 274.52 feet south of East 187th Street, Block 3089, Lots 18-19-20, Borough of the Bronx.

APPEARANCES—

For Applicant: Fred C. Dahlem, Harry Kobrin and Harry Appleman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 18, 1958, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, B area, class 1¼ height district; Cambreleng Avenue and Beaumont Avenue are in a residence, business and retail use, B area and class 1¼ height district; 183rd Street is in a business use, B area and class 1¼ height district; 187th Street is in a retail use, B area and class 1¼ height district; and

WHEREAS, the decision of the Borough Superintendent, dated July 24, 1958, acting on Alt. Applic. 485-58, reads:

"1. Proposed parking & storage of more than 5 motor vehicles in a residence use district is contrary to Art. II Sect. 3 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot 75 feet frontage by 100 feet in depth; that it is proposed to create parking and storage of more than five motor vehicles on these premises; that the lot will be fenced properly and kept locked except when in use; that car owners will have keys to the gate; and

WHEREAS, the applicant contends that the section is congested and there are few garage facilities as the area is mixed with five and six story apartment houses and a good number of two family houses with no car space or garages; that these cars are parked in the street and most of these streets are 50 feet streets with 30 feet roadways and are equipped with alternate parking signs; that the lot at present is used by everyone for ball playing, placing rubbish and other nuisances which are annoying to the neighbors; that the owners of this site have also filed for a parking lot on the same street, Block 3088, Lot 27; that between both parking lots the facilities for parking off street could give space to a total of approximately sixty (60) cars; that on this parcel of 75 feet by 100 feet at least 25 cars could be parked and stored; that new residential buildings in this low cost area would be impossible to finance under the present costs of construction; that until such time, the owners obtained this property in in Rem proceeding from the City and feel that enough money can be secured to cover expenses and pay the taxes; and

WHEREAS, the applicant states that the present owner has held title to the property since February 2, 1958; that the assessed valuation of the land is \$9,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district

regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the premises to be occupied as proposed for parking and storage of motor vehicles limited to the pleasure car type only, substantially as proposed and as indicated on plans filed with this application marked "Received July 28, 1958", 2 sheets, and "Received November 17, 1958" one sheet, *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be leveled substantially to the grade of Cambreleng Avenue and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be on all lot lines, where existing iron fences with brick base or masonry wall of adjoining buildings do not occur, a woven wire fence of the chain link type not less than five feet six inches erected on a masonry base, with no openings therein except one to Cambreleng Avenue, where shown, not exceeding twelve feet in width with curb cut opposite not exceeding 14 feet in width; that such opening shall be fitted with gates of similar construction as the fence and shall be kept closed and locked at all times when the parking lot is not in operation; that parking spaces shall be assigned to individual car owners who shall be furnished a key to the gates and who shall be responsible for relocking gates when owners car is taken from the lot; that sidewalks and curbing in front of the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to one sign attached to the fence near the entrance advertising the parking and storage use and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed five square feet, shall not be illuminated and shall not extend beyond the building line; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 91-40-SA, Vols. I, II, III, IV, V.

Subject: Amendment to resolution as to additional use.

The Linde Company, Division of Union Carbide Corp., requested by letter dated June 4, 1958 that the resolution adopted February 20, 1940 under Calendar Number 91-40-SA and amended at various times through Volume V be amended so as to permit the Oxweld, Purox and Prest-O-Weld Cutting and Welding Torches to be used with other fuel gases in addition to acetylene.

Description

The Oxweld, Purox and Prest-O-Weld Cutting and Welding Torches Models W-29, 33, 33CA, 34, 34CA, C-108, W-108, CW-108, W-109, CW-109, C52, C53, C54, W-37, W-26-M, CW-29, C-111, W-110, CM-110, W-111, CW-111, C-3, C-31, C-32, C-35, C-37, C-39, C-48, CW-23, W-5, W-17, W-22, W-23, W-24R, W-26, W-27, W-29, W-30, W-32, W-33, W-201, W-202, W-121, W-122, CW-122, C-112, and 420 were previously approved by the Board under Calendar Number 91-40-SA, Vols. I, II, III, IV, and V for use with acetylene and oxygen.

The request has been made to extend the approval of these torches for use with liquefied petroleum gases, hydrogen, natural and city gas with oxygen in addition to acetylene. For this added use no change will have to be made in the torches other than to use cutting or welding nozzles with larger gas ports.

The total flow of gas and oxygen passing through the mixed gas section of the torch increases when using a fuel gas other than acetylene and when the same heat output is required, therefore the welding head or cutting nozzle must have a larger gas port or ports. The possibility of flashback is not increased when using gases other than acetylene because the rate of flame propagation is slower.

Inspection and Test

Various torches were tested at the Newark Laboratories of the applicant in the presence of Assistant Engineers J. A. Darts and G. F. Sklenarik, Committee on Test and R. A. Neary representing the applicant.

The torches operated satisfactorily without flame strike back when used with natural gas, propane and hydrogen.

Recommendation

The Committee on Test recommends that the resolution adopted under Calendar Number 91-40-SA, Volume I, February 20, 1940 and amended at various times as Volumes II, III, IV and V be reopened and amended so as to permit the use of Oxweld, Purox and Prest-O-Weld Cutting and Welding Torches, Models W-29, 33, 33CA, 34, 34CA, C-108, W-108, CW-108, W-109, CW-109, C52, C53, C54, W-37, W-26-M, CW-29, C-111, W-110, W-111, CW-111, C-3, C-31, C-32, C-35, C-37, C-39, C-48, CW-23, W-5, W-17, W-22, W-23, W-24R, W-26, W-27, W-29, W-30, W-32, W-33, W-201, W-202, W-121, W-122, CW-122, C-112 and 420 with liquefied petroleum gases, hydrogen, natural and city gas, in addition to acetylene, on condition that the requirements of the resolution adopted February 20, 1940 under Calendar Number 91-40-SA, Volume I and amended at various times as Volumes II, III, IV and V be complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 866-47-SA

Subject: Amendment to resolution as to additional use.

Linde Company, Division of Union Carbide Corporation, requested by letter dated June 4, 1958, that the resolution adopted May 4, 1948 under Calendar Number 866-47-SA and amended June 17, 1952 be amended so as to permit the Oxweld and Purox Cutting and Welding Torches to be used with other fuel gases in addition to acetylene.

Description

The Oxweld and Purox Cutting and Welding Torches Models C-37R, CO43, C-45, C-56, C-57R, C-58, AC-4, W-39, W-40, W-41, W-42, W-43, W-44 and Purox cutting attachments Type 24 and CW-202 were previously approved by the Board under Calendar Number 866-47-SA for use with oxygen and acetylene.

The request has been made to extend the approval of these torches for use with liquefied petroleum gases, hydrogen, natural and city gas with oxygen, in addition to acetylene. For this added use no change will have to be made in the torches other than to use nozzles with larger gas ports.

The total flow of gas and oxygen passing through the mixed gas section of the torch increases when using a fuel gas other than acetylene and when the same heat output is required, therefore the welding head or cutting nozzle must have a larger gas port or ports. The possibility of flashback is not increased when using gases other than acetylene because the rate of flame propagation is slower.

Inspection and Test

Various torches were tested at the Newark Laboratories of the applicant in the presence of Assistant Engineers J. A. Darts and G. F. Sklenarik, Committee on Tests and R. M. Neary representing the applicant.

The torches operated satisfactorily without flame strike back when used with natural gas, propane and hydrogen.

Recommendation

The Committee on Test recommends that the resolution adopted under Calendar Number 866-47-SA on May 4, 1948 and amended June 17, 1952 be reopened and amended so as to permit the use of Oxweld and Purox Cutting and Welding Torches Models C-37R, C-43, C-45, C-56, C-57R, C-58, AC-4, W-39, W-40, W-41, W-42, W-43, W-44 and Purox cutting attachments, 35 and CW-202 with liquefied petroleum gases, hydrogen, natural and city gas in addition to acetylene,

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 199-55-SA, Vols. I & II.

Subject: Amendment to resolution as to additional use.

The Linde Company, Division of Union Carbide Corporation, requested by letter dated June 4, 1958 that the resolution adopted December 13, 1955 under Calendar Number 199-55-SA and amended as Vol. II, April 9, 1957 be amended so as to permit the Oxxweld Welding Torch and Cutting Attachment and the Purox and Presto-O-Weld Welding and Cutting Torches and Attachments to be used with fuel gases in addition to acetylene.

Description

The Oxxweld Model W-45 Welding Torch and Model CW-45 Cutting Attachment and Prest-O-Weld Model W-120, Purox Model W-200 Welding Torches Prest-O-Weld Model CW-120 and Purox Model CW-200 Cutting Attachments and Prest-O-Weld Model C-125 and Purox Model C-205 Machine Cutting Torches were previously approved by the Board under Calendar Number 199-55-SA, Vols. I & II for use with acetylene and oxygen.

The request has been made to extend the approval of these torches for use with liquefied petroleum gases, hydrogen, natural and city gas with oxygen, in addition to acetylene. For this added use no change will have to be made in the torches other than to use cutting or welding nozzles with larger gas ports.

The total flow of gas and oxygen passing through the mixed gas section of the torch increases when using a fuel gas other than acetylene and when the same heat output is required, therefore, the welding head or cutting nozzle must have a larger gas port or ports. The possibility of flashback is not increased when using gases other than acetylene because the rate of flame propagation is slower.

Inspection and Test

Various torches were tested at the Newark Laboratories of the applicant in the presence of Assistant Engineers J. A. Darts and G. F. Sklenarik, Committee on Test and R. A. Neary representing the applicant.

The torches operated satisfactorily without flame strike back when used with natural gas, propane and hydrogen.

Recommendation

The Committee on Test recommends that the resolution adopted December 13, 1955 under Calendar Number 199-55-SA and amended as Volume II, April 9, 1957, be reopened and amended so as to permit the use of Oxxweld Model W-45 Welding Torch and Model CW-45, and Prest-O-Weld Model W-120, Purox Model W-200 Welding Torches, Prest-O-Weld Model CW-120 and Purox Model C-200 Cutting Attachments and Prest-O-Weld Model C-125 and Purox Model C-205 Machine Cutting Torches with liquefied petroleum gases, hydrogen, natural and city gas in addition to acetylene on condition that the requirements of the resolution adopted December 13, 1955 under Calendar Number 199-55-SA, Volume I and amended as Volume II, April 9, 1957 be complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,

THE RESOLUTION—

WHEREAS, the report of a Committee on test reads.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 700-55-SA

Subject: Blu-Flame—Models VG-35, VG-45, VG-50 and VG-60.

Vacuum Stove Works, Inc., filed August 12, 1955 an application with the Board of Standards and Appeals for approval of the appliance known as The Blu-Flame, Models VG-35, VG-45, VG-50, and VG-60 Space Heaters under the provisions of Article 12, Chapter 26, Administrative Building Code.

Purpose

The appliance is a gas fired space heater.

Description

The space heaters are designed for BTU input ranging from 35,000 to 60,000 BTU per hour.

The heater is an assembly of parts; namely a chassis, cabinet burners, heat exchanger, draft diverter and controls.

MINUTES

The combustion chamber is constructed of 18 gauge steel and the jacket is of 20 gauge steel.

The heat exchanger is a multi tube heater type assembly of wedge tube design. The draft diverter section at the top is also integral with the heat exchanger tubes and is made of aluminized steel.

The burners are of the cast iron drilled port type.

Inspection and Test

The heaters have been approved by the American Gas Association under certificate numbers 2-2175.201, 2-1275.101, 2-1275.001.

Recommendation

On the basis of the data filed by the applicant, the Committee on Test recommends the approval of the appliance known as Blu-Flame Models VG-35, VG-45, VG-50, and VG-60 Space Heaters for use in New York City when installed in accordance with the requirements of Article 12, Chapter 26, Administrative Building Code on condition that the units shall not be installed in garages or places of explosive atmospheres and further that the appliance bear a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 700-55-SA."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.
GEORGE F. SKLENARIK,
Asst. Engr.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

878-56-SM

APPLICANT—Burke, Anzini & Court Co. Inc., for Tropical Tiles Inc., owner.

SUBJECT—Application December 13, 1956 — Vibracast Cement Tile, approval of.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4
Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 878-56-SM.

Subject: Vibracast Cement Tile.

Burke, Anzini & Court Co., Inc., Roslyn, New York, for Tropical Tiles Inc., Orlando, Florida filed December 13, 1956 an application with the Board of Standards and Appeals for approval of the material known as Vibracast Cement Tile under the provisions of the Veneering Rules of the Board.

Purpose

The material is to be used as an exterior and interior veneer.

Description

The tile is made of white portland cement, coarse white sand and mineral oxide pigments. The sizes of the tile are 6" x 6", 6" x 12", and 12" x 12", all 1/2" in thickness and 18" x 18" x 1 1/2" and 24" x 24" x 1 1/2" and weigh approximately 15 lbs. per square foot per inch of thickness.

Inspection and Test

The tiles were tested by Haller Testing Laboratories with the following results:

1. Absorption—7.8%

Abrasion—Loss of weight after 8000 strokes of the abrasion machine—70 strokes per minute.

Weight of Load—2500 grams—5 gram maximum.

Recommendation

On the basis of the data filed by the applicant, the Committee on Test recommends the approval of the material known as Vibracast Cement Tile for voluntary use in New York City, when installed in accordance with the Veneering Rules of the Board and all anchorage shall comply with said rules and further that all cartons in which the material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 878-56-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

571-57-SA

APPLICANT—Forse Corporation, owner.

SUBJECT—Application July 16, 1957—Forse Corporation Shirt-Pressing and Folding Machine, approval of.

APPEARANCES—

For Applicant: Allen H. Weiss.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test for voluntary use.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 571-57-SA

Subject: Forse Corporation Shirt Pressing and Folding Machines.

Forse Corporation, Anderson, Indiana, filed July 16, 1957 an application with the Board of Standards and Appeals for approval of the Forse Corporation Shirt Pressing and Folding Machines, Models 32-VB, 27-VCY, 75-SL, 5-CF, 10-MF, 20-MF, 32-VBE, 27-VCYE, 75-SLE and 5-CFL under the provisions of C26-178.0.b and C26-191.0 Administrative Building Code.

Purpose

Shirt pressing equipment for commercial use.

Description

The model 32-VB a bosom-body shirt press consists of a frame which houses, positions and serves as a holding bracket for the mechanical components which, when activated by a compressed air circuit move a steam heated head into contact with a steam heated, padded buck applying sufficient pressure to iron and dry the part of the shirt worked on. When the control is released by the operator, the head is returned to its original position.

Air pressure is supplied to the unit at 65 to 100 psi and steam at 100 psi.

The model 27 VCY Collar-Cuff-Yoke Press is almost identical to the construction and operation of the 32 VB press, except that it has two pressing heads that operate as a single unit and two bucks.

The model 75 SL Master Sleever finishes both sleeves in one operation by holding them taut while applying direct and indirect drying heat. Direct heat comes from expanding steam heated forms; indirect heat comes from a 1/3 hp motor

MINUTES

driven fan in the base of the machine which blows warm air into the forms and against inside of sleeves.

Operating air pressure is 50 to 75 psi. Steam pressure is 100 psi.

The Model 5 CF Steam Collar Former has no moving mechanical parts and no compressed air circuit. It consists of a base, 19 inches in diameter to which is welded a 2 inch steel tube upright. A steam head is attached to the upright and steam at 100 psi is supplied to the head.

The Model 10 MF Master Hand Folder is a manually operated shirt folding machine.

The Model 20 MF Master Folder is a semi-automatic shirt folding machine operated on air pressure of 75 psi.

The 32-VBE, 27-VCYE and 75 SLE are similar to the corresponding steam heated models except that electrical resistance heaters are installed in the heads of the machines to supply the heat. The 5-CFL unit is heated by a 150 watt bulb installed in the head.

Suitable thermostats and switches are provided.

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

The electrically heated equipment has been tested and approved by the Underwriters' Laboratories under file E 29330.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the Forse Corporation Shirt Pressing and Folding Machines, Models 32-VB, 32-VBE, 27-VCY, 27-VCYE, 75-SL, 75-SLE, 5-CF, C-CFL, 10-MF, and 20-MF for use in New York City in accordance with this report provided that each machine shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 571-57-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance for voluntary use in accordance with the above report.

583-57-SA

APPLICANT—Air Reduction Company, owner.

SUBJECT—Application reopened June 10, 1958 for amendment of resolution—re Airco Liquid Oxygen Station, storage and vaporization of liquid oxygen, nitrogen and argon, Models 5-4, 7-8, 9-8, 9-25, 9-40 and 9-100; previously approved.

APPEARANCES—

For Applicant: W. E. Schaefer.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 583-57-SA.

Subject: Amendment to resolution.

Air Reduction Company requested by letter dated May 14, 1958, that the resolution adopted March 18, 1958, under Calendar Number 583-57-SA be amended so as to reduce the clearance requirements for the installation of the Airco Liquid Oxygen Stations. The application was reopened by a vote of the Board June 10, 1958.

Recommendation

The Committee on Test recommends that the resolution adopted March 18, 1958 under Calendar Number 583-57-SA be amended as to the clearance requirements for the installation of Airco Liquid Oxygen Stations in that stations larger than the 5-4 model may be installed with a 5 foot clearance from adjacent structures provided such installations are made on industrial sites and that the adjacent structures have fire resistive exterior walls and that there are no openings in such structures within 25 feet, measured in any direction, of the oxygen station and on condition that the other requirements of the resolution adopted March 18, 1958 under Calendar Number 583-57-SA be complied with.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 18, 1958 in accordance with the above report.

662-57-SM

APPLICANT—E. K. Lofberg, for Corning Glass Works, owner.

SUBJECT—Application August 22, 1957—Pyrex Brand Glass Pipe, approval of.

APPEARANCES—

For Applicant: Edward K. Lofberg and Charles R. Barrett.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 662-57-SM.

Subject: Pyrex Brand Glass Pipe.

E. K. Lofberg for Corning Glass Works, Corning, New York filed August 22, 1957 an application with the Board of Standards and Appeals for approval of the material known as Pyrex Brand Glass Pipe under the provisions of C26-1297.0 and C26-1302.0 Administrative Building Code.

Purpose

The material is to be used for piping materials for handling acid waste.

Description

The material is of glass of special composition, a borosilicate glass with a low alkali content, made especially for the chemical industry due to its acid resisting qualities and its low thermal expansion which is actually 0.22 inches per 100 feet per 100°F rise in temperature.

It has been found that sediment build-up is small, since waste finds it hard to cling to the hardsmooth surface of the glass.

When installed, the gasketing material at the joints should be of acid resisting material.

Inspection and Test

The following tests were conducted on the pipe:

1. Hydrostatic Test—An assembly of P-type trap, a three foot length and a seven foot length of pipe was hydrostatically tested to a ten foot head of water—Results—showed no leaks.

2. Deflection Test.—Three foot length of 1½ inch pipe was tested as a beam with a concentrated load at mid span. Results—Pipe shattered under a load of 385 lbs.

3. Deflection Test—The same physical test as described

MINUTES

under 2 except that the concentrated load at mid-span was placed directly over a joint. Result—Pipe broke 1 inch from gasket at a load of 380 lbs.

The glass pipe has been used extensively in the photo engraving and engraving industry, and has been approved by various municipalities.

Recommendation

On the basis of the data filed by the applicant, the Committee on Test recommends the approval of the material known as Pyrex Brand Glass Pipe for voluntary use as a piping material for handling acid waste under the provisions of C26-1297.0 and C26-1302.0 Administrative Building Code on condition that the hangers and supports shall comply with the requirements of C26-1263.0 through C26-1267.0 Administrative Building Code and that all traps shall comply with the requirements of C26-1255.0 through C26-1262.0 Administrative Building Code on condition that all cartons in which the material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 662-57-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

819-57-SM

APPLICANT—J. W. Brennan, for Pittsburgh Corning Corp., owner.

SUBJECT—Application October 29, 1957—Durasonic Foamglas (acoustical tile) approval of.

APPEARANCES—

For Applicant: J. W. Brennan and H. F. Kingsbury.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 819-57-SM

Subject: Durasonic Foamglas (Acoustical Tile)

The Pittsburgh Corning Corporation of Pittsburgh, Pa., filed October 29, 1957 an application with the Board of Standards and Appeals for approval of their Durasonic Foamglas (Acoustical Tile) under the requirements of C26-88.0, as listed in the Administrative Building Code.

Purpose

To be used as a sound absorber.

Description

Durasonic Foamglas (Acoustical Tile) is the same as Pittsburgh Corning Corporation's, P C Foamglas Insulation, Calendar Number 131-44-SM, approved under C26-191.0, April 25, 1944, as meeting C26-88.0.

Durasonic Foamglas (Acoustical Tile) is made from a modified Boro-Silicate Glass. The only other ingredient in Durasonic Foamglas (Acoustical Tile) is the small percentage of carbon that is added during the grinding process. This batch is then weighed and placed in stainless steel molds. The molds are rectangular in shape and are composed of two similar pans.

The molds containing the powdered batch are fed into a gas fired, continuous roller furnace, in which the temperatures are properly controlled. As the glass powder becomes viscous, gas is generated, but since it cannot escape, it forms

tiny bubbles or cells, thus swelling the glass and filling the molds. The resulting blocks are considered quite homogeneous. After the duraface foamglas blocks are formed in the oven, they are removed and placed in a lehr for annealing and cooling.

The rough blocks are trimmed to size, then air pressure is introduced into the cells in order to break down the thin, inter-connecting cell walls, and thus provide the acoustical properties for the Durasonic Foamglas.

Inspection and Test

A test for incombustibility of Foamglas was made in accordance with the requirements of C26-88.0 of the Administrative Building Code. The results of the test are the same as approved under Calendar Number 131-44-SM, April 25, 1944.

Recommendation

On the basis of the foregoing data, the Committee on Tests recommends the approval of Durasonic Foamglas (Acoustical Tile) for use as an incombustible sound absorption material in all classes of construction under C26-191.0a provided the material is made and used as prescribed herein.

It is further recommended that each shipping container of Durasonic Foamglas (Acoustical Tile) be stamped, tagged, labelled or marked reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 819-57-SN".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

897-57-SM

APPLICANT—I. M. Conviser for Conviser and Co., owner.

SUBJECT—Application November 29, 1957—Conviser Concrete-filled Steel Columns, (square & rectangular), approval of.

APPEARANCES—

For Applicant: Irving Conviser.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT ON COMMITTEE ON TEST

Re: Calendar Number 897-57-SM

Subject: Conviser Concrete Filled Steel Columns—Square and Rectangular.

Conviser and Company, Brooklyn, New York, filed November 29, 1957, an application with the Board of Standards and Appeals for approval of the Conviser Concrete Filled Steel Columns—Square and Rectangular, under the provisions of C26-191.0 Administrative Building Code.

Purpose

The columns are to be used as structural supports in building construction.

Description

The columns as proposed are designated as Square and Rectangular and consists of a steel casing filled with a concrete mix. The mix consists of 1 part of approved cement, 1½ parts of sand and 3 parts of crushed stone and 5 gallons of water per sack of cement. The concrete is poured

MINUTES

into the tube and is rodded and vibrated to give a compact mass. A base plate is welded onto the tube before filling and later a cap is welded onto the tube after the concrete sets.

Inspection and Test

The columns were load tested at Lehigh University with the following results.

Size in Inches	Steel Thickness	Steel Area	Concrete Base	Ult. Load
2 x 4	1/4 Inch	2.75	5.25	66,000
3 x 6	1/4 Inch	4.25	13.75	133,000

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

898-57-SM

APPLICANT—I. M. Conviser, for Conviser and Co., owner.

SUBJECT—Application November 29, 1957—Conviser Steel Shell Concrete-filled Columns, (Large diameter) approval of.

APPEARANCES—

For Applicant: Irving Conviser.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4
Negative: 0
Absent: Commissioner Sleeper 1

The safe carrying load will be based on the following formula:

$$P = (AC + 12 As) (1600 - 24 l/d)$$

P= Safe Carrying load

Ac= Area of concrete

As= Area of steel

l/d= Length of column in inches divided

D= .3183As

The ultimate load at failure must be three (3) times the computed load, as figured by the above formula for the greatest length tested.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Conviser Concrete Filled Steel Columns—Square and Rectangular, for use in New York City, for sizes and for safe carrying concentric loads in kips as shown in the following table.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 898-57-SN

Subject: Conviser Steel Shell Concrete Filled Steel Columns, Large Diameter.

Conviser and Company, New York, Filed November 29, 1957 an application with the Board of Standards and Appeals for approval of the material known as Conviser Steel Shell Concrete Filled Steel Columns—Large Diameter, under the provisions of C-26-191.0 Administrative Building Code.

Purpose

The columns are to be used as structural supports in building construction.

Description

The columns are designed as large diameter series and consists of pipe filled with a concrete mix. The mix consists of 1 part of approved cement, 1 1/2 parts of sand and 3 parts of crushed stone and 5 gallons of water per sack of cement. The concrete is poured into the tube and is rodded and vibrated to give a compact mass. A base plate is welded onto the tube before filling and late a cap is welded onto the tube after the concrete sets.

Inspection and Test

The columns were load tested at Lehigh University and the results of the test were as follows:

	Dia.	Area of Steel	Area of Concrete	Steel Thickness	Length Tested	Failure Load
	7 5/8	6.92	38.74	.300	18	467,000
	8 5/8	8.40	50.03	.300	18	677,000
	9 5/8	9.97	62.79	.342	19	809,500
	10 3/4	11.91	78.86	.365	21	807,000
	12 3/4	14.58	113.10	.375	21	1206,000

MINUTES

The safe carrying load will be based on the following formula:

P=(Ac + 12 As) (1600 - 24 1/d)
P=Safe carrying load
Ac=Area of concrete
As=Area of steel
1/d=Length of column in inches divided

The ultimate load at failure must be three (3) times the

computed load, as figured by the above formula for the greatest length tested.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Conviser Steel Shell Concrete Filled Steel Columns, Large Diameter, for use in New York, for sizes and for safe carrying concentric loads in kips as shown in the following table.

Unbraced Length in Feet

Re: Calendar Number 900-57-SM

Subject: Curon, Wall Covering.

Joseph Platzker for Curtiss-Wright Corp., New York, filed December 2, 1957 an application with the Board of Standards and Appeals for approval of the material known as Curon under the provisions of C26-88.0 and C26-667.0 Administrative Building Code.

Purpose

The material is to be used as an incombustible wall and ceiling covering.

Description

The material is a sponge like plastic material and is basically a flexible urethane foam product having a uniform fine cell structure and an average density of 2.7 pounds per cubic foot. The material comes in tile form 10 inches by 10 inches and is usually, for ceiling coverings made in a thickness of ¼ inch. The tile is fastened to an incombustible backing by means of a methyl cellulose water-dispersion paste.

Inspection and Test

The material was tested at Foster D. Snell Laboratory in the presence of Ass't Engr. J. A. Darts, Committee on Test.

The material was tested in accordance with the requirements of Federal Specifications SS-A-118b and met the requirements of incombustibility.

The products of combustion were tested for toxicity and the results show that they are no more dangerous than those from other materials used in building construction.

The complete report is on file with and is part of the record.

On the basis of the test and the data filed by the applicant, The Committee on Test recommends the approval of the material Curon for voluntary use in New York City as an incombustible wall and ceiling covering on condition that the tile weighing approximately 1 ounce per tile be backed up solidly by an incombustible backing, on condition that the adhesive be as herein described and further that each carton in which the material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 900-57-SM".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 950-57-SA

Subject: Dearborn Gas-Fired Vented Space Heaters, Models DVC-12A, DVCK-20A, DVCK-40A, DVRCK-30A, DVRCK-45A, DVRCK-65A, and DVCK-60A.

The Dearborn Stove Company, owner, filed October 24, 1957, an application with the Board of Standards and Appeals for approval of the Dearborn-Gas-Fired Vented Space Heaters, Models DVC-12A, DVCK-20A, DVCK-40A, DVRCK-30A, DVRCK-45A, DVRCK-65A and DVCK-60, under the provisions of Article 12 of the Administrative Building Code.

MINUTES

Purpose

To heat room areas.

Description

These are gas-fired vented space heaters, the outer cabinet and interior construction is made of 20 U. S. gauge sheet metal. The burners are of cast iron with shut off valve and manual pilot. The normal input rating of the appliance when equipped with pressure regulator is 65,000 Btu per hour and without pressure regulator is 60,000 Btu per hour. Models DVC-12A, DVCK-20A, DVCK-40A, DVCK-60A are circulating gas heaters, flue connected with 12,000, 20,000, 40,000 and 60,000 Btu capacity. Models DVRCK-30A, DVRCK-45A and DVRCK-65A are circulating and radiant heaters, flue connected with 30,000, 45,000 and 65,000 Btu capacity. These heaters have manual or safety pilot and can be manually or thermostatically controlled.

The twin-wheel blower is available as optional equipment for models DVRCK-30, DVRCK-45, DVRCK-65, DVCK-40A and DVCK-60A.

Inspection and Test

All details of construction of these heaters were examined and it was noted that they have been tested and approved by the American Gas Association, certificate numbers 2-966-6.001, 2-(924.7 & -4.6).001, 2-(924-100.0 & -1.9).001, 2-(924-1.8 & -4.5).001, 2-(924-1.7 & -5.6).001, 2-(924.8 & -3.5).001, 2-(924-89.0, -99.0 & .9).001, 2-966-5.001, 2-1428.101, 2-1428-1.101, 2-(924-1.5, -4.5 & -7.5).001, 2-(924.6 & -4.6).001, 2-(924-1.6 & -5.6).001, 2-(924.5, -3.5 & -6.5).001, issued January 1, 1957.

Recommendation

On the basis of this inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Dearborn Gas-Fired Vented Space Heaters, Models DVC-12A, DVCK-20A, DVCK-40A, DVRCK-30A, DVRCK-45A, DVRCK-65A, and DVCK-60A, for use in New York City, when installed and operated in accordance with this report and the requirements of Article 12 of the Administrative Building Code, provided that each heater bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 950-57-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

57-58-SM

APPLICANT—National Gypsum Co., owner.
SUBJECT—Application January 2, 1958—Gold Bond Acoustiroc Acoustical Tile and Panels, and Gold Bond Acoustiglas Ceiling Panels, approval of.
APPEARANCES—

For Applicant: John H. Waters.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4
Negative: 0
Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 57-58-SM

Subject: Gold Bond Acoustiroc and Acoustiglas Ceiling Tile and Panels (incombustible acoustical materials).

The National Gypsum Company, Buffalo, New York, filed January 2, 1958 an application with the Board of Standards and Appeals for approval of Gold Bond Acoustiroc and Acoustiglas Ceiling Tile and Panels under the provisions of C26-88.0 and C26-191.0 Administrative Building Code.

Purpose

The materials are to be used as incombustible acoustical ceiling tile or panels.

Description

Gold Bond Acoustiroc Acoustical Tile is a substantially rigid incombustible product composed of mineral wool fibers and a suitable binder. The tiles are furnished in these sizes: $\frac{1}{2}$ " x 12" x 12", $\frac{3}{4}$ " x 12" x 12" and $\frac{3}{4}$ " x 12" x 24". Supplied with various edge treatments depending on method of attachment (adhered to a solid backing or held by a metal suspension system such as the Gold Bond "J" System approved under Calendar Number 754-52-SM). The surface is smooth, perforated or striated and is factory coated with a flame resistant paint.

Gold Bond Acoustiroc Acoustical Ceiling Panels, composed of the same materials and manufactured in the same way as the tiles described above, have square edges and are designed for use in metal grid suspension systems. They are furnished in these sizes (other sizes on special request): $\frac{3}{4}$ " x 23 $\frac{7}{8}$ " x 23 $\frac{7}{8}$ " and $\frac{3}{4}$ " x 23 $\frac{7}{8}$ " x 47 $\frac{7}{8}$ ". The surface is smooth, perforated or striated and is factory coated with a flame resistant paint.

Inspection and Test

Samples of the material were tested in accordance with the requirements of SS-A-118b and were found to be incombustible. The complete report is on file and is part of the record.

Recommendation

On the basis of the inspection and test data filed by the applicant, the Committee on Test recommends that Gold Bond Acoustiroc and Acoustiglas Acoustical Ceiling Tiles and Panels be approved for use as incombustible acoustical tiles and panels under the provisions of C26-88.0 Administrative Building Code providing all packages or cartons in which the material is marketed are labeled, marked or tagged as follows: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 57-58-SM."

The Committee further recommends that these tiles shall be used in conjunction with an approved suspension system and shall not be applied directly to the ceiling above by means of an adhesive.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

162-58-SA

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

MINUTES

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 162-58-SA.

Subject: Electrol Oil Burner, Models HO-2, HO-3 and HO-4.

Electrol Burner Co., Inc., Rutherford, New Jersey, filed March 18, 1958 an application with the Board of Standards and Appeals for approval of the appliance known as the Electrol Oil Burner, Models HO-2, HO-3, and HO-4 under the provision of the Oil Burner Rules of the Board.

Purpose

The appliance is an oil burner using number 4 oil as fuel.

Description

The models HO-2, HO-3 and HO-4 are basically the same oil burner as approved by the Board for the Electrol Burner Co., Inc., under Calendar Number 575-39-SA to which has been added an electric oil preheater, a magnetic oil valve and aquastat.

Inspection and Test

Details of construction were examined by Ass't Engr. J. A. Darts, Committee on Test. The burner has been approved by the Underwriters Laboratory under MP 1334.

Recommendation

On the basis of the data filed by the applicant, the Committee on Test recommends the approval of the appliance known as the Electrol Oil Burner, Model HO-2, HO-3 and HO-4 for use in New York City, with fuel oil not heavier than number 4 when installed in accordance with the requirements of Article 12, Chapter 26, Administrative Building Code and the Oil Burner Rules of the Board on condition that the appliance bear a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 162-58-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

220-58-SM

APPLICANT—Charles Bloom, Inc., owner.

SUBJECT—Application March 24, 1958—Fire LL, loom-woven and printed Drapery Fabrics, flameproofed, approval of.

APPEARANCES—

For Applicant: Maurice Mazer.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 220-58-SM.

Subject: Fire-LL Drapery Fabric.

Charles Bloom, Inc., New York, filed March 24, 1958 an application with the Board of Standards and Appeals for approval of the material known as Fire-LL Drapery under the provisions of the Flameproofing Rules of the Board.

Purpose

The material is a flame proof fabric to be used as drapery material in places of public assembly.

Description

The fabric is a modified acrilonitrile fabric and is basically in the same family as the Dynels.

Inspection and Test

Samples of the fabric were tested at the Better Fabrics Testing Bureau and the results were as following; there was no flashing, flaming or glow, as the fabric melts or fuses when contacted by the flame. The complete report is on file with and is part of the application.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test, recommends the approval of the material known as Fire-LL Drapery Fabric for use in New York City as a fabric in places of public assembly as provided under the Flameproofing Rules of the Board. Any tests or retests as required by the Fire Commissioner shall be conducted by him as prescribed in the above mentioned rules.

The Committee further recommends that all cartons in which this material is to be marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 220-58-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

267-58-SA

APPLICANT—The Standard Electric Time Co., owner.

SUBJECT—Application March 26, 1958—Standard Electric Time Co., Emergency Lighting System, Type 32, Series 300, approval of.

APPEARANCES—

For Applicant: Philip H. Holden.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test for voluntary use.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 267-58-SA.

Subject: Standard Electric Time Co., Emergency Lighting System, Type 32, Series 300.

Standard Electric Time Co., Springfield, Mass., filed March 26, 1958 an application with the Board of Standards and Appeals for approval of the Standard Electric Time Co., Emergency Lighting System, Type 32, Series 300, for use in New York City under the provisions of C26.191 Administrative Code.

Purpose

An automatic lighting system to operate during a power failure.

Description

The Standard Electric Time Co. Emergency Lighting System, Series 300 is a 32 volt system designed to provide dependable emergency illumination in public and private buildings from a central power and control station. It is automatic in both operation and recovery and is under con-

MINUTES

stant electrical supervision to warn of any disarrangement in any part of the system including the condition of individual lamps.

The system uses separate lamp fixtures and all emergency lighting circuits are independent of the building's regular lighting circuit.

Emergency electrical power is derived from a Flexlab Nickel-Cadmium battery that is contained within the Control Console. It is a non-acid (no corrosion) battery of low internal resistance and provides a stable discharge voltage. It can be kept fully charged for long periods of time without harm and cannot be damaged by overcharging.

The equipment of the Series 300 Emergency Lighting System includes the following elements:

1. Emergency Lighting Control Console—contains Flexlab Nickel-Cadmium battery, Battery Charger, Controls, Supervisory Signals, Voltmeter and Ammeter.
2. Distribution Panel—contains fuses for all area circuits.
3. Area Control Panels—contain area controls, trouble signals, transfer switches, and terminals for all lamp circuits.
4. Emergency Lighting Lamp Fixtures.

Control Console—The 32 Volt Flexlab Nickel-Cadmium battery is contained in the lower chamber. Transformer, rectifier, circuit breakers, control relays, terminals, etc., are contained in the upper section.

Controls include three operating signal lights, two trouble lights, each with audible alarms and silencing switches, circuit breakers, a d-c voltmeter and ammeter both with press-to-test switches. Both meters have color bands representing actual operating conditions in addition to reading in volts and amperes.

Distribution Panel—It is shipped with fustat adapters but not fustats. Models of the panel are made for 2, 4, 6, 8, 10 and/or 12 circuits and for either surface or flush mounting. $\frac{1}{2}$ ", $\frac{3}{4}$ ", 1" and $1\frac{1}{4}$ " knockouts for conduit connections are on all four sides of the back box.

Area Control Panel—On the face of the cover is a red pilot light (trouble signal), one trouble silencing switch, and one pushbutton test switch. Within the enclosure are operating relays, audible trouble signal, and terminal strips for incoming d-c and a-c wiring and for connecting each emergency lamp circuit. Each panel contains terminals and fuses for eight emergency lamp circuits. $\frac{1}{2}$ ", $\frac{3}{4}$ ", 1", and $1\frac{1}{4}$ " knockouts are on all four sides of both flush and surface type panels. Panels are finished in hammer-tone gray.

Inspection and Test

This lighting system was inspected and tested at the plant of the applicant at Springfield, Mass. Present were Ass't. Engr. G. F. Sklenarik, Ass't. Arch't. T. Farricker, Committee on Test, Supervising Electrical Inspector R. Lent of the Fire Department and representatives of the applicant. The system functioned satisfactorily as designed.

The component parts of the system were tested and approved by the Underwriters Laboratories.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test is of the opinion that the Standard Electric Time Co. Emergency Lighting System, Type 32, Series 300, meets the requirements for emergency lighting systems as set forth in Section C26-280, C26-743, C26-744 and C26-745 Administrative Code and Sections B30-233 through B30-240 of the Electrical Code of the City of New York and therefore recommends approval of the Standard Electric Time Co. Emergency Lighting System, Type 32, Series 300, for voluntary use in New York City when installed in accordance with this report and the requirements of law, provided that each control console, distribution panel and area control panel shall bear a label, permanently affixed, reading "Approved

by the Board of Standards and Appeals for use in New York City, under Calendar Number 267-58-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Ass't. Engr.,
GEORGE F. SKLENARIK,
Ass't Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance for voluntary use in accordance with the above report.

271-58-SM

APPLICANT—Duffy Concrete Products, Inc., owner.
SUBJECT—Application April 25, 1958—Duffcon Longspan Precast Concrete Super Slabs, approval of.

APPEARANCES—

For Applicant: Francis X. Duffy.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating and Commissioner Foley 3
Negative: Commissioner Kleinert 1
Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 271-58-SM.

Subject: Duffcon Longspan Precast Concrete Super Slabs.

Duffy Concrete Products Inc., Tenafly, New Jersey filed April 25, 1958, an application with the Board of Standards and Appeals for approval of the material known as Duffcon Longspan Precast Concrete Super Slabs under the provisions of C26-344.0, C26-345.0, C26-364, C26-509.0 and C26-626.0 Administrative Building Code.

Purpose

The units are to be used as a precast floor or roof slab.

Description

The slabs are a precast reinforced controlled concrete slab cast in the shape of a double tee. The web of the tee is reinforced with galvanized welded wire fabric and the legs by means of one or two deformed reinforcing bars. The units are then cast in rigid steel forms. After removal of the forms, the slabs are allowed to cure.

The applicant claims that the design is based on accepted engineering formulae, and stresses as allowed under the A.C.I. It is to be noted, however that the A.C.I. allows stresses of 3750 p.s.i. in the concrete whereas C26-364.0 limits the stress to 3500 p.s.i.

Inspection and Test

The applicant submitted load tables based on design calculations so in order to check the validity of these tables, load tests, conducted in accordance with the requirement of C26-626.0 Administrative Building Code were conducted on slabs of various spans.

Results were as follows:

Slab	Design Load	Test Load	Factor of Safety
2-7/7-20'-0"	136 lbs. sq. ft.	386 lbs./sq.ft.	2.80
1-8-24'-0"	61 lbs./sq.ft.	137 lbs./sq.ft.	2.25
2-7/7-29 $\frac{1}{2}$ '-0"	55 lbs./sq.ft.	147 lbs./sq.ft.	2.6
1-7/8-29'0"	71 lbs./sq.ft.	157 lbs./sq.ft.	2.1

A complete report is on file with and is part of the record.

Recommendation

On the basis of the test and the data filed by the applicant, The Committee on Test recommends the approval of the material known as Duffcon Longspan Precast Concrete Super Slabs as manufactured by the Duffy Concrete Prod-

MINUTES

ucts, Inc., New York under C26-191.0 when designed in accordance with the accepted theory of flexure as provided in C26-468.0 for use in New York City, as an incombustible floor or roof slab with loads and spans as follows:

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4
Negative: 0
Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 436-58-SA.

Subject: Tokheim Models 448 and 452 Gasoline Pumps with or without suffixes P, PEH, RC, Twin, 1 and 2.

Tokheim Corporation, New York, N. Y., filed July 18, 1958 an application with the Board of Standards and Appeals for approval of the Tokheim Models 448 and 452 Gasoline Pumps with or without suffixes P, PEH, RC, Twin, 1 and 2 for use in New York City under the provisions of C26-191.0 Administrative Code.

Purpose

Motor fuel dispensing equipment.

Description

The Model 448 is a basic model, including a motor-driven, power-operated pumping unit, strainer, measuring device, computing clock, cable-reel type of hose retrieving mechanism, visible discharge indicator (optional), no lighting, but other components necessary for normal functions.

The model 452 is the same as the Model 448, except that it is provided with a fluorescent lighting system, and is equipped with upper housings, and is four inches (4") taller.

Each of the above-mentioned models are equipped with a $\frac{1}{3}$ H.P., 115/230 Volt, Single Phase, 60 Cycle A.C. Motors, Labeled for use in Class 1, Group D locations, and each model has a delivery capacity of approximately 15 gallons per minute.

The Suffix "P" indicates that a glass advertising panel is supplied over the dial, in the upper housing.

The Suffix "PEH" indicates that the housings are porcelain enameled, instead of painted in baked enamel finish.

The Suffix "RC" indicates that the device is a Dispensing Pedestal only, arranged for remote control operation connected to a remote control pump. In these Dispensing Pedestals, the pumping unit, motor, and air separator are omitted, and a special shutoff valve in the product line, (in the visible discharge indicator body casting), a pilot valve, and a strainer screen are added. The Pilot Valve operating linkage is connected to the motor control linkage so that the pilot valve is closed when the hose nozzle is hung on its normal support. A special pressure-relief valve is supplied on each device. This pressure-relief valve is assembled in an adapter fitting threaded in the strainer body, and a substantial tag is wired to a $\frac{3}{8}$ " union attached to the adapter fitting, indicating that it must be piped to, and connected with, the supply tank.

The Suffix "TWIN" indicates that the device is provided with two hose outlets, and in these assemblies one or two motors, pumping units and air separators are provided in the self-contained models; one or two strainers in the remote control dispensing pedestal models; two measuring units, computing clocks, retrieving mechanisms, and valves in the remote control models, and in the self-contained models with the Suffix "1". This Suffix "TWIN" is always used in combination with the Suffix "1" or "2".

The Suffix "1" indicates a "TWIN" device provided with one supply inlet; two (2) shut off valves (one in each discharge line) and two (2) pilot valves.

The Suffix "2" indicates a "TWIN" device provided with two (2) supply inlets. Shutoff valves and pilot valves are provided for each discharge line in remote control dispensing pedestals only with this Suffix.

The Suffix "WNC" indicates that instead of the usual Computing-type clock, a wheel-type Non-Computing counter, registering only Gallons Delivered, is supplied.

The Model 448-1-TWIN and the Model 452-1-TWIN Pumps are used for dispensing one (1) product only, and are equipped with one (1) supply inlet, one (1) pumping unit and air eliminator, one (1) $\frac{1}{2}$ H.P., 115/230 Volt, Single Phase, 60 Cycle A.C. Continuous Duty Type Electric Motor; two (2) measuring units; computing clocks; cable retrieving mechanisms; control valves; pilot valves and hose nozzles. Delivery capacity when dispensing through one (1) hose outlet only, approximately 15 gallons per minute.

The Models 448-2-TWIN and 452-2-TWIN Pumps are used for dispensing two (2) products, and consist of two (2) complete pumping and dispensing systems, including two (2) $\frac{1}{3}$ H.P., 115/230 Volt, Single Phase, 60 Cycle A.C. Electric Motors. Each half of these TWIN Pumps has a delivery capacity of approximately 15 gallons per minute.

Inspection and Test

All details of construction were examined by Ass't. Engr. G. F. Sklenarik, Committee on Test.

This equipment was tested and approved by the Underwriters' Laboratories under file MH 1895.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the Tokheim Models 448 and 452 Gasoline Pumps with or without suffixes P, PEH, RL, Twin, 1 and 2 for use in New York City under the provisions of Sections C26-191.0 and C-19-69.c Administrative Codes provided all electrical work will conform to the Electrical Code of the City of New York and further that each dispenser

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 437-58-SA

Subject: Tokheim Emergency Shut-Off Valves, Models 1098-1, 1098-2, 1098-3, 1098-4, 1099-1, 1099-2, 1099-3 and 1099-4.

Tokheim Corporation, New York, N. Y., filed July 18, 1958 an application with the Board of Standards and Appeals for approval of the Tokheim Emergency Shut-Off Valves, Models 1098-1, 1098-2, 1098-3, 1098-4, 1099-1, 1099-2, 1099-3 and 1099-4, for use in New York City under the provisions of C26-191.0 Administrative Building Code.

Purpose

Automatic shut off valves to be installed in the discharge lines of motor fuel dispensing systems.

Description

Tokheim Emergency Valve, Model 1098 is a spring loaded valve is designed for installation in the discharge lines of remote pumping systems for dispensing gasoline and is installed at the base of the dispenser.

The valve is normally held open by a pivoted stem or pendant and a shear or break off section is located at the upper end of the body near the valve outlet.

The valve mechanism is designed so that a sharp blow or shock will cause the valve to close. If the fuel dispenser should be knocked over by a motor vehicle the valve is designed to break at the shear section and, by closing, prevent a further discharge of motor fuel at that dispenser.

The Model 1099 Valve is similar in operation but in addition a spring actuated striker arm held in position by a shaft, lever and a fusible link is also furnished. The link has a melting point of 160°F and should a fire occur in the vicinity of the valve, the fusion of the solder in the link will cause the valve to close.

The valves are made in the following sizes:

1098—1	1½" with threaded end
1098—2	2" " " "
1098—3	1½" with Dresser end
1098—4	2" " " "
1099—1	1½" with fusible link & threaded end
1099—2	2" " " " " "
1099—3	1½" with fusible link & Dresser end
1900—4	2" " " " " "

Inspection and Test

All details of construction were examined by Ass't. Engr. G. F. Sklenarik, Committee on Test.

These valves were tested and are listed by the Underwriters' Laboratories under file MH 6663.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the Tokheim Emergency Shut Off Valves, Models 1098-1, 1098-2, 1098-3, 1098-4, 1099-1, 1099-2, 1099-3, and 1099-4 for voluntary use in New York City when installed in accordance with this report and the manufacturer's instructions for the installation of such valves and provided that each valve or carton in which it is marketed shall bear a label or marking reading, "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 437-58-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Ass't. Engr.,

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance for voluntary use in accordance with the above report.

575-58-SA

APPLICANT—Cook Machinery Co., Inc., owner.
SUBJECT—Application October 6, 1958—Aldryer or Tumblette Gas-fired Clothes Dryer, Models 37M30 and 37S30, approval of.

APPEARANCES—

For Applicant: Fred A. Weber.

ACTION OF BOARD—Appliance approved for voluntary use in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley 4
Negative: 0
Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 575-58-SA.

Subject: Aldryer or Tumblette Gas-fired Clothes Dryer, Models 37M30 and 37S30.

Cook Machinery Company, Inc., Dallas, Texas, filed October 6, 1958 an application with the Board of Standards and Appeals for approval of their Aldryer or Tumblette Gas-fired Clothes Dryer, Models 37M30 and 37S30 under the provisions of article 12, Administrative Building Code.

Purpose

Appliances for drying washed fabrics by the application of heat.

Description

These dryers are commercial type appliances sized for a 50 lbs. dry weight capacity.

They consist of a gas burner installed in a burner compartment, a tumbler basket installed below the burner compartment, a drive motor, circulating fan, a lint trap and a lint clean out compartment on the bottom. The components are assembled within an insulated sheet steel casing finished in a baked enamel. A circular window door opening to the tumbler compartment is provided in the front panel of the casing.

The tumbler basket 37 inches by 30 inches deep revolves at approximately 38 RPM when in operation and the circulating fan draws 1200 CFM of heated air through the material being dried.

MINUTES

Gas burners are provided with safety pilot ignition with 100% gas shut-off in case of flame failure, a nonclogging orifice.

Other controls are a door interlock switch which shuts off the motor and the gas when the door is opened, a safety thermostat to shut-off the gas if airflow is interrupted and a control thermostat for the operating temperature (120° to 220°F).

Each dryer has an 8 inch exhaust opening in the back panel of the casing which is to be connected to a flue leading out-doors.

The 37S30 model is equipped with a 60 minute timer to be set by the user.

The 37M30 model is equipped with a coil meter and operated for a predetermined period of time according to the coins inserted.

Inspection and Test

All details of construction were examined by Asst. Engr. G. F. Sklenarik, Committee on Test.

A typical 37M30 was inspected at 82-73 Broadway, Elmhurst, New York. The unit functioned as designed.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends that the Aldryer or Tumblette Gas-fired Clothes Dryer, Models 37M30 and 37S30 be approved for voluntary use in New York City when installed in accordance with this report and the requirements of Article 12 Administrative Building Code, that all ports and orifices be maintained for the type of gas used and that each appliance shall bear a label, permanently affixed reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 575-58-SA."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance for voluntary use in accordance with the above report.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent issued May 12, 1958, on Alt. Applic. 3342/57, reads:

“M.D.L. & Constr.

1. The Change in use of the 2nd story is contrary to resolution of B.S.&A. under Cal. #89-39-A.

2. Show live load good for 100 pounds as per Sec. 7.3.2.2.5 of Code.”

and

WHEREAS, the applicant states that the building is 5 stories, 51 feet in height, 22 feet by 95 feet in area at 1st floor, 22 feet by 56 feet in area at typical floor, class 3 construction, erected 1900, located on a lot 22 feet front by 100 feet in depth, in restricted retail use, B area, class 2 height district, and used and occupied since 1955 as follows: Cellar—ordinary; 1st floor—restaurant, 74 persons; 2nd floor—office and kitchen, 12 persons; 3rd floor to 5th floor, 2 apartments each; that it is proposed to be used and occupied without change, except 2nd floor will be used as a private party room in conjunction with the 1st floor restaurant use and as a kitchen, with an occupancy 60 persons; that the building is provided with one 3 foot 8 inch wide interior wood stairs, enclosed in fire retarded partitions, equipped with wood self-closing doors and leading direct to street, and provided with a ladder and scuttle to roof, with one fire escape on the rear; and

WHEREAS, the applicant states that the building was formerly used pursuant to a resolution adopted July 18, 1939 by the Board as cellar—storage and boiler room; 1st floor—insurance office; 2nd floor—real estate office; 3rd floor—offices; 4th floor—superintendent's apartment; 5th floor—1 apartment; that it was altered and occupied since 1955 under resolution adopted by the Board and Certificate of Occupancy #144851 as now existing; and

WHEREAS, the applicant states that it is now proposed to change the occupancy of the 2nd floor from office and kitchen to private party room and kitchen; and

WHEREAS, the applicant states that under Calendar 896-39-A, the Board on July 18, 1939, granted the appeal on condition that the existing stairway and hall be protected with a Multiple Dwelling type sprinkler system; that the stairway providing primary means of egress shall lead direct to the street and refurnished with a scuttle to the roof within the stair enclosure equipped with a double hung steel ladder leading thereto; that on December 14, 1943 the resolution was amended to permit the present owner to occupy the 1st floor and rear portion of the 2nd floor as a restaurant with an accessory kitchen; that it is now proposed that the entire 1st floor and 2nd floor be used by the owner for restaurant use; that there is a fire escape balcony at the 5th floor with a goose neck ladder to roof and provided for the drop ladder leading to the roof of the 3rd floor extension and a balcony on the 3rd floor with a goose neck ladder leading to the 3rd floor roof, with egress therefrom by ladder to the roof to the 1st floor extension; that in addition there is a ladder on the 3rd story roof leading to the roof of the adjoining building to the west; that it is now proposed to replace the wood stairs from 2nd to 1st floor with a 3 foot 8 inch wide iron stair and to maintain the exit conditions as required by the Board in its previous resolution; and

WHEREAS, the applicant contends that the 2nd floor will be used in conjunction with the 1st floor and will allow for easy unobstructed access to all parts of the floor; that the 2nd floor private party use will be for small luncheon groups rarely exceeding 15 persons; that the proposed demolition of Brooklyn's largest downtown restaurants has created an additional need for space to accommodate jury groups and other small groups at luncheon; and

WHEREAS, the premises was inspected by a committee of the Board.

MINUTES

Resolved, that the decision of the Borough Superintendent, dated May 12, 1958, acting on Alt. Applic. 3342/57, Obj. 1 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in view of the use of the second story as indicated on revised plans marked, "Received May 20, 1958," 5 sheets, "November 10, 1958," 2 sheets, the second means of exit may be accepted as a ladder from the adjoining roof to the grade premises of others adjoining on the west in accordance with consent for such ladder to adjoining premises for exit purposes as stated in the letter of the owner dated November 14, 1958; that as to Objection No. 2, the live load of the second floor shall be not less than 60 pounds and the number of persons shall not exceed 60 persons on the second floor; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that the wooden stairs from the first and second floors shall be replaced by steel stairs as proposed and shown on such plans.

For Applicant: Allen H. Weiss.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated March 8, 1957 on B.N. Applic. No. 1116/56 reads:

"1. Washing machine for washing of shirts, pressing and finishing constitutes a wet wash laundry and is contrary to Art. II, Sec. 4A of Zoning Res. within a retail zone."

and

WHEREAS, the applicant states that the store in question is one story in height, 20 feet front by 75 feet in depth, of class I construction, erected in 1949, located in a retail use B area, class 1 height district; and used and occupied as follows: cellar—storage; 1st floor—dry cleaning and shirt laundry, 7 persons; that no change or use in occupancy is proposed; and

WHEREAS, C.O. No. Q58649 was issued October 6, 1949 against N.B. Applic. 2032/48 affecting the entire building #304 located on Lot 1, Block 7075 and permitting its use and occupancy as follows: cellar—storage; 1st floor—stores, 90 persons; and

WHEREAS, the lessee was subject to prosecution in Municipal Term Magistrate's Court on complaint of the Department of Licenses for maintaining and operating a laundry without a license therefor; and that the matter was adjourned to April 4, 1957; and

WHEREAS, the applicant states that this is an appeal to review a decision of the Borough Superintendent which disapproves plans for the approval of use of shirt laundering machine in the applicant's premises on the ground that washing machine for washing shirts, pressing and finishing constitutes a wet wash laundry, and is contrary to Art. II, Sec. 4A of the Zoning Resolution; and

WHEREAS, the applicant states that it operates a retail dry cleaning store on the premises, which are located in a retail use district; and that in connection with its operations it has installed shirt laundry equipment including one 25 lb. washing machine; that the applicant will launder and finish dry shirts delivered to it by its retail customers and for no others; that this service will be necessary to meet the demands of the applicant's retail customers and to meet competition of large commercial laundries who in addition to

MINUTES

their other services have now entered into the dry cleaning business; that the shirt finishing equipment to be used has been purchased at a cost of approximately \$3,000, and includes a master sleever, and master hand folder, a collar-cuff yolk press, a body press and a collar former; that this equipment occupies an area of 7 feet by 7 feet and requires one employee; that the equipment was purchased from the Forst Equipment Corp., Anderson, Indiana; and

WHEREAS, the applicant contends that the equipment operates without the noxious and offensive odors associated with a wet wash laundry; and

WHEREAS, the applicant states that prior to the commencement of its dry cleaning operations on these premises it submitted plans to the Borough Superintendent under B.N. Applic. 1116/56 and these plans were approved November 10th, 1955, and again on January 27, 1956; that on or about January 1956, it filed an application with the Dept. of Licenses for a license to operate a class A laundry; that the Dept. of Licenses referred the matter to the Dept. of Buildings to pass on the proposed use of the premises and on September 21, 1956, the Dept. of Buildings advised the Dept. of Licenses that the proposed use was contrary to Zoning Resolution, despite the fact that an inspector of the Dept. of Bldgs. recommended the issuance of a license; that on August 24th, 1956 the application was denied and subsequently the Dept. of Licenses caused the summons to be served returnable in Magistrate's Court alleging the unlawful maintenance and operation of a laundry without a license; that on February 7th, 1957 the complaint was dismissed upon failure of the Dept. of Licenses to prove that laundry was in progress at the time the complaint was made; that thereafter on February 11th, 1957 another complaint alleging the same violation was issued and upon consent of the Dept. of Licenses the matter was adjourned in Magistrate's Court to April 4th, 1957 to permit filing of this appeal with the Board; that subsequently additional plans were filed with the Dept. of Buildings and rejected March 18th, 1957, by the decision herein appealed; and

WHEREAS, the applicant contends that the operation proposed does not constitute a wet wash laundry within the purview of Art. II, Sec. 4 of the Zoning Resolution; that the proposed use is incidental to the operation of a dry cleaning establishment; that Rule 3.1.1 of the rules adopted by the Board relating to dry cleaning establishments contemplates lawful non-dry cleaning operations of a multiple use type of service establishment where in addition to dry cleaning there may be a launderette, shirt laundry, shoe repairing and fur storage; and

WHEREAS, the applicant further contends that it is clear that the proposed operation of the shirt laundry equipment as accessory to the dry cleaning establishment is lawful; that the proposed operation does not constitute a steam or wet wash laundry, as such term is used in the common parlance of the laundry industry and as defined by the court; that the refusal of the Borough Superintendent to approve the application as submitted is erroneous; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent dated March 8, 1957, acting on B.N. App. 1116/56, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* in view of the approval by the Board of the shirt pressing machine this day under Cal. No. 571-57-SA and that any washing machine used with such equipment or on the premises shall be of a type approved by the Board for not over 25 pound load.

222-58-A

APPLICANT—Joseph Levy, Jr., for Joseph Aronowitz and Louis Heit, owners.

SUBJECT—Application April 11, 1958—Appeal from a decision of the Borough Superintendent, re frame structure, commercial use.

PREMISES AFFECTED—1063 Greene Avenue, west side, 250 feet, 6 inches, each of Broadway, Block 3283, Lot 49, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Levy, Jr., and Joseph Aronowitz.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert and Commissioner Foley. 4

Negative: 0

Absent: Commissioner Sleeper 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated April 10, 1958, on Alt. Applic. 866/58, reads:

"1. Proposed store (retail clothing) in a frame structure is contrary to 4.2.1 of Administrative Building Code."

and

WHEREAS, the applicant states that the premises consist of a lot 19 feet by 100 feet, located in a business use, C area, class 1 height district, upon which there exists a 3 story, 37 feet high, class 4 construction, 19 feet by 55 feet 3 inches in area, erected under N.B. Applic 1446/1891, used and occupied; cellar—ordinary, no persons; 1st floor—retail clothing store, 5 persons; 2nd and 3rd floors—one family each floor, for which no certificate of occupancy exists; that the proposed use and occupancy; cellar—boiler room and storage in conjunction with the store above, no persons; 1st, 2nd and 3rd floors no change; and

WHEREAS, the applicant proposes to provide new steel cellar stairs, enclosed in 4 inch block walls and fireproof self-closing door, leading to public hall on the 1st floor; that a store room in conjunction with the store above will be built of 8 inch block and fireproof self-closing door; that the present store door be moved to the outer vestibule; that the present 1st floor hall partitions be covered with sheet rock Fire Code No. 60; that all openings to public hall have fireproof self-closing doors; and

WHEREAS, the applicant contends that the owner believed it was proper to occupy the premises for business, because of the zoning regulations; that the building is kept in good condition; that based on the above statements appeal is made to the Board; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, dated April 10, 1958, acting on Alt. Applic. 866/58 be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the use as proposed of the first floor of the structure as indicated on plans filed with this appeal marked, "Received April 11, 1958," 1 sheet; *on condition* that there shall be ordinary storage in the cellar; that the upper stories of the building shall comply with the requirements therefor; that the building shall not be increased in height or area; and that in all other respects the building and occupancy shall comply with the requirements of the Building Code.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 15, 1958, as they appeared in Bulletin No. 42, Vol. 43, hereby corrected to read as follows:

181-19-BZ

APPLICANT—Leonard F. Rothkrug, for Crockett Fuel Oil Co., Inc.

SUBJECT—Application for consideration—reopening for amendment of resolution—re Application, decision of the Borough Superintendent; previously granted on condition, permitting the extension of a garage from an unrestricted district 18 feet to 10 inches into a business district.

PREMISES AFFECTED—8661-8671 18th Avenue, east side, 337 feet 8 inches north of Benson Avenue, Block 6369, Lot 17, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on April 22, 1919, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 22, 1919, by adding thereto:

“that in the event the owner desires to divide the building so that one-half will be occupied by a conforming use only and the other half by a garage for more than five motor vehicles as hereinbefore permitted, such change of use may be permitted provided the two portions of the building are completely separated by a continuous masonry wall without openings therein, except for pedestrian *doors*, located as shown on revised plan marked “Received September 2, 1958”, *one sheet*, and that the portion of the building not used for garage may be used for the conforming use of sale and display of new and used cars, as passed by the Borough Superintendent under Alt. App. 960-58, under date of August 26, 1958.”

*Correction—In the resolution, the words “a pedestrian door” changed to “*pedestrian doors*”; the date of the revised plan changed to “September 2, 1958” and “two sheets” changed to “*one sheet*”, all as indicated in italics.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 15, 1958, as they appeared in Bulletin No. 42, Vol. 43, hereby corrected to read as follows:

567-56-BZ

APPLICANT—Albert Melniker, for Arthur Pynn, owner.

SUBJECT—Application for consideration—reopening for extension of time to complete which expired September 24, 1958—re Application, decision of the Borough Superintendent; previously granted on condition, under sections 7e, 7h, 7i and 7A of the Zoning Resolution, permitting in a residence use district, the erection and maintenance of a gasoline service station, motor vehicle repair shop, public lubritorium and parking of more than 5 motor vehicles with a business entrance, curb cut within 75 feet of a residence use district.

PREMISES AFFECTED—540 Arthur Kill Road, 491 Colon Avenue, southeast corner and 490 Doane Avenue, Block 5451, Lot 77, Great Kills, Borough of Richmond.

APPEARANCES—

For Applicant: William E. Roehrig.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on September 24, 1957, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 24, 1957, only as to the time within which to obtain permits and complete the work so that as *amended* this portion of the resolution shall read:

“that in view of the statement by the applicant that plans *are being prepared for approval* by the Department of Buildings, that all permits required, including a certificate of occupancy, shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution.” (N.B. App. 670/56)

*Correction—In the resolution, “the statement by the applicant that plans have been approved by the Department of Buildings” corrected to read “that plans *are being prepared for approval*” by the Department of Buildings, etc., as indicated in italics.

MAX H. FOLEY

HAROLD R. SLEEPER

SAMUEL L. BECKER, Director

JOSEPH J. DOYLE, *Chief Clerk*

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

PUBLIC HEARINGS

Tuesdays at 10 a.m. and 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held at 80 Lafayette Street, Borough of Manhattan.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the Administrative Official either Borough Superintendent of Buildings or Fire Commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

For Applicant: Leon Komondorea.
For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 4, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, C area, class 1 height district; President Street and Carroll Street are in residence and business use, C area, class 1 height districts; Hicks Street and Henry Street are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 7, 1957 acting on Alt. Applic. No. 821-57; reads:

"1. Proposed change of use to automobile minor body repair and minor painting (no welding) in a Residence Zone is contrary to Art. II, PP. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage by 100 feet in depth; and

WHEREAS, the applicant states that though the area was a residence use district as of July 25, 1916 the building was approved and erected in 1918 for commercial purposes; that a Certificate of Occupancy for a public garage was issued on February 26, 1921; and

WHEREAS, the applicant further states that the present lessee has leased the subject premises for use as a public garage; that the lease was in effect as of March 1, 1953 at an annual rental of \$2,400; that the lessee now realizes that the residents in this neighborhood are not in a financial position to garage their automobiles and he now finds himself in an awkward position; that it has become extremely difficult to meet his financial obligations and provide a proper livelihood for his family; and

WHEREAS, the applicant contends that being legally bound with a lease to a failing business venture, the lessee finds himself in a useless struggle and realizes that the premises cannot be operated successfully as a public garage, alone; that if he were permitted to increase his services to the public, it might be the answer to his problem; that the additional service will consist of minor repairs to the body of an automobile, such as a door or fender; that performance of such work will not include welding of any type, but will include the use of powered and non-powered hand tools; that major work, such as the restoration of extremely damaged automobiles, will not and cannot be done as the necessary facilities are lacking; that since the premises are located off a main thoroughfare, it can be assumed that the additional service will in no way cater to transient trade; and

WHEREAS, the applicant states that the present owner has held title to the property since February 23, 1946; that the assessed valuation of land is \$3,000 and of the building \$7,000 making a total of \$10,000; that the building was erected in 1918; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the committee found the premises in use as a repair shop; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e to permit the existing building, as indicated on plans filed with this application marked "Received May 8, 1957", one sheet, and "October 8, 1958", 4 sheets, to be occupied as motor vehicle repair shop as proposed *on condition* that the building shall not be increased in height or area; that there shall be maintained a ventilating system consisting of fan and louver in the wall of the building to exhaust any fumes caused by the spraying operation; that the use may also include such spraying but not welding; that the building and occupancy shall in all other respects comply with all laws, rules and

MINUTES

regulations applicable thereto; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on March 11, 1958 subject to regular procedure, in view of substantial new facts being stated by applicant; and

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Herkimer Street are in a business use, C area, class 1 height district; Schenectady Avenue and Utica Avenue are in business and unrestricted use, C area, class 1 height districts; Atlantic Avenue is in an unrestricted use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 19, 1958 acting on Alt. Applic. No. 3435-57, reads:

"1. Proposed change of occupancy from public auto repair shop to baling of new waste material (cotton rayon, nylon wool acetate), within a business use district, is contrary to Art. 2, Sect. 4a(20) of the zone resolutions. Note these premises were subject to a variance granted by Bd. of St. & Appeals under 375-30-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage by 92 feet 9 inches in depth, presently developed with a one story masonry building of class 3 construction, having a frontage of 25 feet on Herkimer Street and a depth of 92 feet 9 inches and now illegally used for baling of new waste material—cotton, rayon, nylon, wool and acetate; that it is proposed to legalize and maintain the present uses of baling of new waste material—cotton, rayon, nylon, wool and acetate; and

WHEREAS, the applicant states that the building was erected under N.B. Applic. No. 6927 of 1927 and Certificate of Occupancy No. 6138 was issued for use as an automobile paint shop and accessory store; that the building was later altered under Alt. Applic. No. 5771 of 1930 and Certificate of Occupancy No. 62436 was issued for use as a public auto repair shop based upon a variance granted by the Board under Cal. No. 375-30-BZ; and

WHEREAS, the applicant contends that the change of use of said building from a legal public auto repair shop to baling of new waste material cannot possibly affect any of the adjoining properties, inasmuch as this is merely a change from one non-conforming use to another; that all the activities of the present use will be strictly confined to the inside of the building; that Herkimer Street at this point, al-

though zoned for business, has not developed into a strictly business area; that lots 53, 57 and 58 in block No. 1701 are now developed with a storage of materials yard, which tends to lower the business aspect of this street; and

WHEREAS, the applicant states that the present owners have held title to the property since November 16, 1951; that the assessed valuation of land is \$2,150 and of the building \$5,050 making a total of \$7,200; that the building was erected in 1927; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e to permit for a term of two years the premises to be occupied for the baling of new waste materials such as cotton, wool, rayon, nylon and acetate as proposed and as indicated on plans filed with this application marked "Received July 18, 1958," six sheets, *on condition* that the building shall not be increased in height or area; that during the term of this variance the premises shall be occupied for no other use; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that there may be a curb cut not over twelve feet in width to the premises from Herkimer Street; that the sidewalk and curbing in front of the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that all windows on the lot lines as now existing or proposed shall be fireproof self-closing; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

863-48-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Freda K. Berger, owner.

SUBJECT—Application reopened September 18, 1956 as Vol. II—decision of the Borough Superintendent, under sections 7e, 7h and 21 of the Zoning Resolution, to permit in a residence use, G-1 area district, the erection and maintenance of a gasoline service station, lubritorium, car wash, office and sales, storage, minor auto repairs with hand tools only, parking and storage of motor vehicles and less than the required 15 feet from the street line.

PREMISES AFFECTED—259-16 Union Turnpike, south side, from 259th to 260th Streets, 259-11 to 259-21 79th Avenue and 77-02 to 77-06 260th Street, Block 8676, Lot 1, Glen Oaks, Borough of Queens.

APPEARANCES—

For Applicant: John P. McGrath and James Vassalotti.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.
THE VOTE OF NOVEMBER 18, 1958—

Affirmative: Vice Chairman Keating 1

Negative: 0

No other voting.

THE VOTE OF NOVEMBER 25, 1958—

Affirmative: Commissioner Kleinert, Commissioner Foley 2

Negative: Chairman Murdock and Commissioner Sleeper 2

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on August 18, 1956 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on October 8, 1957 after due notice by publication in the Bulletin; laid over to November 19, 1957 at 10 A.M. for inspection and decision; hearing closed; thereafter laid over to December 10, 1957 and December 17, 1957 at 10 A. M. for inspection and decision; hearing closed; and

MINUTES

WHEREAS, a public hearing was held on this application on December 17, 1957 after due notice by publication in the Bulletin; application withdrawn; and

WHEREAS, the applicant requested reopening of this application for restoration to the Calendar for re-hearing; and

WHEREAS, this application was reopened on June 10, 1958 and restored to the Calendar for hearing; date to be set by the examiner; previously withdrawn December 17, 1957; and

WHEREAS, a public hearing was held on this application on October 28, 1958 after due notice by publication in the Bulletin; laid over to November 18, 1958, for inspection and decision; hearing closed; then to November 25, 1958, for continuation of the roll call of the members of the Board; and for preparing record of prior applications and court review; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 79th Avenue and Union Turnpike are in a residence use, G-1 area, class 1 height district; that as of July 25, 1916 the premises were in a business use district and a class D area district; that the present use designation became effective July 28, 1939 and the present area designation became effective January 27, 1949; and

WHEREAS, the decision of the Borough Superintendent, dated May 8, 1958 acting on amendment to N.B. Applic. No. 4469-55, reads:

"1. The proposed use of premises as a gasoline service station, lubritorium, car washing, office and sales, storage room, minor auto repairs (hand tools only), parking and storage of motor vehicles in open spaces, and proposed ground signs & business signs in a Residence Use District is contrary to Art. II Sect. 3 of the Zone Resolution.

"2. The proposed erection of a building & gasoline pumps which are located nearer than 15 feet to the street line of any street in a G-1 area district is contrary to Art. IV Sect. 16-C(b) of the Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 132.18 feet frontage by 53.20 feet, irregular in depth, presently unimproved; that it is proposed to erect and maintain a gasoline service station consisting of ten 550 gallon gasoline storage tanks and four dispensing pumps; that the proposed accessory building will have a frontage of 44 feet, a depth of 30 feet, one story in height, of class 3 construction, and contain the conjunctive uses of office and sales, lubritorium, minor repairs with hand tools only, and car washing; and

WHEREAS, the applicant states that the site consists of an entire small irregular and isolated block upon which it is impractical to erect a dwelling; that Union Turnpike is a heavily traversed auto lane and the attendant noises and fumes would be detrimental to a dwelling; that the entire area is heavily developed with dwellings and the heavy auto traffic on Union Turnpike has created a need for the proposed gas station at this point; that block 8513, lot No. 2 directly opposite the site, is developed with stores, and to erect a dwelling on this isolated block in between heavy auto traffic on Union Turnpike and 79th Avenue, stores would be impractical; that Union Turnpike, 79th Avenue, 259th Street and 260th Street, the four streets that bound the site, are always being used for parking of motor vehicles by the public, shopping at stores directly opposite the site; that the site therefore is in such a congested spot that the only practical use for which it could be developed is the proposed gas station; and

WHEREAS, the applicant contends that the owner is compelled to pay real estate taxes on the site in order to maintain his ownership and yet cannot receive a return on his investment due to the hardship sustained by the manner in which the area has developed; that although the site is in a G-1 area district, being isolated, small in area and opposite stores, and completely surrounded by parked cars for said stores, the leaving of a 15 foot setback is impractical and will hardly be of any advantage to the community; that the appearance of the proposed accessory building will be in entire accord with the area as it has developed, as the

facades will be of stone and the roof will be peaked and slate covered; and

WHEREAS, the applicant states that the present owner has held title to the property since December 31, 1947 and that the assessed valuation of land is \$1,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, Cal. No. 863-48-BZ-Vol. I—Application filed September 24, 1948 proposing 6-one-story stores, 100% coverage of lot in residence G1 district area of plot 3938 square feet. Property purchased December 31, 1947, subject to tax lien. Zoning changed from business to residence July 28, 1939. An application was before the Board of Estimate to change the zoning to business. The Board of Estimate at end of hearing, July 22, 1948, refused to change this plot from residence to business. No other property was involved.

The Board denied the application for stores on a vote of 2 to 2, May 24, 1949. At Special Term, matter remitted to the Board by Mr. Justice Hill; at Appellate Division, reversed decision at Special Term 5 to 1, stating "that Special Term arrogated to itself the powers of the Board"; "that the decision of the Board has support in the evidence"; "it is not arbitrary and it may not and should not be disturbed".

Following this, an action for declaratory judgment was filed—Berger vs. Keleher. At Special Term, Mr. Justice Pette declared the zoning regulations unconstitutional. At Appellate Division, by a vote of 3 to 2, reversed Special Term and upon further appeal to the Court of Appeals, judgment of Appellate Division was affirmed "without prejudice to plaintiff taking such appropriate action as she (Frieda Berger) may be advised in connection with set-back and area restrictions as to a conforming use". All concur except Froessel and Burke J.J., taking no part.

Current application for variance for a gasoline station filed July 12, 1956, reopened September 18, 1956—withdrawn December 17, 1957. Restored to docket June 10, 1958. Hearing October 28, 1958 and laid over for decision to November 18, 1958 and then to November 25, 1958.

Reference Case 826-53-BZ, next block east #8677 Lot 61, application filed for stores and parking November 20, 1953 by David Postal, owner since May 1951; Residence G1; hearing on March 2, 1954 and inspection; Application withdrawn April 20, 1954. Reopened as Vol. II on February 21, 1956 for gasoline station, same Block 8677 Lot 61. Hearing June 12, 1956, laid over to July 24 for inspection and decision. Denied 4-0 on July 24, 1956.

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7 e for a term of fifteen years to permit the premises to be occupied as proposed as a gasoline station and uses lawfully accessory thereto substantially as proposed and as indicated on plans filed with this application marked "Received July 12, 1956", 3 sheets, as amended by revised plans marked "Received November 29, 1957", one sheet, *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be leveled substantially to the grade of Union Turnpike and shall be constructed and arranged substantially as shown on the plans above referred to; that on the lot lines on 79th Avenue, 259th Street and 260th Street there shall be erected a brick wall on a masonry base not less than two feet in height with steel pickets above to a total height of five feet six inches continuously except that where the walls of the proposed accessory building occur on the lot line such wall may be omitted; that there shall be no windows in the street lines of the accessory building; that pumps shall be of low approved type erected not nearer than ten feet to the street building line of Union Turnpike; that the number of gasoline storage tanks shall not exceed

MINUTES

ten 550 gallon approved tanks; that a planting area shall be maintained toward the 259th Street side of the lot, as shown, with suitable planting and protected by a concrete curbing not less than six inches in width and eight inches in height; that curb cuts shall be restricted to two curb cuts to Union Turnpike each 30 feet in width, where shown, with no portion of any curb cut nearer than five feet to a street building line as prolonged; that signs shall be restricted to permanent signs attached to the facade of the accessory building excluding all roof signs and temporary signs and advertising devices but permitting the erection toward the westerly portion of the plot of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line of Union Turnpike for a distance of not more than four feet; that the balance of the premises where not occupied by accessory building and pumps and planting shall be paved with concrete or asphaltic pavement; that under Section 7i, for a similar term, there may be minor repairing with hand tools only for adjustments maintained solely within the accessory building; that parking and storage of motor vehicles may also be permitted under Section 7h for a similar term provided such parking and storage is located in such portions of the premises as will not interfere with the servicing of the station; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the sidewalk and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

594-50-BZ—Vol. II

APPLICANT—Alvin F. Golankiewicz for Frank Golankiewicz and Roman Golankiewicz, owner.

SUBJECT—Application reopened June 3, 1958 as Vol. II—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, on a plot consisting of three lots, the extension of a parking lot, previously granted by the Board and located on the westerly 62 feet of the premises, to occupy the entire plot.

PREMISES AFFECTED—649-659 East 225th Street, north side, 205.02 feet east of Carpenter Avenue, Block 4827, Lots 29, 34, and 36, Borough of The Bronx.

APPEARANCES—

For Applicant: Alvin F. Golankiewicz.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 3, 1958 subject to regular procedure, to consider extension of parking use; and

WHEREAS, a public hearing was held on this application on November 25, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Carpenter Avenue are in a residence use, C area, class 1¼ height district; East 225th Street and East 226th Street are in residence and business use, C area, class 1¼ height districts; White Plains Road is in a business use, C area, class 1¼ height district; and

WHEREAS, the decision of the Borough Superintendent, dated April 15, 1958 acting on Alt. Applic. No. 286-58, reads:

"1. The proposed extension of the present parking to include all of lot 34 and in addition also lot 29 is contrary to Bd. of S & A Cal. #594-50-BZ and to Sect. 3 of Art. II Zoning Resolution and is therefore denied."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 feet frontage by 114.5 feet in depth; that it

is proposed to use the entire plot for parking and storage of about 60 cars, of the pleasure type, each in its assigned place; and

WHEREAS, the applicant states that the Board granted a variance to allow parking on the west 62 feet of this plot under Volume I of this application; and

WHEREAS, the applicant contends that there is a necessity and demand for off street parking in this vicinity, as there are many apartment houses without parking facilities; that there will be little in and out traffic during daytime and most of the traffic on the street occurs before or after school hours; that the plot has been in the owners' family for over 35 years and they have paid taxes continually; that they still are unable to find a suitable use for this property other than that requested; that as the avowed policy of the City Administration is to require all future apartment houses to provide off street parking for tenants' automobiles, the granting of this application would be a help in carrying out this policy; that the proposed enlargement would in no way be detrimental to the neighborhood; and

WHEREAS, the applicant states that the present owners have held title to the property since December 11, 1922 and that the assessed valuation of land is \$22,700; and

WHEREAS, the premises and surrounding area have previously been inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 28, 1950, under Volume I by adding thereto:

"that in the event the owner desires to increase the size of the parking lot area to include the total 200 feet frontage, as proposed and indicated on plans filed with this application, marked "Received May 6, 1958", 4 sheets, such extension may be permitted provided similar requirements as stated in the above cited resolution shall apply to the balance of the property; and under section 7h, the term for the entire site shall be for five years from the date of this amended resolution; and that all permits required shall be obtained, including a certificate of occupancy covering the entire site and all work completed within six months from the date of this amended resolution."

606-57-BZ

APPLICANT—Julian Roth of Emery Roth and Sons, for 850 Third Avenue Corp., owner.

SUBJECT—Application August 30, 1957—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in a retail use, B area district, the erection of an eleven story, class B hotel occupying more than the permitted area.

PREMISES AFFECTED—838-852 3rd Avenue, west side, from East 51st to East 52nd Streets, 161-175 East 51st Street and 160-166 East 52nd Street, Block 1306, Lots 30, 33 and 41, Borough of Manhattan.

APPEARANCES—

For Applicant: Julian Roth and Edward Friedman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 17, 1957 after due notice by publication in the Bulletin; and

WHEREAS, this application was laid over; applicant to submit a showing of hardship for the Board to study and consider it; date to be determined, after applicant notifies the Board when he is ready; and

WHEREAS, this application was re-set for a continuation of the hearing on November 5, 1958 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

MINUTES

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for inspection if necessary and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Third Avenue, East 51st Street, East 52nd Street and Lexington Avenue are in a retail use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated September 24, 1958 acting on amendment to N.B. Applic. No. 63-57, reads:

"A1. Repeat. Proposed coverage of lot on 1st to 5th stories in excess to area permissible under Art. IV, Paragraph 12(b) of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 feet 10 inches frontage by 120 feet and 195 feet in depth, occupied by six buildings which are to be demolished; that it is proposed to erect an eleven story hotel; that in view of the fact that this building contains more than six passenger elevators and is within a block which is zoned retail in its entirety, conformance with the setback and court and yard requirements of the Multiple Dwelling Law is not required; that in addition to the hotel rooms and the accessory uses for the hotel, a substantial portion of the plot area will be devoted to a police station and fire house to be constructed by the owners and thereupon leased to The City of New York; that the plans attached to this appeal indicate the extent of the space to be occupied by the police station and fire house; that these combined uses will occupy 31,158 square feet and approximately 377,886 cubic feet; and

WHEREAS, the applicant states that the following is a computation of the permitted area under Article 4, Paragraph 12(b) of the Zoning Resolution: area of plot—31,632 square feet; 5,000 square feet (corner) by 2 by 80% equals 8,000 square feet; 31,632 square feet minus 10,000 square feet equals 21,632 square feet; 21,632 square feet by 65% equals 14,060 square feet; allowable area—22,060 square feet; and

WHEREAS, the applicant states that inasmuch as the police station and fire house and the business uses accessory to the hotel occupy the areas listed below on the first to fifth floors, substantial compliance with the Zoning Resolution has been provided;

Floor	Area to be occupied by Police Dept. and/or Fire Dept.	Accessory Use Hotel	Residential Use
First	11,420 sq.ft.	17,217 sq.ft.	None
Second	3,673 sq.ft.	24,544 sq.ft.	None
Third	2,937 sq.ft.	11,360 sq.ft.	8,676 sq.ft.
Fourth	7,260 sq.ft.	None	13,028 sq.ft.
Fifth	5,868 sq.ft.	None	13,028 sq.ft.
Sixth to 11th Floor	None	None	13,668 sq.ft. per floor

and

WHEREAS, the applicant states that under the Zoning Resolution, Article 4, Paragraph 12(b), there is no area restriction for business usages; that the area devoted to residential use below the fifth floor is well within the area permitted by the Zoning Resolution; that the portion of the building above the fifth floor which is devoted to residential use comes well within the areas permitted by the Zoning Resolution; that the area devoted to residential use is 13,668 square feet compared to 22,060 square feet permitted by the Zoning Resolution; that in fact, less than 50% of the plot area is thus used; that the proposed building is located within a block which is zoned retail; that the owner could elect to erect an office building on the site as is now being erected on the balance of the East 51st Street frontage by another owner; that such an office building would not be subject to restrictions as to area, nor be required to provide courts for ventilation; that similarly, the portion of the hotel which

is devoted to business use—accessory hotel uses—or to police and fire department requirements, should not be subject to area restrictions; that he emphasizes the fact that the usages for the lowest five stories of the building would be permitted as business in a retail district were they not, of necessity, accessory to the hotel occupancy; that as business uses in a retail district they would not be subject to area restrictions; that therefore the proposed building should be considered as a hotel, which conforms to the area requirements of the Zoning Resolution, superimposed on a business building, which is not subject to area restriction; and

WHEREAS, the applicant contends that the reason for mentioning "area" in relation to Objection No. A-1, is that where a variance is one of area only, there is no change in the character of the zoned district; that therefore, it has been held by the Courts that a change of area may be granted on the grounds of practical difficulty alone, without considering whether there is an unnecessary hardship (matter of Bronxville vs. Francis, 1 App. Div. 236 (1956)); that in view of the inclusion of the police station and fire house within the site of the building, and in view of the fact that the lowest five stories of the building are devoted essentially to business, it is respectfully requested that a variation of Article 4, Paragraph 12(b) of the Zoning Resolution be granted, and such variance be granted under Section 21 of the Zoning Resolution; and

WHEREAS, the applicant states that the present owner has held title to the property since September 8, 1956; that the assessed valuation of land is \$955,000 and of the buildings \$75,000 making a total of \$1,030,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition but does not agree with the Building Department in invoking Section 12b of the Zoning Resolution in view of the expressed interpretation by this Board that such section does not apply to a building unless the building is completely residential use throughout; and that the building is in substantial compliance; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 21 to permit the construction and use of the building as proposed and as indicated on plans filed with this application marked "Received October 2, 1958", 12 sheets, and "November 4, 1957", one sheet, on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within the Requirements of Section 22A of the Zoning Resolution.

774-57-BZ

APPLICANT—Leonard F. Rothkrug, for 324 Lafayette Realities, Inc., owner.

SUBJECT—Application October 29, 1957—decision of the Borough Superintendent, under sections 7e and 7h of the Zoning Resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubricatorium, motor vehicle repairs with hand tools only, car washing—non-automatic, sales and parking of cars awaiting service all for a temporary term of fifteen (15) years.

PREMISES AFFECTED—3225 Baychester Avenue, northwest corner of East 222nd Street, Block 4880, Lots 23 and 30, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: Samuel Bodian, City Const. Co-ord.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for applicant to file revised plans showing pumps back fifteen feet from the street building line and for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Baychester Avenue are in a residence use, C area, class $\frac{1}{2}$ height district; Given Avenue and East 222nd Street are in business and residence use, D and C area, class $\frac{1}{2}$ height districts; Edwon Avenue is in a business use, D area, class $\frac{1}{2}$ height district; that on July 25, 1916 the premises was located in an unrestricted use, class 1 height district; that the use district was changed from unrestricted to business on January 20, 1927 and then to its present designation on August 26, 1954; that the height district was changed to its present designation on August 26, 1954; and

WHEREAS, the decision of the Borough Superintendent, dated September 28, 1957 acting on N.B. Applic. No. 1101-57, reads:

"1. Proposed use of gasoline service station, lubricatorium, minor repairs, car washing, office, sales, and parking of motor vehicles awaiting service in a residence use district is contrary to Art. II Sect. 3 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 152.76 feet frontage by 120.80 feet in depth, irregular; that it is proposed to erect and maintain a gasoline service station, with motor vehicle repairs using hand tools only, non-automatic car washing, lubricatorium, sales and parking for cars awaiting servicing; and

WHEREAS, the applicant states that the premises is located in an undeveloped area near the New England Thruway, and the entire affected area is vacant, with only a few exceptions; that on July 25, 1916 these premises and most of the area was in an unrestricted use district; that the proposed use is a permitted use in an unrestricted use district and therefore would have been permitted on these premises without a variance until January 20, 1927, when it was rezoned to business; that the premises remained zoned business until August 26, 1954 when it was rezoned to its present use district; that the owner purchased the major portion of these premises on November 8, 1948 from Crawford Associates, Inc.; that the small triangular gore noted as lot 30 was purchased from the Empire City Racing Associates on June 7, 1954; that the owner has owned the premises for almost ten years and the only new construction has been the New England Thruway; and

WHEREAS, the applicant contends that the premises cannot be economically developed with a conforming use; that there is no demand for development of this site with a residence; that there is considerable vacant land in the affected area and within this neighborhood; that it can be predicted that as a result of the Thruway, there will be a development of the neighborhood; that however, Baychester Avenue will become a major traffic artery leading to and from the Thruway and will be undesirable for residence use; that the development will be on the side streets; that there is an economic demand for development of the site with a gasoline service station as the opening of the Thruway creates a need for this service; that there are two new gas stations granted by the Board on the east side of Baychester Avenue between the Thruway and Boston Post Road, four blocks to the north; that these two stations service cars exiting from the Thruway or entering the Thruway for northbound travel; that there are no gas station facilities in this area for Thruway southbound traffic along the west side of Baychester Avenue; that since the bulk of the Thruway traffic at this point will be southbound to the City, there will be an urgent

need for the proposed service; that there is little or no pedestrian traffic at this location; that almost all of the few buildings in this area were erected before 1927, when the premises was in an unrestricted use district; and

WHEREAS, the applicant further contends that a grant of the variance will not adversely affect any of the surrounding property owners within the affected areas; that East 222nd Street is over 100 feet in width and is entirely vacant except for one building on the south side; that East 222nd Street is unopened to the east, and to the west the property is entirely vacant except for existing non-conforming uses—motor vehicle repair shop and gas station in block 4758, lot 2 and a stone yard in block 4758, lot 9; that the property adjoining the premises to the north will be adequately protected by solid fences and the wall of the service station building; that there will be no openings in this wall out to the adjoining properties, so that there will be no fire hazard and no odors; that in view of the traffic island in the center of Baychester Avenue at this tax block, there will be no chance of traffic congestion, and patronage for the proposed station will be from automobiles traveling south, away from the adjoining property; and

WHEREAS, the applicant states that the present owner has held title to the property since November 8, 1948 and June 7, 1954 and that the assessed valuation of land is \$12,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years to permit the premises to be occupied as a gasoline service station and lawful accessory uses substantially as proposed and as indicated on plans filed with this application marked "Received October 29, 1957", 3 sheets, and "November 21, 1958", 3 revised sheets, *on condition* that all buildings and uses on the premises shall be removed and the premises shall be leveled substantially to the grade of Baychester Avenue and East 222nd Street and shall be constructed and arranged as indicated on such revised plans; that the accessory building shall be of the design and arrangement as indicated, without cellar and faced on all sides with face brick; that pumps shall be located not nearer than fifteen feet to either street building line; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved storage tanks; that the balance of the premises shall be paved with concrete or asphaltic pavement; that sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that curb cuts shall be restricted to two curb cuts each 30 feet in width to Baychester Avenue, where shown, and two curb cuts of similar width to East 222nd Street to be rearranged so as to provide that the two curb cuts shall be separated by a distance of approximately 40 feet; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs and advertising devices but permitting the erection of a post standard within the intersection for supporting a sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line of Baychester Avenue for a distance of not over four feet; that at such intersection there shall also be maintained a block of concrete not less than twelve inches in height and extending for a distance of five feet along either building line from the intersection; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i, for a similar term, there may be motor vehicle repairing with hand tools only for adjustments maintained solely within the accessory building; that under Section 7h, for a

MINUTES

similar term, there may be parking of cars awaiting service; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

296-58-BZ

APPLICANT—Paul Friedman, for Cord Meyer Development Co., owner.

SUBJECT—Application May 13, 1958—decision of the Borough Superintendent, under sections 7e, 7f, 7h and 7i of the Zoning Resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, car washing—non-automatic, auto repairs with hand tools only, office, sale and storage of auto accessories, parking of more than five (5) cars waiting to be serviced, with a ground sign in a retail use district, for a stated term of fifteen (15) years, this gas station to be used in conjunction with a retail shopping center.

PREMISES AFFECTED—23-50 Bell Boulevard, west side, 363.05 feet south of 23rd Avenue, Block 5900, Lot 100, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a retail use, F area, class ½ height district; Bell Boulevard and 26th Avenue are in retail and residence use, F area, class ½ height districts; 23rd Avenue and 210th Street are in a residence use, F area, class ½ height district; that as of July 25, 1916 the property was zoned as a business district and on December 19, 1938 it was placed in a residence district; that on March 1, 1954 the Cord Meyer Development Company, as owner of a large area in this section of Queens, requested the City Planning Commission to initiate a change of zoning to permit a 4,000 home development and a retail shopping center; that a copy of the above mentioned letter dated March 1, 1954 is filed herewith together with a site plan, which was filed therewith; that this plan shows the proposed shopping center, parking for upwards of 1,000 cars, a gasoline service station, an area reserved for future development and a recreation area; that on March 16, 1954 the City Planning Commission initiated an amendment of the use district maps; that on April 14, 1954, after public notice and hearing, the City Planning Commission adopted a report and resolution which was thereafter filed with the Board of Estimate; that a copy of the above mentioned report and resolution is filed herewith together with a diagram prepared by the City Planning Commission dated March 16, 1954 showing the proposed use district amendment; that on April 29, 1954 the zoning amendment became effective, by which the subject premises and certain adjoining property were placed in a retail use district; that as of July 25, 1916 the property was zoned as a one times height district and the present class ½ height designation became effective on October 29, 1954; that as of July 25, 1916 the property was zoned as a D area district and the present F area designation became effective on December 19, 1938; and

WHEREAS, the decision of the Borough Superintendent, dated September 11, 1958 acting on N.B. Applic. No. 576-58, reads:

"1. The erection of a gasoline service station in a retail use district with accessory lubritorium, car washing (non-automatic), auto repairs with hand tools only, office, sales and storage of auto accessories, parking of

more than five cars waiting to be serviced is contrary to Art. II Sec. 4A Zone Res.

2. The erection of a ground sign in a retail use district is contrary to Art. II Sec. 4A Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 135.45 feet and 189.66 feet frontage by 115 feet and 58.6 feet in depth, presently vacant; that it is proposed to erect and maintain for a stated term of fifteen years, a modern gasoline service station, with customary, incidental accessory uses, and with ground signs in a retail use district; and

WHEREAS, the applicant contends that the site of the proposed gasoline station facility is part of a twenty acre plot which was rezoned from residence to retail use on April 29, 1954 so as to permit the development of a modern retail shopping center; that the site plan of the proposed shopping center shows the proposed retail shopping center with accessory parking for upwards of 1,000 cars and with a proposed gasoline service station; that the shopping center and accessory parking are in juxtaposition with the proposed gas station; that plans for the non-conforming use of the gas station have been filed separately with the Department of Buildings in order to obtain the denial of the Borough Superintendent, which is prerequisite to consideration by the Board for a zoning variance; that the proposed gas station and accessory uses would be integrated with the proposed retail shopping center in design, in progress of construction and in operation; that the owner would be willing to consent to the imposition of a condition that the proposed gas station be built and maintained simultaneously with the proposed retail shopping center, that is, no shopping center, no gasoline service station, and that no Certificate of Occupancy shall be issued until the City acquires title to the portion of the premises required for the proposed widening of Bell Boulevard; and

WHEREAS, the applicant further contends that irrespective of the use of the subject premises, motor vehicle traffic on Bell Boulevard will be greatly increased because of the construction of the proposed Throggs Neck Bridge, the widening of Bell Boulevard, the large scale residential development of the vacant areas in this vicinity and the construction of the retail shopping center adjoining the subject premises to serve the large scale residential development; that in view of the foregoing, the proposed gas station would not create the automobile traffic—it would merely serve it; that the character of the area in the vicinity of the site will be partly residential and partly commercial; that the commercial impact on the nearby properties zoned for residence use will exist irrespective of the use of the subject premises; that the proposed gas station would be harmonious with the proposed retail shopping center in that it would provide retail automobile service facilities, such as lubrications, non-automatic auto wash and minor repairs with hands tools only, at a site uniquely located for the convenience of the patrons of the retail shopping center; that there is an economic demand for the proposed development of the subject premises as evidenced by the willingness of a major gasoline company to enter into a long term lease of the premises if it is developed substantially in accordance with the proposed plans; and

WHEREAS, the applicant states that the present owner has held title to the property since January 4, 1946; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e and f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7 e and f for a term of fifteen years to permit the use of the premises as proposed as a gasoline service station and lawful acces-

MINUTES

sory uses substantially as proposed and as indicated on plans filed with this application marked "Received May 13, 1958", 3 sheets, and "October 1, 1958", 2 sheets, *on condition* that all uses that may exist on the premises shall be removed and the premises shall be constructed simultaneously with the shopping centre as proposed, and maintained substantially as proposed; that the front line of the premises shall be the mapped line as proposed; that the accessory building shall be of the design and location as indicated, without cellar, and in all other respects shall comply with the requirements of the Building Code and shall be faced on all four sides with face brick; that planting areas shall be maintained where shown, with suitable planting material and properly protected with curbing not less than six inches in width and eight inches in depth; that retaining walls shall be constructed where required due to the grades and at the general grade line there shall be a woven wire fence of the chain link type not less than five feet six inches in height, including a masonry base which may be omitted where the retaining wall serves such purpose; that suitable terminating posts shall be erected and maintained at the lot lines; that pumps shall be a low approved type erected not nearer than fifteen feet to the street building line, where shown; that there shall be no canopy over pumps as shown; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that curb cuts shall be restricted to five to Bell Boulevard, where shown, each not over thirty feet in width and no curb cuts nearer than five feet to a side lot line as prolonged; that signs shall be restricted to permanent signs attached to the front facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs and advertising devices but permitting the erection at either end of the plot of a post standard for supporting a sign, which may be illuminated advertising only the brand of gasoline on sale and permitting such signs to extend beyond the building line for a distance of not more than four feet; that entrance to the adjoining property under the same ownership, to be occupied as a shopping center, may be permitted as shown with ramp as may be necessary to equalize the grades; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i, for a similar term, there may be minor repairing for adjustments with hand tools only maintained solely within the accessory building; that under Section 7h, for a similar term, there may be parking of cars awaiting to be serviced; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

564-58-A

APPLICANT—Paul Friedman, for Cord Meyer Development Co., owner.

SUBJECT—Application September 29, 1958—filed pursuant to section 35, of the General City Law re use of portion of premises in bed of a mapped Street—proposed widening of Bell Boulevard.

PREMISES AFFECTED—23-50 Bell Boulevard, west side, 363.05 feet south of 23rd Avenue, Block 5900, Lot 100, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: None.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper... 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated September 11, 1958, on N.B. Applic. 576/58, reads:

"3—Use of portion of premises in a bed of mapped street for egress and ingress is contrary to Sec. 35 General City Law."

and

WHEREAS, the applicant states that the premises consist of a lot 327.85 feet front by 84.87 feet and 137.79 feet irregular in depth, located in a retail use, F area, class 1½ height district, now vacant, proposed to be used and occupied as a gasoline service station, lubritorium, car washing, auto repairs with hand tools, office, sales, storage of auto accessories and parking of more than 5 motor vehicles waiting to be serviced and including the erection of a ground sign, as fully described in application filed for zoning variance under Calendar Number 296-58-BZ; and

WHEREAS, the applicant states that the final map of the Borough of Queens indicates that Bell Boulevard between 23rd and 26th Avenues at a width of 85 feet; that the City's title to the land exists only in the old road about 50 feet in width, which is dedicated to public use; that there are no condemnation proceedings pending for the acquisition to the portion required for the widening; that the Board of Estimate on January 14, 1954 under Calendar No. 117, adopted an agreement, dated December 10, 1953, between the Cord Meyer Development Company and the City of New York, in which the Cord Meyer Development Company agreed to cede to the City the portion of 26th Avenue and Bell Boulevard in front of the area in question as shown on Alt. Map #3613, when requested to do so by the President of the Borough of Queens, after the commencement of construction; and

WHEREAS, the applicant states that it is proposed to erect a gasoline service station with customary accessory uses and a ground sign in accordance with plans filed with this application; that the proposed accessory building and all fencing and landscaping will be confined to the portion of the premises which is not within the bed of the mapped street widening; that the portion of the premises within the mapped street widening will be unbuilt upon and will not be used except for the proposed curb cut and entrances to the proposed gasoline service station; and

WHEREAS, the applicant contends that in view of the nature of the proposed use the pending agreement between the Cord Meyer Development Company and the City to cede the portion of the premises within the bed of Bell Boulevard; that the granting of this application will not increase the cost of widening Bell Boulevard as shown on the City Map, nor will it tend to cause any change in the official map; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions; and

WHEREAS, the applicant states that such portion of his property as is within the bed of the mapped street will be ceded to the city.

Resolved, that the decision of the Borough Superintendent, acting on NB App. 576-58, Objection No. 3 be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit such portion of the premises as are in the bed of a mapped street to be used as an apron for access to the station during the term or until such time when such portion of the premises is acquired by the City of New York for street widening such portion of the apron and curbing shall be moved back so as to provide the required sidewalk and curbing and curb cuts as permitted in resolution adopted this day under Cal. No. 296-58-BZ *on condition* that the requirements thereof shall be complied with.

421-58-BZ

APPLICANT—Department of Public Works, Albert B. Bauer, for City of New York, owner.

SUBJECT—Application July 14, 1958—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in a Class 1½ height district, the erection of an eight (8) story building with less than the required setbacks on the upper floors, thereby exceeding the permitted height.

PREMISES AFFECTED—205-235 East 20th Street, north

MINUTES

side, 75 feet, east of 3rd Avenue, Block 901, Lots 6, 9, 14, 40, 41, 42, 43, 44, Borough of Manhattan.

APPEARANCES—

For Applicant: M. C. Kupfer for Department of Public Works and C. Ralph Fletcher.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper 4
Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 25, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, East 20th Street and East 21st Street are in local retail and retail use, B area, class 1½ height districts; Second Avenue and Third Avenue are in a local retail use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 19, 1958 acting on N.B. Applic. No. 53-58, reads:

"1. Bldg. exceeds height limits on 7th & 8th stories on E. 20 St.—Sec. 9c Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 334.98 feet frontage by 183.95 feet in depth; that it is proposed to construct a fireproof building, eight stories in height; and

WHEREAS, the applicant states that on the 20th Street front the building rises vertically to the height of the 8th floor without the setback required in a class 1½ height district; that the frontage allowable under the former ruling is 134 feet on a base line at elevation 85.96 feet with respect to first floor elevation 0.0 feet; that the frontage occupied without setback at the 7th floor to coping is 184.25 feet from elevation 85.96 feet to elevation 105.96 feet, producing an excess vertical area of 1005 square feet; that this excess vertical area is required to provide much needed space for the Medical Bureau on the 7th floor and the laboratories on the 8th floor; that the Board's attention is called to the frontage on East 20th Street where, for a distance of 151 feet 8 inches from the west property line and for the full depth to the rear yard line, the building rises only one story above the mean sidewalk elevation 0.96 to the Muster Deck Elevation 31.0; that this gratuitously provides a setback which affords air and light for the third, fourth, fifth, sixth, seventh and eighth floors of the proposed structure and the adjoining structures to the north and west of the property line as well as property on the south side of East 20th Street; and

WHEREAS, the applicant states that the present owner has held title to the property since May, 1928 and that the assessed valuation of land is \$108,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the dormer permission applied on the full width of the proposed 8 story building substantially permits the height as proposed; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to height on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the height district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 21, to permit a variance as to height as proposed and indicated on plans filed with this application marked, "Received July 14, 1958", one sheet, and "October 27, 1958", 4 sheets, on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

443-58-BZ

APPLICANT—Leonard F. Rothkrug, for Meadow Gold Products Corporation, owner.

SUBJECT—Application July 22, 1958—decision of the Borough Superintendent, under section 19A subsection j of the Zoning Resolution, to permit in an unrestricted use, A area district, a voluntary loading berth to be used in conjunction with the existing Ice Cream manufacturing plant, less than 25 feet from the intersection.

PREMISES AFFECTED—775-779 Kent Avenue, southeast corner of Little Nassau Street, Block 1884, Lot 18, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 25, 1958, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Little Nassau Street, Kent Avenue, Flushing Avenue and Park Avenue are in an unrestricted use; A area and class 1½ height district; that there is no pending petition at the City Planning Commission; and

WHEREAS, the decision of the Borough Superintendent, dated July 8, 1958, acting on B. N. Applic. 477-58, reads:

"1—Proposed voluntary off-street loading berth located within 25 feet of the intersection of Kent Ave. and Little Nassau St. is contrary to the Zoning Resolution Art IV, Sect. 19-A(i)".

and

WHEREAS, the applicant states that the premises consist of a plot 73 feet 6 inches frontage, by 125 feet in depth, irregular in area, on which is located a four story building with one and two story extensions, erected prior to 1906, the earliest record in the Department of Buildings being a 1906 alteration application, used and occupied by the owner in accordance with Certificate of Occupancy #69036 issued November 29, 1932 for ice-cream manufacturing, storage and packing; that it is proposed to locate a voluntary off-street loading berth on Little Nassau Street, 11 feet 5 inches west of its intersection with Kent Avenue; and

WHEREAS, the applicant contends that the proposed loading berth would be permitted if it was a required loading berth under the Zoning Resolution; that although the loading berth is not required by the Zoning Resolution it is required by the Department of Health under rules relating to treatment of milk products; that Little Nassau Street is one of the shortest streets in the City, intersecting only Kent Avenue and Taaffe Place; that the street is at a dead end within this tax block so that the location of the proposed off-street loading berth will not interfere with any through traffic; that the entire frontage along the south side of Little Nassau Street between its intersection with Kent Avenue and its termination is under the ownership of this same owner and the tax lots 57 and 59 at the termination of Little Nassau Street is likewise under the ownership of this same owner; that similarly, 75 feet on the north side of Little Nassau Street is owned by the owner herein; that there is no pedestrian traffic along Little Nassau Street except in conjunction with the subject business and the one other business building fronting on Little Nassau Street; that the location of the loading berth will not interfere with any ordinary pedestrian traffic; that the owner's engineer has studied the structure and there is no other possible location for the proposed loading berth which would not entail a complete alteration of existing equipment at an excessive cost; that the owner has been at these premises since 1932 and could have erected

MINUTES

the loading berth at any time prior to 1952 without a variance; and

WHEREAS, the applicant states that the present owner has held title to the property since November 5, 1931; that the assessed valuation of the land is \$29,000 and of the building \$286,000, making a total of \$315,000; that the building was erected prior to 1906; and

WHEREAS, the applicant states that proposed loading berth is not required but is being voluntarily installed; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 19A, Subdivision j, to permit the loading berth in the location as shown on plans filed with this application marked "Received July 22, 1958," 5 sheets, and to permit the dimensions of the loading berth, as proposed and shown, and that in all other respects the loading berth shall comply with all laws, rules and regulations applicable thereto; that the curb cut may be of the width proposed and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

458-58-BZ

APPLICANT—Jacob W. Sherman, for Leonard Schorr, owner, Jacob Barash, Lessee.

SUBJECT—Application July 28, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a local retail use district, the premises to be occupied for parking and storage of more than five (5) motor vehicles for a term of five (5) years.

PREMISES AFFECTED—850-860 Myrtle Avenue, south side, 247 feet, 9 inches east of Marcy Avenue, Block 1755, Lots 20-22-24, Borough of Brooklyn.

APPEARANCES—

For Applicant: Jacob W. Sherman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Myrtle Avenue, Marcy Avenue and Tompkins Avenue are in a local retail use, C area, class 1 height district; Vernon Avenue is in local retail and residence use, C area, class 1 height district; that prior to this time it was in a business use, C area, class 1 height district; that there are no actions pending for change in zoning; and

WHEREAS, the decision of the Borough Superintendent, dated July 23, 1958 acting on Alt. Applic. No. 2030-58, reads:

"1. Proposed parking and storage of more than 5 motor vehicles in a local retail use district is contrary to Art. II Sec. 4c of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 118.6 feet frontage by 100 feet in depth, and vacant; that it is proposed to remove accumulation of debris from the lot, which will be properly leveled, graded and paved with broken stone or cinders, finished with a suitable binder; that the lot will be enclosed with a woven wire fence, provided with suitable bumpers and two curb cuts, each 10 feet in length; that a frame structure not larger than 10 feet by 10 feet will be erected as an attendant's shelter; and

WHEREAS, the applicant states that the present condition of the street, with respect to the age and use of adjoining

buildings, together with the unsightly elevated structure above, make it unlikely that any retail stores will be erected herein in the near future; that the lot was formerly occupied by three old law tenements, two of which were demolished 21 years ago, and one, 9 years ago; that the vacant ground, used as a neighborhood dump for garbage and debris, is now a health and fire hazard; and

WHEREAS, the applicant contends that the area will not be adversely affected, but rather improved by the proposed use; that the creation of this parking space will remove many of the street-parked cars from this congested area and ease the flow of traffic; and

WHEREAS, the applicant states that the present owner has held title to the property since May 3, 1955 and that the assessed valuation of land is \$12,000; and

WHEREAS, this was laid over for inspection by a committee of the Board and the committee is familiar with the site and recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the premises to be occupied for parking and storage of motor vehicles as proposed and as indicated on plans filed with this application marked "Received July 28, 1958", 2 sheets, *on condition* that all buildings and uses now on the premise shall be removed and the plot shall be levelled substantially to the grade of Myrtle Avenue and shall be constructed and arranged as indicated on plans above cited; that on all lot lines there shall be a woven wire fence of the chain link type erected on a masonry base constructed and maintained except for two openings to Myrtle Avenue for entrance and exit not exceeding ten feet in width; that such openings shall be fitted with gates of similar construction as the fence and with curb cuts opposite not exceeding ten feet; that against such fence there shall be suitable bumpers maintained for protection thereto; that the balance of the plot shall be levelled substantially to the grade of Myrtle Avenue and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that during the term of this variance the premises shall be used for no other use and no building shall be erected thereon except one building not over one hundred square feet in area and one story in height, located near an entrance and to be used solely as an office and shelter for an attendant; that signs shall be restricted to a sign at the entrance advertising the parking and storage use and the rates and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed five square feet, shall not be illuminated and shall not extend beyond the building line; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 3:30 P.M.

JOSEPH J. DOYLE, Chief Clerk.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 408-49-SM

Subject: Amendment to resolution as to change of ownership.

World Steel Door submitted an affidavit dated August 9, 1957, which stated that all assets of the World Steel Door were purchased by the Firedoor Corporation of America and Spartan Steel Products and requested that the resolution adopted October 25, 1949, under Calendar Number 408-49-SM be reopened and amended so as to show the change of ownership. The application was reopened by a vote of the Board June 10, 1958.

Recommendation

The Committee on Test recommends that the resolution adopted October 25, 1949 under Calendar Number 408-49-SM be amended so as to show a change of ownership; the new owners being Firedoor Corporation of America and Spartan Steel Products Corp., on condition that the requirements of the resolution adopted October 25, 1949 under Calendar Number 408-49-SM be complied with.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 881-53-SA

Subject: Potter VSR Waterflow Detector, 2½ to 8 inch sizes inclusive.

Acme Fire Alarm Co., Inc., for Potter Electric Signal & Mfg. Co., St. Louis, Mo., filed December 10, 1953 an application with the Board of Standards and Appeals for approval of the Potter VSR Waterflow Detector 2½ to 8 inch sizes inclusive under the provisions, Section C26-1366.0 Administrative Code.

Purpose

A waterflow detector for sprinkler systems.

Description

This device is a waterflow indicator of the paddle type made in 2½, 3, 3½, 4, 5, 6, and 8 inch sizes. It consists of a stainless steel disc or paddle, an extension rod with flexible sleeve and hinging arrangement, a bronze pipe saddle with U bolt, three electrical switches mounted in an enclosure attached to the pipe saddle, the necessary wiring and adjustment screw. It is also equipped with a pneumatic retarding feature arranged to retard the alarm circuit so as not to respond to water surges.

The Waterflow Detector is installed in sprinkler pipe line by inserting the flexible paddle through a 2 inch diameter opening which has been cut in the pipe by means of a hole saw. The assembled device is clamped to the piping by means of a U bolt which enters the bolt holes in the saddle. A rubber gasket is used for a tight joint.

In the event a flow of water from the sprinklers this device when properly connected will actuate an electric alarm.

It is rated at 50 watts, 6 to 120 volts, AC or DC.

Inspection and Test

A Waterflow Detector was inspected at the premises of the Acme Fire Alarm Co. by Ass't. Engr. G. F. Sklenarik, Committee on Test and Supervising Electrical Inspector R. C. Lent of the Fire Department.

The Potter VSR Waterflow Detector was tested and approved by Factory Mutual Laboratories and the Underwriters. The tests are on file and are part of the record.

Recommendation

On the basis of the inspection and the data submitted by the applicant, The Committee on Test recommends the approval of the Potter VSR Waterflow Detector 2½ to 8 inch sizes when installed in accordance with this report and Section C26-1366 of the Administrative Code and the Sprinkler Rules of the Board and when connected to approved closed circuit sprinkler alarm control boards provided that the flow detector shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 881-53-SA."

(Sgd.) SAMUEL L. BECKER,

Director,

JOHN A. DARTS,

APPLICANT—Bernard J. Sheftman for Tryst Holding Corporation, owner.

SUBJECT—Application reopened June 10, 1958 as Vol. II—Appeal from a decision of the Borough Superintendent re: change of exits.

PREMISES AFFECTED—434-442 East 166th Street, south side, 196-23 feet west of Washington Avenue, Block 2387, Lot 27, Borough of The Bronx.

APPEARANCES—

For Applicant: Bernard J. Sheftman.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated May 5, 1958 on B.N. Applic. 782/57 reads:

“1—The change in exits is contrary to B&A Resolution #47-33-S.”

and

WHEREAS, the applicant states that the building is 3 stories, 38 feet in height, 111 feet front by 59 feet in depth, class 3 construction, erected 1924, located in an unrestricted use, B area, class 1½ height district, and used and occupied since 1933: 1st floor—manufacturing quilting, 8 persons; 2nd floor—manufacturing woodwork, 8 persons; 3rd floor—manufacturing woodwork, 8 persons; that no change in use or occupancy is now proposed; that the building is equipped with an approved standpipe system, one-source sprinkler system throughout, with central office connection; that there are two interior fireproof enclosed stairways, equipped with metal clad doors, one of which leads to roof bulkhead; and

WHEREAS, the Board on November 21, 1933, under Calendar Number 47-33-S, modified Objection 1, issued by the Borough Superintendent, January 19, 1933 on N.B. Applic. 1966/24 as to compliance with the Labor Law for exits, on condition that the 3 story building be separated from the 4 story building on all floors with brick wall, equipped with underwriter's automatic fire doors at all openings; that the building be equipped with an approved one-source sprinkler system; that the court area between 3 story building and the 4 story building including the yard at the south east corner of the property remain open, unobstructed at all times; that there be provided a gate in a fence on the southerly lot line, leading to the passageway in the property of 437 East 165th Street, which passageway shall be opened and unobstructed, available for exit at all times; that consent from the owner of this property 437 East 165th Street be obtained and filed with the Board and with the Commissioner of Buildings; that all stairways shall be carried to the roof and completely enclosed with fire retarded material; that all doors therein be fireproof self-closing and opened in the direction of exits; that all requirements of the Labor Law be complied with in all respects other than as herein modified; and

WHEREAS, the applicant states that it is now proposed to substitute a new easement and fireproof exit passageway for the previous easement accepted by the Board, December 12, 1933, under Calendar Number 47-33-S, Volume I; and

WHEREAS, the applicant states that the building through which the passageway is to be enclosed, is a sprinklered building equipped with central station alarm; that the passage wall will be constructed of 2 by 4 wood studs, 16 inches on center, covered on both sides with ⅝ inch Fire Code #60, with joints pointed and taped; that the ceiling of the passageway has sprinklers and the outside wall is a 12 inch brick wall; and

WHEREAS, the applicant contends that the passageway as proposed will create adequate exit; that it is left to the Board for its discretion as to whether it prefers the passageway proposed or the new easement through premises 1071 Washington Avenue; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on December 12, 1933, under Volume I, by adding thereto:

“that a second means of exit may be by means of the fireproof passage through the adjoining building at 1071 Washington Avenue as proposed and indicated on plans filed with this appeal marked, ‘Received May 26, 1958,’

MINUTES

1 sheet, that the primary means of exit shall be maintained as proposed and shown; that in all other respects the building and occupancy shall comply with the requirements of the resolution above cited; that the standpipe and sprinkler systems and water flow alarm system with connection to an approved central station shall be maintained; that the building shall not be increased in height or area; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto."

APPLICANT—Wechsler and Schimenti, for Russell B. Booth, owner.

SUBJECT—Application reopened May 28, 1957 as Vol. IV—Appeal from a decision of the Borough Superintendent—re construction.

PREMISES AFFECTED—187-12 Linden Boulevard, south side, 115.94 feet east of Montauk Street, Block 12439, Lot 15, St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: Peter F. Licari and Edna M. Booth.

For Administration: Thomas J. Conboy, Sr. Institutional Inspector.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated April 23, 1957, on Alt. Applic. 363-57, reads:

"1—The proposed rearrangement of partitions and increase in number of occupants on 2nd floor, differs from the plans as approved by the Board on 6/15/51 Re: Cal. 552/37 A. This application should be submitted to the Board for its consideration."

and

WHEREAS, the applicant states that the building is 2 stories, 23 feet in height, 36 feet front by 84.21 feet in depth at 1st floor, 36 feet front by 49 feet in depth at 2nd floor, of class 3 construction, erected 1931, located in a retail use, D area, class 1 height district, and used and occupied as follows: Cellar—storage and boiler room; 1st floor—nursing home, 18 persons; 2nd floor—nursing home, 12 persons pursuant to Certificate of Occupancy No. Q74410 issued July 16, 1951 against Alt. Applic. 731-51; and

WHEREAS, the applicant states that it is now proposed to decrease the number of occupants on the 1st floor to 16 persons and increase the 2nd floor to 15 persons, making a total of 31 beds and to have 7 employees on the premises; that the building will be equipped with an approved interior fire alarm system; that there is one 3 foot wide interior wood stairs enclosed in partitions of studs, lath and plaster, equipped with one hour fireproof self-closing doors and provided with a ladder and scuttle to roof and one fire escape on the rear, extending to roof by stair with egress to street through court; and

WHEREAS, the applicant states that the present legal use to the premises was established pursuant to variance granted by the Board, March 28, 1939, as amended June 5, 1951; and

WHEREAS, the applicant states that the purpose of this application is to comply to the new Code of the Department of Hospitals; that it is proposed to retain the existing use in the brick building and the extension as follows: Cellar—storage and boiler room; 1st floor—nursing home, 16 beds; 2nd floor—nursing home, 15 beds, for a total of 31 beds and 7 employees; that a new sprinkler system will be installed in the existing stairs and corridors; and

WHEREAS, the applicant contends that amended plans will comply with the requirements of the Department of Hospitals, it is therefore, requested that this appeal be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and whereas the following letter was received from the Department of Hospitals, dated November 25, 1958, by the Chief of the Division of Institutional Inspection and reads:

"Reference is made to your letter, dated November 7, 1958, in which you state that applicant has asked for permission to rearrange partitions and increase the number of occupants in this Home.

"The Home was licensed on December 24, 1957 for 25 beds, at which time it was in full compliance with the Hospital Code and Regulations.

"Plans submitted for proposed changes are satisfactory to this Department."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 28, 1958, under Volume I as thereafter *amended* by resolution dated June 5, 1951, under Volume II, by adding thereto:

"that the proposed arrangement of partitions and increase in number of occupants in the second floor as now proposed may be permitted as shown on plans filed with this appeal marked, 'Received October 1, 1958,' 8 sheets; that in all other respects the resolution above cited shall be complied with where not inconsistent with this amendment; that the approved interior fire alarm system shall be maintained; and that a sprinkler system, as permitted by the Multiple Dwelling Law, shall be installed and maintained within the stairhall and corridors throughout the height of the building."

THE RESOLUTION—

WHEREAS, this application was granted by the Board on February 21, 1939, on certain conditions; and

WHEREAS, the resolution was amended on November 7, 1945; and

WHEREAS, the term of variance was extended on February 8, 1949; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 21, 1939, as thereafter *amended* by resolutions adopted through February 8, 1949, only so far as it refers to the term of variance, so that as *amended* this portion of the resolution shall read:

"... granted under Section 7, Subdivision for a term of 10 years from the date of this amended resolution to permit; that other than as herein amended

MINUTES

the resolution above cited shall be complied with in all respects; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within six months from the date of this *amended* resolution." (Alt. 1680/45)

79-58-A

APPLICANT—Samuel Rosenblum, for Jules Greene, owner.

SUBJECT—Application February 14, 1958—Appeal from a decision of the Borough Superintendent, re Class 3 Construction, exits, interior stairs, etc.

PREMISES AFFECTED—18 Greene Street, east side, 197 feet north of Canal Street, Block 230, Lot 16, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and Jules Geene.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated February 5, 1958, on Alt. Applic. 143/57, reads:

"1. In cellar provide at least an engineer's ladder to street.

2. On the 1st floor provide a 2nd means of egress remote from the other.

3. The interior stair must be enclosed in one hour fire retarding partitions and all openings protected by one hour F.P.S.C. doors that swing in the direction of egress.

4. Stair must extend to roof through a bulk head at roof level."

and

WHEREAS, the applicant states that the premises consist of a lot 25 feet by 100 feet, located in unrestricted use, B area, class 2 height district, upon which there exists a 6 stories, 78 feet high, class 3 constructed building, 25 feet by 95 feet on the 1st floor and 25 feet by 90 feet on all upper floors, erected 1882, used and occupied without a certificate of occupancy; cellar—storage, no occupants, 1st floor—cutting metal sheets, 1 person; 2nd floor—office and storage of wood letters, 1 person; 3rd floor—manufacturing of wax ornaments, 8 persons; 4th floor—manufacturing of wax ornamental fruits, 2 persons; 5th and 6th floors now vacant; that the use and occupancy for cellar, 1st, 2nd, 3rd and 4th floors will not change; that the 5th and 6th floors will not be occupied; and

WHEREAS, the Board accepted present exits under Calendar Number 427-26-S on condition that a horizontal exit with 16 Greene Street will be provided on all floors; that said horizontal exit no longer exists; that all tenants now occupy 18 Greene Street only; and

WHEREAS, the applicant states that the exits consist of one interior wood stair and a front Labor Law type fire escape; that the stair enclosure is a wood stud partitions covered on the stair side with T. & G. boards; that the opposite side with ½ inch plaster boards and 26 gauge metal; that there is also a 45° fire escape on the front of the building with 2 feet by 6 feet fireproof self-closing doors and fireproof openings; that this fire escape and the counterbalanced stair to street complies with Section 274 of the Labor Law; and

WHEREAS, the applicant contends that the cellar is not used as a factory, but for storage; that the occupancy of other floors are very limited and therefore requests that the board grant this appeal; and

WHEREAS, the premises was inspected by a committee of the Board; and the proposal of the applicant has been modified and now requests that the application be granted under certain conditions affecting only the first 4-floors.

Resolved, that the decision of the Borough Superintendent, dated February 5, 1958, acting on Alt. Applic. 143/57, Objection No. 1 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a ladder to the cellar through a new trap door shall be provided as indicated on revised plans marked, "Received November 20, 1958," 2 sheets; as to Objection Nos. 2 and 3, that the interior stairs shall be enclosed in one-hour fire retarded partition up through and including the fourth floor; self-closing doors swinging in the direction of exit at all openings; that as to Objection No. 4, the stairs shall remain for access to the fifth and sixth stories and to the roof; that the occupancy of the building shall be as proposed, namely, limited to storage of idle machinery in the cellar and first floor and cutting of steel as proposed and the use of the second and third floors by the owner of the building for office purposes and minor storage; that the 45 degree fire escape on the front of the building shall be maintained with counterbalanced stair to street; that the doors connecting this building to the next building east shall be discontinued on the several floors and blocked up with approved masonry; that the building shall not be increased in height or area; and that in all other respects shall comply with all laws, rules and regulations applicable thereto.

ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 23, 1958, on Alt. Applic. 1312/57, reads:

"A-4 show yard as per sec. 172 M.D.L."

and

WHEREAS, the applicant states that the building is 5 stories, 49 feet height, 27 feet front by 81 feet irregular in depth at 1st floor, 27 feet front by 62 feet 6 inches irregular in depth at typical floor, of class 3 construction, erected prior to 1902, located on a lot 27 feet front by 81 feet irregular in depth, located in a retail use, C area, class 1¼ height district, and used and occupied since prior to 1940: Cellar—ordinary storage; 1st floor—store, 3 persons; 2nd floor—office, 10 persons; 3rd floor—5 persons; 4th floor—1 family; 5th floor—1 family; that it is now proposed to be used and occupied; cellar—ordinary storage; 1st floor—store, 3 persons; 2nd floor—office, 10 persons; 3rd floor—dwelling, 1 family; 4th floor—dwelling, 1 family; 5th floor—dwelling, 1 family; that no certificate of occupancy has been issued for the existing use or occupancy; that the building is provided with one 2 foot 6 inch wide interior wood stairs enclosed in fire retarded partitions, equipped with fireproof self-closing door leading to 3rd floor; that a bulkhead to roof is provided; that there is one fire escape on the front, extending to street by ladder; and

MINUTES

WHEREAS, the applicant states that it is proposed to convert the 3rd story from office to 1 family dwelling, thus converting the building to a Multiple Dwelling classification; that the building will be altered to conform with all the requirements of the Multiple Dwelling Law, except as to the requirement for rear yard; that the interior stairway will be continued to a new bulkhead; that there is a 2 story extension at the rear extending to the rear lot line; that this extension will be provided with a 3 foot 6 inch high parapet rail; that the 3rd story has no extension so that there is a rear yard at the 3rd story level; and

WHEREAS, the applicant contends that in view of the fact that all 3 upper stories have a rear yard 18 feet 6 inches in depth and conforms to the Multiple Dwelling Laws; that Section 172 provides that the bottom of a yard may be as high but not above the 2nd tier of beams; that the Department of Buildings has interpreted this section to permit conversion of this building if the owner fills in and eliminates the cellar; that if the cellar is eliminated then the 2nd tier of beams is at the level of the 3rd floor and the rear yard requirements are satisfied; that it would be a unnecessary hardship to require the owner to fill in the cellar without any benefit to the occupants of the building as to light, air or ventilation; that Section 27 Paragraph 2 of the Multiple Dwelling Law provides for newly erected Multiple Dwelling, so that every yard may begin at the level of the floor of the lowest story on which there is any living room opening provided it never begins more than 23 feet above the curb; that the existing rear yard is only 22 feet 6 inches in height; that therefore if the existing building was entirely demolished it could be rebuilt exactly as proposed herein and there would be no rear yard objection; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 1312/57, Objection No. A-4, be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted on condition* that there shall be no livingroom below the rear extension of the building; that the living rooms on the third, fourth and fifth floors shall be as shown, without any further subdivision; that the building shall not be increased in height or area and in all other respects shall comply with the requirements of the Multiple Dwelling Law and all other laws, rules and regulations applicable thereto.

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. IV on July 17, 1956, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on September 10, 1957; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 26, 1948, as thereafter *amended* by resolutions adopted through July 17, 1956, only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

“that in view of the statement by the applicant that plans have been approved by the Department of Buildings and work is about to start, that all permits required, including a certificate of occupancy, shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution.”

(Alt. App. 972/ 54 and Alt. App. 898/55)

*Correction—In the last line of the resolution “and Alt. App. 898/55” added, as indicated in italics.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, 80 Lafayette Street, 9th Floor, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

RULES

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority

Chapter 508 of 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved, and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

RULE

RULE TO SUPPLEMENT SECTION 19-A OF THE ZONING RESOLUTION OF THE CITY OF NEW YORK AS ADOPTED BY THE BOARD, JULY 11, 1958, EFFECTIVE AUGUST 11, 1958

(385-58-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subsection 2, of the New York City Charter and of Section 21 of the Zoning Resolution.

Purpose:

The purpose of this rule is to supplement the words in the above section which read as follows: "... aggregate gross floor area so used," as a basis for determining the number of off-street loading berths required under this section.

Rule 1.

"19-A. REQUIRED OFF-STREET LOADING BERTHS FOR NEW CONSTRUCTION, ENLARGEMENTS AND CONVERSIONS. Every building or part thereof hereafter constructed which is used, or arranged, intended or designed to be used, for any of the uses specified in the schedule below, and in which the aggregate gross floor area so used, arranged, intended or designed is greater than the minimum number of square feet of gross floor area specified for those uses in said schedule shall be provided with off-street loading berths in accordance with said schedule, under rules and regulations promulgated by the Commissioner of Housing and Buildings. For the purpose of this section, a group of buildings hereafter constructed under common ownership and located within a single block shall be considered a single building."

The words "aggregate gross floor area so used" contained in the first paragraph of this section shall be interpreted to mean the area of a building computed by measuring from the inside surface of the outer building walls. Building stairs, fire towers, elevator shafts, elevators and other public corridors, flue vents, stacks, pipe shafts, vertical ducts, toilets, air conditioning rooms, fan rooms, air ducts, janitors' closets, slop sinks, electrical closets, telephone closets with their enclosing walls shall be excluded. In computing such area or areas for the purpose of determining the number of off-street loading berths required under this section, walls, partitions, areas devoted to mechanical equipment, exits and similar areas, the use of which does not contribute to the regular shipments to or from the building, shall not be included.

PETITION AND ORDER OF CERTIORARI SERVED ON THE BOARD OF STANDARDS AND APPEALS

On November 28, 1958, Copy of Petition and Order of Certiorari was served on the Board by Finch & Schaeffer, attorneys for William A. Garrigues, Jr., realtor, seeking a review of the Board's determination on October 21, 1958, granting a variance under Section 7e, for a term of twenty years, to permit in a residence use district a proposed change in use from a one family dwelling and doctor's office to a building to be used and occupied in part, by an eleemosynary and charitable foundation and in part by doctors' offices for the practice of medicine as a group, including the owner, with connection to the foundation; Cal. No. 418-58-BZ; Premises 35 East 69th Street, north side, 125 feet west of Park Avenue, Block 1384, Lot 31, Borough of Manhattan. This was granted by the Board on certain conditions and in the Board's Resolution that they did not grant on the basis of being eleemosynary use.

COURT DECISIONS

Matter of Philip Kohnberg, et al vs. Harris H. Murdock, et al:—On September 10, 1956, Copy of Petition and Motion, applying for an Order under Section 78 of the Civil Practice Act, was served on the Board by Robert S. Dillworth, attorney for petitioners, objecting property owners, seeking a review of the Board's determination on July 24, 1956, granting a variance under Section 7e of the Zoning Resolution, for a term of 15 years, to permit in a local retail use district, the erection and maintenance of a gasoline service station, lubricatorium, non-automatic auto laundry, minor auto repair shop, with hand tools only, and parking of motor vehicles awaiting service; Cal. No. 327-55-BZ Premises 202-06 Hillside Avenue; southeast corner of 202nd Street, Hollis, Borough of Queens.

Inasmuch as the filing under Section 78 of the Civil Practice Act was incorrect, attorney was so advised and a corrected Order of Certiorari was sought and granted on September 17, 1956, by the Court.

In Supreme Court, Queens County, Mr. Justice Kusnetz granted motion to dismiss petition and vacated certiorari, inasmuch as proceedings had not been instituted within thirty days from date of publication of decision in the Board's Bulletin, in the following decision:

"This is an application by respondents to vacate an order of certiorari and to dismiss the petition. On July 24, 1956, the Board of Standards and Appeals made a decision and determination by which the intervening respondents were granted a variance for a term of fifteen years, permitting the erection and use of premises as a gasoline service station. The decision of the Board of Standards and Appeals was published in its official bulletin on July 31, 1956, and became available to the public on August 13, 1956. The order of certiorari, which is herein sought to be vacated, was granted on September 17, 1956, the day on which it was presented to this court. Section 668-e of the Administrative Code of the City of New York provides that an order of certiorari in a proceeding such as this 'must be presented to a justice of the supreme court or at a special term of the supreme court within thirty days after the filing of the decision in the

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. V on September 13, 1955 subject to regular procedure, to consider alterations; and

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, to wait the decision of the court as to violations and for further inspection; hearing closed; then to December 11, 1956, pending court decision on violations; then to January 8, 1957, to await the decision of the court on violations; then to January 29, 1957, pending court decision on violations and decision; then to March 26, 1957, for report on court decisions as to violations; then to May 7, 1957, for consideration pending report as to decisions of the Court as to violations; then to June 4, 1957, pending court decision as to violations; then to June 18, 1957 for consideration and decision; after review of the decision of the Appellate Term of Special Sessions; then to July 2, 1957 awaiting decision of Court of Appeals on violations; then to July 23, 1957, at the request of the applicant; then to September 10, 1957, at the request of the applicant and the Park Department for decision; then laid over, date to be set after decision by the Court of Appeals and for decision by the Board; now set for November 5, 1958, then November 25, 1958, for inspection and decision; also for statement from the Park Department; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Ocean Parkway are in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated January 3, 1956 acting on Alt. Applic. 3112-51, reads:

"7. Proposed change of use of cellar area and 2nd floor area violates Art. II Sec. 3 of the zoning resolution. Note: Premises have been subject to a Board variance Cal. No. 344-33, BZ, Vol. IV.

9. Proposed removal of limitation as to size of orchestra, contrary to original resolution of the Board of S. & A."

and

WHEREAS, the applicant states that the premises consist of a plot, 221 feet 3 $\frac{3}{8}$ inches frontage by 250 feet in depth, irregular, presently developed with a building 2 $\frac{1}{2}$ stories in height, of class 1 construction, having a frontage of 84 feet and a depth of 154 feet and a 10 foot by 10 foot, one story frame office; that the open area is being used for parking of patrons' cars; and

WHEREAS, the applicant states that the main building was erected under permit No. 5431-1934 and under Cal. No. 344-33-BZ for use as a recreation building; that it was altered several times through the years 1934 to 1951; that in 1951 under Alt. No. 3112-1951 and under Cal. No. 344-33-BZ, Vol. IV, the building was altered and new uses approved as follows: cellar—catering, banquet hall, lounge and powder room; 1st floor—kitchen, lobby, porch, grille room, dining room, and dance floor, band stand, lounge and powder room; 2nd floor—ping pong room and card room; attic—vacant; open lot—parking of patrons' cars; that temporary Certificate of Occupancy No. 146577 was issued for the 1st floor and open lot; that the premises are presently being used as follows: cellar—pastry baking, dishwashing, boiler room, storage of tables and chairs, employee locker and dressing rooms, maintenance room, oven and refrigerators; 1st floor—dining room and dance floor, band stand, kitchen, dressing rooms and lounge, bar and grille room; 2nd floor—banquet hall, kitchen and office; attic—vacant; that the open area of the lot is being used for parking of patrons' cars; that it is proposed under this application to secure a variance of the building zone resolution to maintain the present uses as shown above; and

WHEREAS, the applicant contends that it is apparent that no new uses are being introduced on the 1st or 2nd floor, the only change being the banquet hall and kitchen heretofore approved by the Board in the cellar, which will now be located on the 2nd floor, and it is further proposed to use the cellar for pastry baking, dishwashing, boiler room, storage of tables and chairs, employees' locker room and dressing room, maintenance room, oven and refrigerators; that the building is of class 1 construction and now has a legal non-conforming use and the rearrangement of the uses within the confines of the building cannot affect the adjoining properties; and

WHEREAS, the applicant further contends that the music to be furnished as heretofore approved by the Board does not meet with the present day need of a restaurant of this type and size and it is therefore proposed that the limitation as to the type and number of instruments be increased to an eight piece band, including a piano; that this is necessary so that the owner may continue to serve the public with the type of music that will help him to maintain premises and receive an equitable return on his investment; and

WHEREAS, the applicant states that the present owner has held title to the property since June 30, 1944; that the assessed valuation of land is \$50,000 and of the building \$75,000 making a total of \$125,000; that the building was erected in 1934; and

WHEREAS, the hearing on this application was held on October 30, 1956 and laid over from time to time and decision deferred pending the decision of the Court as to violations; the decision of the Court of Appeals was received and is a part of this record; and

WHEREAS, in the matter of People v. Scandore as to violations in the premises, the decision of the Court of Appeals, as handed down on February 27, 1958, reads as follows:

"1. Defendants' conviction of violations of section 532-11.0 of the Administrative Code of the City of New York and section 60 of the Rules and Regulations of the New York City Department of Parks was improperly reversed on the ground that the record did not establish that the violations were committed on the precise date alleged in the pleadings. The record showed that these continuing violations existed before and after the date alleged.

2. It was also improperly reversed on the ground that there was not sufficient proof that defendant was the owner of the property on that date. Ownership was established by evidence of a deed of these premises to defendant, which was dated and recorded several years before the violations. That proof was sufficient under the presumption of continuance of ownership. Defendant did not suggest that proof of ownership was not sufficient or that he was contesting the issue of ownership until the appeal.

3. The judgments of conviction are reinstated."

WHEREAS, the premises have been inspected from time to time and recently inspected with Calendar Number 100-56-A.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions adopted by the Board on February 20, 1934, October 15, 1935, April 20, 1937, January 7, 1947 and December 20, 1949 by adding thereto:

"that in the event the owner desires to change the use of the cellar area and second floor area as now proposed and as shown on plans filed with this application marked, 'Received October 10, 1958,' thirteen (13) sheets, showing existing and proposed conditions, such changes as thereon shown may be permitted, including the enclosure of exits as shown, except as required by resolution adopted this day under Calendar Number 100-56-A and the relocation of band stand and dance floor on condition that the orchestral equipment shall not exceed one piano and six string or reed instruments, excluding all brass instruments; that the signs on the building shall be completely removed and not restored; that the roofed front

MINUTES

porch being within the 30 feet front set-back required by State Law may be continued, provided the sash be made removable and all partitions and passageways in such one-story porch located within the 30 feet front yard of the premises shall be removed so that the porch shall be entirely free of any uses or partitions and left free for exit through the existing doorways; that, at the front of same, porch steps thereto may remain; that between such porch and the building line of Ocean Parkway the area now paved with tile and with the low stone wall on the building line may be continued; that the parking area may be continued with no use within the 30 foot set-back area except two curb cuts each not more than 15 feet in width, and driveways as formerly permitted by the Commissioner of Parks; that there shall be no signs in connection with the parking and no fees shall be charged for the parking; that in all other respects the building and occupancy shall comply with all the terms of the several resolutions above cited where not inconsistent therewith; that the building and occupancy shall comply in all other respects with all laws, rules and regulations applicable thereto other than as *amended* this day under Calendar No. 100-56-A; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

100-56-A

APPLICANT—Lama, Proskauer and Prober, for Nicholas Scandore, owner.

SUBJECT—Appeal February 1, 1956—Appeal from a decision of the Borough Superintendent re exits.

PREMISES AFFECTED—1048-1072 Ocean Parkway, west side, 380 feet south of Avenue J and 1151-1167 East 5th Street, Block 5495, Lot 870, Borough of Brooklyn.

APPEARANCES—

For Applicant: James Vassalotti.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated January 3, 1956, on Alt. App. 3112/51 reads:

"10. Exits from second floor is without a fireproof passageway as per Section 6.4.1.11-K2 of A.C.

"11. The cellar exits do not comply with the Administrative Code in that the rear stair is 3'-0 wide and therefore contrary to Sec. 6.4.1.1. The front stair does not lead directly to the street and is therefore contrary to Sec. 6.4.1.11."

and

WHEREAS, the applicant states the building is 2 stories and attic, 34 feet average in height, 84 feet front by 154 feet irregular in depth, at street level, 66 feet 9 inch front by 30 feet in depth irregular at 2nd floor; of fireproof construction, erected in 1934 on a lot 221 feet 35/8 inch front by 250 feet irregular in depth, in a residence use, C area, Class 1 height district; used and occupied since 1951: Cellar—pastry baking, dishwashing, boilerroom, storage of chairs and tables, employees' lockers and dressing, maintenance, oven and refrigeration, 12 persons; 1st floor—dining and dance room, kitchen, dressing room and lounge, 480 persons; bar and grille; 2nd floor—banquet hall, kitchen and office, 90 persons; attic—vacant; the unoccupied portion of plot is used for parking patrons' cars; no change in use or occupancy is now proposed; the building is provided with one 4 foot wide fireproof stairs, fireproof enclosed, leading directly to street but not to roof bulkhead; and

WHEREAS, the applicant states the premises are developed with the 2½ story building in question of fireproof construction, 84 foot front by 154 feet in depth and a 10 foot by

10 foot one-story frame office and open area used for parking of patrons' cars; and

WHEREAS, the applicant states the records of the Department of Buildings show that the main building was erected under Permit #5431/34 under a conditional variance granted by the Board under Cal. 344-33-BZ, Vol. I for use as a recreation building and altered several times through the years 1934 to 1951; that under Alt. 3112/51 and variance granted by the Board under Cal. 344-33-BZ, Vol. IV for use as follows: cellar—catering, banquet hall, lounge and powder room; 1st floor—kitchen, lobby, porch, grille room, dining room and dance floor, band stand, lounge and powder room; 2nd floor—ping pong and card room; attic—vacant and temporary Certificate of Occupancy 146577 was issued for use of the first floor and the open lot for parking of patrons' cars; that the premises are now used as follows: cellar—pastry baking, dishwashing, boilerroom, storage of tables and chairs, employees' locker and dressing rooms, maintenance room, oven and refrigerators: 1st floor—dining room and dance floor, band stand, kitchen, dressing rooms and lounge, bar and grille; 2nd floor—banquet hall, kitchen and office; attic—vacant; the open area of lot is used for parking patrons' cars; it is now proposed to maintain the existing uses and to erect a new 4 foot wide stair from 2nd floor and a new 3 foot wide stair and ramp from the cellar; and

WHEREAS, the applicant contends as to Objection 10, that the 2nd floor is now provided with a 4 foot wide steel stair fireproof enclosed, equipped with fireproof, self-closing doors, leading direct to the street; that it is proposed to provide a new 4 foot wide steel stair completely enclosed in fireproof material with fireproof self-closing door, leading directly to the street and to provide a 3 foot by 7 foot door leading to the adjoining flat roof, which has an area of 3872 square feet and is fireproofed; that inasmuch as the 2nd floor will be provided with two legal exits, the omission of the connecting hall between the two stairs will not affect the exiting from the 2nd floor; and

WHEREAS, the applicant contends as to Objection 11, that the cellar is now provided with one 4 foot wide steel stair, proposed to be enclosed at cellar level with fireproof material and equipped with a fireproof self-closing door; that this stair leads from the cellar to the 1st floor with egress through a fireproof lobby and thence to the street; that as a second means of egress the cellar is provided with a 3 foot wide open wood stair leading directly to the street; that as a third means of egress, it is proposed to provide a new 3 foot wide concrete stair enclosed in fireproof material leading from cellar to side yard with egress through a 3 foot 6 inch open passage to street; that as a fourth means of egress it is proposed to provide a 3 foot wide concrete ramp enclosed in fireproof material leading from cellar to yard and thence to street; that as the building is of Class I construction and there are only twelve employees in the cellar and four possible means of egress, that the egress as proposed is more than adequate; and

WHEREAS, the premises was inspected by a committee of the Board in connection with companion application 344-33-BZ, Vol. V.

Resolved, that the decision of the Borough Superintendent, dated January 3, 1956, acting on Alt. Appl. 3112/51 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that all means of exit shall comply with the requirements of the Building Code except that the stairway enclosure shown within the porch to the second floor on plans filed with Calendar No. 344-33-BZ, Vol. V, shall be omitted and in its place there shall be means of exit provided to the south from the banquet room on the second floor by means of the adjoining roof to the south through a door thereto and with a steel stairway to the adjacent yard at grade; that any existing wood stairs shall be replaced with steel stairs complying with the code and enclosed.

THE RESOLUTION—

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation on June 11, 1955; and

WHEREAS, this application was reopened on November 12, 1958 and set for hearing on December 2, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on December 2, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated October 21, 1958 acting on amendment to Alt. Applic. No. 3932-54, reads:

"1. As the time for completion of work has expired in accordance with the Bd. of Standards and Appeals variance, proposed extension of time is referred to the Bd. of Standards and Appeals for consideration;"

and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 9, 1945, and as thereafter amended by resolutions adopted through January 11, 1955, only so far as it has reference to obtaining permits and completion of the work so that as amended this portion of the resolution shall read:

"that all permits shall be obtained and all work completed and a new Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution."

817-48-BZ—Vol. III

APPLICANT—Ralph E. Leff for Aujo Realty Corporation, owner, Rogers Pontiac Company, Inc., lessee.

SUBJECT—Application reopened July 22, 1958 as Vol. III—decision of the Borough Superintendent under section 7c of the Zoning Resolution to permit in a business and unrestricted use district, the change in use of the second and third floors of an existing building from the preparation, service and repairs of new cars and storage of more than five (5) motor vehicles in connection with the present auto sales agency to the manufacture and storage of paper boxes.

PREMISES AFFECTED—6002-24 Fort Hamilton Parkway, west side, 952-976 60th Street and 959 61st Street, Block 5715, Lot 27, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ralph E. Leff.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on July 22, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 12, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 9th Avenue, 60th Street and 61st Street are in business and unrestricted use, C area, class 1 height districts; Fort Hamilton Parkway is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 26, 1958 acting on Alt. Applic. No. 2034-58, reads:

"1. The proposed change in use of the 2nd and 3rd floors is contrary to the conditional approval of the Board of Standards and Appeals under Cal. No. 817-48-BZ and 818-48-A."

and

WHEREAS, the applicant states that the premises consist of a plot, 203 feet 3 $\frac{3}{8}$ inches frontage by 115 feet 6 $\frac{5}{8}$ inches in depth, irregular, presently developed with a three story masonry, class 3 building, 123 feet 2 inches front and 115 feet 6 $\frac{5}{8}$ inches deep; that this building was erected before 1915 and altered in 1949-50 under Alt. Applic. No. 2599-48 for which a variance was granted by the Board under Cal. No. 817-48-BZ by Resolution adopted on October 26, 1948 and amended on April 12, 1949 permitting the owners to convert this three story building to an automobile showroom for new and used cars, repairs and the storage of more than five cars, with the necessary conjunctive uses of welding, lubrication, auto painting, car wash, parts department, parts storage, the installation of one 550 gallon storage and pump for gasoline, to be used only for cars dealt in by this automobile agency, and in the open space, the parking of cars waiting for servicing, without charge for such parking; that Certificate of Occupancy No. 128802 was issued permitting the aforementioned uses in the above building; and

WHEREAS, the applicant contends that due to the curtailed activity in the automobile field, the owners do not require the use of the entire building for their automobile agency, and they therefore propose to lease all of the second floor, except for the existing office area, and the entire third floor to a tenant for the manufacturing and storage of paper boxes; that no physical changes to the building will be required as the present exits and stairs meet all the requirements of both the Building Code and the Labor Laws; that off street loading for the manufacturing tenant will be provided in the open parking area adjoining the existing elevator; and

WHEREAS, the applicant further contends that concerning Objection No. 1, this type of manufacturing is not prohibited in a business district by Section 4 of the Zoning Resolution, and the total floor area devoted to such manufacturing will not exceed the total area of the plot; that part of this property lies in an unrestricted use district and the adjoining buildings directly to the west of these premises are used for manufacturing; that the proposed changes in use of the second and third floors will not affect the appearance or the functioning of the building in relation to its surroundings; and

WHEREAS, the applicant states that the present owner has held title to the property since March 16, 1949; that the assessed valuation of land is \$34,000 and of the building \$91,000 making a total of \$125,000; that the building was erected in 1915; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate

MINUTES

case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7c to permit the upper stories, as proposed, to be occupied for the manufacture of folding paper boxes *on condition* that such fire-fighting equipment shall be maintained as the Fire Commissioner shall direct; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that a new certificate of occupancy shall be obtained; that off-street loading and unloading shall be provided, as proposed, adjacent to the rear elevator to the parking area; that there shall be complete separation from the use herein permitted on the upper stories and the use on the first story and part of the second story as proposed and as shown on plans filed with this application marked "Received July 1, 1958," 13 sheets; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

754-49-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober for 2885 Realty Corporation, owner.

SUBJECT—Application reopened June 3, 1958 as Vol. III—decision of the Borough Superintendent, under section 7c of the Zoning Resolution, to permit in a building partly in a business use district and partly in a residence use district, the extension of the uses of manufacturing and assembly of plastic toys, silk screening, storage, office, shipping and receiving, loading and unloading from the business portion to the residence portion and maintain two business entrances in the residence use portion.

PREMISES AFFECTED—2889-2915 Coney Island Avenue, east side, 82 feet, 9 inches north of Shore Parkway, and 2656-2666 East 11th Street, Block 7454, Lot 29, Borough of Brooklyn.

APPEARANCES—

For Applicant: James Vassalotti.

For Opposition: None.

For Administration: John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on June 3, 1958 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on November 12, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; applicant to report to the Board as to closing the existing entrances to East 11th Street in the residence use district; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and East 11th Street are in business and residence use, D area, class 1 height districts; Coney Island Avenue, Avenue Z and Shore Road are in a business use, D area, class 1 height district; that as of April 25, 1916 the entire premises were in an unrestricted use district and received the present use designation on October 10, 1930; and

WHEREAS, the decision of the Borough Superintendent, dated May 7, 1958 acting on Alt. Applic. No. 3762-56, reads

"1. In a building located partly within a residence use district and partly within a Business Use District, the extension of the Manufacturing and Assembly of plastic toys, and storage uses into the residential use district portion of the building and the business entrances in the

Residential Use District is contrary to Art. II Section 3 of the Zoning Resolution.

"Note: These premises were the subject of a Board of Standards and Appeals variance under Calendar Number 754-49-BZ, Vol. I."

and

WHEREAS, the applicant states that the premises consist of a plot, 240 feet frontage by 200 feet in depth, presently developed with a one story building of class 3 construction, covering the entire premises except for a small portion of the plot facing Coney Island Avenue; that the part of the premises within 100 feet of Coney Island Avenue is presently being used for manufacturing and assembly of plastic toys, silk screening, storage, office, shipping and receiving, loading and unloading, parking and storage of employees' cars in open area, as approved under Alt. Applic. No. 3762-56; that the rear part of the building in the residence use portion of the plot facing East 11th Street, is now vacant; that no Certificate of Occupancy has been issued for the present uses; that it is proposed to maintain the present legal uses of manufacturing and assembly of plastic toys, silk screening, storage, offices, shipping and receiving, loading and unloading, parking and storage of employees' cars in open area as approved under Alt. Applic. No. 3762-56 for that part of the building within the business use portion of the plot, and extend said same uses into that part of the building within the residence use portion of the plot; that it is also proposed to maintain the two present business entrances in the residence use portion of the plot facing East 11th Street; and

WHEREAS, the applicant states that the major portion of the building, having a frontage of 180 feet on Coney Island Avenue and running through to East 11th Street, was erected under N.B. Applic. No. 4245 of 1928 for use as two stores and public garage for more than five cars; that in 1949, under Alt. Applic. No. 3082-49 and Cal. No. 754-49-BZ, the use of the building as described above was changed to garage for owners trucks only and warehouse for storage of groceries; that in 1954, under Alt. Applic. No. 4825-54, the extension having a frontage of 60 feet on Coney Island Avenue was added, and the use of the combined buildings was shown as warehouse for storage of groceries and garage for owners' trucks, that Certificate of Occupancy No. 144381 was issued for said use of warehouse for storage of groceries and garage for owners' trucks, and

WHEREAS, the applicant contends that the extension of the legally permitted uses of this building, into that part of the present building which is in the residence use portion of the plot, cannot have an adverse effect upon the adjoining properties, inasmuch as the major portion of this building was erected when this area was in an unrestricted use district; that the land and building is high in assessed value and since the building has outlived its usefulness as a garage, it is mandatory for the owner to change the use of this building to enable him to receive an equitable return on his large investment; that the erection of the Coney Island Avenue overpass has limited the use of this property so that it can only be reached by the Shore Parkway Service Road; that the maintenance of the present business entrances on East 11th Street will not constitute any more of a hazard than the many private garages and driveways on East 11th Street; and

WHEREAS, the applicant states that the present owner has held title to the property since September 1, 1957; that the assessed valuation of land is \$38,000 and of the building \$60,000 making a total of \$98,000; that the building was erected in 1928; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and it was found that the portion of the building in the residence use area not permitted by the Building Department, and subject to this application for zoning variance, was in use and was being used for loading and unloading of material; in previous application this portion of the premises was also used under certain conditions, namely "that the premises facing on 11th Street shall be used only for receiving and all shipping shall

MINUTES

be done on the Coney Island Avenue side"; the committee recommends that similar requirements shall be made as to this use; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7c to permit the portion of the building located in the residence use district to be occupied in connection with the portion in the business use district for the same use *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the East 11th Street side shall be used only for the receipt of merchandise; that unloading space shall be provided so as to permit such unloading to be carried on solely inside of the building; that all shipping shall be on Coney Island Avenue side only; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that such fire-fighting equipment shall be maintained as the Fire Commissioner shall determine; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

14-50-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Nathan Tannenbaum, owner.

SUBJECT—Application reopened March 18, 1952 as Vol. II—re application—decision of the Borough Superintendent under section 21 of the Zoning Resolution, to permit in a residence use G-1 area district the maintenance of existing dwelling without the required rear yard, without the required front yard set back, without the required side yard to permit stoop to encroach on side yard, using more than the area permitted.

PREMISES AFFECTED—80-63 208th Street, east side, 162.16 feet north of 82nd Avenue, Block 7782, Lot 14, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: James Vassalotti.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on March 18, 1952 subject to regular procedure, to consider new decision; and

WHEREAS, a public hearing was held on this application on November 17, 1953 after due notice by publication in the Bulletin, and laid over to December 8, 1953 for inspection and decision; applicant to submit information on meters and installation of tank; hearing closed; and

WHEREAS, a public hearing was held on this application on December 8, 1953 after due notice by publication in the Bulletin; application denied; and

WHEREAS, this application was reopened for re-hearing by order of the Court and for applicant to send out notices by regular mail to all of the owners on the owners list, which should be checked to date, all other requirements being waived; and

WHEREAS, a public hearing was held on this application on October 15, 1958 after due notice by publication in the Bulletin; laid over to October 28, 1958, for inspection and decision; hearing closed; then to December 2, 1958, at the request of the applicant to submit a complete report of the conditions to the Board and statement as to occupancy by three families as indicated by the three bells at the side door; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 82nd Avenue and 208th Street are in a residence use, G-1 area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated December 28, 1951 acting on N.B. Applic. No. 5539-51, reads:

"2. Rear yard must comply with Article IV Sec. 16c of Zoning Res.

3. Front yard setback must comply with Art. IV Sec. 16c of Zoning Res.

4. Five foot minimum side yard required per Art. IV Sec. 16c of Zoning Res.

5. Stoop encroaches on side yard and is contrary to Art. IV Sec. 16c of Zoning Res.

6. Area occupancy of structure on plot is contrary to Art. IV Sec. 16c of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 feet frontage by 100 feet in depth, on which is located a building 20.03 feet front by 65.05 feet in depth, irregular, one story and attic, 15 feet 6 inches in height, of class 3 construction, presently used as a dwelling; that it is proposed to permit the existing dwelling to be continued as now occupied; and

WHEREAS, the applicant further states that as of July 25, 1916 the portion of the property within 100 feet of Hollis Court Boulevard was zoned as a business district and the remainder was in a residence district; that the present use district designation became effective on June 1, 1934; that the property was zoned as a D area in 1916 and was changed to F area on August 22, 1946 and to G-1 area on February 7, 1949; that the premises are developed with a 1½ story stone and brick veneer dwelling, occupied by one family; and

WHEREAS, the applicant contends that plans for the building were filed under N.B. Applic. No. 5264-48, but said plans were never approved; that due to the illness of the owner's wife, it was necessary to design a building with all of the rooms on one floor for her use, and provide living quarters in the attic for the rest of the family; that the house was finished and is now being occupied; and

WHEREAS, the applicant contends as to Item No. 2 issued by the Borough Superintendent, that the building has a rear yard of 14.92 feet in lieu of the required 20 feet, but this occurs for only 20.03 feet in width of the building, and the remainder of the building has more than the required rear yard; that the premises in question are located on a terrace above curb level, said terrace starting at the building line and sloping upwards and leveling off for the entire lot; that this same condition holds true for the lots adjoining to the north and south; that Article 1, Subdivision d, under definitions, states that the curb level for the purpose of measuring the height of any portion of a building is the mean level of the curb in front of such building except where the building has a front yard setback of 25 feet, or more, than the average level of the land immediately adjacent to the building, shall be considered the curb level; that the building to the north has a front yard setback of only 15.40 feet and the building to the south has a front yard setback of only 19.88 feet; that as these buildings do not conform to the 25 feet or more setback requirements, their rear yards should start at curb level in place of terrace level, as is the condition present here; that they have created a condition as much in contravention of the Zoning Ordinance, with their rear yards being composed of a grass terrace as the building in question, having only a 14.92 foot rear yard in lieu of the required 20 feet; that it would therefore create a hardship to have part of the present building demolished to conform to a strict ruling of the Zoning Ordinance; and

WHEREAS, the applicant contends as to Item No. 3 issued by the Borough Superintendent, that the present front open porch now sets back 8.99 feet to the building line, in lieu of the required 15 feet, but the porch will be altered to set back 15.40 feet of the building line, and so will be the same distance back of the line as the building to the north; that the

MINUTES

only variance with the Zoning Ordinance then will be for 12 inches, which is the width of each retaining wall and which is required because of the terrace conditions, which also occurs on premises to the north and south; that the outside steps, which are incorrectly also considered part of the building, are also required because of all three terrace conditions; and

WHEREAS, the applicant contends as to Items Nos. 4 and 5, that the Zoning Ordinance required a 5 foot side yard on both sides; that the building has a 4.95 foot yard on one side and an 8.99 foot yard on the other side; that the small difference of .05 feet does not affect the community and it would be a hardship to demolish a 65 foot long wall for this small difference; and

WHEREAS, the applicant contends as to Item No. 6, that the premises in question are located on a terrace, and as areas are calculated at curb level the building, plus all of its adjoining yards, is occupying 100 per cent of the area of the lot; that if the area of the building could be computed at the terrace level, it has an area of only 2100 square feet, and if the allowable 45 per cent of 5,000 at curb level, as per zoning, could be used at terrace level, which is 2,251 square feet, the building would not exceed the area, as it only occupies 2,100 square feet; that Article 1, Subdivision d, under definitions, states that the curb level for the purpose of determining open spaces, is the mean level at the highest curb level, except where a front yard has a setback of 25 feet or more, then the area can be calculated at level of land immediately adjoining to the building, which in this case would be the entire lot upon a terrace; that the building in question will only have a 15.40 foot front yard; that the building adjoining to the north only has a 15.40 foot front yard; while the building to the south has a 19.88 foot front yard; that therefore, none of these three buildings comply with the 25 foot front yard requirements and all three plots can be considered as occupying 100 per cent of the area of the lot; that it would be a hardship to demolish this building, or not be allowed to calculate the permissible coverage at terrace level, when all three are in contravention of a strict interpretation of the Zoning Ordinance; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board who found the same illegal conditions as before but which are now proposed to be corrected; it was noted that at the side door there are three push button bells usually indicating that the building is occupied by three families; and

WHEREAS, the Committee recommends that the application be granted on condition; that all the changes shall be made as proposed; that the building shall continue for occupancy of one family only and that the stack of combustible materials be removed from the premises where now existing in the open side yard; that the faulty garage roof construction be corrected and made safe; and

WHEREAS, this was referred by the Court for further hearing; the hearing has been held and the premises have been again inspected by a committee of the Board and revised plans furnished by the applicant under which they propose to enlarge the rear yard and to reduce the construction over the garage so as to provide a front yard of the required width and to limit the occupancy of the residence to one family; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 21 to permit the continuance of the existing single family residence building as now proposed on revised plans marked "Received November 20, 1958," 6 sheets, on condition that the rear yard shall be maintained at the increased width of 20 feet, as shown; that the construction over the garage shall be reduced so that the porch in front of the house shall be

as shown and not beyond the distance of the porch on the adjoining house to the north; that the building shall be occupied solely as a one-family building; that the side court shall be maintained of the width as shown; that in all other respects the building and occupancy as a single family residence building shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

838-50-BZ—Vol. II

APPLICANT—Larry Meltzer for Attilio Bonassin, owner.
SUBJECT—Application reopened June 17, 1958 as Vol. II—decision of the Borough Superintendent under sections 7e and 7h of the Zoning Resolution, to permit in a local retail use district, of an existing gasoline service station, an extension of the existing accessory building to provide additional space for car washing—non automatic, and the parking of more than five (5) cars awaiting service, this extension to replace work area that was taken to provide for a twenty foot street widening.

PREMISES AFFECTED—3763-3777 Nostrand Avenue, northeast corner of 2925-2933 Avenue Y, Block 7422, Lot 46, Borough of Brooklyn.

APPEARANCES—

For Applicant: Larry Meltzer.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 17, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 12, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; applicant to file revised plan showing corrected arrangement of proposed building as extended, hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Nostrand Avenue are in a local retail use, D area, class 1 height district; Avenue X and Avenue Y are in local retail and residence use, D area, class 1 height districts; Haring Avenue is in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 7, 1958 acting on Alt. Applic. No. 1246-58, reads:

"1. Proposed extension of plot and building, in a Local Retail zone, to be used for gasoline service station, office, sales and storage of auto accessories, lubritorium, minor repairs with hand tools only, car washing (non-automatic) parking of more than five (5) cars waiting service is contrary to Article II, PP. 4-C of the Zoning Resolution and contrary to the Bd. of Standards and Appeals variance granted under Cal. #838-50-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 140 feet frontage by 70 feet and 85 feet in depth, improved with a gasoline service station which was established under a variance granted by the Board under Cal. No. 838-50-BZ on April 1, 1952 under N.B. Applic. No. 1656-50 for a term of fifteen years, expiring April 1, 1967; that Certificate of Occupancy No. 137370 authorizes the use of these premises as gasoline service station, auto repairs, car washing, lubritorium and sales room; that it is proposed to increase the size of the reduced lot by increasing the frontage on Nostrand Avenue by 40 feet; that the increased lot will now have a frontage of 140 feet on Nostrand Avenue and a depth of 70 feet on Avenue Y; that it is also proposed to increase the size of the accessory building to the north by adding an extension 22 feet by 30 feet 4 inches; that the size of the lubritorium will then be increased and the

MINUTES

non-automatic car wash will be re-located into the new extension; and

WHEREAS, the applicant states that at the time of the variance, the size of the lot was 100 feet fronting on Nostrand Avenue with a depth of 90 feet along Avenue Y; that also at that time the legal width of Nostrand Avenue was 80 feet; that on June 15, 1956 Nostrand Avenue, by condemnation proceedings, was widened on the easterly side only, to a width of 100 feet; that as a result, the depth of the plot was reduced from 90 feet to 70 feet and the gasoline station was deprived, on Nostrand Avenue, of 40% of the working area in front of the accessory building; and

WHEREAS, the applicant contends that the loss of twenty feet of land in front of the gasoline station, which was taken by the City for street widening, has decreased the working area and has created a demand for a replacement area in order to properly carry out the functions of a gasoline service station; that directly in the rear of the forty foot plot which is proposed to be added, is located the parking lot for a new multiple dwelling fronting on Haring Street; that this cannot be adversely affected by the proposed extension; that the architecture of this extension will conform with the architecture of the existing building; that the treatment on the north lot line will be the same as that which was used before, so that the vacant land to the north will not be adversely affected; that since the site is already established as a gasoline service station, and since the owner has been deprived of a large portion of his station as a result of the street widening, and since the extension would provide better facilities for the growing community, the granting of this application is requested; and

WHEREAS, the applicant states that the present owner has held title to the property since 1932; that the assessed valuation of land is \$17,500 and of the building \$17,000 making a total of \$34,500; that the building was erected November 25, 1953; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on April 1, 1952, by adding thereto:

"that in the event the owner desires to extend the plot and the accessory building because of the losing of space due to the widening of Nostrand Avenue such extension may be permitted as proposed and indicated on plans filed with this application marked, 'Received May 20, 1958,' 7 sheets, and revised plans marked, 'Received November 20, 1958,' 7 sheets, on condition that the extension of the area and building shall be as shown on such revised plans; that the requirements of the resolution above cited shall be complied with similarly for the extension where applicable including fencing on a new lot line similarly previously to required; that a new Certificate of Occupancy shall be obtained; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

657-52-BZ

APPLICANT—Rose S. Maute, owner.

SUBJECT—Application reopened October 28, 1958 for consideration as to extension of term of variance—re Application, decision of the Borough Superintendent, previously granted on condition, under section 7h of the Zoning Resolution, permitting in a residence use district, for a term of years, the parking and storage of motor vehicles.

PREMISES AFFECTED—282-284 Bonner Place, south side, 125 feet east of Morris Avenue, Block 2423, Lots 11 and 12, Borough of The Bronx.

APPEARANCES—

For Applicant: Rose S. Maute.

For Opposition: None.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation November 20, 1958; and

WHEREAS, this application was reopened on October 28, 1958 and set for hearing on November 18, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on November 18, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for applicant to file new decision of the Borough Superintendent; and

WHEREAS, a public hearing was held on this application on December 2, 1958, after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated November 19, 1958 acting on Alt. Applic. No. 662-52, reads:

"2. Proposed parking and storage of motor vehicles on vacant portion of plot within a Residence district is contrary to Art. II Sect. 3 of the Zon. Res."

and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on January 27, 1953, only so far as it refers to the term of the variance, so that as amended this portion of the resolution shall read:

"... granted under Section 7, Subdivision h for a term of 5 years from the date of this amended resolution, to permit; that other than as herein amended the resolution above cited shall be complied with in all respects; and that all permits, including a new Certificate of Occupancy, and all work completed within six months from the date of this amended resolution."

651-56-BZ

APPLICANT—Harry G. Savran, for Mabel F. Fredericks, owner.

SUBJECT—Application reopened November 12, 1958 for consideration as to extension of time to complete, expired June 10, 1958—decision of the Borough Superintendent, previously granted on condition, under section 7h of the Zoning Resolution, permitting in a residence use district, the maintenance of a parking lot for the parking and storage of motor vehicles.

PREMISES AFFECTED—514-516 West 168th Street, south side, 120 feet east of Audubon Avenue, Block 2123, Lots 86 and 87, Borough of Manhattan.

APPEARANCES—

For Applicant: Harry Savran.

For Opposition: None.

ACTION OF BOARD—Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation on June 10, 1958; and

WHEREAS, this application was reopened on November 12, 1958 and set for hearing on December 2, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except

MINUTES

a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on December 2, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated October 20, 1958 acting on amendment to Alt. Applic. No. 173-56, reads:

"1. A parking lot for more than 5 motor vehicles located in a residence use district is contrary to Art. 2 Par. d3 Zoning Resolution.

Reconsideration of this objection was denied Nov. 27, 1957. It will not be further considered.

1. Redenied for purpose of receiving extension of time."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 28, 1957, only insofar as it has reference to obtaining permits and completion of the work, so that as amended this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this amended resolution."

649-56-BZ

APPLICANT—Henry Nordheim, for Ignazio Arnone, owner.

SUBJECT—Application reopened November 5, 1958 for consideration as to extension of time to complete, expired July 23, 1958—decision of the Borough Superintendent, previously granted on condition under sections 7b and 21 of the Zoning Resolution, permitted in a residence and unrestricted use district, the erection of a one story non-storage garage.

PREMISES AFFECTED—911 Sacket Avenue, north side, 94 feet east of Bronxdale, Avenue, Block 4058, Lots 25 and 26, Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph O'Mara and Charles H. McHugh.
For Opposition:

ACTION OF BOARD—Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation on July 23, 1958; and

WHEREAS, this application was reopened on November 5, 1958 and set for hearing on December 2, 1958 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on December 2, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated October 6, 1958 acting on amendment to Alt. Applic. No. 1761-56, reads:

"1 & 2. No work started within a year of Bd. of S & A Cal. #649-56-BZ and does not meet the requirements of Sect. 22A."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 23, 1957, only insofar as it has reference to obtaining permits and completion of the work so that as amended this portion of the resolution shall read:

"that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution."

551-57-BZ—Vol. II

APPLICANT—Hurley, Kearney and Lane, for Samuel Eidelberg, and Jeffrey Rosenberg, owners.

SUBJECT—Application reopened October 7, 1958 as Vol. III—decision of the Borough Superintendent, under sections 7d, 7e and 7h of the Zoning Resolution, to permit in a residence use district, the erection of a Mutual Savings Bank building thereon and the use of the unbuilt upon portions thereof for the parking of motor vehicles belonging to patrons and employees of the bank.

PREMISES AFFECTED—9502-9518 Seaview Avenue, southeast corner of East 95th Street, Block 8318, Lots 8, 9, 14 and 16, Borough of Brooklyn.

APPEARANCES—

For Applicant: Reginald S. Hardy and George Lane.
For Opposition: None.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on October 7, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 25, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, East 95th Street, East 96th Street, Rockaway Avenue and Seaview Avenue are in a residence use, F-1 area, class ½ height district; that on July 25, 1916 the premises were included in business use, A area and 1½ times height districts; that since that time the following changes in zoning have occurred—November 28, 1938, the use designation was changed from business to residence district; that on November 28, 1938 the property was included in an F area district; that on May 12, 1955 the area district designation was changed into its present designation of F-1 and on November 28, 1938 the original 1½ times height district was changed to a class ½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated July 8, 1958 acting on N.B. Applic. No. 1295-58, reads:

"1. The proposed construction of a building to be used as banking room, toilets, lunch room and lounge with accessory parking in open spaces for patrons and employees, with curb cuts in a residence use district is contrary to the Zoning Resolution, Art. II, Sect. 3."

and

WHEREAS, the applicant states that the premises consist of a plot, 146 feet 1¼ inches frontage by 326 feet 7⅞ inches in depth, irregular, presently vacant; that it is proposed to erect a one story and mezzanine brick building having a frontage of 82 feet and a maximum depth of 48 feet and will be 20 feet 6 inches in height at its highest point; that this building will face Seaview Avenue but will be set back 15 feet therefrom; that the building will be used as a banking room, including executive offices, lunch room for employees only and employees lounges; that the unbuilt upon portions of the premises will be used for the parking of motor vehicles belonging to employees and patrons of the bank; that it is proposed to level this portion of the property substantially to the grade of Seaview Avenue and to provide a suitable surface therefor; that this parking area will be enclosed by a wrought iron fence, five feet in height, erected along the street lines, and a chain link fence of similar height, along the easterly lot line between the subject premises and the adjoining property in block 8318, lot 6; that entrance to the parking area will be afforded by a driveway,

MINUTES

20 feet in width, leading from East 95th Street at the rear of the banking building; that exit therefrom will be by means of a driveway leading to Seaview Avenue near the easterly side of the property; that both entrance and exit will be equipped with gates, which will be closed when the bank is not open; and

WHEREAS, the applicant states that a portion of the premises under appeal were the subject of an application under Cal. No. 551-57-BZ, Vol. I, for permission to erect a gas station; that a hearing was held on February 18, 1958, the premises were inspected, but the application was withdrawn on March 18, 1958 prior to a vote by the Board; that the premises located at the northwesterly corner of Seaview Avenue and Rockaway Parkway in block 8299, lot 68, are now improved with a gas station which was erected under Cal. No. 709-55-BZ, Vol. II; that the southwesterly corner of Seaview Avenue and Rockaway Parkway in block 8328, lot 30, is improved also with a gas station erected under Cal. No. 636-54-BZ, Vol. II; that the Board had occasion to consider another application for a zoning variance in this immediate vicinity, affecting the northeasterly corner of Seaview Avenue and East 95th Street in block 8298, lot 7, which was denied on November 19, 1957; that the Board also granted permission to reconstruct and extend the gas station on the westerly side of Canarsie Road, 94 feet south of Seaview Avenue in block 8316, lot 41 under Cal. No. 477-48-BZ; and

WHEREAS, the applicant further states that Seaview Avenue is a wide thoroughfare running in a generally easterly direction; that although a relatively large amount of the property in the area is unimproved, it now accommodates a substantial amount of vehicular traffic which will undoubtedly increase very materially in the future; that Rockaway Parkway, which is approximately a block and a half to the east of the premises, is a principal traffic artery running in a generally southerly direction, is 100 feet wide and accommodates a great deal of automobile traffic at all times; that East 95th Street, upon which the premises also abut, is but 60 feet wide; that to the north of Seaview Avenue, the center of the street is improved with a narrow pavement so that it is passable, but to the south of Seaview Avenue it is unimproved and unopened, as is Rockaway Avenue at this point; that much of the property fronting upon Seaview Avenue to the west of the site is unimproved, but the properties to the east have been improved and there is a substantial residential and business area located along Seaview Avenue to the east of Rockaway Parkway; that the premises located on the westerly side of Rockaway Parkway, south of Seaview Avenue, have recently been improved with a large supermarket and shopping center, including a large parking area for patrons; that the property along the southerly side of Seaview Avenue to the east of the site, extending from East 96th Street and Rockaway Avenue to Rockaway Parkway, including that upon which the shopping center is erected, is in a restricted retail district wherein the proposed banking building might be erected without a variance; and

WHEREAS, the applicant contends that there are a number of factors which militate against the improvement of the site with a conforming use; the gas stations which are located to the east and west of the site; the supermarket and shopping center to the east of the site, and it will be noted in this connection that the subject premises overlook the rear of this center; the size and shape of the premises and in this connection the attention of the Board is directed to the fact that substantially all of the improvements in this area have been part of large scale building programs; that most of the development along Seaview Avenue has occurred on the portion which lies to the east of Rockaway Parkway; that for some reason, there has been little activity west of that thoroughfare; and

WHEREAS, the applicant contends that the erection of a mutual savings bank building on the site would be a valuable asset to the community and it obviously would be in keeping with the character of the development to the east of the property; that the proposed building is of attractive design and plans provide for adequate parking facilities for patrons

and employees, not only for the present but for many years to come; that the granting of this application would result in a material improvement of conditions in the entire neighborhood; that a factor which cannot be overlooked is the fact that a neighborhood savings bank is a social attribute to a community; that equally important is the fact that the granting of this application would create additional tax revenues for the City of New York; that the unpaid taxes on the premises now amount to \$8,500, which would be paid immediately upon closing of title; and

WHEREAS, the applicant further contends that as pointed out above, this application for a variance is made pursuant to Section 7, sub-divisions d and e of the Zoning Resolution; that Section 7d empowers the Board to vary the application of the use district restrictions to permit in a residence district any building or use in keeping with the uses expressly enumerated in Section 3 as the purposes for which buildings or premises may be erected or used in a residence district; that Section 3 expressly permits premises in a residence district to be used for clubs, churches, public buildings such as schools, libraries, museums, police stations, fire houses, philanthropic institutions, hospitals, health centers, medical centers, railroad passenger stations, nurseries, green houses and certain types of administrative offices, laboratory projects and light industrial plants; that a mutual savings bank of the type proposed here is a use in keeping with the various uses expressly authorized by Section 3 as set forth above; that at this point it is not necessary to discuss the functions and operation of mutual savings bank at length, but it is felt that they are comparable to uses specifically enumerated in Section 3 of the Zoning Resolution and that therefore the Board is empowered to grant under Section 7, subdivision d; that if, however, the Board is of the opinion that Section 7, subdivision d is not applicable to this proceeding, it is urged that relief be granted under Section 7, subdivision e for a stated period of years of sufficient duration to permit Kings Highway Savings Bank to amortize its prospective investment in this property and the improvements to be erected thereon; and

WHEREAS, the applicant states that the present owners have held title to the property since August 13, 1956 and October 22, 1956 and that the assessed valuation of land is \$22,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of twenty-five years to permit the construction of the bank building as proposed and under Section 7h for a similar term to permit the rear area to be occupied for the parking of motor vehicles belonging to the employees and patrons of the proposed bank where shown *on condition* that the building shall in all other respects comply with all laws, rules and regulations applicable thereto; that the portion to be occupied for parking shall be suitably paved and shall have on all lot lines, where shown, a woven wire fence of the chain link type, or of steel pickets on a masonry base to a total height of 5' 6" and without openings therein except one as shown at East 95th Street and Seaview Avenue; that suitable bumpers shall be maintained at a distance of not less than three feet away from such fence continuously at all points; that curb cuts shall be restricted to one curb cut to East 95th Street not over 20 feet in width, and with entrance in the fence of similar width; that additional curb cut may be to Seaview Avenue, as shown, not exceeding 14 feet in width; that at both entrances and exits there shall be gates installed which shall remain closed when the bank and parking field are not in operation; that during the term of this variance the premises shall be occupied for no other use than as herein pro-

MINUTES

posed and permitted; that signs advertising the parking use limited as above, may be attached to the fence at each entrance provided such signs do not exceed five square feet each and do not extend beyond the building line and are not illuminated; that sidewalks and curbing abutting the premises on all streets shall be constructed and maintained in accordance with the requirements of the Borough President; that such portable fire-fighting appliances shall be maintained in connection with the parking as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

764-57-BZ

APPLICANT—Herman Kron, for Onofrio Civitano, owner.

SUBJECT—Application October 25, 1957—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, the maintenance of a parking lot for more than five (5) motor vehicles.

PREMISES AFFECTED—961 Bolton Avenue, west side, 73 feet south of Bruckner Boulevard, Block 3670, Lots 31 and 54, Borough of The Bronx.

APPEARANCES—

For Applicant: Herman Kron.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 12, 1958, after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site Bruckner Boulevard, Underhill Avenue, Bolton Avenue and Story Avenue are in a residence use, C area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated October 18, 1957, acting on Alt. Applic. 709-57, reads:

"1—Parking and storage of motor vehicles in a residence district is in violation of Section 3, Article 2, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 50 feet frontage by 204.11 feet in depth; that it is proposed to level the premises and the entire area to be cinder filled with a suitable binder to prevent dusting; that it is also to fence the building and lot lines with a woven wire fence not less than 4 feet 6 inches in height with steel posts placed in concrete; that the owner is willing to surround the premises with such safeguards as the Board may deem necessary; and

WHEREAS, the applicant contends that the site is located in the vicinity of the amusement center located one block to the east where parking of automobiles is a necessity for the public; that at the present time there is no other use to which this property can be put; that the future development of this neighborhood will mean the erection of apartment houses; that no apartment buildings or development projects are feasible in the next 10 or 20 years; that the entire area was filled in years ago and was and it is now used as a dumping ground; and

WHEREAS, the applicant states that the present owner has held title to this property since August 1, 1954; that the assessed valuation of the land is \$700.00, making a total of \$700.00; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7h for a term of five years to permit the plot to be occupied for parking and storage of motor vehicles substantially as proposed and as indicated on plans filed with this application marked "Received October 25, 1957," one sheet, and "June 5, 1958," one sheet, on condition that the plot shall be leveled substantially to the grade of Bolton Avenue and filled to grade as may be necessary and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that on all lot lines there shall be erected a woven wire fence of the chain link type not less than five feet six inches in height, with no openings therein except one to Bolton Avenue not over ten feet in width with curb cut opposite not over twelve feet in width, such opening shall be fitted with gates of similar construction as the fencing; that suitable bumpers shall be maintained at all points for protection to the fence; that sidewalks and curbing abutting the premises on both streets, where opened, shall be repaired as may be required by the Borough President; that signs shall be restricted to permanent signs attached to the fence advertising the parking and storage use and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed five square feet, shall not be illuminated and shall not extend beyond the building line; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall require; that during the term of this variance the premises shall be occupied for no other use than the use herein permitted; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

133-58-BZ

APPLICANT—Leonard F. Rothkrug, and Herbst and Rus-
ciano, for Ralph Porco, owner.

SUBJECT—Application March 18, 1958—decision of the Borough Superintendent, under section 7c of the Zoning Resolution, to permit in a business and residence use district, the extension of the approved parking lot for more than five (5) motor vehicles located on the business portion of the premises into the residence portion.

PREMISES AFFECTED—4441-4449 White Plains Road, west side, 137.56 feet south of East 239th Street, Block 5069, Lots 45, 47, 49, 51 and part of Lot 44, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 12, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and East 239th Street are in business and residence use, C area, class 1 height districts; White Plains Road is in a business use, C area, class 1 height district; Nereid Avenue is in business and local retail use, C area, class 1 height districts; Richardson Avenue is in local retail and residence use, C area, class 1 height districts; that there has been no change in use, height or area designations affecting this plot since July 25, 1916; and

MINUTES

WHEREAS, the decision of the Borough Superintendent, dated March 13, 1958 acting on amendment to Alt. Applic. No. 542-57, reads:

"1. The proposed use of the residential use district portion of the parcel for parking for more than 5 motor vehicles is contrary to Article II Sec. 3 of the Zoning Resolutions."

and

WHEREAS, the applicant states that the premises consist of a plot, 136.1 feet frontage by 150.48 feet in depth, presently vacant, except that it is being altered under approved Alt. Applic. No. 542-57 as a parking lot in the front 100 feet, located in a business use district; that it is proposed to extend the parking lot use, approved in the front 100 feet of the plot, into the residence use district portion of the premises; and

WHEREAS, the applicant states that White Plains Road is zoned business and a parking lot is a permitted use in a business use district; that the tax block on which the site is located is greater than 200 feet in width so that the lots fronting on White Plains Road and the lots fronting on Richardson Avenue are greater than 100 feet in depth, the usual depth of tax lots; that this unique condition results in the division of the site into two use districts; that the front 100 feet is in a business use district and the rear portion of the plot is in a residence district; that the same division of use districts exists in the properties to the south; and

WHEREAS, the applicant further states that there will be no curb cuts or signs within the residence zone; that the curb cuts and signs will not be changed from that approved under the alteration application; that the owner of these premises conducts a catering business under the name of Wakefield Casino at 4421 White Plains Road, block 5069, lot 57, within this same tax block; that the parking lot is principally used in conjunction with this catering use; and

WHEREAS, the applicant contends that there is no economic use for that portion of the premises within the residence use district; that this rear portion of the site abuts and adjoins lots which are presently developed and are presently greater in depth than the usual lot and do not require any additional land; that no purpose would be served in keeping this rear portion of the plot vacant; that the 100 foot use district line zoning, typical for the City in general, works a hardship on those tax lots which do not fit the typical dimensions of tax lots, and is confiscatory; and

WHEREAS, the applicant states that the present owner has held title to the property since October 11, 1956 and that the assessed valuation of land is \$23,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends to extend the existing parking lot within the business area into the rear portion zoned for residence; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7 c, to permit the extension of use into the more restricted district substantially as proposed and indicated on plans filed with this application marked, "Received March 18, 1958," 3 sheets, and "July 9, 1958," 1 sheet, on condition that the added portion shall be leveled substantially to the grade of White Plains Road portion of the plot and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the interior and rear lot lines to join up with the fences as previously required under the rules of the Department of Buildings, a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 feet, 6 inches; that there shall be no opening in such fence; that all entrances and exits shall be by means of the gated openings to White Plains Road; that a new Certificate of Occupancy shall be obtained; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

134-58-BZ

APPLICANT—Leonard F. Rothkrug and Herbst and Rusciano, for Bailey Realty Corp., owner.

SUBJECT—Application March 18, 1958—decision of the Borough Superintendent, under section 7h of the Zoning Resolution, to permit in a residence use district, the maintenance of the premises as a parking lot for pleasure type vehicles only, non transient and non commercial, for a term of five (5) years.

PREMISES AFFECTED—3910 Bailey Avenue, east side, 195.4 feet southwest of Van Courtlandt Avenue, Block 3263, Lot 41, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper..... 4

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; applicant to submit corrected plans; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Bailey Avenue and Van Courtlandt Avenue are in a residence use, B area, class 1¼ height district; Orloff Avenue is in a residence use, B and E-1 area, class 1¼ height district; and

WHEREAS, the decision of the Borough Superintendent, dated March 13, 1958 acting on Alt. Applic. No. 1194-57, reads:

"1. The proposed use for the lot as a parking lot (non-transient) (pleasure-type vehicles only) in a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet frontage by 115 feet in depth, presently vacant; that it is proposed to maintain the premises as a parking lot, non-transient and non-commercial, for pleasure type vehicles only; and

WHEREAS, the applicant states that there is an urgent need for off street parking facilities in this neighborhood; that the six story apartment house buildings to the south of the site along Bailey Avenue were erected prior to the effective date of the amendment of the Zoning Resolution, which now requires off street parking facilities in conjunction with multiple dwellings; that similarly, many of the one and two family dwellings within the area have no private garage or off street parking facilities; that there are no existing parking lots or public garages in the neighborhood; that this area has a higher than ordinary per capita ratio of automobiles; that in view of these facts, there is bumper to bumper parking and many of the residents have to park their cars a considerable distance away from their dwellings; that in addition to the normal parking shortage that has existed for several years in this neighborhood, the situation has been aggravated by alternate street parking regulations, now effective; and

WHEREAS, the applicant contends that the proposed use is in the nature of a conforming use in a residence district; that if a multiple dwelling is erected at the present time, accessory parking facilities would be a mandatory requirement; that the proposed parking lot will have none of the large signs or transient parking which is associated with parking lots; that there will be no parking of any buses or trucks, and parking will be limited to residents of the immediate area; that there will be no attendant and the gates to the lot will be locked at all times, with each patron being provided with a key; and

WHEREAS, the applicant further contends that there is no economic demand for the development of these premises at

MINUTES

this time with a conforming use; that there is a considerable amount of vacant land within the neighborhood, and the owner of the subject premises has an interest in a large part of this vacant land; that the parking lot is proposed for a temporary term of five years, and the owner hopes that during that period, an economic demand will exist and financing will be available for development of the premises and the surrounding vacant area with conforming uses; and

WHEREAS, the applicant states that the present owner has held title to the property since April 5, 1956 and that the assessed valuation of land is \$11,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the committee noted the minor revisions of the letter of November 19th and recommends that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 1194-57, Objection No. One be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

194-58-BZ

APPLICANT—Leonard F. Rothkrug, for Murray and Serena Mintz, owners.

SUBJECT—Application April 2, 1958—decision of the Borough Superintendent, under section 21 of the Zoning Resolution, to permit in a G-1 area district, the erection of an extension to an existing one family dwelling and accessory dental office with less than the required setback.

PREMISES AFFECTED—141-60 73rd Avenue, northwest corner of Vleigh Place, Block 6624, Lot 29, Kew Gardens Hills, Borough of Queens.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 12, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Vleigh Place, 73rd Avenue, 73rd Terrace and 141st Street are in a residence use, G-1 area, class ½ height district; that on January 25, 1916 the premises was located in a D area district and was rezoned to its present designation on February 7, 1949; and

WHEREAS, the decision of the Borough Superintendent, dated March 19, 1958 acting on Alt. Applic. No. 99-58, reads:

"1. The proposed extension does not have the setback required in a G-1 district and is contrary to Sec. 16-C(b) of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 46.86 feet frontage by 100 feet in depth, irregular, on which is located a two story dwelling of class 4 construction, erected in 1942 when the premises was in a D area district under N.B. Applic. No. 587-40 and occupied under Certificate of Occupancy No. 26086-42 as a one family dwelling; that the building was altered under Alt. Applic. No. 587-53 and occupied under Certificate of Occupancy No. Q102354 issued April 29, 1955 as a one family dwelling with accessory dental office, that on the premises is also located an accessory one car garage erected under N.B. Applic. No. 588-40 and occupied under Certificate of

Occupancy No. 25603 issued April 14, 1942; that it is proposed to extend the building by erecting a one story extension within the setback from Vleigh Place in a G-1 area district; and

WHEREAS, the applicant states that the building was erected when the premises was located in a D area district and there was no requirement for a 15 foot setback from Vleigh Place; that the existing structure presently encroaches within the required setback and permitted to be maintained only because it was erected before the G-1 area zoning; that the premises is unique in that it is a corner plot, irregular in area, formed by the intersection of two streets which meet at an unusual angle; that the plot is small in area and is only 24.07 feet in width at the southerly lot line; that if the G-1 area district had been in effect at the time of construction of the subject building, then it would have been impossible to have been erected; that if setbacks of 15 feet from both street frontages and a 5 foot side yard had been required then because of the unique shape of the plot, it is doubtful whether any satisfactory dwelling could have been erected; that the existing garage building also encroaches within the required setback; that the proposed extension is between the existing building and the garage; that the proposed extension does not extend into the newly required setback any more than the existing structures; and

WHEREAS, the applicant contends that a grant of the variance will not adversely affect any other property owners; that the only property owner who could possibly be affected is the property adjoining to the south along Vleigh Place; that this adjoining property is separated from the site by the garage building; that in addition, this adjoining property was improved when the premises was in a D area district and when the proposed extension would have been permitted; that there is no adjoining property available for purchase; that the owner requires the additional area for his family's living quarters; that the owner has established his dental practice in this neighborhood; that it is proposed to maintain the existing 20 foot setback from 73rd Avenue and the existing 5 foot setback from Vleigh Place; and

WHEREAS, the applicant states that the present owners have held title to the property since February 11, 1950; that the assessed valuation of land is \$6,000 and of the building \$7,500 making a total of \$13,500; that the building was erected in 1942; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, although not clearly stated in the applicant's papers filed with this application, he informed the Board at this meeting that the space to be added to the residence was for a recreation room for the family, and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21 as to use and area to permit the extension of the single family dwelling having an accessory dental office for the dentist living on the premises in the residential building substantially as proposed and as indicated on plans filed with this application marked "Received April 2, 1958", 6 sheets, and to permit such extension to be located not nearer than five feet from the street building line of Vleigh Place; that such building shall in all other respects comply with the requirements of the Building Code and Zoning Resolution; and that the dentist's quarters may continue for the office of the dentist living in the dwelling and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—John J. Tricarico, for Baribay Co., Inc., owner.

SUBJECT—Application May 7, 1958—decision of the Borough Superintendent, under sections 7e and 7h of the Zoning Resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station with accessory uses of minor auto repairs with hand tools only, car wash—non automatic, lubritorium, office and accessory sales and the parking and storage of more than five (5) motor vehicles all for a temporary term of fifteen (15) years.

PREMISES AFFECTED—2310-2322 Stillwell Avenue, 2-4 28th Avenue, northwest corner and 2759-2777 Bath Avenue, Block 6887, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: John J. Tricarico.

For Opposition: C. J. Cammarato, N.Y.C. Housing Authority.

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to November 25, 1958, for inspection and decision; hearing closed; then to December 2, 1958, for applicant to obtain from the owner of record an affidavit if it turns out that Frank Piscopo is not the owner individually but that the premises are owned by the company of which he is president; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Stillwell Avenue, Bath Avenue, Bay 47th Street and 28th Avenue are in a local retail use D area, class 1 height district; that on July 25, 1916 the property was in a business use district and was rezoned to its present designation on February 18, 1954; and

WHEREAS, the decision of the Borough Superintendent, dated May 2, 1958 acting on N.B. Applie. No. 615-58, reads:

"1. Proposed gasoline service station, auto (minor) repairs, car wash, lubritorium, office (access.) sales, parking & storage of more than five motor vehicles within a local retail use district is contrary to Art. II, Par. 4-c of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 121 feet 4¾ inches frontage by 33 feet 8¾ inches in depth, irregular, presently vacant; that it is proposed to erect a modern gasoline service station with minor auto repairs using hand tools only, non-automatic car wash, lubritorium, office and accessory sales, parking and storage of more than five motor vehicles, for a temporary term of fifteen years; that the proposed accessory building is approximately 63 feet by 30 feet, one story in height, of class 3 construction and highly modern in design; and

WHEREAS, the applicant states that the site is located in a poorly and sparsely developed neighborhood, plagued with a noisy elevated railroad which darkens Stillwell Avenue; that this unattractive physical condition has stunted the development of this area, and this is borne out by the many vacant plots in the affected area; that the premises cannot be economically developed with a conforming use; that the odd shape of the lot and D area zone restrictions make any sizeable building impossible to construct; that any demand for retail stores or for a shopping center has already been met by the large chain store supermarket located directly across from the proposed; that this store is now barely able to maintain itself; and

WHEREAS, the applicant contends that there is a need for a gas station at this location as the fairly new housing project in the area has created a demand for the essential community service provided by a gas station; that this need can be met and still safeguard the community's rights and

health by granting a temporary variance, subject to the appropriate conditions; that Stillwell Avenue is a main auto lane to Coney Island and as such, the proposal is entirely in keeping at this point; that tax assessments are high and the owner is seeking a means for an equitable return on his investment, and if this application is granted it would increase the City assessments and enable the owner to meet the increased tax; and

WHEREAS, the applicant states that the present owner has held title to the property since January, 1955 and that the assessed valuation of land is \$7,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e, for a term of 15 years to permit the premises to be occupied as a gasoline service station and lawfully uses accessory thereto, substantially as proposed and indicated on plans filed with this application marked, "Received May 7, 1958," 4 sheets, *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be constructed and maintained substantially as indicated on plans above cited; that the accessory building shall be of the arrangement, design and location as shown, without cellar, and faced with face brick on all sides, and in all other respects comply with the requirements of the Building Code; that the doors to the toilet rooms shall not be contiguous; that pumps shall be erected not nearer than 15 feet to the street building line of Stillwell Avenue and Bath Avenue; that the balance of the plot where not occupied by accessory building and pumps shall be paved with concrete or asphaltic pavement; that there may be two curb cuts to Bath Avenue and two to Stillwell Avenue, each 30 feet in width; that no portion of any curb shall be nearer than 5 feet to a lot line as prolonged; that at the intersections of Bath Avenue and 28th Avenue and Stillwell Avenue and 28th Avenue there shall be a block of concrete erected not less than 12 inches in height and running for 5 feet along each building line; that gasoline storage tanks shall not exceed ten 550 gallon approved gasoline storage tanks; that the sidewalk and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that on the rear lot lines to the north there shall be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 feet, 6 inches, continuously from Bath Avenue and returning to the wall of the accessory building, and from the accessory building to Stillwell Avenue, as shown on such plans; with suitably constructed terminating posts; that there shall be no openings in the accessory building rear wall to adjoining premises; that during the term of this variance the premises shall be occupied for no other use and no other uses shall be permitted except those as herein before stated; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i, for a similar term minor repairs may be permitted with hand tools only for adjustment and maintained solely within the accessory building; that under Section 7h, for a similar term there may be parking of motor vehicles on such portion of the premises as where the parking will not interfere with the servicing of the station; that signs shall be restricted to permanent signs attached to the facade of the building and the illuminated globes of the pumps excluding all roof and temporary signs and advertising devices, but permitting the erection, where shown on the 28th Avenue building line, of one post standard for supporting a pair of signs, as indicated, advertising only the brand of gasoline on sale, and permitting such signs to extend beyond the building line for a distance of not more than 4 feet; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 5, 1958 after due notice by publication in the Bulletin; laid over to December 2, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Fifth Avenue are in a residence use, B area, class 1½ height district; East 106th Street and East 107th Street are in residence and local retail use, B area, class 1½ height districts; Madison Avenue is in a local retail use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 6, 1958 acting on Alt. Applic. No. 707-58, reads:

"1. Proposed parking lot for more than five (5) motor vehicles in a residence use district is contrary to Article II Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 220 feet 2 inches frontage by 201 feet 10 inches in depth; that all of the area in question is vacant land; that lot 68 was vacant when it was purchased in January, 1958; that all of the remaining area, excepting lot 68, has been vacant property for at least 25 years; and

WHEREAS, the applicant further states that area A, shown on map of premises, Revision of July 24, 1958, was installed by the City of New York prior to acquisition by him; that said area A is a black top on miscellaneous fill, and is advised that no further surfacing is necessary on this area; that areas B and C consist of a miscellaneous fill covered with six inches of cinders compacted to four inches of cinders, and he is advised that these areas require no further surfacing; and

WHEREAS, the applicant states that the existing conditions of the property in question is that there are no buildings on the area for which a private parking lot is proposed; that the area extends from a point beginning 99 feet 10 inches easterly on 106th Street from the easterly side of Fifth Avenue extending a distance along 106th Street east 220 feet 2 inches and 100 feet 11 inches in depth and the adjoining property immediately north of said plot beginning approximately 99 feet 10 inches on the south side of 107th Street, easterly from the corner formed by the easterly side of Fifth Avenue and the southerly side of 107th Street, for a distance of approximately 96 feet, to an intervening plot on which a building is situated, having a frontage of approximately 41 feet, which lot and building is not included in the plot in question, and then extending a distance of an additional 82 feet along the southerly side of 107th Street, being 100 feet 11 inches in depth; and

WHEREAS, the applicant further states that immediately to the west of the premises and facing on Fifth Avenue, is a public parking lot; that to the east of the premises involved there are only four buildings remaining on the Madison Avenue side; that there are four vacant lots in this area;

that of the total area in this block, that is, approximately 80,400 square feet, approximately 66,100 square feet is vacant land; and

WHEREAS, the applicant contends that the Medical College and Hospital now occupies the entire front on Fifth Avenue, between 105th and 106th Streets, extending 325 feet east to and including 22 East 106th Street, and east 325 feet to and including 23 East 105th Street; that traffic congestion in the area creates a situation where doctors and ambulances which must temporarily park, have no facilities therefor; that numerous conferences have been had with the Traffic Commissioner of the City of New York relating to alleviation of the parking and traffic problems surrounding the Medical College and Hospital; that the Traffic Commissioner is of the opinion that there is no street space to park cars for doctors and necessary hospital vehicles, except through this proposed private parking lot; that doctors find it difficult, if not impossible, to park their cars when making necessary visits to the Medical College and Hospital; that there are times when ambulances must be temporarily parked and no facilities are available therefor; and

WHEREAS, the applicant further contends that at the present time and for many years prior to this application, more than 73 percent of block 1612 is and has been vacant land upon which no buildings exist; that the proposed parking lot would in no way detract from the area, but will improve the appearance and upkeep of the entire area; that persons living within the block normally do not travel westward on 106th Street; that there is little pedestrian traffic on the north side on 106th Street; that Central Park is on the west side of Fifth Avenue and normal pedestrian traffic is either eastward, southward or northward on Madison Avenue; that no entrance or exit is planned for East 107th Street and the lot would not interfere in any way with pedestrian traffic on 107th Street; that pictures numbered 1 to 8, taken in broad daylight on June 3, 1958, reveal that no person was on any of the sidewalks at the time the pictures were taken; and

WHEREAS, the applicant states that the present owner has held title to the property since November 6, 1957 and that the assessed valuation of land is \$223,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the committee also noted that the parking lot on Fifth Avenue which was granted by the Board under Cal. No. 598-52-BZ was not occupied, and apparently has not been used, and the committee recommends that notice should go to the applicant therein that the Board intends to cancel the resolution that expired March 3, 1958; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Sections 7h for a term of five years to permit the premises to be occupied as proposed for the parking of motor vehicles restricted to the cars of the staff of the medical college and hospital and visiting physicians and patients' visitors *on condition* that all uses now on the premises shall be removed and the premises shall be leveled substantially to the grade of East 106th Street and 107th Street and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that the plot shall be as shown on plans filed with this application marked "Received August 1, 1958", 2 sheets, and "October 6, 1958", one sheet; that on all lot lines there shall be erected a woven wire fence of the chain link type on a masonry base not less than five feet six inches in total height, with no openings therein except one opening at 106th Street for entrance and exit, not exceeding 15 feet in width, with curb cut opposite of similar width; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon except there may be erected near the entrance a

MINUTES

building not over one story in height and not more than one hundred square feet in area solely for use as a shelter and office for the attendant; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that sidewalks and curbing on both streets abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to one sign attached to the fence at the entrance stating the private use of the parking lot for doctors and attendants of the hospital et al; that such sign shall not exceed five square feet and shall not be illuminated and shall not extend beyond the building line; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 47-47-SA

Subject: Amendment to resolution as to additional model oil burner.

Holland Furnace Co., Michigan, requested by letter dated September 16, 1958, that the resolution adopted April 29, 1947 under Calendar Number 47-47-SA be amended so as to include the Model P-3 Oil Burner. The application was reopened by a vote of the Board, October 21, 1958.

Purpose

The appliance is a gun type oil burner.

Description

The requested Model P-3 is similar to the Model P-2, previously approved, and is just a change in model designation. The Model P-3 has been approved by the Underwriters Laboratory under MP 1343.

Recommendation

The Committee on Test recommends that the resolution adopted April 29, 1947 under Calendar Number 47-47-SA be amended so as to include the additional Model P-3 Oil Burner on condition that the requirements of resolution adopted April 29, 1947 under Calendar Number 47-47-SA be complied with.

THE RESOLUTION—

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 160-49-SM-Vol. II

Subject: Amendment to resolution as to additional gas range connectors.

Flexible Connector Company of America, Inc., Boston, Mass. requested by letter dated September 2, 1958 that the resolution adopted June 7, 1949 and as amended through July 9, 1957 under Calendar Number 160-49-SM Vol. 1 & II be amended so as to include additional gas range connectors and modifications of those previously approved. The application was reopened by a vote of the Board, October 15, 1958.

Purpose

The appliance is a flexible brass gas range connector.

Description

The requested connectors shall be designated by drawing numbers and all modification and changes will refer to drawing numbers.

DWG.39871 is similar to Dwg.73210, approved July 9, 1957, having $\frac{1}{4}$ inch I.D. but with an end ferrule that forms a cap over the O.D. of the hose for a minimum length of $\frac{1}{8}$ inch.

Dwgs. 4807 and 73872 are similar to Dwg.86322, approved July 9, 1957, having $\frac{3}{8}$ inch I.D. excepting the end ferrules enter the hose for a minimum distance of $\frac{1}{8}$ inch and as an alternate, forming a cap over the hose for a minimum depth of $\frac{1}{8}$ inch.

Dwgs. 3872-Alt 1 and 75862 are similar to Dwg.7936 and 7931, approved July 9, 1957, having $\frac{1}{2}$ inch I.D. excepting that the end ferrules are fitted into the inside of the hose for a minimum distance of $\frac{1}{8}$ inch or fitted over the hose for a minimum distance of $\frac{1}{8}$ inch.

Dwg. 12625 Alt. 1 is similar to 15675-2, approved July 7, 1954, having $\frac{1}{2}$ inch I.D. except that it has double the wall.

Long Flex Dub-L-Wall is a double wall connector consisting of an inner tube of aluminum and an outer brass tube and having a mechanically attached coupling.

Inspection and Test

The connectors were examined by Ass't Engr. J. A. Darts, Committee on Test. All connectors have been approved by the American Gas Association.

Recommendation

On the basis of the inspection and the data filed by the applicant, The Committee on Test recommend that the resolution adopted June 7, 1949 and amended through July 9, 1957 under Calendar Number 160-49-SM be amended so as to include the gas range connectors as herein described on condition that the requirements of the resolution adopted

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 367-49-SA-Vol. II

Subject: Amendment to resolution as to additional trade name.

Williams-Oil-O-Matic Heating Company, Columbus, Ohio, requested by letter dated August 11, 1958, that the resolution adopted December 5, 1950 and amended July 10, 1951 under Calendar Number 367-49-SA be amended so as to permit the approved oil burner to be marketed under an additional trade name. The application was reopened by a vote of the Board, October 21, 1958.

Description

The Model D-4 is similar to the Model D-2, approved by the Board, July 10, 1951, except as to firing range. The D-4 having a range of 0.75 to 1.35 gph and the D-2 having a range of 1.0 to 3.0 gph.

Recommendation

The Committee on Test recommends that the resolution adopted December 5, 1950 and amended July 10, 1951 under Calendar Number 367-49-SA be amended so as to include the Model D-4 and permission to market the Models D-4 and D-2 by the Williams Oil-O-Matic under the Model designation HPA-4 and HPA-2.

Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 148-50-SM.

Subject: Amendment to resolution as to include a new size Edge Strips and to include Cant Strips.

National Gypsum Co., Buffalo, New York requested by letter dated September 22, 1958 that the resolution adopted July 15, 1958 under Calendar Number 148-50-SM be reopened and amended so as to include the additional material; Gold Bond Fiberlok Tapered Edge Strips and to include Gold Bond Fiberlok Cant Strips.

Purpose

The board is to be used for thermal and sound insulation on roofs.

Description

The Gold Bond Fiberlok Tapered Edge Strip previously approved is now also manufactured in an 18 inch width by 4'-0" length being $\frac{1}{8}$ inch thick along one 4' edge and $1\frac{5}{8}$ inch thick along the other 4' edge.

Gold Bond Fiberlok Cant Strips are used in filling the right angle formed by the roof and vertical surface such as parapets, etc. They are fabricated from the same materials as those previously approved. The long edges are cut at 45° from the face side. The product is supplied in the following sizes in any combination;

LENGTH	4' and 8'
WIDTH (face side);	$5\frac{5}{8}$ ", $5\frac{1}{2}$ ", $4\frac{1}{2}$ ", 4"
THICKNESS	2", $1\frac{5}{8}$ ", $1\frac{1}{2}$ "

The Committee on Tests recommends that the resolution adopted July 15, 1958 under Calendar Number 148-50-SM be reopened and amended so as to include the additional materials known as Gold Fiberlok Tapered Edge Strips and Gold Bond Fiberlok Cant Strips on condition that the requirements of the resolution adopted July 15, 1958 under Calendar Number 148-50-SM be complied with except that in lieu of the wrapper or package being tagged, stamped or labeled, the shipping tickets and/or invoices or bills of lading shall be marked "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 148-50-SM".

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 511-52-SA.

Subject: Amendment to resolution as to additional models of gas unit heaters.

Norman Products Company, Columbus, Ohio, requested by letter dated September 22, 1958 that the resolution adopted February 9, 1954 and amended April 2, 1957 under Calendar Number 511-52-SA be amended so as to include additional models of gas unit heaters. The application was reopened by a vote of the Board, October 21, 1958.

Purpose

The appliance is a gas fired unit heater for use in domestic and commercial installations and also to be used in garages and places of explosive atmospheres.

Description

The requested models RHD-115 C is the same as the RHD-100C only change being in model designation.

The Models RHD-115D and RHD-85D are similar to the approved models except that they are known as a down blow type.

The Model RHD-85C is similar to the RHD-115C except that the unit is of smaller capacity.

The construction and controls on all units are similar to the previously approved models.

All models have been approved by the American Gas Association under Certificate #4, 1555.0 & .01, .001 and 4-1555.101.

Recommendation

The Committee on Test recommends that the resolution adopted February 9, 1954, and amended April 2, 1957 under Calendar Number 511-52-SA be amended so as to include the Models RHD-115C, RHD-115D, RHD-85D and RHD-85C, Norman Gas Fired Unit Heaters on condition that the requirements of the resolution adopted February 9, 1954 and amended April 2, 1957 under Calendar Number 511-52-SA be complied with.

The committee further recommends that as the combustion Air is drawn from the outside by means of a separate inlet pipe, the heater may be installed in garages or places of explosive atmospheres.

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.
GEORGE F. SKLENARIK,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 788-53-SM

Subject: Amendment to resolution as to additional safety can.

Eagle Manufacturing Co., Wellsburg, West Virginia, requested by letter dated November 3, 1958 that the resolution adopted March 23, 1954 under Calendar Number 788-53-SM be amended to include additional safety cans. The application was reopened October 21, 1958.

Purpose

Safety containers for temporary storage of flammable liquids.

Description

The safety cans U2-51-S and U2-26-S are 2½ and 5 gallon capacity. The cans are made of 24 gauge terne steel. The bodies and breasts are each seamless drawn from one piece steel and are welded together. The bottoms are reinforced with a 16 gauge steel hoop. The cans are equipped with a flexible metal spout and the filler opening and pouring spout have double metal wire mesh fire baffles or screens. A working valve at the base of flexible spout is operated by free-swing handle. The requested Models have been approved by the Underwriters' Laboratory under MH 5018.

Recommendation

The Committee on Test recommends that the resolution adopted March 23, 1954 under Calendar Number 788-53-SM be amended so as to include the Models U2-51-S and U2-26-S Safety Cans on condition that the requirements of the resolution adopted March 23, 1954 under Calendar Number 788-53-SM are complied with.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 313-54-SM

Subject: Amendment to resolution as to additional asbestos shingles.

MINUTES

National Gypsum Co., Buffalo, New York requested by letter dated September 26, 1958 that the resolution adopted April 2, 1957 and amended May 27, 1958 under Calendar 313-54-SM be amended so as to include additional asbestos shingles. The application was reopened by a vote of the Board, October 15, 1958.

Purpose

The material is to be used as an exterior finish on Class IV Buildings.

Description

The shingles are manufactured of the same material as the shingles previously approved, the difference being in the size, color and corrugations.

Recommendation

The Committee on Test recommends that the resolution adopted April 2, 1957 and amended May 27, 1958, under Calendar Number 313-54-SM be amended so as to include the material known as Gold Bond Deep Tex Siding Shingles in various colors and the Gold Bond Sussex "32" Siding Shingles in various colors on condition that the requirements of the resolution adopted April 2, 1957 under Calendar Number 313-54-SM be complied with.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT of COMMITTEE ON TEST

Re: Calendar Number 546-54-SM.

Subject: U.S.G. Demountable Office Partition.

The United States Gypsum Co., New York, N. Y., requested by letter dated October 7, 1957, that the resolution adopted March 29, 1955 be reopened and amended to include approval of an improved design and approval for its sale under the trade name of E-Z Wall Moveable Partition.

The case was reopened by vote of the Board on October 29, 1957.

Purpose

The partition is to be used as an incombustible moveable subdividing partition under the provisions of C26-667.0.5 in all classes of construction.

Description

The improved moveable partition system consists of steel studs, steel track, steel pipe, steel floor and runner track steel accessories and extruded aluminum shapes and forms all of which support doors, lights, glass and laminated gypsum mineral wallboard panels. All exposed trim is steel or aluminum. The gypsum mineral wallboard laminated panels may be furnished ready for paint or predecorated with a vinyl plastic film less than .05 inches thick.

In erection, the galvanized steel floor runner is secured to the floor. The runner has formed in spacers to hold the panels in alignment. Galvanized steel studs, open web type are erected vertically at not over 2'-0" centers and engaged in the edges of the panels.

Panels are 3/4" thick by not over 24" wide by appropriate height up to and including 14'.

They shall have accurately formed off set edges for concealed attachment to the steel studs. The face may have rounded or tapered edge panel.

Partitions shall be railing height, cornice height or ceiling height. Where desired, the filler pieces from the top of the partition to the ceiling shall be mineral wallboard secured to studs.

All exposed metal for door frames, lights, windows, glazing posts and metal base shall be steel or aluminum. Glass shall be set in putty or plastic glazing channels.

Base trim shall be metal, asphalt or rubber or hardboard as desired. Working drawings and manufacturer's literature is part of the record.

Inspection and Tests

The U.S.G. Movable Partition as originally approved was subjected to a standard fire test in accordance with ASTM E119-47 as required by C26-6090. Test was conducted at the Engineering Experiment Station of Ohio State University. Failure was at 39 minutes and 15 seconds.

The improved movable partition, known as the E-Z Wall, was tested June 19, 1958 in accordance with ASTM-E119-47, as required by C26-6090. Test was conducted at the Engineering Experiment Station of Ohio State University. Failure was at 32 minutes and 18 seconds.

Field inspections of the original approved partition were made by John A. Darts, Assistant Engineer, Committee on Test. Component parts of the improved E-Z Way partition were examined and found to comply as to required rigidity and design.

Recommendation

On the basis of fire tests conducted and field inspections and data submitted by the applicant, the Committee on Test recommends that the resolution adopted March 29, 1955 under Calendar Number 546-54-SM be amended to permit the sale of the new improved U.S.G. movable partition under the name of USG E-Z Wall Movable Partitions and that the E-Z Wall Movable Partition when assembled and erected of component parts as described above be approved for use as an incombustible subdividing partition in all Classes of Construction without limitations as to height as provided by Section C26-667.0.5 of the Administrative Code on condition that all shipments or invoices shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 546-54-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of March 29, 1955 in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 82-56-SA

Subject: Heil-Quaker Gas Fired Heating Equipment, also to be marketed as Sears Roebuck Homart Gas Fired Heating Equipment.

The Heil Company, now operating its heating division as the Heil-Quaker Corp., Nashville, Tenn., filed January

30, 1956 an application with the Board of Standards and Appeals for approval of the Heil-Quaker Gas Fired Heating Equipment, Models BFG-O-N, BFG-O-M, AFG-OO-N, AFG-OO-M, AFG-O-N, AFG-O-M, AFG-2-N, AFG-2-M, AFG-3A-N, AFG-3A-M, AFG-5-N, AFG-5-M, also to be marketed as Sears Roebuck Homart Gas Fired Furnaces, Models 867.60192, 867.60211, 867.60311, 867.60221, 867.60321, 867.60231, 867.60331 867.60241, 867.60341, 867.60251, 867.60351; Heil-Quaker Models JFG-O-N, JFG-O-M, DFG-O-N, DFG-O-M; Heil-Quaker Gas Fired Horizontal Furnaces Models HG-60B-N, HG-60B-M, HG-80B-N, HG-80B-M, HG-100B-N, HG-100B-M, HG-120B-N, HG-120B-M, HG-140B-N, HG-140B-M; Heil-Quaker Gas Fired Furnaces Models BG-80, BG-100, BG-120, BG-160, BG-200, EG-80, EG-100, EG-120, EG-80D, EG-100D; Heil Quaker Gas Fired Boilers, Models JB-4-N, JB-4-M, JB-4-MN, JB-5-N, JB-5-M, JB-5-MN, JB-6-N, JB-6-M, JB-6-MN, JB-7-N, JB-7-MN, JB-7-M, JB-8-N, JB-8-M, JB-8-MN, JB-10-N, JB-10-M, JB-10-MN also to be marketed as the Sears Roebuck Homart Gas Fired Boilers, Models 867.59981, 867.59991, 867.59982, 867.60011, 867.60021, 867.60012, 867.60041, 867.60051, 867.60042, 867.60071, 867.60081, 867.60072, 867.60101, 867.60111, 867.60102, 867.60131, 867.60141, 867.60132; The Heil-Quaker Gas Fired Boilers, Models JB-75, JB-95, JB-120, JB-140, JB-160, JB-200, also to be marketed as the Sears Roebuck Homart Gas Fired Boilers Models 867.6125, 867.6126, 867.6127, 867.6128, 867.6129, 867.6130, 867.6149, 867.6150; Heil Quaker Conversion Gas Burners, Models GC-11N, GC-11M, GC-12N, GC-12M, GC-13N, GC-13M for use New York City under the provisions of Article 12, Administrative Building Code.

Purpose

Gas Fired warm air furnaces, steam or hot water boilers and conversion gas burners.

Description

The series BFG, AFG, JFG, DFG, BG and EG Furnaces are packaged units consisting of a gas burner or burners, a steel heat exchanger, a blower fan and filter, and a built in draft diverter all assembled in an insulated sheet steel cabinet finished in a baked on enamel. The BFG, AFG, JFG and DFG series have an atmospheric upshot burner with a flame spreader. The BG and EG series have cast iron burners with ribbon ports.

Each model is provided with a safety pilot, fan limit control and thermostat.

The input capacities are:

Heil Model	Sears Model	Btu Per Hour
BFG-O-N	867.60192	90,000
BFG-O-M	—	90,000
JFG-O-N	—	95,000

EG-80D	867.6090	80,000
EG-100D	—	100,000

MINUTES

The letter N in the model designation is for natural gas; the letter M for manufactured gas.

The HG Series are similar to the above except that they are designed for suspended installation or for installation in suitable spaces other than in garages or places where there may be explosive atmospheres.

The input capacities in thousands of Btu per hour are shown by the numerals in the model designation.

The JB Series are hot water or steam boilers designed as packaged units consisting of drilled port cast iron burners and cast iron boiler sections assembled into an insulated sheet steel jacket. Controls consist of a safety pilot, aquastat, pressure trol and low water cutoff on steam boilers relief valve on steam and a thermostat.

The Capacities and Model Designations are:

Heil Model	Sears Model	Btu per hour input
JB-4-N	867.59981	75,000
JB-4-M	867.59991	75,000
JB-4-MN	867.59982	75,000

-	867.6149	
-	867.6150	

The GC Series are conversion burners made with an up-shot burner and flame spreader. Controls include a safety pilot of the self-generating. The burners are adjustable in length and height.

The capacities in Btu per hour input for the various burners are;

Model GC 11 —	210,000
Model GC 12 —	370,000
Model GC 13 —	400,000

Inspection and Test

All details of construction were examined by Ass't. Engr. G. F. Sklenarik, Committee on test.

The various furnaces, boilers and conversion burners have been tested and approved by the American Gas Association.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the Heil-Quaker Gas Fired Heating Equipment BFG-O-N, BFG-O-M, AFG-OO-N, AFG-OO-M, AFG-O-N, AFG-O-M, AFG-2-N, AFG-2-M, AFG-3A-N, AFG-3A-M, AFG-5-N, AFG-5-M also to be marketed as Sears Roebuck Homart Gas Fired Furnaces Models 867.60192, 867.60211, 867.60311, 867.60221, 867.60321, 867.60231, 867.60331, 867.60241, 867.60341, 867.60251, 867.60351; Heil-Quaker Models JFG-O-N, JFG-O-M, DFG-O-N, DFG-O-M; Heil-Quaker Gas Fired Horizontal Furnaces, Models HG-60B-N, HG-60B-M, HG-80B-N, HG-80B-M, HG-100B-N, HG-100B-M, HG-120B-N, HG-120B-M, HG-140B-N, HG-140B-M; Heil-

Quaker Gas Fired Furnaces Models BG-80, BG-100, BG-120, BG-160, BG-200, EG-80, EG-100, EG-120, EG-80D, EG-100D also to be marketed as Sears Roebuck Homart Gas Fired Furnaces, Models 867.6046, 867.6047, 867.6048, 867.6049, 867.6050, 867.6084, 867.6085, 867.6086, 867.6090; Heil-Quaker Gas Fired Boilers, Models JB-4-N, JB-4-M, JB-4-MN, JB-5-N, JB-5-M, JB-5-MN, JB-6-N, JB-6-M, JB-6-MN, JB-7-N, JB-7-M, JB-7-MN, JB-8-N, JB-8-M, JB-8-MN, JB-10-N, JB-10-M, JB-10-MN also to be marketed as The Sears Roebuck Homart Gas Fired Boilers, Models 867.59981, 867.59991, 867.59982, 867.60011, 867.60021, 867.60012, 867.60041, 867.60051, 867.60042, 867.60071, 867.60081, 867.60072, 867.60101, 867.60111, 867.60102, 867.60131, 867.60141, 867.60132; Heil-Quaker Gas Fired Boilers, Models JB-75, JB-95, JB-120, JB-140, JB-160, JB-200, also to be marketed as the Sears Roebuck Homart Gas Fired Boilers, Models 867.6125, 867.6126, 867.6127, 867.6128, 867.6129, 867.6130, 867.6149, 867.6150; and the Heil-Quaker Conversion Gas Burners, Models GC-11N, GC-11M, GC-12N, GC-12M, GC-13N, GC-13M for use in New York City when installed in accordance with this report and the provisions of Article 12, Administrative Building Code, provided that each furnace, boiler or conversion burner shall bear a label, permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 82-56-SA".

Re: Calendar Number 83-56-SA.

Subject: Heil-Quaker Winter Air Conditioners (Oil-Fired) also to be marketed as Sears-Roebuck Winter Air Conditioners.

The Heil Company, now operating its heating division as the Heil-Quaker Corp., Nashville, Tenn., filed January 31, 1956 an application with the Board of Standards and Appeals for approval of the Heil-Quaker Winter Air Conditioners (Oil-Fired) Series BF-O, JF-O, DF-O, AF-O, AF-2, AF-3, AF-4, AF-5, LO-84, LO-112 also to be marketed as Sears-Roebuck Homart Winter Air Conditioners Models 867.51841, 867.7084, 867.9284, 867.50951, 867.50113, 867.50126, 867.81351, 867.91651, 867.4684, 867.46112; Heil-Quaker Oil Fired Suspension Furnaces, Models HO-1, HO-2, HO-3, HO-4 and the HO-75 and HO-100 which will also be marketed by Sears-Roebuck as their Model 867.9784 and 867.97112 Oil Fired Suspension Furnaces; Heil-Quaker Oil Fired Boiler

MINUTES

Units Models WB-1, RB-1A, RB-2, DB-2, DB-3, DB-4 and the Heil-Quaker Conversion Oil Burners, Models CB-1-8, CB-1-15, CB-1-20, CB-2-8, CB-2-15, CB-2-20, SG-3-15, SG-3-20, LB-1-15, LB-1-20 also to be marketed as Sears-Roebuck Homart Conversion Oil Burners, Models 867.1715, 867.1920, 867.3031, 867.4031, 867.3025, 867.1815, 867.2120 under the provisions of Article 12, Administrative Building Code and the Oil Burner Rules of the Board.

Purpose

Oil burning warm air furnaces, boiler-burner units and conversion oil burners.

Description

The series BF, JF, DF, AF and LO furnaces are package units made up with a flange mounted approved oil burner that fires into a refractory lined combustion chamber which in turn connects to a steel heat exchanger. These units have a fan and motor installed for forced air circulation. The steel cabinets are lined with fibre glass insulation and the outer surface is finished in a baked on enamel.

Every unit is provided with a primary control such as a stack switch, a fan temperature limit control, a thermostat and draft regulator.

The firing capacity for each model using No. 2 fuel oil is as follows:

Heil Model	Sears Model	Gallons per hour
BF-O	867.51841	0.75
JF-0	867.7084	0.75
DF-0	867.9284	0.75
AF-0	867.50951	0.85
AF-2	867.50113	1.00
AF-3	867.50126	1.10
AF-4	867.81351	1.25
AF-5	867.91651	1.50
LO-84	867.4684	0.75
LO-112	867.46112	1.00

The HO Series are similar in construction and equipment as the above but have 12 gauge steel combustion chambers and are designed for suspended installation or for installation in suitable spaces, other than in garages or places where there may be explosive atmospheres.

The firing capacities are for No. 2 fuel oil.

Heil Model	Sears Model	Gallons per hour
HO-1	—	0.85
HO-2	—	1.00
HO-3	—	1.35
HO-4	—	2.00
HO-75	867.9784	0.75
HO-100	867.97112	1.00

The WB, RB, and DB Series are hot water and steam boilers designed as package units. Combustion chambers are refractory lined and the outer jackets are insulated with glass fibre. Provisions are made for supplying domestic hot water. Maximum steam pressure is 15 psi. Maximum hot water pressure for heating is 30 psi. The pressure is created by means of an external circulating pump installed in the unit.

Other equipment includes oil burner with burner mounted primary control, flow control valve, pressure relief valve, thermometer, operating control, high limit control, pressuretrol on steam thermostat, draft regulator.

The firing capacities for the different models are:

Model WB-1	hot water heat only	0.85 gal./hr.
Model RB-1A	hot water or steam	0.85 gal./hr.
Model RB-2	hot water or steam	1.10 gal./hr.
Model DB-2	hot water or steam	1.30 gal./hr.
Model DB-3	hot water or steam	1.80 gal./hr.
Model DB-4	hot water or steam	2.30 gal./hr.

The CB, SG and LB Series are conversion burners designed for No. 2 fuel oil. They are high pressure gun type burners, pedestal mounted.

The capacity range of each model is:

Heil Model	Sears Model	Gallons per hour
CB-1-8	—	0.65 to 1.65
CB-1-15	867.1715	0.65 to 1.65
CB-1-20	867.1920	0.65 to 1.65
CB-2-8	—	0.75 to 2.50
CB-2-15	867.3031	0.75 to 2.50
CB-2-20	867.4031	0.75 to 2.50
SG-3-15	867.3025	3.00 to 6.00
SG-3-20	—	3.00 to 6.00
LB-1-15	867.1815	0.5 to 1.50
LB-1-20	867.2120	0.5 to 1.50

The last number in the Heil model designation indicates the length of the burner tube.

Inspection and Test

All details of construction were examined by Ass't. Engr. G. F. Sklenarik, Committee on Test.

All Models listed have been tested and approved by the Underwriters' Laboratories.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the Heil-Quaker Winter Air Conditioners-Oil Fired-Series BF-0, JF-0, DF-0, AF-0, AF-2, AF-3, AF-4, AF-5, LO-84, LO-112 also to be marketed as Sears-Roebuck Homart Winter Air Conditioners Models 867.51841, 867.7084, 867.9284, 867.50951, 867.50113, 867.50126, 867.81351, 867.91651, 867.4684, 867.46112; Heil-Quaker Fired Suspension Furnaces, Models HO-1, HO-2, HO-3, HO-4 and the HO-75 and HO-100 which will also be marketed by Sears-Roebuck as their Model 867.9784 and 867.97112 Oil Fired Suspension Furnaces; Heil-Quaker Oil Fired Boiler Units, Models WB-1, RB-1A, RB-2, DB-2, DB-3, DB-4 and the Heil-Quaker Conversion Oil Burners, Models CB-1-8, CB-1-15, CB-1-20, CB-2-8, CB-2-15, CB-2-20, SG-3-15, SG-3-20, LB-1-15, LB-1-20, also to be marketed as Sears-Roebuck Homart Conversion Oil Burners, Models 867.1715, 867.1920, 867.3031, 867.4031, 867.3025, 867.1815, 867.2120 for use in New York City when installed in accordance with this report and the Oil Burner Rules of the Board and the provisions of Article 12, Administrative Building Code including the clearance requirements therein provided that each furnace, boiler or burner shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 83-56-SA."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 334-56-SM

Subject: Amendment of resolution as to include Terson
2315 FRS-MRS and Terson 2316 FRS-MRS
(flameproof fabric for folding doors).

Athol Manufacturing Company, Athol, Mass., requested
by letter July 7, 1958, that the resolution adopted October 9,
1958, under Calendar Number 334-56-SM, be amended to
include additional weight of flameproof fabric. The applica-
tion was reopened by a vote of the Board, September 17,
1958.

Purpose

The material is a flame resistant material to be used in
folding doors.

Description

The material is the same as approved under Calendar
Number 334-56-SM, October 9, 1956, except the basic differ-
ence is in the weight of the cotton cloth backing which is
known as A2.35 Osnaburg Cloth weighing 6.2 oz. per linear
yard.

Inspection and Test

Samples of the material were tested at the Better Fabrics
Testing Bureau in the presence of Assistant Engineer J. A.
Darts, Committee on Test and W. H. Masterson, repre-
senting the applicant.

Recommendation

The Committee on Test recommends that the resolution
adopted October 9, 1956, under Calendar Number 334-56-SM
be amended so as to include for approval, Terson 2315 FRS-
MRS and Terson 2316 FRS-MRS (flameproof fabric for
folding doors) on condition that the requirements of the
resolution adopted October 9, 1956 under Calendar Number
334-56-SM be complied with.

(Sgd.) SAMUEL L. BECKER,
Director,

JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does
hereby amend the resolution of October 9, 1956 in accord-
ance with the above report.

86-57-SM

APPLICANT—Sayre and Fisher Brick Co., owner.

SUBJECT—Application January 24, 1957—Aglite (light-
weight aggregate for concrete), approval of.

APPEARANCES—

For Applicant: Robert B. Hindman and John J. Lyons.

ACTION OF BOARD—Material approved in accordance
with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 86-57-SM.

Subject: Aglite, lightweight aggregate.

Sayre & Fisher Brick Co., Sayreville, New Jersey filed
January 24, 1957 an application with the Board of Standards
and Appeals for approval of the material known as Aglite,
lightweight aggregate, under the provisions of C26-178.0.b,
C26-10, C26-38.0., a.b.c.d.f.g, C26-315, C26-361, C26-363,
C26-364, C26-365, C26-468 through C26-509, C26-522,
C26-575, C26-620 and C26-630.

Purpose

The material is to be used as an aggregate in concrete.

Description

Clay is mined from the same pit where clay for brick has
been mined for over 100 years to manufacture brick for
Sayre & Fisher Brick Co. This clay is transported to a
clay shed adjoining the sintering plant. Clay is fed into
the feed hopper in clay shed by a bulldozer and is shredded
and placed in a surge hopper. From the surge hopper the
clay is fed onto a belt conveyor which transports the clay
to the pelletizer in the sintering plant. During its travel the
clay passes under the coal hopper where granulated anthra-
cite coal is added to clay in approximately 6 to 8% by volume.
As the clay and its coal additive continue they pass under the
return fines hopper where fine material screened from pre-
viously sintered material is added. This is in proportion of
approximately 10 to 15 percent by volume. These ingredients
are charged into the pelletizer where water is added to pro-
vide the proper consistency for sintering. The prepared
sinter charge is placed on a traveling grate by a swing spout
in a layer of nine inches thickness.

As the grate travels the charge passes under an ignition
hood where a flame momentarily applied to its top surface
ignites the charge. During this ignition a fan draws air for
combustion down thru the charge and burning continues as
the grate travels from beneath the ignition hood over a
succession of wind boxes where fans draw air down thru
the grate causing the charge to burn downward until the
charge is completely clinkered when the grate reaches the
discharge end of the sintering machine. The completed sinter
cake or clinker is discharged from the sintering machine and
conveyed to a yard stock pile where it remains until cool.
It is then charged into the crushing and screening plant and
graded into the following sizes: Coarse Aglite— $\frac{3}{4}$ " + $\frac{3}{8}$ ",
Medium Aglite— $\frac{3}{8}$ " + $\frac{3}{16}$ " and Fine Aglite— $\frac{3}{16}$ " thru
100 mesh. These sizes are stored in separate concrete silos.

Inspection and Test

A comprehensive range of tests was determined upon by
the Committee on Test. These tests included the following:
Compressive strength, unit weight, modulus of elasticity,
flexure strength, bond strength and determination of the
properties of Agalite when in flexure and subjected to fire.
These tests were conducted on various-water-cement ratios
so as to give sufficient data to plot all curves necessary to
evaluate the properties of Agolite as an aggregate for con-
crete as accepted in general engineering practice.

It was noted that the procedure used in mixing was as
follows: The aggregate and one half of the mixing water
were mixed for three minutes and then the cement and the
balance of the water and the air entraining agent were added
and mixed for six minutes, giving a total mixing time of
nine minutes.

All steel used for reinforcing conformed to the require-
ments of ASTM A-15 & A-305.

The complete report of the tests with all graphs are on
file with and are part of the record.

The graphs showing the "E" value which is used to arrive
at the "h" value, are numbered 3 through 15 inclusive.

Recommendation

Since it is the general intention of the applicant to apply
for the approval of Aglite, a lightweight aggregate, as an
all purpose aggregate for plain concrete average A & B
concrete and controlled concrete, The Committee has taken
into consideration only those sections of the Code pertaining
to those classifications.

MINUTES

On this basis and the tests and the data supplied by the applicant, The Committee on Test, under the provisions of C26-3.0, C26-4.0, C26-189.0 and C26-191.0 Administrative Building Code draw the following conclusions and recommend as follows in so far as granting approval under the various sections of the Administrative Building Code.

1. Sect. C26-10.a.b—The Committee is of the opinion that Aglite may be classed under the heading of Aggregate.

2. C26-315.0 Aggregates for reinforced concrete—As this section of the code does not mention expanded burnt clay, mentioning only burnt clay, The Committee is of the opinion, that, under C26-189.0.C "Aglite" be approved as an aggregate for reinforced concrete as it meets the Standard Specifications for Light Weight Aggregate for Concrete ASTM Designation C130-42 and accordingly recommends approval under C26-315.0.

3. C26-361.0—The Committee recommends the approval of Aglite as a plain concrete and if a mix as described in the discussion of C26-365.0 is used, The Committee further recommends that the allowable working stresses be increased to 25% of the ultimate compressive strength.

4. C26-363.0—The Committee is of the opinion that the allowable working stresses used in the design of reinforced concrete structures may be established under C26-364 and C26-365.0 when using Aglite as an aggregate and accordingly recommends approval under C26-363.0.

5. C26-364.0—Controlled Concrete Proportions and Allowable Working Stresses—The Committee is of the opinion that the material Aglite may be used as an aggregate for controlled concrete and recommends approval as such on the following conditions. That the design mixes, with the corresponding "n" value $\frac{E_s}{E_c}$ Ratio of Modulus of Elasticity of steel to the Modulus of Elasticity of Concrete) for the various strengths be as follows:

Strength	N	Design Mix	Air Entrain.	Cement bags/yd
2000	10.25	1:3:4½	1.5 oz/bag	4.44
2500	9.25	1:3½:5	1.5 oz/bag	4.18
3000	8.30	1:2.9:4½	1¼ oz/bag	4.70
3500	7.42	1:2.5:4	1 oz/bag	5.30

and that all other working stresses for controlled concrete conform to the table of Allowable Working Stresses as set forth in C26-364.2.

6. C26-365.0 Average Concrete: Proportions & Allowable Working Stresses—The Committee is of the opinion, that, on the basis of the strength shown in the test and as C26-365.0.b does not prohibit the use of average concrete of different mix proportions provided the working stresses conform to the values as set forth under C26-365.3; Aglite be recommended as an aggregate for average concrete and whose working stresses shall conform to the Table of Allowable Working Stresses as set forth under C26-365.3 except that the "N" value may be taken as 10 for Type A and 8 for Type B.

7. C26-468 through C26-509.0, Reinforced Concrete Construction. The Committee is of the opinion that Aglite meets the requirements of C26-468 through C26-509.0 and recommends the approval of Aglite as an aggregate for reinforced concrete.

8. C26-522, Painting of Structural Steel—The Committee is of the opinion that Aglite meets the requirements of C26-522 as it may be considered as non-corrosive aggregate as the sulphur content is 0.023%.

9. C26-522.0—As Aglite meets the requirements of C26-38.0.b.c.d.f and g as noted in paragraphs 5 and 6 above; The Committee is of the opinion that Aglite meets the requirements of C26-570.

10. C26-630—The Committee recommends the approval of Aglite as a top-filling as meeting the requirements of C26-630.

11. C26-620.0—The Committee is of the opinion that a design mix of 1:3 ½:6 ¼ may be used in lieu of the mix of 1:2:5 as provided under C26-620.0.

The Committee on Test, therefore recommends the approval of Aglite, light weight aggregate, under the provisions of the Administrative Building Code as mentioned herein on condition that each shipment of Aglite be accompanied by a bill of lading bearing the following statement "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 86-57-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Ass't. Engr.,
GEORGE F. SKLENARIK,
Ass't. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

109-57-SA

APPLICANT—The Coleman Co., Inc., owner.

SUBJECT—Application February 4, 1957—Coleman Gas-fired Space Heater, Models 2111, 2112, 2113, 2115, 2116, 2117 and 2118, approval of.

APPEARANCES—

For Applicant: Stanley M. Halpern.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 109-57-SA

Subject: The Coleman Co., Inc., Philadelphia, Pa., Coleman Gas-Fired Space Heaters.

The Coleman Co., Inc., filed February 4, 1957 an application with the Board of Standards and Appeals for approval of Coleman Gas-Fired Space Heaters, Models 2111, 2112, 2113, 2115, 2116, 2117 and 2118 for use in New York City under the provisions of Article 12, of the Administrative Code.

Purpose

For Heating the Home.

Description

These are gas burning space heaters, with cast iron sawed-slot port burners and heavy gauge steel heat exchanger, a built in draft diverter, assembled in an on the floor steel porcelain cabinets. Models 2111, 2112 and 2113 are circulating and radiant heaters, open grille, flue connected with 30,000, 40,000 and 55,000 Btu capacity. When Models 2111 and 2115 are used with propane or LPG-Air Mixtures, input rating is 25,000. Models 2115 L & D, 2116 L & D, 2117 L & D and 2118 L & D are circulating and radiant heaters, with radiant, genuine pyrex radiant front, flue connected with 30,000, 40,000 55,000 and 70,000 Btu capacity, L= indicates golden glow finish, D= indicates shadows mahogany finish.

Products of combustion are carried safely out of the home. Eliminates the damaging effects of condensed moisture released into the home. Small 4" vent pipe.

Automatic controls are optional on all models. Blower is optional on all models. Pressure regulator is standard on all models, insures an even flame regardless of gas pressure changes. Built-in Unitrol temperature control available on all models, standing pilot; Standard on all models. 100% safety pilot; Standard for propane, optional for natural, mixed and manufactured gases. Also available: Modulating or snap action thermostatic gas valves; Electric controls with wall thermostat.

MINUTES

Inspection and Test

These heaters have been tested and approved by the American Gas Association Inc., and were issued the following certificate numbers P-2-306C3.001 and P-2-306A2.001, January 1st, 1956.

Recommendation

On the basis of this inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Coleman Gas-Fired Space Heater, Models 2111, 2112, 2113, 2115 L&D, 2116 L&D, 2117 L&D and 2118 L&D for use in New York City, when installed and operated in accordance with this report and the requirements of Article 12, of the Administrative Building Code, provided that each heater bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 109-57-SA."

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 704-57-SA

Subject: American-Standard Gas Fired Horizontal Winter Air Conditioner Model GHA.

American-Standard Air Conditioning Division, New York, New York, filed September 6, 1957, an application with the Board of Standards and Appeals, for approval of the American-Standard Gas Fired Horizontal Winter Air Conditioner, Model GHA under the provisions of Article 12 and Section C26-191.0 Administrative Building Code.

Purpose

Gas fired warm air furnace.

Description

The GHA Model warm air furnaces are an assembly of cast iron slotted port burners installed beneath a heavy gauge multi-section steel heat exchanger, a blower fan and filters and the necessary controls, all housed in a steel jacket finished in a baked on enamel.

These models are to be vented outdoors, the flue connection being provided at a built in draft diverter.

The controls used are gas shut off valve, regulator valve, automatic shut off valve, thermostat, safety pilot and fan and temperature limit control.

The GHA Models are designated as GHA-85, GHA-100, GHA-125 and GHA-150, the number indicating in thousands the Btu per hour input rating.

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

The GHA Model furnaces were tested and approved by the American Gas Association.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the American-Standard Gas Fired Horizontal Winter Air Conditioner, Model GHA for use in New York City when installed in accordance with this report and Article 12 Administrative Building Code, including the clearance requirements set forth therein but not in garages or other places where there may be explosive atmospheres provided that each furnace shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City, under Calendar Number 704-57-SA."

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 706-57-SA

Subject: American-Standard Commercial Packaged Air Conditioning Units and Self-Contained Water Cooled Air Conditioning Units, Models CCA-2, 3, 5; HCA-2H, 3H; HCA-2F, 3F, 5F; HCA-2, 3, 5.

American-Standard Air Conditioning Division, New York, N. Y. filed September 6, 1957 an application with the Board of Standards and Appeals for approval of the American-Standard Commercial Packaged Air Conditioning Units and Self-Contained Water Cooled Air Conditioning Units Models CCA-2, 3, 5; HCA-2H, 3H; HCA-2F, 3F, 5F; HCA-2, 3, 5 for use in New York City under the provision of C26-191.0 Administrative Building Code and Article 18, Chapter 19, Administrative Code.

Purpose

Air conditioning units for summer cooling.

Description

The CCA series are floor type package units consisting of a water cooled refrigerant circuit and blower assembly enclosed in an insulated sheet steel jacket. All refrigerant components including motor compressor assembly, water cooled condenser, capillary tube and evaporator are factory mounted in a steel angle frame. Electrical components in-

MINUTES

cluding blower motor, magnetic contactor, overload protector, pressure control and selector switch are factory wired and mounted. The CCA-5 units are equipped with toggle switch and solenoid valve for humidity control. The CCA series are available in 2, 3 and 5 HP sizes. The HCA-H series are fanless add on units intended for installation with forced air heating systems. They consist of a water cooled refrigerant circuit enclosed in an insulated jacket. All refrigerant components including motor compressor assembly, water cooled condenser, capillary tubes and evaporator are factory mounted in a steel angle frame as well as the electrical components including magnetic contactor, overload protector, pressure control and transformer.

The HCA-H series are available in 2 and 3 HP sizes. The HCA-F series air conditioners consist of a water cooled refrigerant circuit and blower assembly enclosed in an insulated jacket. All refrigerant components including motor compressor assembly, water-cooled condenser capillary tubes and evaporator are factory mounted in a steel angle frame along with the electrical components including blower motor, magnetic contactor, overload protector, pressure control and selector switch. The HCA-5F unit is equipped with a humidity control consisting of toggle switch and solenoid valve.

HCA-F series are available in 2, 3 and 5 HP sizes.

The HCA series are fanless add on units intended for installation with forced air heating systems. In other respects they are similar to the HCA-F Series.

The Specifications of the various models are as follows:

Model	H.P.	Refrigerant Charge	Cooling Capacity
		F-22	Btu/hr.
CCA-2	2	2 lbs. 11 oz.	24180
CCA-3	3	2 lbs. 15 oz.	36040
CCA-5	5	6 lbs. 10 oz.	62900
HCA-2H	2	2 lbs. 11 oz.	24180
HCA-3H	3	2 lbs. 15 oz.	36040
HCA-2F	2	2 lbs. 10 oz.	25680
HCA-3F	3	2 lbs. 15 oz.	38020
HCA-5F	5	6 lbs. 10 oz.	62900
HCA-2	2	2 lbs. 11 oz.	24180
HCA-3	3	2 lbs. 15 oz.	36040
HCA-5	5	6 lbs. 10 oz.	62900

Pressure relief for the above units is provided by means of a blow out type neoprene terminal seal on the compressor and a soft soldered rivet on the accumulator.

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

The CCA and HCA-Hand F Series were tested and approved by the Underwriters' Laboratories, file SA 1617.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of American Standard Commercial Packaged Air Conditioning Units and Self-Contained Water Cooled Air Conditioning Units, Models CCA-2, 3, 5; HCA-2H, 3H; HCA-2F, 3F, 5F; HCA-2, 3, 5, for use in New York City when installed in accordance with this report, Article 18, Chapter 10 of the Administrative Code and the Electrical Code of the City of New York, provided that each such unit shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 706-57-SA".

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Asst. Engr.,
GEORGE F. SKLENARIK,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 743-57-SA

Subject: Royal Vented Gas-Fired Room Heaters, Models 2820-A, 2830, 4840-A, 4850-A, 4860-A, 4875-A, 4940-A, 4950-A, 4960-A, 4975-A, 4820 and 4830.

Chattanooga Royal Company, Chattanooga, Tenn., filed September 25, 1957, an application with the Board of Standards and Appeals for approval of the appliances known as the Royal Vented Gas-Fired Room Heaters, Models 2820-A, 2830, 4840-A, 4850-A, 4860-A, 4875-A, 4940-A, 4950-A, 4960-A and 4975-A under provisions of Article 12, of the Administrative Building Code.

Purpose

This appliance is a gas fired space heater.

Description

The Space Heaters are designed for BTU Input ranging from 20,000 to 75,000 BTU per hour.

The Heater is an assembly of parts; namely a chassis, cabinet, burners, heat exchanger, draft diverter and controls.

The combustion chamber and heat exchanger is constructed of 20 guage steel.

Each model has a built-in draft diverter which forms an integral part of the heat exchanger.

The burners are of the cast iron drilled port type.

Models with Radiants Models without Radiants

Model	No.	BTU	Vent Size	No. of Radiants	Model	No.	BTU	Vent Size

					4860	A	60,000	5"
					4875	A	75,000	5"

Models 2820-A and 2830 have been changed to Model Numbers 4820 and 4830 respectively. The inner units are basically the same and the primary change is in the design of the cabinet.

Inspection and Test

The heaters have been approved by the American Gas Association.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the data filed by the applicant the Committee on Test recommends the approval of the appliance known as Royal Vented Gas-Fired Room Heaters, Models 2820-A, 2830, 4840-A, 4850-A, 4860-A, 4875-A, 4940-A, 4950-A, 4960-A, 4975-A, 4820 and 4830 for use in New York City when installed in accordance with the requirements of Article 12, of the Administrative Building Code on condition that the units shall not be installed in garages or places of

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 84-58-SM

Subject: Glas-Kote, Flameproof Material for stage, auditorium, windows, etc.

Frankel Associates, Inc., New York, N. Y. filed February 19, 1958, an application with the Board of Standards and Appeals for an approval of the material known as Glas-Kote under the provisions of the flame proofing rules of the Board.

Purpose

The material is a flame resistant material to be used as draperies and curtains in places of public assembly.

Description

The material consists of a base cloth of fiber glass coated with a vinyl facing. The facing is a vinyl resin dispersed with a mixture of plasticizers, color pigments, flameproofing compounds, stabilizers and solvents. The coating is applied by the knife coating method. The related heat process first drives off the solvents and then fuses the vinyl coating to the base fabric.

Inspection and Test

Samples of the material were tested at the Better Fabrics Testing Bureau in the presence of Ass't. Engr. J. A. Darts, Committee on Test and W. H. Masterson, representing the applicant.

Recommendation

On the basis of the inspection and test the Committee on Test concludes that the material Glas-Kote possesses inherent flame proofing properties and accordingly recommends the approval of this material for use as a flame resistant fabric for stage, auditorium, and windows. The Committee further recommends that this material shall not be used in locations wherein an approved opening protective assembly is required.

Tests on each specific installation or any retests thereof shall be made by the Fire Commissioner or in a Laboratory approved by him in accordance with the requirements of the Flameproofing Rules of the Board.

The Committee further recommends that all cartons or containers in which this material is marketed shall be

tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 84-58-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 112-58-SM

Subject: Du Pont "Tontine" Flame Resistant Vinyl Cyclorama Material.

E. I. du Pont de Nemours & Co., Inc., Wilmington, Delaware, filed February 20, 1958, an application with the Board of Standards and Appeals for approval of the material known as DuPont "Tontine" flame resistant vinyl cyclorama material under the provisions of the Flame Proofing Rules of the Board.

Purpose

For Side and Back Curtains on stages in auditoriums.

Description

"Tontine" flame resistant vinyl cyclorama material construction is a heavy, woven cotton fabric coated on both sides with virgin vinyl resins formulated to impart permanent flame resistance. It has a high degree of tensile strength and tear resistance, and is pliant to drape easily. It has a dry, non-tacky surface to minimize the clinging of dust particles.

Inspection and Test

Samples of the material were tested at the Better Fabrics Testing Bureau in the presence of Ass't. Engr. J. A. Darts, Committee on Test and S. R. Todd, representing the applicant.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test the Committee on Test concludes that the material "Tontine" Calendar Number 112-58-SM possess inherent flameproofing properties and accordingly recommends the approval of the material for use as a flame resistant fabric for side and back curtains on steps in auditoriums. The Committee further recommends that this material shall not be used in locations wherein an approved opening protective assembly is required.

Test on each specific installation or any retests thereof shall be made by the Fire Commissioner or in a Laboratory approved by him in accordance with the requirements of the Flameproofing Rules of the Board.

MINUTES

The Committee further recommends that all cartons or containers in which this material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 112-58-SM."

161-58-SA

APPLICANT—Locke Stove Co., owner.
SUBJECT—Application February 28, 1958—Warm Morning Gas-fired Room Heater, Models V20, V30, V35, V50, VR50, VR65, V65 and VR385, approval of.

APPEARANCES—

For Applicant: Felix Grass.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 161-58-SA.

Subject: Warm Morning Gas-Fired Room Heater, Models V20, V30, V35, VR50, VR65, V50, V65 and VR385.

Locke Stove Company, Kansas City, Mo., filed February 28, 1958 an application with the Board of Standards and Appeals for approval of Warm Morning Gas-Fired Room Heater, Models V20, V30, V35, VR50, VR65, V50, V65 and VR385.

Purpose

This appliance is a gas fired space heater.

Description

Models V-20, V-30 and VR-35 have a wrap around type cabinet assembled of 22 gauge C.R. steel with the top section perforated with 3/32" round holes on 5/32" staggered centers.

The interior is composed of a combustion chamber housing the burner, the radiator which is connected to the combustion chamber by 3" flue passage ways, and the draft hood welded directly to the radiator. All of these components are made of 20 gauge c.p. steel.

The draft hood is totally enclosed within the cabinet with only the flue outlet protruding out the rear.

The burners are all cast iron drilled port utilizing a 34 DMS port size. The Model VR35 is a radiant front model utilizing six ceramic radiants.

The flue outlet on the V-20 is 3" and is 4" on the Models V-30 and VR-35.

Controls approved for this unit are the baso safety 829-3, Minneapolis-Honeywell C-592 and the thermostatic control is M-H 5157.

Models V-50, VR-50, V-65 and VR-65 are similar in appearance to the above models except that the cabinet is bolted together in lieu of the continuous wrap around styling, and is made of 20 gauge C.R. steel. The top section is perforated with 3/32" round holes and 5/32" staggered centers.

The interior is made up of a combustion chamber housing the burner, a radiator connected to the combustion chamber with 4" flue passageways, and the draft hood welded directly to the radiator.

All of these components are made of 20 gauge C.R. steel. The flue outlets on the V-50 and VR-50 is 4" and 5" is used on the V-65 and VR65.

The burners are cast iron raised ports utilizing a #36 DMS port size.

The pilot burner is Baso 5C11-1.

The controls approved are M-HC-592 safety pilot and M-H-5157 thermostatic control assembly.

The Models V-50 and V-65 are closed front units. The Models VR-50 and VR-65 are radiant front units utilizing seven and eight radiants respectively.

Model VR-385 is of a different design than the above units in that its cabinet is a porcelain enamel unit with individually drawn components bolted together, and made of 20 gauge C.R. steel.

The interior is composed of a single combustion chamber housing dual burners with a radiator running through the unit from front to back at approximately a 30° angle. The draft hood is welded directly to the combustion chamber, and it is totally enclosed within the cabinet. All components of the combustion chamber and draft hood are of 20 gauge C.R. steel.

The burners are cast iron drilled port utilizing a #32 DEM port.

Controls approved on this unit are baso safety pilot 842 and Robert Shaw 2-E thermostat.

All of the above with the exception of the V-20 and V-30 utilize a general control pressure regulator V-300D. The W.C. setting on this regulator is 3.5 on natural gas and 2.0 on manufactured.

All units utilize a fixed orifice with the exception of the VR-385.

Inspection and Test

These heaters have been approved by the American Gas Association.

The complete report is on file with and is part of the report.

Recommendation

On the basis of this inspection and test and the data filed by the applicant, the Committee on Test, recommends the approval of Warm Morning Gas-Fired Room Heater, Models V20, V30, V35, V50, VR50, VR65 and VR385 for use in New York City, when installed and operated and vented to the outer air in accordance with this report and the requirements of Article 12, of the Administrative Building Code, provided that each heater bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 161-58-SA."

ert, Commissioner Foley and Commissioner Sleeper.. 4

Negative: 0

Absent: Vice Chairman Keating 1

MINUTES

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 180-58-SM

Subject: Nelweld Shear Connector Studs for composite steel and concrete floor and roof construction.

Seelye, Stevenson, Valve & Knecht for Nelson Stud Welding Division of Gregory Industries, Inc., filed March 31, 1958 an application with the Board of Standards and Appeals for approval of the Nelweld Shear Connector Stud under the provisions of C26-191.0 Administrative Building Code.

Purpose

The stud is a shear connector for composite steel and concrete floor and roof construction.

Description

The stud connector is essentially a round steel bar welded at one end to the "I" beam and having an upset end at the other. The stud resists horizontal shear by bending. The upset head, shank diameter plus $\frac{1}{2}$ inch, prevents relative movement of the slab in a vertical direction.

The studs are fastened to the steel structure by a stud welding gun which utilizes an electric arc welding process.

When installed the system consists of a structural steel beam, a reinforced concrete slab and the Nelweld Stud welded to the beam and solidly embedded into the concrete slab, thereby combining these three elements into one structural unit.

A composite beam consisting of a concrete slab joined to a steel section by shear connectors, is designed using the conventional transformed section theory of reinforced concrete design. This involves an investigation of the maximum flexural and shearing stresses in the beam. In a steel beam which is a homogeneous section, the neutral axis passes through the center of gravity of the beam. For the design and analysis of a composite beam, the concrete slab is transformed into an equivalent steel area. This equivalent steel is proportioned according to the ratio of the modulus of elasticity of the steel to concrete known as N . The composite beam is therefore made similar to a homogeneous steel beam.

Inspection and Test

The applicant has filed a complete analysis with computations of the composite section and has also submitted test reports of slippage and shear tests and comparative tests of the stud as against the spiral.

The formula evolved from the test for the design load on one stud connector and for the spacing of the stud connectors is as follows:

$$\text{Design Load} = \frac{Q_{uc}}{F.S.} = \frac{330d^2 \sqrt{f_c}}{2.24}$$

$$\text{where } Q = 330d^2 \sqrt{f_c}$$

$$F.S. = 2.24$$

$$d = \text{Stud diameter}$$

$$f_c = \text{Concrete Stress}$$

Spacing

$$p = \frac{I_e}{MV_c} \times \frac{Q_{uc}}{F.S.}$$

$$\text{Where } p = \text{pitch or spacing}$$

$$I_e = \text{Moment of Inertial of composite section with } n = 10$$

$$V_c = \text{Vertical shear acting on composite beam}$$

$$M = \text{Statical moment of transformed concrete area about neutral axis of composite section with } N = 10.$$

The complete report of the University of Illinois is on file with and is part of the record.

Recommendation

On the basis of the data supplied by the applicant, the Committee on Test recommends the approval of the Nelweld Shear Connector Study for composite steel and concrete floor and roof construction on the following conditions:

1. That all concrete and steel stress shall be as provided for under the pertinent sections of the Administrative Building Code but in no event shall the maximum allowable stresses exceed those values as provided under Table I of C26-364.0.

2. That all concrete work shall comply with the requirements of Sub Article 5, C26-468.0, Reinforced Concrete Construction.

3. During construction, the beams and girders, when necessary, shall be provided with supports to carry all loads until the concrete has set so as to prevent pre-and other straining beyond the maximum deflection of $1/360$ of the span.

4. Where fire protection is required, the beam shall meet the requirements for Class I and Class II construction.

5. The depth of slab shall meet the requirements of C26-473.0 and the requirements of a T beam as set forth under C26-475.0 but in no event shall the top of the connector be less than 1 inch below the top of the unfinished slab or finished slab when poured monolithically.

6. The use of the beam shall be limited to a simple span with a maximum span of twenty-four times the depth of the beams from the top of slab to the bottom of steel, but not over 100 feet in any case.

7. The maximum live load shall not exceed 500 lbs. per square foot loads in excess of 125 lbs. per square foot shall be based on use in Class I and Class II construction.

8. All work shall be performed under the supervision of the engineers of the company and all materials and workmanship shall meet the requirements of the Administrative Building Code and the Rules of the Board.

9. All plans filed with the Department of Buildings showing the proposed use of this system shall be stamped "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 180-58-SM" and all containers in which the studs are marketed shall be similarly marked.

Subject: Joanna UVO-235-10F and MRBC Vinyl Coated Fabric.

Joanna Western Mills Company of Chicago, Ill., filed June 2, 1958, an application with the Board of Standards and Appeals for approval of Joanna UVO-235-10F and

MRBC Vinyl Coated Fabric under the provisions of the Flame Proofing Rules of the Board.

Purpose

Used in construction of folding doors.

Description

Quality of this material is identified as Vinyl Coated Flame and Mildew Construction 54"—Joanna UVO-235-10F and MRBC Pin Seal Embossing-Color Shadow Tan—for use in folding doors. The base cloth is a 60" 2.35 cotton Osnaburg to which is applied a flame and mildew resistant treatment and a vinyl coating weighing approximately 5 ounces per square yard. The vinyl coating is applied to only one side of the cloth. The coated construction is embossed in a suitable grain.

Inspection and Test

Samples of the material were tested at the Better Fabrics Testing Bureau in the presence of Ass't. Engr. J. A. Darts, Committee on Test, and W. H. Masterson, representing the applicant.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test the Committee on Test concludes that the material Joanna UVO-235-10F and MRBC Vinyl Coated Fabric, Calendar Number 404-58-SM possess inherent flameproofing properties and accordingly recommends the approval of the material for use as a flame resistant fabric for use in construction of folding doors. The Committee further recommends that this material shall not be used in locations wherein an approved opening protective assembly is required.

Tests on each specific installation or any retests thereof shall be made by the Fire Commissioner or in a Laboratory approved by him in accordance with the requirements of the Flameproofing Rules of the Board.

The Committee further recommends that all cartons or containers in which this material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 404-58-SM."

Inspection and Test

A test at United States Testing Company, Incorporated, was filed with this application but a further test was required. Further samples were tested at the Better Fabrics Testing Bureau in the presence of Assistant Engineer J. A. Darts, Committee on Test and W. H. Masterson, representing the applicant.

The complete reports are on file with and is part of the record.

Recommendation

On the basis of the inspection and test the Committee on test concludes that the material Saranspun Drapery Fabric, Calendar Number 408-58-SM, possess inherent flame proofing properties and accordingly recommends the approval of the material for use as drapery in industrial, commercial and home use. The Committee further recommends that this material shall not be used in locations wherein an approved opening protective assembly is required.

Test on each specific installation or any retests thereof shall be made by the Fire Commissioner or in a laboratory approved by him in accordance with the requirements of the Flame Proofing Rules of the Board.

The Committee further recommends that all cartons or containers in which this material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City, under Calendar Number 408-58-SM."

(Sgd.) SAMUEL L. BECKER,
Director,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

445-58-SA

APPLICANT—Peter S. Gluck for Earl Scheib Paint & Supply Company, owner.

SUBJECT—Application July 22, 1958—Earl Scheib Infra-Red Drying Tunnel, Model NYC, approval of.

APPEARANCES—

For Applicant: Peter S. Gluck.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Foley 3

Negative: 0

Absent: Vice Chairman Keating, Commissioner Sleeper 2

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 445-58-SA

Subject: Earl Scheib Infra-Red Drying Tunnel, Model NYC.

Peter S. Gluck for Earl Scheib Paint and Supply Co., Los Angeles, California, owner-manufacturer, filed July 22, 1958 an application with the Board of Standards and Appeals for approval of the Earl Scheib Infra-Red Drying Tunnel, Model NYC for use in New York City under the provisions of the Board's Rules governing the use of equipment for Spraying and Drying of Paints, Varnishes and Lacquers.

Purpose

An electric oven for drying repainted motor vehicles.

Description

The Earl Scheib Infra-Red Oven is constructed of a 26 gauge corrugated steel shell forming a tunnel 20 feet in length. This shell is supported on a steel channel frame.

On the interior side of the oven there are ten uniformly spaced channels extending the full length of the tunnel that serve to carry the electric wiring and sockets for the infra-red lamps.

The total width of the tunnel is 11 feet and after installation on a concrete floor 6 or 8 inch steel angles ½ inch thick are permanently fastened to the floor at least one foot from each interior side. These angles act as guides for the motor vehicle as it is pushed into the tunnel for the drying operation and serve to prevent accidental breakage of the lamps by the motor vehicle.

There are twenty infra-red lamps installed in each of the ten channels. The lamps are arranged in series of two and each lamp is 250 watts. Silver lining is used in the reflector bulbs and there is a 4 inch space between reflectors and sockets. Distance between face of bulbs is 7 inches and between sockets 12 inches. The bottom rows of bulbs are approximately 16 inches off the floor. Clearance between corrugated shell and floor is more than 1 inch.

Drying time is not more than 15 minutes and the normal heat is thermostatically controlled at 138°F. A manual timer part of the control panel may be set to cut off heat at any time up to 15 minutes. Maximum setting for the thermostat is 150°F and the control switch is interconnected with the timer. A "Square D" #3 Magnetic Contactor is connected by 2 inch conduit to the main operating switch. The magnetic contactor is equipped with a 200 ampere safety switch.

Inspection and Test

A typical oven installation was inspected at 515-63rd Street, Brooklyn, New York. Present were Ass't. Engr. G. F. Sklenarik, Committee on Test and Mr. Peter Gluck representing the applicant.

The oven was set at 138°F and operated satisfactorily as designed.

Recommendation

On the basis of the inspection and the data submitted by the applicant, the Committee on Test recommends the approval of the Earl Scheib Infra-Red Drying Tunnel, Model NYC, when installed and operated in accordance with this

MINUTES

report and the Paint Spray Rules of the Board, including the ventilation requirements set forth therein; installations in small rooms shall be provided with ventilation of at least 350 cubic feet of air per gallon of solvent evaporated at 70°F and provided further that each oven shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 445-58-SA".

APPLICANT—Howard J. Wagner, for Walter Kidde and Company, Inc., owner.

SUBJECT—Application September 29, 1958—Kidde Industrial Smoke Detector, Model L-4901 Type G, approval of.

APPEARANCES—
For Applicant: Dante De Panicis and Arthur W. Uhl.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Foley and Commissioner Sleeper... 4
Negative: 0
Absent: Vice Chairman Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 565-58-SA

Subject: Kidde Industrial Smoke Detector, Model L-4901, Type G.

Walter Kidde & Company Inc., filed September 29, 1958, an application with the Board of Standards and Appeals for approval of the Kidde Industrial Smoke Detector, Model L-4901, Type G for use in New York City under the provisions of sections C26-661.0, C26-664.1 and C26-259.0 Administrative Building Code.

Purpose

A smoke detecting device.

Description

The Model L-4901, Type G detector is a smoke detecting device designed to operate on 115V 60 cycle current and to automatically detect the presence of smoke in the ducts of air-conditioning or ventilating systems and serve as a fan motor stop.

It consists of a metal enclosure containing air inlet and outlet fittings, photo-electric cells, cell illuminating lamp, relays, pilot lamps and galvanometer with related parts and installation wiring. Provision is made for the connection of electrical circuits from power supply, a constant voltage transformer, smoke alarm and signal equipment. The constant voltage transformer is installed externally and is used to insure voltage regulation of the cell illuminating lamp.

In operation, air is drawn into the detector enclosure through the inlet piping and photocell compartment by means of the duct stream pressure differential. Abnormal smoke density in the photocell compartment causes relays to energize the smoke signal indicating devices until manually reset. If the cell illuminating lamp should burn out or should an "open" occur in the primary or secondary of the constant voltage transformer, the trouble circuit will be energized.

The detector is factory adjusted to respond to smoke concentrations of 4% and over.

Inspection and Test

The Model L4901, Type G was inspected and tested at the Belleville, New Jersey plant of the applicant by Assistant Engineer G. F. Sklenarik Committee on Test and Sup. Electrical Inspector R. C. Lent New York Fire Department.

The detector functioned satisfactorily as designed.

The Model L-4901 Type G detector has been tested and approved by the Underwriters' Laboratories.

Recommendation

On the basis of the test and inspection and the data submitted by the applicant, the Committee on Test recommends the approval of the Kidde Industrial Smoke Detector Model L4901, Type G for use in New York City in accordance with this report and the requirements of C26-259.0, C26-661.0 and C26-664.1 Administrative Building Code provided that each such detector device shall be connected to approved closed circuit smoke alarm gongs, indicators and fan shut down devices and further that each such device shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 565-58-SA".
